

Appendix 4E

Sims Metal Management Limited ABN 69 114 838 630

Preliminary Final Report

Results for announcement to the market

Year ended: 30 June 2013

Previous corresponding period: 30 June 2012

Results				A\$m
Revenue from ordinary activities	Down	20.3%	to	7,203.1
Loss from ordinary activities after tax attributable to members*	Down	25.1%	to	(466.1)
Net loss for the period attributable to members*	Down	25.1%	to	(466.1)

*Includes A\$304.4 million goodwill and other intangibles impairment charges compared against A\$675.6 million of goodwill and other intangibles impairment charges in the prior corresponding period.

Dividends for the year ended 30 June 2013	Cents per Security	% Franked per Security (1)
Current period final dividend	nil	n/a
Previous corresponding period final dividend	10.0	0%

(1) The entire unfranked portion of the previous period final dividend was declared to be nil conduit foreign income. Accordingly the entire unfranked portion paid to non-residents was subject to a 15% non-resident shareholders' withholding tax.

Net tangible assets	30 June 2013	30 June 2012 restated
Net tangible asset per security	8.15	8.35

For further explanation of the above figures, please refer to the Directors' Report and the consolidated financial statements, press release and market presentation filed with the Australian Securities Exchange Limited ("ASX").

The remainder of the information required by Listing Rule 4.3A is contained in the attached additional information.

The consolidated financial statements are based on accounts that have been audited.

DIRECTORS' REPORT

Your Directors present their report on the consolidated entity (referred to hereafter as the "Group") consisting of Sims Metal Management Limited (the "Company") and the entities it controlled at the end of, or during, the year ended 30 June 2013 ("FY13").

PRINCIPAL ACTIVITIES

The principal activities of the Group are (1) the buying, processing and selling of ferrous and non-ferrous recycled metals and (2) the provision of environmentally responsible solutions for the disposal of post-consumer electronic products, including IT assets recycled for commercial customers. The Group offers fee-for-service business opportunities in the environmentally responsible recycling of negative value materials including refrigerators, electrical and electronic equipment. The Group's principal activities remain unchanged from the previous financial year.

OPERATING AND FINANCIAL REVIEW

Summary

Sales revenue of A\$7,193.0 million in FY13 was down 20% compared to the year ended 30 June 2012 ("FY12"). The decrease in sales revenue was due to lower average ferrous and non-ferrous scrap prices as well as lower sales volumes which decreased 12% versus FY12.

Statutory net profit after tax ("NPAT") was a loss of A\$466.1 million. Underlying NPAT was A\$17.1 million, 77% lower than FY12. The principal difference between the statutory and underlying results is accounted for by goodwill impairment charges taken primarily in the first half of FY13. See the *Reconciliation of Statutory Results to Underlying Results for the Years Ended 30 June 2013 and 2012* included herein for more information.

Statutory earnings before interest, tax, depreciation and amortisation ("EBITDA") for FY13 was a loss of A\$41.5 million, 123% lower than FY12. Underlying EBITDA of A\$191.4 million was 24% lower than FY12. The decline in underlying EBITDA was primarily due to weak business conditions, especially in Europe, leading to intensified competition for the limited supply of unprocessed raw materials. Additionally, lower non-ferrous and precious metal prices negatively impacted the global e-recycling business ("SRS"), decreasing the value of processed material and compressing margins. These adverse impacts were partially offset by improving sales margins in North America and lower underlying controllable costs of A\$44.9 million versus FY12.

Depreciation and amortisation declined by A\$6.4 million to A\$123.5 million, while net interest expense decreased by A\$3.6 million to A\$17.6 million in FY13. The reduction in net interest expense reflects the decline in net debt during the period.

Statutory loss per share decreased to a loss of 228.1 cents from a loss of 302.4 cents in FY12. Underlying earnings per share decreased by 77% to 8.3 cents.

Net debt as at 30 June 2013 was A\$153.8 million, a reduction of A\$138.4 million from 30 June 2012. Net debt over total capitalisation declined to 7.4%, from 11.3% at 30 June 2012.

The Company's dividend policy is to distribute 45% to 55% of NPAT, subject to the Board's discretion. In the absence of statutory NPAT, after looking through goodwill impairment, the Company has determined not to pay a final dividend for FY13. The Company's dividend policy remains unchanged.

External Operating Environment

North American scrap fundamentals improving; however margins still under pressure

Underlying fundamentals for scrap generation showed improvement in the US during FY13 though scrap generation tends to lag the fundamentals. Consumer confidence, a key leading indicator for consumer scrap creation, reached a five year high in June 2013. Correspondingly, auto and major household appliances sales also increased. New auto

sales in the US reached an annualized rate of 15.9 million vehicles in June, up 10% year-over-year. US manufacturer's shipments of major appliances were up 7% year-to-date in June. Due to the severity of the 2009 US recession and persistently lower employment aggregates post global financial crisis ("GFC"), auto scrapping rates are expected to lag new auto sales. Scrap from auto and major appliances combine to account for 50% to 70% of source material for metal shredders in the US.

Despite improving macro-economic data, installed processing capacity in the US scrap industry remains in excess of scrap generation, resulting in aggressive competition for scrap intake. Some signals of industry capacity rationalisation are beginning to emerge. A trend has begun to develop amongst metals recycling firms, both in the US and other markets, to address industry overcapacity through cost reductions and facility rationalisation. While these developments are positive for the industry, at present the challenges of excess capacity persist.

Weak UK economy and falling commodity prices impacting returns in Europe

Economic conditions in the UK and Europe remained extremely challenging during FY13. Consumer confidence in the UK persisted near post GFC lows for the majority of the year, with GDP growth continuing to languish at anemic levels. Low scrap arisings intensified competition for raw materials for the UK Metals Recycling business, placing pressure on margins. Operations at several of the Company's small inefficient feeder yards have been consolidated. Additionally, the shredder network has been reconfigured by idling two shredders, and shifting material to the remaining three shredders, resulting in higher utilisation rates. The new UK Metals management team, appointed at the end of FY13, is conducting a detailed review of the business to respond to these market challenges.

Australian business activity remains below mid-cycle levels

Business activity driving scrap generation in Australia continues to track below mid-cycle levels. Consumer sentiment fell for the second consecutive year in FY13 and GDP growth began to slow due to a decline in commodity prices and mining activity. Key drivers of scrap generation, manufacturing and construction, remain severely depressed. Australian manufacturing PMI data for July 2013 indicated its 25th consecutive month in contraction territory, while Australian construction PMI data in June 2013 entered its 37th uninterrupted month of contraction.

The Australian management team has responded to these challenges by reducing operating shifts and headcount, and temporarily idling yards where necessary. Through these actions, underlying controllable costs were reduced by A\$10.0 million in FY13.

Segment Results

Sensitivity to movements in foreign exchange rates

The Group's results are impacted by the movement in foreign exchange rates relative to the Australian dollar. Notwithstanding that the Australian dollar began to weaken against other major currencies in May 2013, the average rates over FY13 were not significantly different to those of FY12. Consequently the impact of foreign currency translation on the FY13 results was not significant.

A summary of the average rates for FY13 compared to FY12 for the major currencies that affect the Group's results is set out below.

	FY13	FY12	Variance %
US dollar	1.027	1.032	(0.5)
Euro	0.795	0.771	3.1
Pounds sterling	0.655	0.651	0.6

North America

	FY13	FY12	
	A\$m	A\$m	Variance %
Sales revenue	4,534.6	6,027.0	(25)
Underlying EBITDA	102.3	78.6	30
Underlying EBIT	34.2	1.5	2,180
Sales tonnes (millions)	9.377	11.080	(15.4)
Sales margin	15.4%	11.7%	
Underlying EBITDA margin	2.3%	1.3%	

Sales revenue for the North America region of A\$4,534.6 million was down 25% on FY12, due to a mix of lower sales tonnes and declines in ferrous and non-ferrous metal prices. Sales volumes slowed significantly in the first half of FY13 due to softer demand in export markets for ferrous scrap metal. The impact of weaker offshore demand during the period contributed to a decline in ferrous brokerage volumes.

Underlying EBITDA of A\$102.3 million was up 30% on FY12, owing to increased sales margins and lower underlying controllable costs. Correspondingly, underlying EBITDA margins rose to 2.3% from 1.3% in FY12. Underlying controllable cost savings within the North American Metals business were A\$48.4 million during FY13. These cost savings are expected to be sustainable at this level until intake volumes change materially. Total controllable cost savings for North America were offset slightly by increased costs from small bolt-on acquisitions made by SRS of Genesis Recycling in British Columbia, Canada and E-Structors in Baltimore, Maryland during FY13.

Refinements to the North American asset footprint progressed over FY13 with the divestitures of several non-core or low return businesses. These sales included the divestitures of the Colorado and Arizona metals recycling assets, as well as a joint venture interest in Nashville, Tennessee. The Arizona metals recycling assets were sold into the Company's joint venture, SA Recycling ("SAR"), in order to better leverage SAR's strong asset footprint in Southern California, Arizona and Nevada.

Capital from these asset sales is being invested in projects anticipated to have higher returns. Near-term projects include the development of a New England metals recycling footprint, with a greenfield yard, shredder and export facility in Rhode Island, and stage one of the NYC Municipal Recycling project; both due to be completed in the first half of FY14.

Australasia

	FY13	FY12	
	A\$m	A\$m	Variance %
Sales revenue	1,083.1	1,228.1	(12)
Underlying EBITDA	78.9	90.8	(13)
Underlying EBIT	52.9	65.9	(20)
Sales tonnes (millions)	1.764	1.772	(0.5)
Sales margin	23.9%	21.1%	
Underlying EBITDA margin	7.3%	7.4%	

Sales revenue for the Australasia region of A\$1,083.1 million was down 12% on FY12, due to lower ferrous and non-ferrous scrap metal prices, while sales volume remained broadly unchanged.

Underlying EBITDA of A\$78.9 million was down 13% compared to FY12, primarily due to lower gains from commodity derivatives held for hedging purposes in FY13. Correspondingly, underlying EBITDA margins fell to 7.3% from 7.4% in FY12.

Underlying controllable cost reductions in the Australia Metals Recycling business were A\$10.0 million for FY13. These cost savings are expected to be sustainable at this rate based on current activity levels.

Refinements to the Australasia asset footprint continued to occur over FY13. Further investments were made into the Australian Metals business with the acquisition of the Paramount Browns ferrous scrap yard in South Australia, a capital upgrade of the St. Mary's yard in New South Wales, and the installation of a downstream non-ferrous extraction facility in Victoria. Additional steps were taken to further contract the Australian manufacturing operations including the commitment to close the lead smelting operation. Only a small aluminium smelting operation remains in the manufacturing division.

Earnings from the Company's 16% ownership stake in Chiho-Tiande Group ("CTG") were impacted by net losses at CTG for the six month period ending 30 June 2013. Due to net losses, and a corresponding drop in the CTG share price, the Company has taken a charge of A\$14.9 million to record impairment in the CTG investment, and a A\$21.3 million write-down to CTG derivatives and equity accounted losses.

Europe

	FY13	FY12	
	A\$m	A\$m	Variance %
Sales revenue	1,575.3	1,780.6	(12)
Underlying EBITDA	10.2	84.0	(88)
Underlying EBIT	(19.2)	56.1	(134)
Sales tonnes (millions)	1.645	1.651	(0.4)
Sales margin	14.2%	17.9%	
Underlying EBITDA margin	0.6%	4.7%	

Sales revenue for the Europe region of A\$1,575.3 million was down 12% on FY12, due to lower ferrous and non-ferrous scrap metal prices in the UK Metals Recycling business, and lower sales volumes and precious metals prices in the SRS business.

Underlying EBITDA of A\$10.2 million was down 88% relative to FY12, due to several factors including: 1) sustained weak scrap generation in the UK which elevated competition across both the traditional metals recycling and the SRS e-recycling businesses, 2) lower non-ferrous and precious metal prices which decreased metal recovery margins in the SRS business, and 3) negative impact from lower average ferrous scrap metal prices causing sales margins to decline in the UK Metals business.

Controllable cost reductions remained a focus of the UK Metals recycling business throughout FY13. Headcount in the UK Metals business was reduced by 13% with two shredders idled and several small yards closed. Underlying controllable cost savings in the UK Metals business were A\$1.3 million in FY13. Management will continue to examine further cost saving opportunities across the European businesses as a priority during FY14.

At the end of FY13, new management was appointed for both the UK Metals and Global SRS businesses. Early stage business reviews have taken place across both businesses.

Reconciliation of Statutory NPAT to EBITDA

(in A\$ millions)	FY13	FY12
Net loss after tax	(466.1)	(622.5)
Goodwill and intangible impairment charges	304.4	618.1

Loss/(gain) on sale of jointly controlled assets and entities	1.6	(35.7)	1.6	(35.7)	1.5	(35.7)
Underlying results⁴	191.4	253.4	67.9	123.5	17.1	74.0

¹ EBITDA is a measurement of non-conforming financial information. See table above that reconciles EBITDA to statutory net loss.

² N/A indicates that EBITDA is calculated to exclude impairment of goodwill and other identified intangible assets in the presentation of both the statutory and underlying results.

³ Represents expense associated with good leaver determination for the former CEO with respect to long-term incentive plans.

⁴ Underlying result is a non-IFRS measure that is presented to provide an understanding of the underlying performance of the Group. The measure excludes the impacts of impairments, disposals as well as items that are subject to significant variability from one period to the next. The non-IFRS financial information is unaudited however the reconciling items above (before tax) have been extracted from the audited financial statements.

Cash flow and borrowings

Cash flow from operating activities of A\$297.3 million in FY13 increased by A\$7.7 million versus FY12 due to lower working capital, and lower net interest and tax payments.

Working capital decreased compared with 30 June 2012. Inventory and trade and other receivables decreased by A\$266.7 million and A\$67.5 million respectively, while trade and other payables decreased by A\$131.1 million.

Capital expenditures were A\$149.0 million during FY13. Significant capital projects included:

- New England metals recycling footprint build out of three greenfield facilities centered around Providence, Rhode Island including: a non-ferrous yard at Fields Point, a yard and shredder in Johnston, and an export facility at Providence port. All facilities are due to be fully operational in first half FY14.
- NYC Municipal Recycling, with the Brooklyn based facility scheduled to be complete in first half FY14.

Net debt decreased by A\$138.4 million, to A\$153.8 million, bringing gearing to 7.4% of total capitalisation as at 30 June 2013. Net debt equals total borrowings minus cash balances and reflects total borrowings as if borrowings were reduced by cash balances as a pro forma measurement as follows:

(in A\$ millions)	<u>As at 30 June</u>	
	<u>2013</u>	<u>2012</u>
Total borrowings	200.7	343.6
Less: cash and cash equivalents	(46.9)	(51.4)
Net debt	153.8	292.2
Plus: total equity	1,928.8	2,283.7
Total capital	2,082.6	2,575.9
 Gearing ratio	 7.4%	 11.3%

The Group's strong cash flow and balance sheet position provides the capacity to fund the ongoing operational requirements of the business, as well as potential increased working capital requirements as and when underlying business conditions improve. In response to current weak global economic growth, maintaining low gearing is a focus of the Company.

Strategic Developments

Significant cost reductions achieved during FY13

During FY13, A\$59.7 million in underlying controllable costs were removed from targeted businesses versus FY12. These cost savings are expected to be sustainable until intake volumes materially change. The breakdown of cost savings by business unit were:

- North American Metals underlying controllable cost reduction of A\$48.4 million over FY12.
- Australia Metals underlying controllable cost reduction of A\$10.0 million over FY12.
- UK Metals underlying controllable cost reduction of A\$1.3 million over FY12.

Cost reductions remain a focus of the Company with further cost saving opportunities to be investigated during FY14.

North American Metals asset portfolio reshaped and optimised

Over FY13, the North American Metals asset portfolio has been further refined to direct capital to the highest returning assets, with an emphasis on "brown water" (river) and "blue water" (export) facilities in scrap rich regions, where a leadership position, source control, and acceptable ROI's through the economic cycle can be achieved. During FY13 the following progress was made:

- Sale of the Arizona metals recycling assets into our joint venture partner SAR, better suited to SAR's strong asset footprint in Southern California, Arizona and Nevada.
- Sale of the Colorado metals recycling assets and Nashville joint venture interest due to lack of synergies with other asset footprints.
- Expansion of our New England metals recycling footprint with a greenfield yard, shredder, and export facility in Rhode Island due to be completed in first half FY14.

Subsequent to 30 June 2013, the following developments have taken place to further enhance the performance of the North American Metals asset portfolio:

- Sale of Aerospace Metals, a non-core specialist business focused on the recycling of titanium alloys and high temperature metals.
- Sale of Birmingham, Alabama shredder and an associated yard, due to limited synergies with Gulf and Mississippi river system based assets.

Benefits from realignments made in the North American Metals asset portfolio are expected to be realised in the FY14 period.

