AIX today announced an estimated distribution of 5.0 cents per security for the six months ending 30 June 2010.

The distribution is consistent with guidance for a total distribution of 10.0 cents for the financial year to 30 June 2010.

The AIX portfolio of assets has continued to perform well in the financial year to date, with a particular highlight being the Australian airports. The underlying strength of these assets has been demonstrated by their sustained passenger and earnings growth and AIX continues to work closely with management teams at all its assets to increase value and deliver returns to securityholders.

AIX distribution policy is to pay sustainable distributions that are broadly aligned to cash flows received from portfolio assets, whilst ensuring a prudent capital structure is maintained for future growth.

The estimated components of the distribution and the amount of franking credits will be notified to securityholders in August 2010.
