BigAir Group Limited (ASX:BGL) Announcement

BigAir signs Wholesale Partnership Agreement with NTT Australia

Sydney (Australia) 13 July 2010 - BigAir (ASX BGL) has today announced the signing of a strategic Master Supply Agreement (MSA) with NTT Australia Pty. Ltd. (NTT Australia).

NTT Australia, a wholly-owned subsidiary company of NTT Communications, which is the international and long distance service arm of Nippon Telegraph and Telephone Corporation, one of the largest telecommunications companies in the world (ranked 44th in the Global Fortune 500 list of 2009).

NTT Australia has already placed its first Fixed Wireless service order with BigAir for one of its global customers in Sydney under the new agreement.

NTT Australia's Managing Director, Yoshimasa Hashimoto said "BigAir provides NTT Australia's global blue chip customers additional access service options, particularly in areas that are difficult to reach by fixed wired solutions and BigAir's flexibility and shorter delivery timeframe means we can provide a more flexible and competitive solution to our customers."

BigAir's CEO Jason Ashton said that Fixed Wireless as a corporate offering is now more than a niche play and is frequently deployed as a primary data link and also as backup, redundancy or in locations where no fixed wired service was available. "Fixed Wireless is gradually becoming a mainstream play, facilitating the day to day mission critical business applications of corporate customers", said Ashton.

The MSA provides an opportunity for BigAir to supply Fixed Wireless services as an integral part of a complete solution for NTT Australia's advanced IP service offering. "The strategic nature of the relationship with NTT Australia as well as the high profile blue chip customers they service means that we may be expanding our network specifically to service large customer opportunities", stated Ashton.

"The MSA with NTT Australia is a further step in our planned growth strategy for 2010, in order to consolidate BigAir's position as the leading Fixed Wireless network owner for Australian business", concluded Ashton.

About BigAir Group Limited

BigAir owns and operates Australia's largest metropolitan fixed wireless broadband network. The Australian business market comprises nearly one million businesses and BigAir's network provides near blanket coverage across its six largest cities Sydney, Melbourne, Brisbane, Perth, Adelaide and Gold Coast. BigAir sells broadband and data services primarily through its channel partners who include ISPs, Carriers, and other IT service companies who have existing relationships with business customers in order to deliver BigAir's high speed, cost effective fixed wireless broadband solutions.

BigAir's competitive advantage includes its state-of-the-art business-grade fixed wireless network which allows it to install business-grade symmetric broadband services at speeds up to 1000Mbps and distances up to 30km from its base stations with installation taking just a few hours. Most of BigAir's competitor's rely on access to Telstra's copper network which can takes weeks to install a service and does not deliver fast symmetric speeds.