Improvement Plans and Outlook

UK Metals & SRS business reviews and restructuring to progress over FY14

Towards the end of the second half of FY13, business reviews were completed under the direction of Group management which resulted in inventory and asset write-downs, and costs related to restructuring actions in the UK operations. The implementation of the findings of the business review led to a contraction of the UK Metals operations, including headcount reductions and consolidation of shredding activities at Newport into nearby Avonmouth. UK SRS is repositioning towards a lower working capital and higher turnover model, while looking at additional strategies to further decrease operational costs.

Additionally, at the end of FY13, new management was appointed for both the UK Metals and Global SRS businesses. The results of these actions have placed the UK businesses on a better footing to manage the current difficult market conditions in the UK and Europe.

On 21 January 2013, the Board formed a Special Committee to investigate inventory write-downs in the UK. As a result of the findings of the Special Committee, substantial progress has been made in the implementation of the Group's standard inventory controls in the UK operations. The operation of the control environment will be subject to detailed internal audit review prior to the end of the first half of FY14.

Cost reductions remain a key priority

Significant reductions to controllable costs were achieved during FY13. Costs savings realised across the Metals Recycling businesses were partly offset by increased costs within the SRS e-recycling business, leading to a net controllable cost reduction of A\$44.9 million in FY13 over FY12. Reducing controllable costs will remain a focus for management during FY14.

Capital expenditure to be allocated judiciously

Prudent use of shareholders capital and the maintenance of balance sheet strength remains a priority for management. FY14 capital expenditures are currently expected to be circa A\$80 million, down from A\$149.0 million in FY13.

Current market trading conditions

Ferrous scrap markets saw East Coast export markets improving US\$30 per tonne in July 2013 with another US\$10 per tonne through the first half of August 2013. West Coast export markets lagged in July 2013, but have shown increasing demand in August 2013. Non-ferrous prices have experienced some upward momentum since the start of FY14, but markets remain both unpredictable and volatile. At present, however, trading liquidity remains firm in the Company's primary deep sea ferrous and international non-ferrous markets.

Risk Management

The risk management process of the Company analyses and manages business risks, as well as identifies business process improvement opportunities. The risk assessment process includes an estimation of the likelihood of risk occurrence, potential impact on the financial results and an assessment of the effectiveness of existing internal controls. When existing controls need further improvements, action plans are established and implemented to mitigate the risk to an acceptable level. The Company's internal audit department performs risk assessments with the major business units on an annual basis and the results are reported to the Risk, Audit & Compliance Committee.

The key risks which may materially impact the execution and achievement of the business strategies and prospects of the Group in future financial years are included on the Company's website at www.simsmm.com. These key risks should not be taken to be a complete list of the risk and uncertainties associated with the Group. Many of the risks are outside the control of the Group. There can be no guarantee that the Company will achieve its stated objectives, that it will meet trading performance expectations, or that any forward looking statements contained in this report will be realised.

NAMES AND PARTICULARS OF DIRECTORS

The following persons were Directors of the Company during the financial year and up to the date of this report together with their qualifications and experience are as follows:

Geoffrey N Brunson B Comm (age 55) Chairperson and Independent non-executive director

Mr Brunson was appointed as a director in November 2009, appointed Deputy Chairperson in September 2011 and appointed Chairperson of the Company on 1 March 2012. He is a member of the Risk, Audit & Compliance Committee, the Remuneration Committee and the Finance & Investment Committee. Until June 2009, Mr Brunson was Managing Director and Head of Investment Banking of Merrill Lynch International (Australia) Limited. He is Chairman of ING Private Equity Access Limited (since 2004), APN Funds Management Limited (since November 2009), and MetLife Insurance Limited (since April 2011) and a member of the Takeovers Panel. He was a member of the listing committee of the Australian Securities Exchange between 1993 and 1997 and was a director of Sims Group Limited between 1999 and 2007. He is a Fellow of the Institute of Chartered Accountants, a Fellow of the Financial Services Institute of Australia and a Fellow of the Institute of Company Directors. Mr Brunson is also a director of several non-profit organisations, including Redkite (supporting families who have children with cancer), the Wentworth Group of Concerned Scientists and Purves Environmental Custodians.

Norman R Bobins BS, MBA (age 70) Independent non-executive director

Mr Bobins was appointed as a director in March 2008. He is Chairperson of the Nomination/Governance Committee, and is a member of the Finance & Investment Committee. Mr Bobins was formerly a director of Metal Management, Inc (since 2006). He is the Chairman of Norman Bobins Consulting LLC (since 2008). From May 2007 until October 2007, Mr Bobins was the Chairman of the Board of LaSalle Bank Corporation. From 2002 to 2007, he was President and Chief Executive Officer of LaSalle Bank Corporation. From 2006-2007, he was President and Chief Executive Officer of ABN AMRO North America. From 2002-2007, Mr Bobins was Senior Executive Vice President at ABN AMRO Bank N.V., the Dutch parent of LaSalle Bank Corporation. He is the Non-Executive Chairman of The PrivateBank and Trust Company. Mr Bobins is also a director of AGL Resources, Inc AAR CORP, and Aviv REIT, Inc. He earned his BS from the University of Wisconsin and his MBA from the University of Chicago.

John T DiLacqua MBA (age 61) Independent non-executive director

Mr DiLacqua was appointed as a director in September 2011. He is Chairperson of the Finance & Investment Committee, and is a member of the Risk, Audit & Compliance Committee. Mr DiLacqua was formerly a director of Metal Management, Inc (since June 2001), and was a director of Sims Metal Management Limited between March and November 2008. He was the Executive Chairman of Envirosource, Inc from May 2004 to December 2004 and had served as President and Chief Executive Officer of Envirosource from January 1999 to May 2004. From October 1997 to December 1998, Mr DiLacqua served as President of the US Ferrous Operations of Philip Metals, Inc, and, prior to that, from May 1994, as the President of Luria Brothers. He is a graduate of Temple University and received an MBA from Carnegie Mellon University. Mr DiLacqua is a Certified Public Accountant.

Gerald E Morris BA (age 81)
Independent non-executive director

Mr Morris was appointed as a director in March 2008. He is Chairperson of the Risk, Audit & Compliance Committee, and is a member of the Remuneration Committee and the Nomination/Governance Committee. Mr Morris was formerly a director (since January 2004) of Metal Management, Inc. He previously served as President and CEO of Intalite International N.V., as Chairman and director of Beacon Trust Company, and as a director of Metals USA, Inc, Rexel, Inc and Tivoli Industries, Inc, and as trustee of the Blanchard Group of Funds. He earned his BA from the University of Connecticut. Mr Morris is a Certified Public Accountant.

Christopher J Renwick AM, FAIM, FAIE, FTSE - BA, LLB (age 70)
Independent non-executive director

Mr Renwick was appointed as a director in June 2007. He is Mitsui & Co., Ltd's designated independent director. Mr Renwick is Chairperson of the Remuneration Committee, and is a member of the Safety, Health, Environment & Community Committee and the Nomination/Governance Committee. Mr Renwick was employed with the Rio Tinto Group for over 35 years, rising, in 1997, to Chief Executive, Rio Tinto Iron Ore, a position he held until his retirement in 2004. He has previously served as Chairman and director of Coal and Allied Industries Limited (2004 to 2011), Chairman of the Rio Tinto Aboriginal Fund (2004 to 2011) and director of Downer EDI Limited (2004 to 2010). Mr Renwick is a director of South East Regional Touring Opera Company Limited, a "not-for-profit" public company limited by guarantee, which operates as "Melbourne Opera".

Heather Ridout AO BEc (Hons) (age 59)
Independent non-executive director

Mrs Ridout was appointed as a director in September 2011. She is a member of the Safety, Health, Environment & Community Committee, the Remuneration Committee, the Risk, Audit & Compliance Committee and the Nomination/Governance Committee. Mrs Ridout was formerly the Chief Executive Officer of the Australian Industry Group from 2004 until her retirement in April 2012. She is a member of the Board of the Reserve Bank of Australia (since December 2011), and is a director of Australian Securities Exchange Limited (since August 2012) and Chair of the Australian Super Trustee Board, the largest industry fund in Australia. Mrs Ridout also serves on the Board of the Climate Change Authority, an independent body established to provide advice on the Australian Government's policies for reducing carbon pollution. She has an economics degree, with honours, from the University of Sydney.

Tamotsu (Tom) Sato BA (age 61)
Non-independent non-executive director

Mr Sato was appointed as a director in April 2013. He is Mitsui & Co., Ltd's designated director. Mr Sato is a member of the Finance & Investment Committee and the Safety, Health, Environment & Community Committee. He joined Mitsui in 1975 and has held various positions within that company including Executive Director of Mitsui Coal Holdings (2002-2004), Senior Vice President of Mitsui Singapore (2006-2009) and, most recently, since May 2009 until his retirement in March 2013, President & CEO of Mitsui Raw Materials Development based in New York.

James T Thompson BS (age 63)
Independent non-executive director

Mr Thompson was appointed as a director in November 2009. He is Chairperson of the Safety, Health, Environment & Community Committee, and is a member of the Finance & Investment Committee and the Remuneration Committee. Mr Thompson was, from 2004 until his retirement in 2007, Executive Vice President Commercial for The Mosaic Company, one of the world's largest fertiliser companies, with sales of US\$11 billion and some 8,000 employees, which is publicly traded on the New York Stock Exchange. Prior to that, he was engaged for 30 years in the steel industry from 1974–2004 in various roles at Cargill, Inc of Minnesota, United States, leading to the position of President of Cargill Steel Group from 1996–2004. During that period, Mr Thompson also served for a time as Co-Chairman of the North Star BlueScope Steel joint venture, and was a member of various industry boards, including

AISI (American Iron and Steel Institute), SMA (Steel Manufacturers Institute) and MSCI (Metals Service Center Institute). He is currently a director of Hawkins, Inc and serves on the Board of Visitors of the University of Wisconsin School of Education. Mr Thompson has a BS from the University of Wisconsin Madison.

Daniel W Dienst JD (age 48)
Former Executive Director and Group Chief Executive Officer

Mr Dienst retired on 30 June 2013 having served as Executive Director and Group Chief Executive Officer (“CEO”) since March 2008.

J Michael Feeney B Comm (Marketing) (age 67)
Former Independent non-executive director

Mr Feeney retired on 15 November 2012 having served as an independent non-executive director since September 1991.

M Paul Sukagawa BA (age 62)
Non-independent non-executive director

Mr Sukagawa retired on 1 April 2013 having served as a non-independent non-executive director since November 2009.

Paul J Varello BCE (Civil Engineering) (age 69)
Former Independent non-executive director

Mr Varello retired on 15 November 2012 having served as an independent non-executive director since November 2005.

COMPANY SECRETARIES

Frank Moratti B Comm, LLB, MBA (Executive)

Mr Moratti was appointed to the position of Company Secretary in 1997. Before joining the Company, he held positions of assistant company secretary/legal counsel in a number of publicly listed companies over a period of some 12 years and, prior to that, worked as a solicitor with a major legal practice.

Scott Miller BS, MS, JD, PE

Mr Miller was appointed to the position of Company Secretary in 2008. Since joining the Company in 1997, Mr Miller has held positions as legal counsel and manager for environmental affairs for North American operations. Before joining the Company, he held positions at an environmental mediation firm, as an attorney with a major legal practice and as a consulting engineer.

DIRECTORS' MEETINGS

The following table shows the actual board and committee meetings held during the financial year and the number of meetings attended by each Director.

	Board of Directors	Risk, Audit & Compliance Committee	Safety, Health, Environment & Community Committee	Remuneration Committee	Finance & Investment Committee	Nomination/ Governance Committee
Meetings held	9	7	4	7	13	4
G Brunson	9	7		7	13	
D Dienst	9		4		12	4
N Bobins	8				13	4
J DiLacqua	8	7			13	
JM Feeney ¹	3	3		4		3
G Morris	9	7		7		4
C Renwick ²	9		4	3		4
H Ridout ³	9	3	4	3		1
M Sukagawa ⁴	8	3	3		10	3
T Sato ⁵	1		1		2	
J Thompson ⁶	9		1	7	13	
P Varello ⁷	4			4		3

¹Mr Feeney retired from the Board of Directors and the Risk, Audit & Compliance Committee, Remuneration Committee and Nomination/Governance Committee on 15 November 2012.

²Mr Renwick was appointed to the Remuneration Committee on 15 November 2012.

³Mrs Ridout was appointed to the Risk, Audit & Compliance Committee and Remuneration Committee on 15 November 2012, and the Nomination/Governance Committee on 17 May 2013.

⁴Mr Sukagawa retired from the Board of Directors and the Risk, Audit & Compliance Committee, Safety, Health, Environment & Community Committee, Finance & Investment Committee and Nomination/Governance Committee on 1 April 2013.

⁵Mr Sato was appointed to the Board of Directors and the Safety, Health, Environment & Community Committee and Finance & Investment Committee on 1 April 2013.

⁶Mr Thompson was appointed to the Safety, Health, Environment & Community Committee on 15 November 2012.

⁷Mr Varello retired from the Board of Directors and the Remuneration Committee and Nomination/Governance Committee on 15 November 2012.

DIRECTORS' INTERESTS

As at the date of this report, the interests of the Directors in the shares, options, or performance rights of the Company are set forth below. Shares owned by each Director are either in the form of ordinary shares or American Depositary Shares ("ADS").

	Shares	Options over Shares
G Brunson	22,057	-
N Bobins (ADS)	54,600	-
J DiLacqua (ADS)	-	-
G Morris (ADS)	20,000	82,000
C Renwick	13,144	-
H Ridout	-	-
T Sato	-	-
J Thompson (ADS)	12,000	-

DIVIDENDS

Since the end of the financial year, the Directors have determined that no dividend will be paid for the year ended 30 June 2013.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

On 30 June 2013, Daniel W Dienst retired as an Executive Director and Group CEO. Effective 1 July 2013, the Board created a Global Leadership Team to serve in lieu of the Group CEO while the search for a new CEO is accomplished. The Board continues to evaluate candidates for the role and has narrowed the field to external candidates. The Board expects to announce an appointment by the end of the first quarter of FY14.

There were no other significant changes in the state of affairs of the Group during the financial year not otherwise disclosed elsewhere in this report.

SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

The Directors are not aware of any items, transactions or events of a material or unusual nature that have arisen since the end of the financial year which will significantly affect, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

LIKELY DEVELOPMENTS

Information as to the likely developments in the operations of the Group is set out in the Operating and Financial Review.

Further information on likely developments in the operations of the Group and the expected results of operations in subsequent financial years have not been included in this annual financial report because the Directors believe it would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION

The Group is subject to environmental regulations and reporting requirements in Australia as well as other countries in which it operates. The Group has operating licenses and consents in place at each of its operating sites as prescribed by relevant environmental laws and regulations in each respective location and comprehensive environmental management systems and audit procedures to support compliance.

The Group's Australian operations are not captured under the Australian Carbon Tax, but are subject to the reporting requirements of both the *Energy Efficiency Opportunities Act 2006* ("EEO Act") and the *National Greenhouse and Energy Reporting Act 2007* ("NGER Act").

The EEO Act requires the Group to assess the energy usage of its Australian operations, including the identification, investigation and evaluation of energy saving opportunities, and to report publicly on the assessments undertaken, including intended actions by the Group. The Group continues to meet its obligations under the EEO Act.

The NGER Act requires the Group to report its annual greenhouse emissions and energy use of its Australian operations and the Group has implemented systems and processes for the collection and calculation of the data required so as to prepare and submit the relevant report to the Greenhouse and Energy Data Officer annually.

Previously, the Group was also required to report under the Victorian Government's *Environment and Resource Efficiency Plan*, but this reporting requirement was withdrawn in February 2013 due to duplication with the Federal Government's reporting requirements under the EEO Act and NGER Act.

There have been no significant known breaches of the Group's license conditions or any environmental regulations to which it is subject.

INSURANCE AND INDEMNIFICATION OF OFFICERS

During the financial year, the Company had contracts in place insuring all Directors and executives of the Company (and/or any subsidiary companies in which it holds greater than 50% of the voting shares), including Directors in office at the date of this report and those who served on the board during the year, against liabilities that may arise from their positions within the Company and its controlled entities, except where the liabilities arise out of conduct involving a lack of good faith. The Directors have not included details of the nature of the liabilities covered or the amount of the premium paid as such disclosure is prohibited under the terms of the contracts.

SHARE OPTION AND RIGHTS

Unissued shares

As of the date of this report, there are 7,009,037 share options outstanding and 4,209,101 rights outstanding in relation to the Company's ordinary shares. Refer to Note 25 of the consolidated financial statements for further details of the options and rights outstanding as at 30 June 2013. Option and right holders do not have any right, by virtue of the option or right, to participate in any share issue of the Company.

Shares issued as a result of the exercise of options and vesting of rights

During the financial year, there were no ordinary shares issued upon the exercise of share options and there were 404,594 ordinary shares issued in connection with the vesting of rights. Refer to Note 25 of the consolidated financial statements for further details of shares issued pursuant to share-based awards. Subsequent to the end of the financial year and up to the date of this report, 4,894 ordinary shares were issued in connection with vesting of rights.

NON-AUDIT SERVICES

The Company may decide to employ its external auditor (PricewaterhouseCoopers) on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

Details of the amounts paid or payable to the auditor for audit and non-audit services provided during the financial year are set out in Note 27 of the consolidated financial statements.

The Board has considered the position and, in accordance with advice received from the Risk, Audit & Compliance Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the provision of non-audit services by the auditor, as set forth in Note 27 of the consolidated financial statements, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- All non-audit services have been reviewed by the Risk, Audit & Compliance Committee to ensure they do not impact the impartiality and objectivity of the auditor; and
- None of the services undermine the general principles relating to auditor independence as set out in *APES 110 Code of Ethics for Professional Accountants*.

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 38.

ROUNDING OF AMOUNTS

The Company is of a kind referred to in Class Order 98/100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with that Class Order to the nearest tenth of a million dollars, unless otherwise indicated.

REMARKS BY THE CHAIRMAN OF THE REMUNERATION COMMITTEE

Dear Shareholder

We are pleased to present our Remuneration Report for FY13.

This year was another challenging year for the Company and our industry. As a result, performance against our Return on Controlled Capital Employed (ROCCE) target was not achieved at the Group level or by any of the businesses except one, resulting in short-term incentive (STI) awards under the STI Plan being significantly below target. Similarly, no performance rights vested under the Company's long-term incentive (LTI) Plan because relative total shareholder return (TSR) was below the median against our TSR peer group.

Mr Daniel Dienst, our Group CEO, retired on 30 June 2013 and entered into a consulting agreement with the Company. Mr Dienst received no severance payment and no payment in lieu of notice. Details of his STI, LTI and the consulting agreement are provided in this report.

During the year, the Remuneration Committee commissioned an independent review of the LTI Plan. Based upon the outcomes of this review, and in response to feedback from shareholders and proxy advisors, the Committee will be making some changes to the operation of the LTI Plan in FY14.

The changes involve increasing the percentage of the LTI grant that is subject to performance hurdles from one-half to two-thirds of the Senior Executives' LTI award. In doing so, an additional performance hurdle related to earnings per share (EPS) will be introduced. Furthermore, commencing with the FY14 LTI grants, the re-test mechanism will be removed for the performance rights. The Board believes that this new structure adds further rigour to the LTI Plan and is more aligned with shareholder expectations and Australian market practice. It will also further incentivise Senior Executives to focus on both earnings and shareholder value creation.

In light of Company performance, none of the Senior Executives will receive a salary increase for FY14. In addition, the Board resolved to reduce Non-Executive Director fees by 10% for FY14.

We welcome and value your feedback as we continue to find ways to improve communications with our shareholders.

Yours sincerely,

Christopher Renwick
Remuneration Committee Chair
RemCoChair@simsmm.com

REMUNERATION REPORT

The Directors of Sims Metal Management Limited present the Remuneration Report for the Company and the Group for FY13. The information provided in this Remuneration Report has been audited.

The Remuneration Report is set out as follows:

Section	Description	Page #
A	Senior Executive remuneration snapshot	15
B	Remuneration governance framework	18
C	Senior Executive remuneration policy	20
D	Senior Executive remuneration framework	21
E	Remuneration outcomes for Senior Executives during FY13, including discussion of the linkage between 'at-risk' remuneration and Company performance	27
F	Senior Executive contracts	32
G	Share-based payment disclosures	34
H	Non-Executive Director remuneration	36

A. SENIOR EXECUTIVE REMUNERATION SNAPSHOT

Due to our global scale, our remuneration practices must take into account local market practice, particularly in our largest jurisdiction of the United States where we compete for much of our talent and business. Our executive remuneration framework consists of fixed remuneration, short-term incentives and long-term incentives. As noted in the Chairman's letter, we will be changing the long-term incentive structure for FY14.

The Company's remuneration philosophy is designed to provide remuneration that:

- attracts, motivates and retains the best and brightest of its senior executive, leadership and staff positions;
- drives the Company's business strategy; and
- aligns reward opportunities with shareholder interests.

Sims Metal Management Limited and its joint ventures operate in more than 270 locations across five continents. Given our global scale, it is imperative that our remuneration practices take into account local market practice, particularly in our largest jurisdiction of the United States where we compete for much of our talent and business. In doing so, we endeavour to achieve simplicity and transparency in remuneration design, whilst also balancing competitive market practice in the United States, United Kingdom and Australia. Of the five members of our senior management team (the Senior Executives) for FY13, three were based in the United States, one was based in Australia and one was based in the United Kingdom.

Remuneration outcomes for FY13

Each year our Senior Executive remuneration levels are benchmarked against a peer group by Mercer (the Board's external remuneration adviser). In light of our global operations, the benchmarking peer group includes industry-related companies of a relative size, footprint and complexity to Sims Metal Management Limited.

Remuneration component	Outcome
Fixed remuneration	<ul style="list-style-type: none"> • Adjustments were made to Senior Executive fixed remuneration levels, taking into account market data provided by Mercer, the scope of the role and Senior Executive performance.
Short-term incentive (STI)	<ul style="list-style-type: none"> • STI payments were significantly lower than target. Performance against our key financial measure, Return on Controlled Capital Employed (ROCCE) was below threshold at the Group level and for all businesses except one. Only New Zealand Metals achieved threshold. • The Group CEO received one third of his target STI opportunity while the other Senior Executives received an STI award from zero to 35% of their respective target STI opportunities for FY13 depending upon ROCCE and individual performance.
Long-term incentive (LTI)	<ul style="list-style-type: none"> • No performance rights vested during the year as the Company's TSR performance was below the median against its TSR peer group. • Options vested during the year in accordance with the terms of their agreement. No options were exercised during the year because the Company's share price did not exceed the exercise price.

Changes in the remuneration structure for FY14

During the year, the Remuneration Committee (Committee) commissioned Mercer to perform an independent review of the LTI Plan with the objective of ensuring that the Plan is competitive, aligned with shareholder expectations, and driving the Company's business strategy. As a result of the review, and taking into account the feedback received from shareholders and proxy advisors, the below changes will be incorporated into the LTI Plan for FY14:

Change	Description of change
Change in instruments, hurdles and weightings	<ul style="list-style-type: none"> • The FY14 LTI award will be granted as: <ul style="list-style-type: none"> - One third in performance rights subject to a relative TSR hurdle - One third in performance rights subject to an EPS hurdle - One third in options where the Company's share price needs to exceed the exercise price before the Senior Executive can realise any value <p>Further detail on the operation of the relative TSR and EPS hurdle will be disclosed in the FY14 Remuneration Report.</p>
Removal of re-test mechanism	<ul style="list-style-type: none"> • The Committee has removed the re-test mechanism on the performance rights. Accordingly, none of the LTI grants in FY14 and beyond will be eligible for re-testing.

The Board believes these changes add further rigour to the LTI Plan because two-thirds of the LTI award (the performance rights) will now be subject to performance hurdles, compared to one-half previously. In addition, the one-third of the LTI award granted as options will only deliver value to the Senior Executives if the Company's share price exceeds the exercise price subsequent to vesting.

The combination of hurdles means that in order to realise full vesting, the Senior Executives must have performed at a level that resulted in the Company's achieving TSR performance at the 75th percentile compared to an industry-based peer group, as well as achieving an EPS hurdle. Further, the Senior Executives will receive no value from their options unless the Company's share price exceeds the option exercise price. The focus on absolute share price growth, relative shareholder value creation and earnings growth makes for a rigorous LTI Plan.

Non-Executive Directors and Senior Executives covered in this report

The Remuneration Report is focused on the Company's Key Management Personnel (KMP) consisting of the below Non-Executive Directors and Senior Executives.

Name	Position
<i>Non-Executive Directors</i>	
Geoffrey N Brunson	Chairman and Independent Non-Executive Director
Norman R Bobins	Independent Non-Executive Director
John T DiLacqua	Independent Non-Executive Director
J Michael Feeney	Independent Non-Executive Director (<i>retired 15 November 2012</i>)
Gerald E Morris	Independent Non-Executive Director
Christopher J Renwick	Independent Non-Executive Director
Heather Ridout	Independent Non-Executive Director
Tom Sato	Non-Independent Non-Executive Director (<i>commenced 1 April 2013</i>)
M Paul Sukagawa	Non-Independent Non-Executive Director (<i>retired 1 April 2013</i>)
James T Thompson	Independent Non-Executive Director
Paul J Varelo	Independent Non-Executive Director (<i>retired 15 November 2012</i>)
<i>Senior Executives (including the Executive Director and Group CEO)</i>	
Daniel W Dienst	Executive Director and Group Chief Executive Officer (<i>retired 30 June 2013</i>)
Graham Davy	Chief Executive Officer – European Metals and Sims Recycling Solutions (SRS) (<i>left the Company on 19 March 2013</i>)
Robert Kelman	President – North America Metals (NAM)
Robert C Larry	Group Chief Financial Officer
Darron McGree	Managing Director Australia and New Zealand Metals

Actual Remuneration Outcomes

There is a strong correlation between incentive pay and Company performance. Cash bonuses were significantly lower than target because threshold performance against the ROCCE measure was not achieved at the Group level or by any of the businesses except one. No performance rights vested since the Company's TSR performance was below the median of the TSR peer group. In addition, no options were exercised because the Company's share price did not exceed the exercise price.

In order to provide additional transparency, outlined below is the actual remuneration received by the Senior Executives during FY13. For comparative purposes, the targeted remuneration is also shown. Total target remuneration is consistent with the Company's remuneration philosophy and is competitively positioned in the market (benchmarked against Mercer's market data).

The statutory remuneration tables, which are prepared consistent with Australian Accounting Standards and the *Corporations Act 2001* (Cth), are outlined later in this report.

By providing this table below, the strong correlation between actual remuneration received and Company performance can be clearly demonstrated. Actual cash bonuses were significantly lower than targeted incentives this year because the ROCCE targets at the Group level and for all businesses except one were not achieved. Actual cash bonuses reflect the figures in the statutory remuneration table.

In FY08, there were three tranches of performance rights granted, with vesting subject to relative TSR, EPS and EBITDA respectively. 59.6% of the relative TSR rights vested in FY11 and the balance lapsed in FY13. 100% of the EPS rights lapsed in FY13 and there was no further vesting of the EBITDA rights because these fully vested in FY12. The 2009 and 2010 performance rights are subject to relative TSR only and none of these performance rights vested based on performance to 30 June 2013 as relative TSR performance was below the median company of the TSR peer group.

The actual value of LTI awards is different from the targeted LTI awards noted below, as well as in the statutory remuneration table in Section E. This is because the actual LTI figures reflect the value of the LTI awards that actually vested on the vesting date (ie the actual amount that Senior Executives received in FY13) whereas the value of the LTI figures in the statutory remuneration table reflects the amortised value of the entire LTI award (that may or may not vest) in accordance with accounting standards. By comparing the two tables, it can be seen that the actual remuneration of the Senior Executives during FY13 was significantly lower than their targeted incentives, as well as the remuneration that is required to be disclosed in the statutory remuneration table. Due to the relative TSR performance, Senior Executives received no value with regard to their performance rights in FY13.

Senior Executives (A\$)	Fixed remuneration ¹	Actual cash bonus ²	Target cash bonus	Actual long-term incentives ³	Target long-term incentives	Total actual remuneration	Total target remuneration
D Dienst ^{4,5}	1,756,797	590,660	1,771,979	110,064	4,089,183	2,457,521	7,617,959
G Davy ^{4,6,7}	448,335	-	595,511	-	595,511	448,335	1,639,357
R Kelman ⁴	770,194	120,000	705,872	-	882,340	890,194	2,358,406
R Larry ⁴	764,967	-	666,937	57,368	833,671	822,335	2,265,575
D McGree	774,807	264,753	718,410	-	718,410	1,039,560	2,211,627

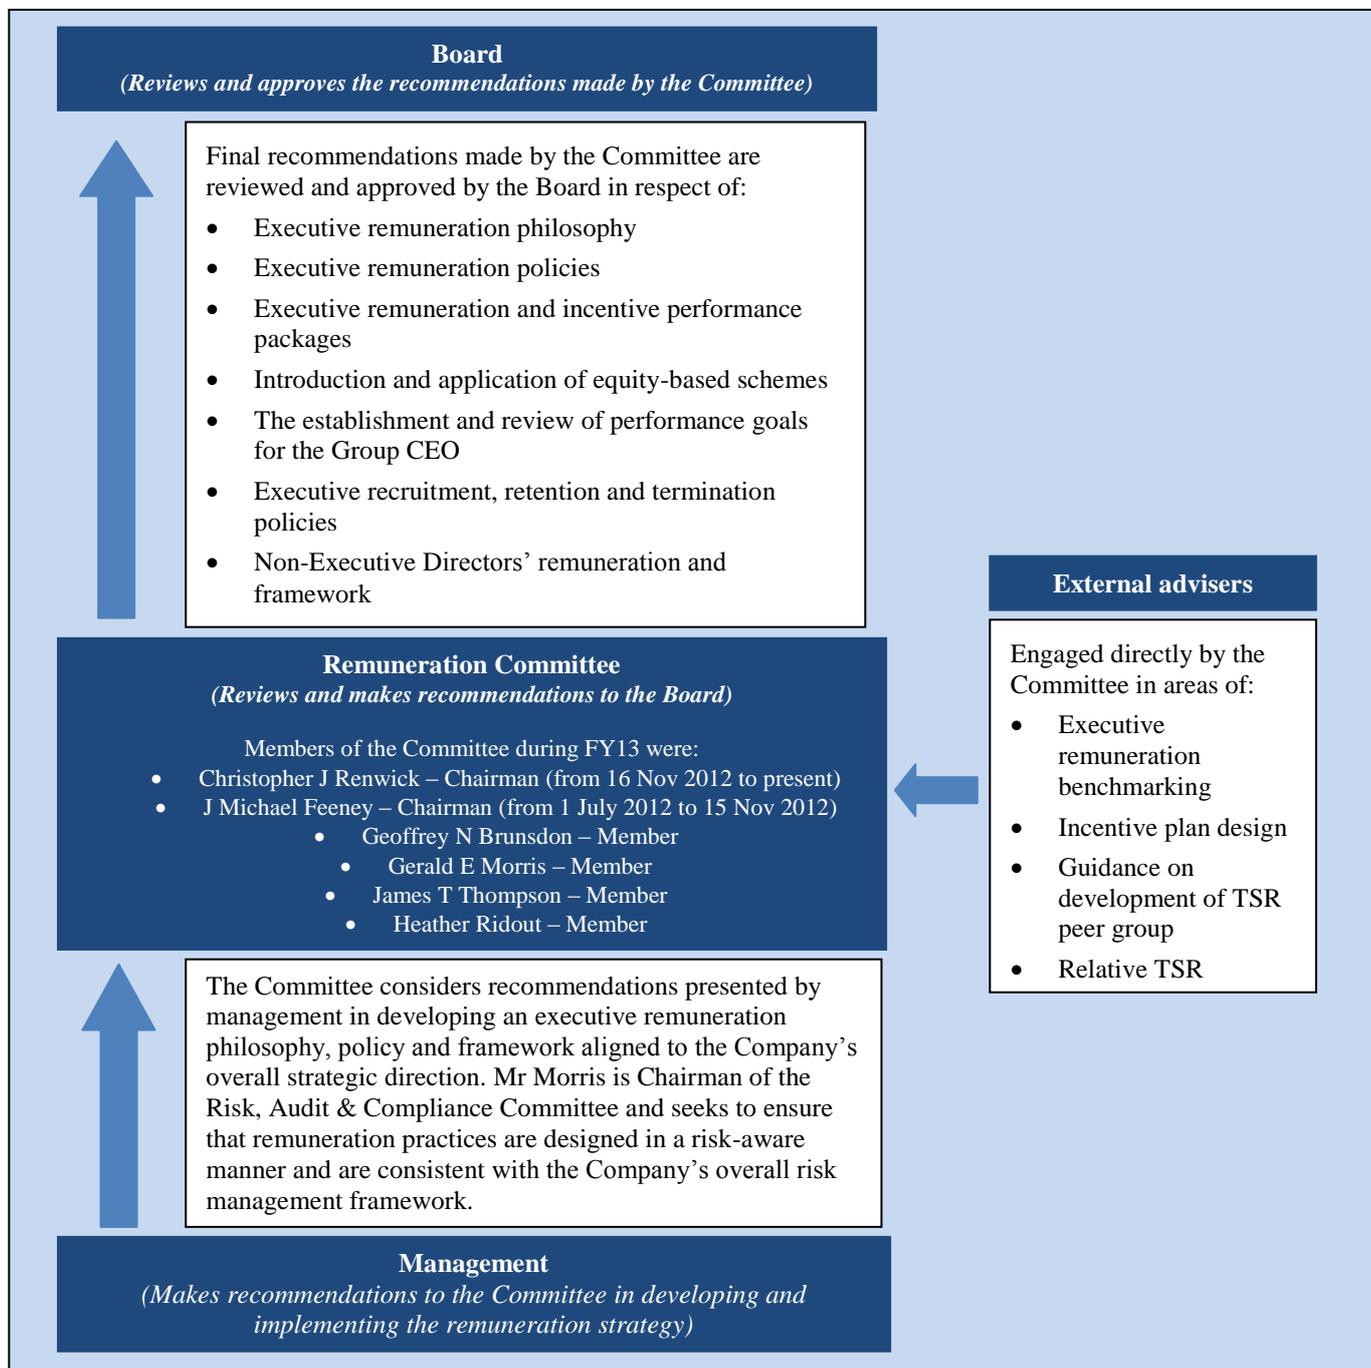

- Other than for Mr Dienst, fixed remuneration includes cash salary, other benefits, pension and superannuation, and leave accruals in line with statutory remuneration disclosures. For Mr Dienst, fixed remuneration also includes a payment for his Paid Time Off entitlement while the statutory remuneration table includes the accrual for this amount.
- Actual cash bonus refers to the Senior Executive's total bonus that was earned in FY13 and will be paid to the Senior Executive in September 2013 following the finalisation of the audited financial results.
- LTI refers to equity allocations granted in prior years that vested during FY13. The value has been calculated using the closing share price of the Company's shares on the business day prior to vesting. For Mr Dienst, it also includes amounts paid out under the deferred compensation plan.
- Messrs Dienst, Kelman and Larry received their cash payments in United States dollars. Mr Davy received his cash payments in pounds sterling.
- Mr Dienst retired on 30 June 2013.
- Mr Davy left the Company in March 2013 and did not receive any benefits under the Company's STI or LTI Plan.
- Mr Davy's STI and LTI targets reflect his annual target opportunities at the start of the fiscal year.

B: REMUNERATION GOVERNANCE FRAMEWORK

We have a strong remuneration governance framework, with the Board being ultimately responsible for the Company's executive remuneration practices. The Committee advises the Board in making remuneration decisions.

The primary role of the Committee is to support and advise the Board on the implementation and maintenance of coherent, fair and responsible remuneration policies and practices that are observed by the Company and enable it to attract and retain executives and directors who will create value for shareholders. The Committee's charter, which is available on the Company's website at www.simsmm.com, provides further information on the role of the Committee.

The diagram below illustrates the role of the Board, the Committee, management and external advisers (including remuneration consultants) in relation to remuneration.

In addition to the above, in recognition of the value and advantages of having a diversified workforce and consistent with the Company's Workforce Diversity Policy (a copy of which can be found on the Company's website at www.simsmm.com), the Committee is responsible for reviewing and approving the measurable objectives for achieving diversity as noted in the Company's Corporate Governance Statement.

Use of External Remuneration Advisor

The Committee retains Mercer, a remuneration consultant, to serve as its external advisor. During FY13, Mercer provided the Company with a remuneration recommendation as defined under the *Corporations Act 2001* (Cth). In its capacity as advisor to the Committee, Mercer performs competitive remuneration research and provides guidance on Senior Executive remuneration issues. The activity includes providing guidance on the appropriate TSR peer group, which includes industry-related companies of relative sized revenue and market capitalisation with similar geographic footprints and complexity.

Mercer also assesses competitive Senior Executive base salary, annual incentive, and long-term incentive levels for the Committee's consideration as it approves base salary adjustments and sets target incentive opportunities for Senior Executives. During FY13, Mercer also reviewed the Company's LTI Plan and provided the Committee with potential alternatives, provided guidance on competitive practices with regard to Executive contracts, provided valuations of awards under the LTI Plan and assessed the Company's cumulative TSR against the TSR peer group.

The Mercer fees for the above remuneration recommendations were A\$108,735. In addition, Mercer provided advisory services to the Board and assisted the Company with various accounting valuations. Fees for these services were A\$18,499 and A\$11,440 respectively.

The Committee has implemented protocols around the appointment and use of remuneration consultants to ensure compliance with the *Corporations Act 2001* (Cth). Mr Renwick, Chairman of the Committee, directly engaged Mercer to perform the above work and Mercer did not provide its report to any member of Company management. The Committee also had direct access to Mercer during executive sessions (without Company management) throughout FY13. Mercer has declared to the Committee that their remuneration recommendations were not unduly influenced by any of the Company's KMP throughout the course of their engagement. Based on the protocols followed, and Mercer's declaration, the Board is satisfied that the remuneration recommendation from Mercer was made free from undue influence by any of the KMP.

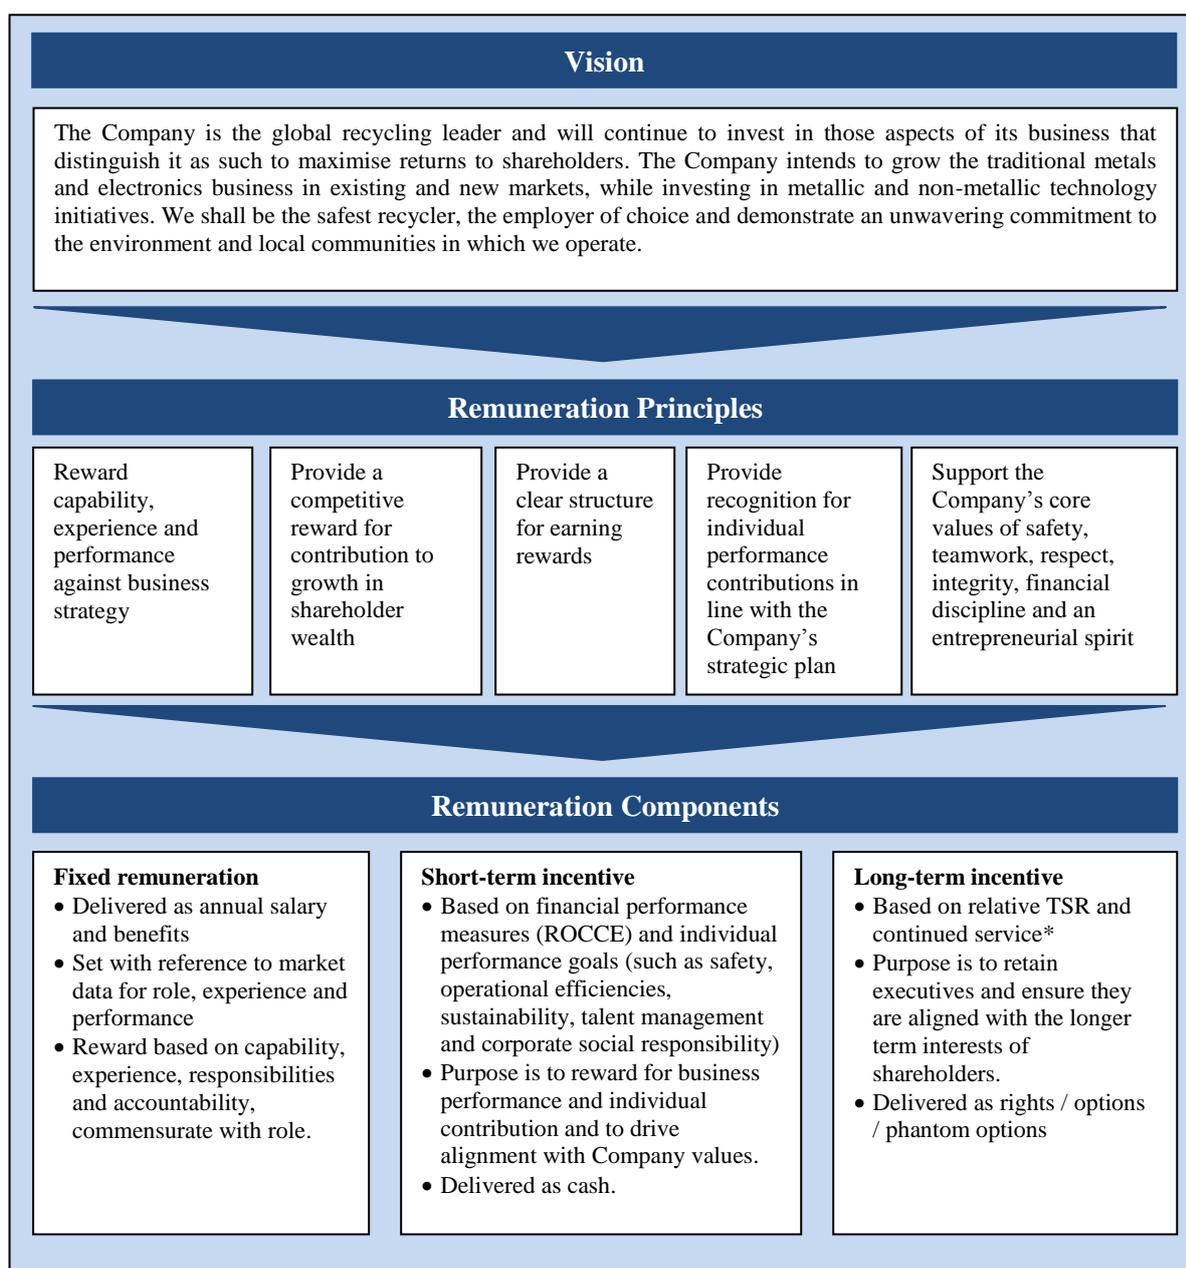

C: SENIOR EXECUTIVE REMUNERATION POLICY

Our executive remuneration policy supports our vision and aligns executive incentive pay with the achievement of Company strategic and business priorities and the creation of shareholder value.

FY13 Senior Executive remuneration policy

The Senior Executive remuneration policy recognises that the Company operates in a global environment and that the Company's performance depends on the quality of its people. The policy seeks to ensure alignment between the Company's remuneration philosophy, its business strategy and the best interest of its shareholders.

The primary aim of the Company's Senior Executive remuneration policy is to attract, motivate and retain high calibre Senior Executives. To do so, the Company provides Senior Executive remuneration packages that are competitive (referencing market data) and commensurate with employee responsibilities and accountabilities. The diagram below provides a snapshot of the Company's remuneration principles and its components, and how they support the Company's overall vision.

* As noted in Section A, grants in FY14 under the LTI Plan will continue to be by way of options and performance rights. The performance rights, however, will now make up two thirds of the total award and will be subject to a relative TSR hurdle and an EPS hurdle. The options will continue to require the Senior Executives to assist in growing the Company's share price above the exercise price.

D: SENIOR EXECUTIVE REMUNERATION FRAMEWORK

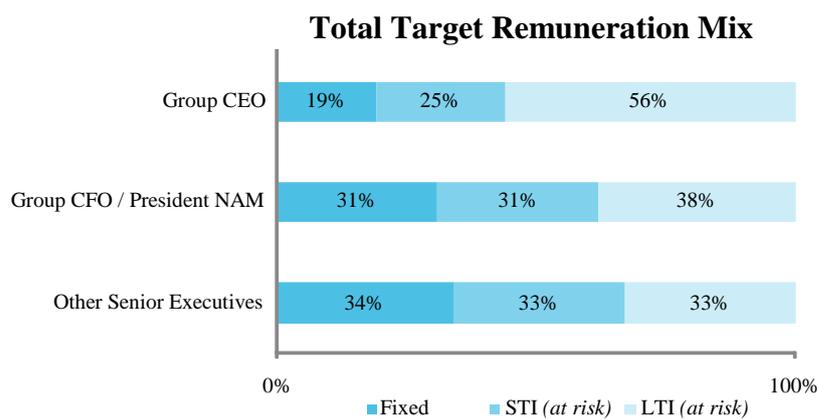

Our executive remuneration framework is heavily skewed towards variable pay, with 81% of the Group CEO's target pay being at-risk, subject to challenging short-term and long-term hurdles.

The Senior Executive remuneration framework reflects the international nature of the Company and the fact that we employ Senior Executives based throughout the world.

The framework is continually reviewed by the Committee to ensure best practices are followed. The Company also undertakes an annual remuneration review to determine the total remuneration positioning of its Senior Executives against the market.

Fixed and variable ('at-risk') remuneration mix

In line with the Company's intent to ensure the Senior Executive remuneration framework is aligned to the Company's performance, a significant portion of an Executive's remuneration is 'at-risk'. The following chart sets out the target remuneration mix; that is, fixed remuneration (salary / package), target short-term incentive, and long-term incentive for the Senior Executives.

Fixed remuneration

Fixed remuneration comprises base salary and benefits:

- Base salary is determined on an individual basis, taking into consideration the individual’s capability, experience, responsibilities and accountability, as well as external market factors and benchmark data. In light of our global operations, the peer group that Mercer uses for benchmarking purposes includes industry-related companies of a relative size, footprint and complexity.
- Benefits programs vary by market and may include health insurance, life and disability insurance, retirement programs (depending on national government and tax regulations) and automobile allowances.

Remuneration packages (including fixed components of base salaries and benefits) are reviewed annually. In reviewing any changes to Senior Executive remuneration, the Committee references individual performance, as well as market-based comparable positions in public surveys and obtains advice from its external remuneration consultant where necessary.

There are no guaranteed increases to any components of fixed remuneration for any Senior Executives.

‘At-risk’ remuneration

‘At-risk’ remuneration comprises both short-term and long-term incentives. ‘At-risk’ means an absence of certainty regarding the payment of a particular component of remuneration in the event agreed-upon performance hurdles or employment conditions are not met during the performance period. The remuneration of Senior Executives is linked to performance through short- and long-term incentives. Details on each of these Plans are outlined below.

Short-Term Incentive Plan (STI Plan)

The STI Plan for Senior Executives is based 80% on financial performance (ROCCE) and 20% on individual goals that are critical to the overall success of the Company.

Senior Executives are eligible to participate in the Company’s STI Plan. The table below summarises the key aspects of the STI Plan.

Frequency, timing and form of award	<ul style="list-style-type: none"> - Senior Executives have an opportunity to earn an annual cash-based incentive based on the achievement of pre-defined targets over the fiscal year. - Individual goals and targets are set on an annual basis. - Payment is made in September following the finalisation of the audited financial results. 		
Target and maximum STI opportunities	<ul style="list-style-type: none"> - The STI target opportunity is 130% of fixed remuneration for the Group CEO and 100% of fixed remuneration for Senior Executives. - The actual STI award can range from a minimum of nil to a maximum of 200% of the target opportunity for all Senior Executives. 		
Performance measures		Financial measures	Individual measures
	Weighting	<ul style="list-style-type: none"> • 80% 	<ul style="list-style-type: none"> • 20%
	Metrics	<ul style="list-style-type: none"> • Based on ROCCE targets¹, taking into account Group or business unit cost of capital. • <i>Group Senior Executives</i> – ROCCE is based wholly on overall Group performance. • <i>Regional Senior Executives</i> – ROCCE is based wholly on the results of their own business units. 	<ul style="list-style-type: none"> • Individual goals are set in several key performance areas which focus on individual initiatives that are critical to the overall success of the Company. They may include: <ul style="list-style-type: none"> - Safety (ie reduction in certain safety incident metrics) - Environment & Sustainability - Implementation of certain aspects of the Company strategic plan - Talent Management (ie succession planning, management development, etc) - Shareholder and community relations
<p>1. ROCCE is computed as Profit Before Interest and Taxes (PBIT) divided by Average Controlled Capital Employed (CCE).</p>			

	<ul style="list-style-type: none"> - The Committee understands the desire for greater transparency of specific targets. However, given the Company's size and position in the industry, we believe disclosing precise financial / individual performance targets would put us at a competitive disadvantage due to commercial sensitivity.
Rationale for performance measures	<ul style="list-style-type: none"> - ROCCE has been approved by the Committee as the appropriate financial measure as the Committee believes that ROCCE is a key performance driver of the Group. ROCCE focuses on the effective management of invested capital while encouraging maximisation of operating profits. - The Company has chosen relevant individual performance measures to drive and reinforce the desired individual behaviours and outcomes, even in difficult economic and financial times.
Determination of performance measures	<ul style="list-style-type: none"> - The financial targets for Senior Executives are recommended each year by the Group CEO and reviewed by the Committee for recommendation to the Board for approval. The financial targets for the Group CEO are recommended by the Committee and approved by the Board. The financial targets are determined by taking into consideration stretch performance targets in the context of the economic cycle. - Individual goals and targets for Senior Executives are established on an annual basis by the Group CEO, taking into consideration the Senior Executive's required goals to support the Company's strategic plan. The individual goals and targets for the Group CEO are recommended by the Committee for approval by the Board.
Assessment of performance against measures	<ul style="list-style-type: none"> - A minimum ROCCE threshold must be achieved before any payment is awarded against the ROCCE hurdle. Likewise, a minimum level of performance must be achieved against the individual goals before any payment is awarded against the individual goals. - Payment between threshold and maximum is then determined by reference to ROCCE and individual performance outcomes against the pre-defined individual goals. Once the threshold hurdle is met, awards are linear in calculation until the maximum hurdle is reached. - At the end of the fiscal year, each Senior Executive's individual performance is assessed based on appropriate ROCCE performance (eg overall Group performance or the relevant business unit performance) and a review of individual performance against pre-defined key performance areas. - The individual's performance is rated on a scale of 0 to 4. Participants must receive a weighted average rating of at least 2.0 (meets expectations) in order to receive target payment based on the individual performance component. A rating below 1.75 results in no award with regard to the individual performance component. - Senior Executive performance is assessed by the Group CEO, and recommended payments are considered and, if appropriate, approved by the Committee. For the Group CEO, performance is assessed by the Committee and a recommended payment is approved by the Board. The Board maintains full discretion over the level of any STI awards paid to the Group CEO and Senior Executives. For FY13, in the absence of a Group CEO for the year-end evaluation process, the Committee considered Senior Executive individual performance and exercised its discretion to award the related FY13 STI payments. - Performance against the financial targets is set out in Section E.
Termination provisions	<ul style="list-style-type: none"> - A voluntary termination prior to the last calendar day of the fiscal year will result in no STI being paid for the year unless the Committee determines otherwise. Upon a qualifying cessation (ie termination due to death, disability or redundancy), STI performance for the relevant period will be assessed and paid. - No STI payments will be made in the case of termination for cause.

Long-Term Incentive Plan (LTI Plan)

The FY13 LTI Plan aligns executive rewards with the shareholder experience through the use of relative TSR and absolute share price. The LTI Plan will be changing for FY14 to increase performance shares to two thirds of the award by introducing a third performance hurdle (EPS). In addition, effective for FY14 and beyond, re-testing will be removed on all new LTI grants.

The commentary below relates to the FY13 LTI Plan. For information on the changes that will be made to the FY14 LTI Plan, see Section A.

The Committee believes that Senior Executive participation in equity-based incentive plans is a key element which aligns executive and shareholder objectives. The LTI Plan is the principal means of allowing Senior Executives the opportunity to be rewarded for the Company's growth in share price and total shareholder return. The LTI Plan provides a direct link between the value created for shareholders, and the reward earned by Senior Executives. It also assists in the retention of Senior Executives.

The LTI Plan allows for grants of performance rights (rights), options and phantom options. The LTI Plan is designed to focus on two key aspects of future performance. First, rights recognise shareholder value creation relative to companies either within the Company's industry or of a similar nature, as measured by TSR. Second, options (and phantom options where applicable) reflect creation of absolute shareholder value, as recognised by absolute growth in the Company's share price.

Performance Rights	<ul style="list-style-type: none"> - A right is a contractual right to acquire an ordinary share for nil consideration. United States participants have their rights settled in American Depositary Shares (ADSs) unless otherwise determined by the Board. - Rights reward Senior Executives for relative performance as a relative TSR hurdle must be satisfied in order for the rights to vest. Accordingly, for participants to receive any value from the Plan, the Company's TSR performance must be above the median of the TSR peer group.
Options	<ul style="list-style-type: none"> - An option is a contract that gives the holder the right, but not the obligation, to acquire an ordinary share at a fixed price over a specified period of time. United States participants have their options settled in ADSs unless otherwise determined by the Board. - Options reward Senior Executives for absolute share price performance. This is because the options only have value if the share price exceeds the exercise price at the end of the vesting period. The options are also subject to a continuous service vesting condition. This reflects common market practice in the United States, where the Company competes for much of its talent and business.
Phantom Options	<ul style="list-style-type: none"> - Phantom options operate in the same manner as options; however, they are cash-settled rather than equity-settled. Accordingly, rather than receiving one fully paid ordinary share in the Company upon exercise, the Senior Executive receives the value of one fully paid ordinary share in the Company in cash. - Phantom options (as opposed to equity-settled options) have been offered to participants in Australia from 1 July 2010 onwards because of the differing securities laws and taxation treatments.

The combination of rights and options has enabled the Board to achieve an appropriate balance in terms of ensuring that rewards for Senior Executives are competitive, aligned to the Company's global business and its shareholders, and reflective of market practice in Australia, the United States and the United Kingdom. This structure of only rewarding Senior Executives when both relative and absolute shareholder value has been created made this Plan one of the more rigorous in the market.

That said, the Committee will be making some changes to the LTI Plan hurdles in FY14 to further align the LTI Plan to Company objectives and to respond to feedback from shareholders and proxy advisers. Refer to Section A for further details.

The following table summarises the LTI Plan as it relates to grants made in FY13.

	Options / Phantom Options	Rights
Frequency and timing of awards	<ul style="list-style-type: none"> - The Company's shareholders approved an LTI award for the Group CEO at the Company's 2012 Annual General Meeting (AGM). In conjunction with the AGM, the Committee approved and granted LTI awards for the Senior Executives. - Awards are typically made on an annual basis. 	
Valuation of grants	<ul style="list-style-type: none"> - The fair value of rights and options is calculated by Mercer at their grant date using a Black-Scholes, Binomial or Monte Carlo simulation option pricing model as appropriate. See Note 25 of the financial report for assumptions used in determining the fair value. 	
Treatment of dividends	<ul style="list-style-type: none"> - Holders of rights and options are not entitled to dividends over the term of the relevant vesting period (and in the case of options, until exercised). 	
Performance measure and rationale	<ul style="list-style-type: none"> - In order for options to deliver value to participants, the Company's share price must increase above the exercise price. This aligns the award's value to absolute growth in 	<ul style="list-style-type: none"> - In order for rights to vest, the Company's TSR must be at the 51st percentile or higher against the TSR peer group. Above the 51st percentile, vesting is prorated, with full vesting occurring at the 75th percentile. This aligns the vesting of Senior Executive awards to relative shareholder wealth

	Options / Phantom Options	Rights																		
	shareholder wealth.	creation.																		
Performance /exercise period	<ul style="list-style-type: none"> - Options generally vest in three equal installments over a three-year period. This vesting schedule reflects common market practice in the United States.¹ - Options expire seven years after the date of grant. 	<ul style="list-style-type: none"> - Performance is measured over an initial three-year period starting 1 July 2012 through 30 June 2015, with two potential annual re-tests at Year 4 (30 June 2016) and Year 5 (30 June 2017). - The potential tests at Year 4 and Year 5 will be measured over the extended four-year and five-year periods respectively. Any unvested rights outstanding at the end of Year 5 will immediately lapse. - In light of feedback from shareholders and proxy advisors, re-testing will be removed from LTI grants commencing in FY14 and beyond. 																		
Exercise price	<ul style="list-style-type: none"> - The exercise price of options is set at grant, and is equal to the average closing share price for the five days preceding the grant date². 	<ul style="list-style-type: none"> - Nil 																		
TSR peer group	<ul style="list-style-type: none"> - N/A 	<ul style="list-style-type: none"> - The following companies comprise the FY13 TSR peer group, chosen from comparable industry sectors: <table border="1"> <thead> <tr> <th colspan="2">Peer companies</th> </tr> </thead> <tbody> <tr> <td>AK Steel</td> <td>Nucor</td> </tr> <tr> <td>Alcoa</td> <td>POSCO</td> </tr> <tr> <td>Allegheny Technologies</td> <td>Reliance Steel</td> </tr> <tr> <td>ArcelorMittal</td> <td>Schnitzer Steel</td> </tr> <tr> <td>Arrium</td> <td>Steel Dynamics</td> </tr> <tr> <td>BlueScope Steel</td> <td>Tokyo Steel</td> </tr> <tr> <td>Commercial Metals</td> <td>U.S. Steel</td> </tr> <tr> <td>Gerdau</td> <td></td> </tr> </tbody> </table>	Peer companies		AK Steel	Nucor	Alcoa	POSCO	Allegheny Technologies	Reliance Steel	ArcelorMittal	Schnitzer Steel	Arrium	Steel Dynamics	BlueScope Steel	Tokyo Steel	Commercial Metals	U.S. Steel	Gerdau

Treatment of awards on termination of employment	<ul style="list-style-type: none"> - Where participants resign, or are terminated for cause, awards are forfeited. - Where termination of employment is the result of a qualifying cessation (ie death, total or permanent disablement, or other circumstances at the discretion of the Board), participants will be entitled to unvested awards in accordance with the original vesting schedule. - At the Board's discretion, any unvested awards will continue to be held by eligible terminated participants and will be tested at the end of the initial performance period. Any unvested awards lapse at the end of the initial performance period, subject to the Board's discretion. 																			
Treatment of awards on change of control	<ul style="list-style-type: none"> - A change in control of the Company may trigger full vesting of awards in certain circumstances, subject to Board discretion. 																			

1. Each installment vests on the last business day of August in 2013, 2014 and 2015.

2. For United States-based Senior Executives, option awards are not Incentive Stock Options for the purposes of section 422 of the United States Internal Revenue Code.

Guidelines for Group CEO approval of Discretionary Awards

The guidelines for Group CEO approval authority limits for individual discretionary cash awards and aggregate discretionary cash and / or equity awards are:

- ***Individual awards:*** Any individual discretionary cash award in excess of US\$500,000 must be presented to the Committee for approval.
- ***Aggregate awards:*** If the aggregate sum of the cash and / or equity award per occurrence is in excess of the Group CEO Discretionary Capital Expenditure authority (currently US\$1,000,000), then it must be presented to the Committee for approval.

Securities Trading Policy

The trading of securities issued to participants pursuant to the LTI Plan is subject to, and conditional upon, compliance with the terms of the Company's policy titled *Dealings in Sims Metal Management Limited Securities* (a copy of which is available on the Company's website at www.simsmm.com). Senior Executives are prohibited from entering into any hedging arrangements over unvested awards under the LTI Plan. The Company would consider a breach of the Securities Trading Policy as serious misconduct, which may lead to disciplinary action up to and including dismissal.

E: REMUNERATION OUTCOMES FOR SENIOR EXECUTIVES DURING FY13, INCLUDING DISCUSSION OF THE LINKAGE BETWEEN ‘AT-RISK’ REMUNERATION AND COMPANY PERFORMANCE

Overview of the link between remuneration and performance

Outlined below is the Company’s performance against key metrics over the past five fiscal years.

	Fiscal Year				
	2013 ¹	2012 ^{1,2}	2011 ²	2010 ²	2009 ¹
(Loss)/Profit Before Interest and Tax (A\$m)	(469.4)	(623.3)	293.1	198.3	(105.6)
Diluted EPS (cents)	(228.1)	(302.4)	90.9	61.8	(82.5)
Return on Shareholders’ Equity	(24.2%)	(27.3%)	6.4%	3.7%	(5.3%)
Total dividends (cents)	0.0	20.0	47.0	33.0	38.0
Share price at 30 June A\$	8.26	9.61	17.65	17.11	26.51

¹ FY13, FY12 and FY09 reflect goodwill and other intangible impairment charges of A\$304.4 million, A\$675.6 million and A\$191.1 million respectively.

² Previously reported amounts have been restated. See Note 2 of the financial report.

The Board considers performance against Profit Before Interest and Tax (PBIT) in the STI Plan because it is this figure divided by Average Controlled Capital Employed that determines ROCCE.

The TSR graph below compares the Company’s (ASX: SGM) TSR against the peer group (as referenced above) for the five-year period ending 30 June 2013. TSR is the return to shareholders provided by share price appreciation plus dividends (which are assumed to be reinvested in the Company’s shares) expressed as a percentage of the share price at the beginning of the measurement period, adjusted where appropriate for bonus issues, capital consolidation or equivalents. As the Company’s TSR has been below the median against its peer group of companies, there has been no vesting under the LTI Plan, against the relative TSR hurdle, since FY11.

Short-term incentives

STI measures are based on financial performance (ROCCE) and individual performance measures. The table below outlines FY13 Group and business unit performance against the STI ROCCE targets. Below threshold performance results in no financial payout.

Name	Business unit	ROCCE performance
D Dienst	Group	Below threshold
G Davy	Global SRS (excluding United Kingdom SRS)	Below threshold
G Davy	United Kingdom Metals/United Kingdom SRS	Below threshold
R Kelman	North America Metals	Below threshold
R Larry	Group	Below threshold
D McGree	Australia Metals	Below threshold
D McGree	New Zealand Metals	Above threshold

The following table outlines the proportion of the target STI that was earned and forfeited in relation to FY13. Both ROCCE and individual performance influences individual STI payments.

Name	Proportion of target STI earned during FY13	Proportion of target STI forfeited during FY13	Proportion of target STI earned during FY12	Proportion of target STI forfeited during FY12
D Dienst ¹	33%	67%	20%	80%
G Davy ²	0%	100%	41%	59%
R Kelman	17%	83%	20%	80%
R Larry	0%	100%	20%	80%
D McGree	35%	65%	34%	66%

¹ Mr Dienst retired on 30 June 2013. In consideration of Mr Dienst's achievement against additional Personal Priorities throughout the year, the Board exercised its discretion to award Mr Dienst with a total STI payment of one-third of his STI opportunity. The additional Personal Priorities included assisting the Company's executive search firm to define the parameters for the new Group CEO, managing the process around the consideration of internal candidates and assisting with the establishment of the interim management structure.

² Mr Davy left the Company on 19 March 2013 and forfeited his STI award.

Long-term incentives

The table below outlines the percentage of the FY08, FY09 and FY10 rights that vested during FY13. For transparency, the historical levels of vesting associated with these grants has also been shown, along with the total percentage of the grant that has either vested or been forfeited (on aggregate).

Any grants made subsequent to FY10 are not eligible for vesting in FY13 and therefore have not been included in the table below.

Grant / hurdle ¹	% of rights that vested in FY11	% of rights that vested in FY12	% of rights that vested in FY13	Total % of rights that vested	Total % of rights that were forfeited
FY08 grant					
Relative TSR ²	59.6 ³	0 ⁴	0 ⁵	59.6	40.4 ⁵
EPS ⁶	0	0	0	0	100 ⁶
EBITDA ⁷	56.2	43.8	n/a	100 ⁷	0
FY09 grant⁸					
Relative TSR	n/a	0 ⁹	0 ¹⁰	0	0 ¹¹
FY10 grant¹²					
Relative TSR	n/a	n/a	0 ¹³	0	0 ¹⁴

- Each installment vests on the date of earnings release, being in the fiscal year following the test date.
- The FY08 TSR rights had an initial performance period from 1 July 2007 to 30 June 2010 (3 years). They were re-tested on 30 June 2011 (after 4 years) and on 30 June 2012 (after 5 years).
- This equated to a TSR percentile rank of 55.6%.
- No additional rights vested in Year 4 because the TSR percentile rank was lower than the 55.6% achieved in Year 3.
- No additional rights vested in Year 5 because the TSR percentile rank was lower than the 55.6% achieved in Year 3. Due to this, 40.4% of the rights lapsed in August 2012.
- The FY08 EPS rights were fully forfeited in FY13 as the hurdle was not achieved.
- The FY08 EBITDA rights fully vested in FY12.
- The FY09 rights had an initial performance period from 1 July 2008 to 30 June 2011 (3 years). They were re-tested on 30 June 2012 (after 4 years) and on 30 June 2013 (after 5 years).
- The TSR percentile rank was less than the 51st percentile. Accordingly, there was no vesting.
- The TSR percentile rank was less than the 51st percentile. Accordingly, there was no vesting.
- None of the FY09 rights were forfeited during the fiscal year because they stay on-foot until 23 August 2013. That said, the last test date was 30 June 2013 and the TSR percentile rank on this date was lower than the 51st percentile. Accordingly, all of the FY09 rights will lapse in FY14.
- The FY10 rights had an initial performance period from 1 July 2009 to 30 June 2012 (3 years). They were re-tested on 30 June 2013 (after 4 years) and will be re-tested again on 30 June 2014 (after 5 years).
- The TSR percentile rank was less than the 51st percentile. Accordingly, there was no vesting.
- The FY10 rights remain on-foot until August 2014. Accordingly, no rights were forfeited during FY13. They were re-tested on 30 June 2013 and the TSR percentile rank was below the 51st percentile. Accordingly, no additional rights will vest in FY14.

Statutory Executive Remuneration Disclosures

Certain Senior Executives (as disclosed below) are not residents of Australia. Their respective remuneration paid in foreign currency has been converted to Australian dollars at an average exchange rate for the year. Accordingly, exchange rate movements may influence the disclosed fee level.

(A\$)	Location	Fiscal Year	Short-term benefits			Post-employment benefits	Other long-term benefits ⁴	Share-based payments ⁵	Total
			Cash salary ¹	Cash bonus ²	Other benefits ³	Pension and superannuation			
Senior Executives (including the Executive Director and Group CEO)

		2012	621,557	244,923	2,362	108,773	19,430	393,231	1,390,276
A Ratner ^{6,8}	USA	2013	-	-	-	-	-	-	-
		2012	644,442	128,888	51,065	18,015	-	638,123	1,480,533
Total Executive Director and Group CEO		2013	3,847,187	975,413	250,090	181,254	78,512	8,197,495	13,529,951
& Senior Executives		2012	4,394,686	1,700,312	419,868	248,361	29,120	7,505,311	14,297,658

1 Cash salary includes amounts sacrificed in lieu of other benefits at the discretion of the individual.

2 Cash bonus amounts for FY13 and FY12 reflect the amounts accrued for all Senior Executives under the FY13 and FY12 STI Plans respectively. The cash bonus for Mr Dienst in FY12 included a one-off payment of US\$500,000 in exchange for an agreement to extend his existing contract through 30 June 2013.

3 Other short-term benefits include auto allowances, health and life insurance benefits, amounts accrued for annual leave during the period and personal security payments (for Mr Dienst). For US employees, it also includes a Paid Time Off policy which includes a carry-over feature of up to twice the annual entitlement. The amount for Mr Larry in FY12 included a one-time reimbursement (plus related gross-up) of expenses incurred arising from a medical injury that occurred while travelling internationally on Company business.

4 Other long-term benefits include amounts accrued for cash-based long-term incentive plans, long-service leave (for Mr McGree) and deferred compensation plans (for Messrs Dienst, Kelman and Larry).

5 Share-based payments represent the accounting expense (as computed pursuant to AASB 2 (IFRS 2), 'Share-based Payments') recognised by the Company for share-based awards. For Mr Dienst, this includes US\$3,459,082 (A\$3,367,814) attributed to acceleration of expense as a result of his good leaver provision in retirement.

6 Messrs Dienst, Kelman, Larry and Ratner receive/d their cash payments in United States dollars. Mr Davy received his cash payments in pounds sterling.

7 Mr Davy left the Company on 19 March 2013. Mr Davy's 2013 remuneration disclosed above reflects his remuneration for the period 1 July 2012 to 19 March 2013. Mr Davy did not receive any termination benefits.

8 Mr Ratner's FY12 remuneration reflects his full remuneration for FY12 in the capacity of President – Operations North America (1 July 2011 to 31 January 2012) and Group Executive Vice President – Operations and SHEC (1 February 2012 to 30 June 2012). He ceased to be a KMP as of 31 January 2012. Accordingly, no remuneration has been disclosed for FY13.

Fixed and actual 'at-risk' remuneration for FY13

Outlined below is the percentage of the Senior Executives' FY13 remuneration that was fixed and 'at-risk' based upon the statutory remuneration table. The percentage of their remuneration that consisted of rights and options is also disclosed.

	Fixed Remuneration %	'At-Risk' Remuneration %	Remuneration consisting of rights %	Remuneration consisting of options %
Senior Executives				
D Dienst	17	83	54	22
R Kelman	50	50	21	21
R Larry	51	49	26	23
D McGree	54	46	21	7

Mr Davy left the Company on 19 March 2013 and the Company reversed an expense associated with his share-based payment. As this reversal resulted in a negative number, the calculation of his remuneration that was fixed and at-risk is not meaningful.

F: SENIOR EXECUTIVE CONTRACTS

Executive Director and Group CEO

The Executive Director and Group CEO, Mr Dienst, retired from the Group, and resigned as a Director, on 30 June 2013. The Company has entered into a consulting arrangement with Mr Dienst.

Employment contract

During Mr Dienst's employment, the key terms of his contract were:

- Mr Dienst entered into an employment contract with Metal Management, Inc. (MMI) on 26 July 2007. This contract was amended as of 1 August 2009 and was due to expire on 30 June 2012. Last fiscal year, the Company made a one-off payment to Mr Dienst of US\$500,000 to extend the expiry / term of his contract through 30 June 2013. Mr Dienst's employment contract expired on 30 June 2013 and he ceased to be employed by the Company as of this date.
- The amended employment contract with the Company required that Mr Dienst pay back up to US\$3 million (Clawback Amount), amortising over a four-year period, should he resign or terminate his agreement other than for good reason, as defined by the agreement. There was no amortisation amount included in the remuneration table for FY13 as the Clawback Amount was fully amortised in FY12.
- Under the original agreement with MMI, if Mr Dienst was terminated involuntarily other than for cause, the Company was required to continue to pay Mr Dienst his fixed remuneration and target bonus for 24 months following termination. In addition, per the original agreement, and as previously disclosed in prior years, all unvested options, share grants, and any unvested LTI Plan compensation, would vest upon early involuntary termination. Going forward, for all new Senior Executives, the Committee has committed to structuring termination benefits in line with Australian market practice.
- Prior to the merger between MMI and the former Sims Group Limited, the MMI Board amended certain grants of performance rights pursuant to Mr Dienst's previous employment contract with MMI which caused vesting of such performance rights upon a change of control.

Benefits received upon retirement

Upon his retirement on 30 June 2013, Mr Dienst received no severance payment and no payment in lieu of notice. He received an STI award of US\$606,667 (A\$590,660), being one third of his target STI opportunity. Further information on the basis of this award is disclosed in Section E.

The Board exercised its discretion to determine that Mr Dienst's cessation of employment was a 'qualifying cessation' under the LTI Plan rules. As such, the options issued to Mr Dienst under the LTI Plan that have not vested will vest in accordance with their respective original vesting schedules through August 2015. The Board further exercised its discretion to allow for additional limited re-testing. As such, the performance rights previously granted to Mr Dienst in November 2010, 2011 and 2012 will continue to be tested in accordance with the LTI Plan rules up to June 2015.

The performance rights previously granted to Mr Dienst in November 2008 and 2009 lapsed on 30 June 2013. The options issued to Mr Dienst under the LTI Plan that have vested will continue to be exercisable until their original expiration dates.

Consulting agreement

Mr Dienst has entered into a consulting agreement with the Company effective from 1 July 2013. As disclosed by the Company to the Australian Securities Exchange on 6 June 2013, the material terms of the consultancy agreement are:

- Term of up to 12 months;
- Duties and responsibilities shall include:
 - assisting, as reasonably requested, the transition into the Company of the new CEO;
 - providing advice to the Chairman of the Company on SHEC safety related matters; and
 - assisting with the Company's strategy in China;
- Mr Dienst will make himself available up to an average of 12 days per month;
- Consulting fee of US\$50,000 per month, as well as reasonable expenses associated with the consultancy.

- During the term and, if the agreement continues for its full term until 30 June 2014, for a period of three months thereafter, Mr Dienst will not engage in any business or activity which is directly or indirectly in competition with that of the Company.

Senior Executives

The details of executive contracts for Senior Executives, other than Mr Davy who left the Company on 19 March 2013, are summarised below:

Contract term	<ul style="list-style-type: none"> - Mr McGree has a fixed term contract with automatic renewal. - Mr Larry's contract, which expired on 30 June 2012, was allowed to automatically renew through 30 June 2013 and again through 30 June 2014 in accordance with the terms of the agreement. - Mr Kelman does not have an employment contract.
Notice period	<ul style="list-style-type: none"> - Contracts typically may not be terminated during the fixed term, other than for cause. - For Mr McGree, after the expiration of his term, the Company must provide 12 months prior written notice or payment in lieu of notice. The Senior Executive is required to provide three months prior written notice to terminate the agreement.
Termination provisions (other than for cause)	<ul style="list-style-type: none"> - Mr Larry is entitled to receive an amount equivalent to 12 months base salary and all unvested options, share grants and LTI Plan awards vest in accordance with their original vesting schedule. - Mr McGree may have his contract terminated by the Company provided he receives 12 months prior written notice of termination or payment in lieu of notice based on his remuneration package.
Change of control	<ul style="list-style-type: none"> - Mr Larry is entitled to an amount equal to two times his fixed remuneration, and all unvested share awards will vest, if his employment is terminated within 12 months as a result of change in control. This clause is part of a legacy arrangement with MMI and will be addressed in any negotiations between Mr Larry and the Company in respect of the renewal of his contract with effect from 1 July 2014. - Mr McGree is entitled to a payment equivalent to six months total annual remuneration if he remains in the employ of the employer six months after a takeover of the Company (or if he is terminated within six months of such a takeover).
Redundancy	<ul style="list-style-type: none"> - In the event of redundancy, Mr McGree is entitled to the greater of 12 months' notice or payment in lieu, or a benefit calculated by reference to the Sims Metal Management Redundancy Policy up to a maximum of 18 months' remuneration depending upon years of service.

G: SHARE-BASED PAYMENT DISCLOSURES

Options provided as remuneration

The following table summarises the terms of outstanding option grants (and phantom option grants where applicable) for the Senior Executives.

- Mr Davy left the Company on 19 March 2013 and all of his unvested rights were forfeited.

H: NON-EXECUTIVE DIRECTOR REMUNERATION

Non-Executive Directors (NEDs) receive a base fee and also further fees for chairmanship of a Board Committee. Consistent with their governance role, NEDs do not participate in any incentive plans. Given the Group's performance, the Board resolved to reduce NED fees by 10% for FY14.

Approach to determining Non-Executive Director fees

Remuneration for NEDs recognises the need to reward directors for their commitment to the corporate governance of the Company, their active participation in the affairs of the business and the contribution they make generally to the maximisation of shareholder value. The Company aims to provide a level of remuneration for NEDs taking into account, among other things, fees paid for similar roles in comparable companies, the time commitment, risk and responsibility accepted by NEDs, and recognition of their commercial expertise and experience.

Non-Executive Directors' fees

The total amount of fees, including superannuation, for all NEDs must not exceed the limit approved by shareholders. The last approval was for A\$3,000,000 per annum approved at the 2009 AGM. The Board has resolved to reduce NED fees by 10% for FY14. Accordingly, no increase to the NED fee pool will be sought at the Company's 2013 AGM. The Board intends to revert to full fees in FY15.

Under the current fee framework, NEDs receive a base fee and also receive further fees for chairmanship of a Board Committee. There are no additional fees for membership of a Committee. The table below outlines fees for FY13 and FY14.

NED FEES (AUD)	Fiscal Year	
	2013	2014*
Base fee (Chairperson)	450,528	405,475
Base fee (NED)	203,424	183,082
Chairperson Risk, Audit & Compliance Committee	65,000	58,500
Chairperson Safety, Health, Environment & Community Committee	35,000	31,500
Chairperson Remuneration Committee	35,000	31,500
Chairperson Finance & Investment Committee	35,000	31,500
Chairperson Nomination/Governance Committee	35,000	31,500

*Reflecting 10% reduction in NED fees.

NEDs also receive reimbursement for reasonable travel, accommodation and other expenses incurred in travelling to or from meetings of the Board, or when otherwise engaged in the business of the Company in accordance with Board policy.

NEDs are not currently covered by any contract of employment; therefore, they have no contract duration, notice period for termination, or entitlement to termination payments other than as noted below under Retirement benefits.

NED equity arrangements

NEDs do not participate in any incentive (cash or equity-based) arrangements. Mr Morris holds options as a result of grants made by MMI prior to the merger with the former Sims Group Limited in March 2008.

Superannuation and retirement benefits

For Australian resident NEDs, superannuation is paid in addition to the above fees. The Company pays superannuation at 9% (increasing to 9.25% in FY14) for each Australian resident NED, as required by legislation. Superannuation is not paid for overseas directors.

The Company's NEDs' Retirement Allowance Scheme was discontinued effective 30 June 2006. The accrued amount for Mr Feeney, the sole remaining NED who had participated in the plan, was frozen and had been indexed at 5% per annum. Mr Feeney retired on 15 November 2012 and received a payment of A\$522,453 from the Company's NED Retirement Allowance Scheme.

Statutory NED remuneration disclosures

For NEDs who receive payments in foreign currencies, the table below reflects the Australian dollar equivalent based on the exchange rate at the date of payment. Accordingly, exchange rate movements may influence the disclosed fee level.

			2012	2,425,579	85,911	24,421	2,535,911

1 Messrs Bobins, DiLacqua, Lewon, Morris, Thompson and Varello are residents of the United States and received their payments in United States dollars. Fees for FY12 and FY13 that were paid in United States dollars were converted at a rate of A\$1 to US\$1 as established by the Committee in July 2011.

2 Messrs Feeney and Varello retired from the Board on 15 November 2012.

3 Mr Sato was appointed by Mitsui as their representative Director on 1 April 2013. Mr Sukagawa served as the representative Director for Mitsui until 31 March 2013. NED fees for Messrs Sato and Sukagawa are paid to a Mitsui affiliate in Australia.

4 Superannuation contributions are made on behalf of NEDs to satisfy the Company's obligations under Superannuation Guarantee legislation.

This report is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Board of Directors.

Auditor's Independence Declaration

As lead auditor for the audit of Sims Metal Management Limited for the year ended 30 June 2013, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Sims Metal Management Limited and the entities it controlled during the period.

A handwritten signature in black ink that reads 'D Wiadrowski'.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Reporting entity

Sims Metal Management Limited (the “Company”) is a company domiciled in Australia. The consolidated financial statements for the year ended 30 June 2013 comprise the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interest in associates, jointly controlled entities and joint venture operations. The Group is a for-profit entity for the purpose of preparing the consolidated financial statements.

(b) Basis of preparation

The consolidated financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards, interpretations and other authoritative pronouncements of the Australian Accounting Standards Board (“AASB”).

The consolidated financial statements were authorised for issue in accordance with a resolution of the Directors on 23 August 2013.

Compliance with IFRS

The consolidated financial statements comply with International Financial Reporting Standards (“IFRS”) and interpretations as issued by the International Accounting Standards Board (“IASB”).

Historical cost convention

The consolidated financial statements have been prepared under the historical cost convention, except for certain financial assets and liabilities, and liabilities for cash-settled share based payments, which are measured at fair value.

Reclassifications

Certain reclassifications have been made to prior period amounts to conform to the current period financial statement presentation with no significant impact on the previously reported consolidated financial statements.

The Group reclassified contract labour and redundancy costs of A\$78.5 million and A\$44.0 million, which were included within other expenses for the years ended 30 June 2012 and 30 June 2011, respectively, to employee benefits expense.

Rounding of amounts

The Company is of a kind referred to in the Australian Securities and Investments Commission (“ASIC”) Class Order No. 98/100 and, in accordance with this Class Order, amounts in the consolidated financial statements have been rounded off to the nearest tenth of a million dollars, unless otherwise stated.

(c) Critical accounting estimates

The preparation of the consolidated financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 4.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(d) New accounting standards and interpretations

The Group has adopted AASB 2011-9 *Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income* (Revised IAS 1). The adoption of the new standard has not resulted in any changes to the Group's accounting policies and has no effect on the amounts reported for the current or prior years. However, the application of AASB 2011-9 (Revised IAS 1) has resulted in changes to the Group's presentation of the statement of comprehensive income.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 July 2013 and have not been applied in preparing these consolidated financial statements. The Group's assessment of the impact of these new standards, amendments to standards and interpretations is set out below.

- AASB 9 *Financial Instruments* (IFRS 9) and AASB 2010-7 *Amendments to Australian Accounting Standards arising from AASB 9*.

AASB 9 (IFRS 9) introduces new requirements for the classification, measurement and derecognition of financial assets and financial liabilities. Application of AASB 9 (IFRS 9) is not expected to have a significant impact on the Group's accounting for financial assets and financial liabilities. AASB 9 (IFRS 9) is effective for annual periods beginning on or after 1 July 2015, and is available for early adoption.

- AASB 10 *Consolidated Financial Statements* (IFRS 10), AASB 11 *Joint Arrangements* (IFRS 11), AASB 12 *Disclosure of Interests in Other Entities* (IFRS 12), revised AASB 127 *Separate Financial Statements* (revised IAS 27), AASB 128 *Investments in Associates and Joint Ventures* (revised IAS 28) and AASB 2011-7 *Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards*.

In August 2011, the AASB and IASB issued a suite of six new and amended standards which address the accounting for joint arrangements, consolidated financial statements and associated disclosures. The standards are effective for annual periods beginning on or after 1 July 2013.

AASB 10 (IFRS 10) replaces the guidance on control and consolidation in AASB 127 (IAS 27) *Consolidated and Separate Financial Statements* and Interpretation 12 *Consolidation – Special Purpose Entities*. AASB 10 (IFRS 10) includes a new definition of control that focusses on the need to have both power and rights or exposure to variable returns. A review of all entities in the Group which are less than 100% owned has been completed to assess the impact of AASB 10 (IFRS 10). The review determined that AASB 10 (IFRS 10) is not expected to have a significant impact on the composition of investments currently consolidated into the Group's results.

AASB 11 (IFRS 11) replaces AASB 131 (IAS 31) *Interests in Joint Ventures* and uses the definition of control in AASB 10 (IFRS 10) to introduce a principles based approach to accounting for joint arrangements. The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement. The joint arrangement will be classified as either a joint operation or a joint venture. Parties to a joint operation recognise their share of assets, liabilities, income and expenses in relation to their interest in a joint operation. Joint venturers will be required to apply the equity method of accounting for their investment in a joint venture. A review of the Group's joint arrangements determined that AASB 11 (IFRS 11) is not expected to have a significant impact on the Group's consolidated financial statements.

AASB 12 (IFRS 12) sets out the required disclosures for entities reporting under the two new standards, AASB 10 (IFRS 10) and AASB 11 (IFRS 11), and replaces the disclosure requirements currently found in AASB 127 (IAS 27) and AASB 128 (IAS 28). Application of this standard by the Group will not affect any of the amounts recognised in the consolidated financial statements, but will impact the type of information disclosed in relation to the Group's investments.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(d) New accounting standards and interpretations (continued)

Amendments to AASB 128 (IAS 28) provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a “partial disposal” concept. The Group is still assessing the impact of these amendments.

- AASB 13 (IFRS 13) *Fair Value Measurement* and AASB 2011-8 *Amendments to Australian Accounting Standards arising from AASB 13*.

AASB 13 (IFRS 13) was released in September 2011. It explains how to measure fair value and aims to enhance fair value disclosures. The Group has yet to determine which, if any, of its current measurement techniques will have to change as a result of the new guidance. It is therefore not possible to state the impact, if any, of the new rules on any of the amounts recognised in the financial statements. However, application of the new standard will impact the type of information disclosed in the notes to the consolidated financial statements. The standard is effective for annual periods after 1 July 2013.

- Revised AASB 119 (revised IAS 19) *Employee Benefits*, AASB 2011-10 *Amendments to Australian Accounting Standards arising from AASB 119*.

In September 2011, the AASB and IASB released a revised standard on accounting for employee benefits. It requires the recognition of all remeasurements of defined benefit liabilities/assets immediately in other comprehensive income (removal of the so-called ‘corridor’ method), the immediate recognition of all past service cost in profit or loss and the calculation of a net interest expense or income by applying the discount rate to the net defined benefit liability or asset. This replaces the expected return on plan assets that is currently included in profit or loss. The revised standard also introduces a number of additional disclosures for defined benefit liabilities/assets and could affect the timing of the recognition of termination benefits. The amendments will have to be implemented retrospectively.

Had the Group adopted the new rules in the current reporting period, profit or loss for the current period would have been approximately A\$1.1 million lower net of tax, other comprehensive income approximately A\$1.1 million higher net of tax and total comprehensive income for the period unchanged. The Group expects a similar impact on profit or loss and other comprehensive income in the 2014 financial year. In the statement of financial position as at 30 June 2013, retirement benefit obligations, deferred tax assets and retained earnings including accumulated other comprehensive income would have been unchanged.

- AASB 2011-4 *Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements*.

AASB 2011-4 removes the individual key management personnel disclosure requirements from AASB 124 *Related Party Disclosures*, to achieve consistency with the international equivalent standard and remove a duplication of the requirements with the *Corporations Act 2001*. These amendments will be effective as of 1 July 2013 and cannot be adopted early.

There are no other standards that are not yet effective and that are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(e) Principles of consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. Accounting policies of subsidiaries, associates and jointly controlled entities have been changed where necessary to ensure consistency with the policies adopted by the Group.

(ii) Investments in associates and jointly controlled entities (equity-accounted investees)

An associate is an entity over whose operating and financial policies the Group exercises significant influence, but not control. Significant influence is presumed to exist where the Group has between 20% and 50% of the voting rights, but can also arise where the Group holds less than 20% if it has the power to be actively involved and influential in policy decisions affecting the entity. Jointly controlled entities are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

Investments in associates and jointly controlled entities are accounted for using the equity method of accounting. This involves recording the investment initially at cost, which therefore includes any goodwill and other intangibles on acquisition. The cost of the investment includes transaction costs. Impairment losses on the equity value of associates are reported under share of results of investments accounted for using the equity method.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases.

(iii) Jointly controlled operations

A jointly controlled operation is a joint venture carried on by each venturer using its own assets in pursuit of the joint operations. A jointly controlled operation does not involve the establishment of a corporation, partnership or other entity. The consolidated financial statements include the assets that the Group controls and the liabilities that it incurs in the course of pursuing the joint operation, and the expenses that the Group incurs and its share of the income that it earns from the joint operation.

(iv) Transactions eliminated in consolidation

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised gains on transactions between the Group and its equity-accounted investees are eliminated to the extent of the Group's interest in the investee. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

(v) Changes in ownership interests

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an equity-accounted investee is reduced, but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(f) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred to the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred and the amount of any non-controlling interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of the exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified as either equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

(g) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Australian dollars, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equities classified as available-for-sale financial assets are included in other comprehensive income.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(g) Foreign currency translation (continued)

(iii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each income statement and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case they are translated at the date of the transaction); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, borrowings and other financial instruments designated as hedges of such investments, or long-term intragroup borrowings which, in substance, form part of the Group's net investment in an entity, are recognised in other comprehensive income. When a loss of control occurs over a foreign operation, a proportionate share of such exchange differences is reclassified to profit or loss as part of the gain or loss on disposal where applicable.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(h) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns and trade allowances. Amounts billed to customers in respect of shipping and handling are classified as sales revenue where the Group is responsible for carriage, insurance and freight. All shipping and handling costs incurred by the Group are recognised as freight expense in the income statement.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved.

Revenue is recognised for the major business activities as follows:

(i) Sale of goods

Revenue from the sale of goods is recognised when there is persuasive evidence, usually in the form of an executed sales agreement at the time of delivery of goods to the customer, indicating that there has been a transfer of risks and rewards to the customer, no further work or processing is required, the quantity and quality of the goods have been determined, the price is fixed and generally title has passed.

(ii) Service revenue

Service revenue principally represents revenue earned from the collection of end-of-life post-consumer products for the purpose of product recycling. Service revenue is recognised when the services have been provided. Service revenue received in advance of the service being rendered is deferred.

(iii) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

(iv) Dividend income

Dividends are recognised when the right to receive payment is established.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(i) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to other income in the income statement on a straight-line basis over the expected lives of the related assets.

(j) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group's subsidiaries and associates operate and generate taxable income. Management periodically evaluates provisions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(j) Income tax (continued)

(i) Tax consolidation legislation

Sims Metal Management Limited and its wholly owned Australian controlled entities have implemented the tax consolidation legislation as of 31 October 2005. Sims Metal Management Limited is the head entity of the tax consolidated group. Members of the tax consolidated group have entered into a tax sharing and funding agreement that provides for the allocation of income tax liabilities between entities should the head entity default on its tax payment obligations. No amounts have been recognised in the consolidated financial statements in respect of this agreement on the basis that the probability of default is remote.

(ii) Investment allowances

Entities within the Group may be entitled to claim special tax deductions for investments in qualifying assets (investment allowances). The Group accounts for such allowances as tax credits, which means that the allowance reduces income tax payable and current tax expense. A deferred tax asset is recognised for unclaimed tax credits that are carried forward as deferred tax assets.

(k) Leases

Leases are classified at their inception as either finance or operating leases based on the economic substance of the arrangement so as to reflect the risks and benefits incidental to ownership. Finance leases are those that effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of the leased property. All other leases are classified as operating leases.

Assets held under finance leases are initially recognised at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. The Group does not have any significant finance leases.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. The respective leased assets are included in the statement of financial position based on their nature.

(l) Segment information

Operating segments are reported in a manner consistent with the internal reporting that was provided to the Group Chief Executive Officer (“CEO”), who was the chief operating decision maker. The Group CEO retired on 30 June 2013. Details on the Group’s segments are set out in Note 6.

(m) Impairment of non-current assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate a potential for impairment. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows, which are largely independent of the cash inflows from other assets or groups of assets (“CGUs”). Non-financial assets, other than goodwill, that suffered impairment are reviewed for possible reversal of the impairment at each reporting period.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(n) Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(o) Trade and other receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. Trade receivables are generally due for settlement within 30 to 60 days following shipment, except in the case of certain ferrous shipments made to export destinations, which are generally secured by letters of credit that are collected on negotiated terms but generally within 10 days of shipment.

Collectibility of trade receivables is reviewed on an ongoing basis. Individual debts that are known to be uncollectible are written-off by reducing the carrying amount directly. An allowance account (a provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivable. Indicators of impairment would include significant financial difficulties of the debtor, likelihood of the debtor's insolvency, default or delinquency in payment, or a significant deterioration in creditworthiness. The amount of the impairment provision is recognised in profit or loss within other expenses.

When a trade receivable for which an impairment provision had been recognised becomes uncollectible in a subsequent period, it is written-off against the provision for impairment account. Subsequent recoveries of amounts previously written-off are credited against other expenses in profit or loss.

(p) Inventory

Inventories are stated at the lower of cost and net realisable value. Cost is based on weighted average and comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditures, the latter being allocated on the basis of normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Stores consist of consumable and maintenance stores and are valued at the lower of cost and net realisable value. Cost is determined using weighted average costs.

(q) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits and financial assets that are carried at fair value, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(q) Non-current assets (or disposal groups) held for sale and discontinued operations (continued)

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the statement of financial position. The liabilities of an asset classified as held for sale and the liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the statement of financial position.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in profit or loss.

(r) Property, plant and equipment

Property, plant and equipment is recorded at historical cost less accumulated depreciation and accumulated impairment. Historical cost includes expenditures that are directly attributable to the acquisition and installation of the items. Cost may also include transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost net of their residual values, over their estimated useful lives, as follows:

- Buildings – 25 to 40 years
- Plant and equipment – 3 to 20 years
- Leasehold improvements – lesser of life of asset or life of the lease

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written-down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as set out in Note 1(m). Gains and losses on disposals are determined by comparing proceeds with carrying amounts and recognised in profit or loss.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(s) Financial assets

Initial recognition and measurement

The Group classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables, or available-for-sale financial assets. The Group determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at fair value plus transaction costs, except in the case of financial assets recorded at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date - the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as described below:

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Derivatives are classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on financial assets held for trading are recognised in profit or loss and the related assets are classified in the statement of financial position based on their maturity.

The Group evaluates its financial assets held for trading, other than derivatives, to determine whether the intention to sell them in the near term is still appropriate. When in rare circumstances the Group is unable to trade these financial assets due to inactive markets and management's intention to sell them in the foreseeable future significantly changes, the Group may elect to reclassify these financial assets. The reclassification to loans and receivables or available-for-sale depends on the nature of the asset. This evaluation does not affect any financial assets designated at fair value through profit or loss using the fair value option at designation, these instruments cannot be reclassified after initial recognition.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method, less impairment.

Convertible loans held by the Group are separately presented as a debt portion and conversion option embedded in convertible loans. On initial recognition, the debt portion represents the residual between the fair value of the convertible loan and the fair value of the embedded conversion option. The debt portion is classified as loans and receivables and is subsequently measured at amortised cost using the effective interest method.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(s) Financial assets (continued)

Subsequent measurement (continued)

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any other category. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investments reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the available-for-sale investment reserve to profit or loss.

The Group evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term is still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets and management's intention to do so significantly changes in the foreseeable future, the Group may elect to reclassify these financial assets. Reclassification to loans and receivables is permitted when the financial assets meet the definition of loans and receivables and the Group has the intent and ability to hold these assets for the foreseeable future or until maturity.

For a financial asset reclassified from the available-for-sale category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the effective interest method. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the effective interest method. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to profit or loss.

Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position, when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, is reclassified from equity and recognised in profit or loss as a reclassification adjustment. Impairment losses recognised in profit or loss on equity instruments classified as available-for-sale are not reversed through profit or loss.

If there is evidence of impairment for any of the Group's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in profit or loss.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(t) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either: (i) hedges of the fair value of recognised assets or liabilities or a firm commitment (“fair value hedges”); or (ii) hedges of a particular risk associated with the cash flows of recognised assets and liabilities and highly probable forecast transactions (“cash flow hedges”).

Certain derivative instruments do not qualify for hedge accounting, despite being valid economic hedges of the relevant risks. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in profit or loss and are included in other income or other expenses.

The Group documents, at the inception of the hedging transaction, the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been, and will continue to be, highly effective in offsetting changes in fair values or cash flows of hedged items.

The fair values of various derivative financial instruments used for hedging purposes are disclosed in Note 12. Movements in the hedging reserve in equity are shown in Note 21. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity is less than 12 months.

Options and warrants associated with listed equity securities and the conversion feature of convertible loans are classified as derivatives on the statement of financial position.

(i) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in profit or loss, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

(ii) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in other comprehensive income and accumulated in the hedging reserve in equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of forward foreign exchange contracts hedging export sales is recognised in profit or loss within revenue.

Where the hedged item is the cost of a non-financial asset or liability, such as a forecast transaction for the purchase of property, plant and equipment, the amounts recognised within other comprehensive income are transferred to the initial carrying amount of the non-financial asset or liability.

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gains or losses that were deferred in equity are immediately transferred to profit or loss.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(u) Goodwill and other intangible assets

(i) Goodwill

Goodwill is measured as described in Note 1(f). Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to CGUs for the purpose of impairment testing. The allocation is made to those CGUs or groups of CGUs that are expected to benefit from the business combination in which the goodwill arose.

(ii) Trade name

Trade name relates principally to the “Metal Management” trading name. This intangible asset has a finite useful life and is carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of the trade name over its estimated useful life, which is 20 years.

(iii) Supplier relationships and contracts

Supplier relationships and contracts acquired as part of a business combination are recognised separately from goodwill. The supplier relationships and contracts are carried at their fair value at the date of acquisition less accumulated amortisation and impairment losses. Amortisation is calculated based on the timing of projected cash flows of the supplier relationships or straight-line method (as appropriate) over their estimated useful lives, which currently vary from 1 to 10 years.

(iv) Permits

Permits acquired as part of a business combination are recognised separately from goodwill. Permits are issued by state and local governments and are renewable at little or no cost and are thus considered to have an indefinite life. Permits are carried at their fair value at the date of acquisition and are not amortised. Instead, permits are tested for impairment annually, or more frequently if events or changes in circumstances indicate that they might be impaired, and are carried at cost less accumulated impairment losses. Permits that relate to facilities that close, relocate or sold are written-off to nil at the time the facility is closed, relocated or sold.

(v) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of a financial year, which are unpaid. The amounts are unsecured and are usually payable within 30 days of recognition.

(w) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities, which are not an incremental cost relating to the actual draw-down of the facility, are recognised as prepayments and amortised to finance costs on a straight-line basis over the term of the loan facility.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has the unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(x) Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time required to complete and prepare the asset for its intended use. Other borrowing costs are recognised as expenses in the period in which they are incurred.

(y) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(z) Employee benefits

(i) Salaries and annual leave

Liabilities for salaries and annual leave expected to be settled within 12 months of the end of the period in which employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave is recognised in the provision for employee benefits and the liability for salaries is recognised in other payables.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period in which the employees render the related service. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Superannuation, pensions and other post-retirement benefits

The Group operates or participates in a number of pension (including superannuation) schemes throughout the world. The funding of the schemes complies with local regulations. The assets of the schemes are generally held separately from those of the Group and are administered by trustees or management boards.

For defined contribution schemes or schemes operated on an industry-wide basis where it is not possible to identify assets attributable to the participation by the Group's employees, the cost is calculated on the basis of contributions payable.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(z) Employee benefits (continued)

(iii) Superannuation, pensions and other post-retirement benefits (continued)

For defined benefit schemes, the cost of providing pensions is charged to profit or loss so as to recognise current and past service costs, interest cost on defined benefit obligations, and the effect of any curtailments or settlements, net of expected returns on plan assets. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. An asset or liability is consequently recognised in the statement of financial position based on the present value of the defined benefit obligation at the end of the reporting period, less any unrecognised past service costs and the fair value of plan assets at that date.

The present value of the defined benefit obligation is calculated by independent actuaries by discounting expected future payments using market yields at the reporting date on high quality corporate bonds in countries that have developed corporate bond markets. However, where developed corporate bond markets do not exist, the discount rates are selected by reference to national government bonds. In both instances, the bonds are selected with terms to maturity and currencies that match, as closely as possible, the estimated future cash flows. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Details relating to retirement benefit obligations are set out in Note 19.

(iv) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits due more than 12 months after the end of the reporting period are discounted to present value.

(v) Share-based payments

Share-based compensation benefits are provided to certain employees via the schemes set out in Note 25. For share-based arrangements, the fair value is measured at grant date and recognised as an employee benefit expense with a corresponding increase in equity. For cash-settled share-based arrangements, the fair value of the amount payable is recognised as an employee benefit expense with a corresponding increase to a liability. The liability is re-measured each reporting date and at settlement date. Any changes in the fair value of the liability are recognised as an employee benefit expense in profit or loss.

The fair value at grant date is independently determined using either a binomial model or a Monte-Carlo simulation model. The model takes into account the exercise price, the term, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield, and the risk-free interest rate for the term of the grant. The fair value is adjusted to reflect market vesting conditions, but excludes the impact of any non-market vesting conditions (for example, earnings per share targets). Non-market vesting conditions are included in assumptions about the number of shares that are expected to become exercisable. At the end of each reporting period, the Group revises its estimate of the number of shares that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate. The impact of the revision to original estimates, if any, is recognised in profit or loss with a corresponding adjustment to equity.

(aa) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

When the Company purchases any of its own equity instruments, for example, as a result of a share buy-back, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from contributed equity and any reacquired shares are cancelled upon their purchase.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(ab) Dividends

A provision is made for the amount of any dividends declared on or before the end of the reporting period, but not distributed at the end of the reporting period.

(ac) Earnings per share (“EPS”)

Basic earnings per share is calculated by dividing net profit by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(ad) Goods and services or other value-added taxes (“GST”)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case, it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities, which are recoverable from, or payable to, the taxation authority, are presented as operating cash flows.

(ae) Parent entity financial information

The financial information for the parent entity, Sims Metal Management Limited, disclosed in Note 32, has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) Investments in subsidiaries

Investments in subsidiaries are accounted for at cost in the financial statements of the Company. Dividends received from subsidiaries are recognised in the Company’s profit or loss, rather than being deducted from the carrying amount of the investments.

(ii) Tax consolidation legislation

The Company and its wholly owned Australian controlled entities have implemented the tax consolidation legislation. The head entity, Sims Metal Management Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These amounts are measured as if each entity in the tax consolidated group continues to be a standalone taxpayer in its own right.

In addition to its current and deferred tax amounts, the Company also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

The entities have also entered into a tax funding agreement under which the wholly owned entities fully compensate the Company for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to the Company under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly owned entities’ financial statements.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 1 – Summary of significant accounting policies (continued)

(ae) Parent entity financial information (continued)

(ii) Tax consolidation legislation (continued)

The amount receivable/payable under the tax funding agreement is due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax installments.

Assets or liabilities arising under the tax funding agreements with the tax consolidated entities are recognised as current amounts receivable from or payable to other entities in the Group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

Note 2 – Prior period restatement

On 21 January 2013, the Board of Directors (the “Board”) announced that it had established a Special Committee (the “Committee”) to investigate inventory valuation issues in the Group’s business in the United Kingdom. On 15 February 2013, the Company announced the preliminary results of the Committee’s investigation which revealed that the Group’s United Kingdom inventories were overstated by A\$62.0 million (A\$44.9 million after-tax) in periods that preceded fiscal 2013.

As described further in Note 14, the Group was required to reassess its goodwill for impairment in the United Kingdom for the prior periods impacted by the restatement. The reassessment resulted in an additional impairment of goodwill of A\$60.5 million (A\$56.5 million after-tax) for the year ended 30 June 2012.

The Board believed it was appropriate to adjust these errors with prior year adjustments in accordance AASB 108 (IAS 8) *Accounting Policies, Changes in Accounting Estimates and Errors*. The impact on the Group’s financial statements for the prior periods impacted is set out below. The entire impact was on the Europe segment.

(a) Impact on profit or loss

	2012	2011	2010
	A\$m	A\$m	A\$m
(Loss)/profit as previously reported	(521.4)	192.1	126.7
Restatement of errors:			
Increase in raw materials used and changes in inventories	(48.0)	(6.6)	(7.4)
Increase in impairment of goodwill and other intangibles	(60.5)	-	-

Note 3 – Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including interest rate risk, foreign exchange risk, commodity price risk and equity securities price risk), credit risk and liquidity risk. The Group's overall financial risk management strategy seeks to mitigate these risks to minimise potential adverse effects on the financial performance of the Group.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 3 – Financial risk management (continued)

The Group uses derivative financial instruments in certain circumstances in accordance with Board approved policies to hedge exposure to fluctuations in foreign exchange rates or commodity prices. Derivative financial instruments are used for hedging purposes and not as trading or other speculative instruments. The Group uses different methods to measure different types of risk to which it is exposed. These methods include monitoring key movements in interest rates, key transactions affected by foreign exchange, commodity prices, equity prices, and ageing analysis for credit risk. Risk management is carried out by a limited number of employees as authorised by the Board. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and the investment of excess liquidity.

The Risk, Audit & Compliance Committee (“RAC”) of the Board oversees, on a quarterly basis, the monitoring of compliance by management with the Group’s risk management framework. The RAC is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are also reported to the RAC.

The Group holds the following financial instruments:

	2013	2012
	A\$m	A\$m
	<u> </u>	<u>restated</u>
Financial assets:		
Cash and cash equivalents	46.9	51.4
Trade and other receivables	455.4	518.8
Other financial assets	<u>77.0</u>	<u>78.8</u>
Total financial assets	<u>579.3</u>	<u>649.0</u>
Financial liabilities:		
Trade and other payables	593.5	680.1
Borrowings	200.7	343.6
Other financial liabilities	<u>6.3</u>	<u>2.1</u>
Total financial liabilities	<u>800.5</u>	<u>1,025.8</u>

(a) Market risk

Market risk is the risk that the fair value or future cash flows of the Group’s financial instruments will fluctuate because of changes in market prices. The market risks to which the Group is exposed are discussed in further detail below.

(i) Interest rate risk

Interest rate risk arises from interest bearing financial assets and liabilities that the Group utilises. The Group’s main exposure to interest rate risk arises from borrowings at variable interest rates. The Group does not use any derivative financial instruments to manage its exposure to interest rate risk. Cash deposits, loans to third parties and associates, and borrowings issued at fixed rates expose the Group to fair value interest rate risk.

The Group’s borrowings are sourced primarily from domestic, but also offshore, markets. The Group’s borrowings consist primarily of foreign currency denominated borrowings and are managed in accordance with targeted currency, interest rate, liquidity and debt portfolio maturity profiles.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 3 – Financial risk management (continued)

(a) Market risk (continued)

(i) Interest rate risk (continued)

Specifically, interest rate risk is managed on the Group's net debt portfolio by:

- providing access to diverse sources of funding;
- reducing risks of refinancing by establishing and managing in accordance with target maturity profiles; and
- negotiating interest rates with the Group's banks based on a variable pricing matrix, which generally involve a LIBOR rate plus a margin.

The Group's weighted average interest rate on interest-bearing liabilities for the year ended 30 June 2013 was 2.8% (2012: 2.5%). If interest rates had increased by 100 basis points as at the balance date with all other variables held constant, post-tax profit for the year ended 30 June 2013 would have been A\$1.5 million lower (2012: A\$2.4 million lower). A sensitivity of 100 basis points is deemed reasonable based on current and past market conditions. The calculations are based on interest-bearing financial instruments with variable interest rates at the end of the reporting period. A 100 basis points decrease in interest rates would have an equal and opposite effect.

(ii) Price risk

Commodity price risk

The Group is exposed to risks associated with fluctuations in the market price for ferrous and non-ferrous metals and precious metals, which are at times volatile. The Group seeks to mitigate commodity price risk by seeking to turn over its inventories quickly, instead of holding inventories in anticipation of higher commodity prices. The ability of the Group to accomplish an adequate level of inventory turnover can be a function of demand and market conditions which are not always steady. The Group uses forward commodity contracts matched to purchases or sales of non-ferrous metals (primarily copper, nickel and aluminum) and certain precious metals (primarily gold, silver and palladium).

The Group's normal policy is to sell its products at prevailing market prices. Exceptions to this rule are subject to limits and policies approved by the Board and to systems of internal controls and compliance monitoring. The Group's exposure to commodity prices is to an extent diversified by virtue of its broad commodity base.

At the end of the reporting period, none of the Group's forward commodity contracts qualified for hedge accounting, despite being valid economic hedges of the relevant risk. Accordingly, any movement in commodity rates that impact the fair value of these forward commodity contracts are recorded in profit or loss. Note 12 shows the carrying amount of the Group's forward commodity contracts at the end of the reporting period.

The following table shows the effect on post-tax profit from a 10% appreciation in commodity prices at the end of the reporting period being applied to outstanding forward commodity contracts, with all other variables held constant. A 10% sensitivity has been selected, as this is considered reasonable, given the current level of commodity prices and the volatility observed both on a historical basis and on market expectations for future movements.

	2013	2012
	A\$m	A\$m
Impact on post-tax profit – higher/(lower)	(8.8)	(9.2)

A 10% depreciation of the stated commodity prices would have an equal and opposite effect.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 3 – Financial risk management (continued)

(a) Market risk (continued)

(ii) Price risk (continued)

Equity securities price risk

The Group is exposed to equity securities price risk through financial instruments classified as fair value through profit or loss, whose valuations are partially derived from equity prices of listed securities. These financial instruments relate to an investment in an associate that the Group considers strategic in nature. The Group does not attempt to manage the price risk related to these financial instruments.

The Group is also exposed to equity securities price risk through investments in marketable securities. These marketable securities are traded in major financial markets. The price risk for these investments is immaterial in terms of possible impact on profit or loss.

(iii) Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk, primarily with respect to transactions settled in US dollars. Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. Financial assets and liabilities denominated in currencies other than the functional currency of an entity are periodically restated to their functional currency, and the associated gain or loss is taken to profit or loss. The exposure of an entity to transaction risk is minimised by matching local currency income with local currency costs.

The Group seeks to denominate borrowings in the currencies of its principal assets and cash flows. These are primarily denominated in US dollars, British pounds, euros and Australian dollars.

In accordance with Board approved policies, the Group enters into forward foreign exchange contracts to buy and sell specific amounts of various foreign currencies in the future at predetermined exchange rates. The forward foreign exchange contracts are used to hedge transactions denominated in currencies that are not the functional currency of the relevant entity. These contracts are hedging highly probable forecasted transactions and recognised assets and liabilities for the ensuing financial year. The contracts are timed to mature when monies from the forecasted sales are scheduled to be received or when payments for purchases are scheduled to be made.

The Group's exposure to foreign exchange risk at the end of the reporting period, expressed in Australian dollars, was as follows:

Currency:	Net financial assets/(liabilities)	
	2013	2012
	A\$m	A\$m
US dollar	22.3	37.4
Euro	17.3	31.8
British pound	(0.2)	-

The table below shows the net impact of a 10% appreciation of the relevant currency against the Australian dollar for the balances above with all other variables held constant and the corresponding effect on the Group's forward foreign exchange contracts with all other variables held constant. A sensitivity of 10% has been selected, as this is considered reasonable, given the current level of exchange rates and the volatility observed both on a historical basis and on market expectations for future movements.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 3 – Financial risk management (continued)

(a) Market risk (continued)

(iii) Foreign exchange risk (continued)

	US dollar		Euro		British pound	
	2013	2012	2013	2012	2013	2012
	A\$m	A\$m	A\$m	A\$m	A\$m	A\$m
Impact on post-tax profit – higher/(lower)	(1.0)	1.0	0.5	0.8	-	-
Impact on equity	20.2	14.7	(0.5)	(0.7)	10.0	9.3

The impact on equity includes the effect from intragroup long-term borrowings which, in substance, form part of the Group's investment in an entity. Exchange gains and losses on these balances are recorded in the foreign currency translation reserve.

A 10% depreciation of the relevant currency against the Australian dollar would have an equal and opposite effect.

Translation risk

The financial statements for each of the Group's foreign operations are prepared in local currency, being their functional currency. For the purposes of preparing the Group's consolidated financial information, each foreign operation's financial statements are translated into Australian dollars using the applicable foreign exchange rates as at the balance date. A translation risk, therefore, exists on translating the financial statements of the Group's foreign operations into Australian dollars for the purposes of reporting consolidated financial information. As a result, volatility in foreign exchange rates can impact the Group's net assets, net profit and the foreign currency translation reserve and as a result can influence compliance with credit agreements.

(b) Credit risk

Credit risk is the risk that a counterparty will not complete its obligations under a financial instrument and cause a financial loss to the Group. The Group has exposure to credit risk on all financial assets included in the Group's statement of financial position.

The Group establishes credit limits for its customers. Trade and other receivables consist of a large number of customers, spread across various metal producing sectors in international markets. The Group does not have any significant credit risk exposure to a single customer or groups of customers. Ongoing credit evaluation is performed on the financial condition of the Group's customers and, where appropriate, an impairment provision is raised. For certain customers, the Group purchases credit insurance to protect itself against collection risks.

The Group is also exposed to credit risk arising from the Group's transactions in derivative contracts. For credit purposes, there is only a credit risk where the counterparty is liable to pay the Group in the event of a closeout. The Group has policies that limit the amount of credit exposure to any financial institution. Derivative counterparties and cash transactions are limited to financial institutions that have a minimum credit rating of "A" by either Standard & Poor's or Moody's. Management also monitors the current credit exposure with each counterparty. Any changes to counterparties or their credit limits must be approved by the Group Chief Financial Officer.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 3 – Financial risk management (continued)

(c) Liquidity risk

Liquidity risk is associated with ensuring that there is sufficient cash and cash equivalents and the availability of funding through an adequate amount of committed credit facilities to meet the Group's obligations as they mature and the ability to close out market positions.

The Group manages liquidity risk by monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Due to the dynamic and volatile nature of the underlying businesses, the Group aims at maintaining flexibility in funding by keeping committed credit lines available with a variety of counterparties.

The Group has access to unsecured global multi-currency/multi-option loan facilities all of which are subject to common terms. The loan facilities have maturities through 31 October 2015. The Group also has annual rights to extend the maturity by an additional year in certain circumstances. The Group had access to the following credit standby arrangements at the balance date. The amount of credit available is subject to limits from covenants as specified in the loan facilities.

	2013	2012
	A\$m	A\$m
Unsecured global multi-currency/multi-option loan facilities	1,396.7	1,451.6
Amount of credit unused	1,177.4	1,098.0

The contractual cash flows of the Group's financial liabilities are shown in the table below. The contractual amounts represent the future undiscounted cash flows. The amounts for interest bearing liabilities also include interest cash flows and, therefore, do not equate to the carrying amount. The expected timing of cash outflows are set out below.

	2013 A\$m			2012 A\$m		
	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years
Non-derivatives:						
Trade and other payables	585.2	-	-	672.1	-	-
Payables – non-current	-	2.3	6.0	-	2.9	5.1
Borrowings (including interest payments)	30.7	19.1	195.5	18.3	18.2	349.7
	615.9	21.4	201.5	690.4	21.1	354.8
Financial guarantees ¹	61.9	-	-	41.6	-	-
	677.8	21.4	201.5	732.0	21.1	354.8
Derivatives:						
Net settled (forward commodity contracts)	0.8	-	-	1.4	-	-
Gross settled (forward foreign exchange contracts):						
- (inflow)	(224.4)	-	-	(149.3)	-	-
- outflow	229.9	-	-	150.0	-	-
	6.3	-	-	2.1	-	-

¹ Refer to Note 23(a) for details on financial guarantees. The amounts disclosed above are the maximum amounts allocated to the earliest period in which the guarantee could be called. However, the Group considers that it is more likely than not that such an amount will not be payable under the arrangement.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2013

Note 4 – Critical accounting estimates and judgements

Certain amounts included in the consolidated financial statements involve the use of estimation and/or judgement. Estimates and judgments used in preparation of the consolidated financial statements are continually evaluated and are based on historical experience and other factors, including the expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. The resulting accounting estimates may differ from actual results.

The following are the critical judgements and estimations that have the most significant effect on the amounts recognised in the consolidated financial statements.

Impairment of goodwill

Goodwill is tested for impairment in accordance with the accounting policy stated in Note 1(u). For goodwill impairment testing, the recoverable amount of each CGU is determined based on the higher of its value-in-use or fair value less costs to sell. These calculations require the use of assumptions such as discount rates, exchange rates, growth rates, and other assumptions. As at 30 June 2013, the carrying amount of goodwill was A\$166.5 million. Refer to Note 14 for details of these assumptions and the potential impact of changes to the assumptions.

Taxation

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required in determining the worldwide provision for income taxes due to the complexity of legislation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The Group recognises the net future tax benefit related to deferred income tax assets to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future. Assessing the recoverability of deferred income tax assets requires the Group to make significant estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Group to realise the net deferred tax assets recorded at the reporting date could be impacted. Additionally, future changes in tax laws in the jurisdictions in which the Group operates could limit the ability of the Group to obtain tax deductions in future periods. For more information see Note 9.

Valuation of inventories

The Group's inventories primarily consist of ferrous and non-ferrous scrap metals. Quantities of inventories are determined using various estimation techniques, including observation, weighing and other industry methods and are subject to periodic physical verification.

Inventories are stated at the lower of cost and net realisable value, with due allowance for excess, obsolete or slow moving items. Cost is determined by the weighted average method and comprises direct purchase costs, direct labour and an appropriate portion of fixed and variable overhead costs (refer to Note 1(p)). The Group reviews its inventory at the end of each reporting period to determine if it is properly stated at net realisable value. Net realisable value is based on current assessments of future demand and market conditions. The amount of write-downs of inventories to net realisable value is disclosed in Note 8. Given the significance of inventories to the consolidated statement of financial position, the determination of net realisable value is considered to be a critical accounting estimate. Impairment losses may be recognised on inventory in the next financial year if management needs to revise its estimates of net realisable value in response to changing market conditions.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 5 – Earnings per share

	<u>2013</u>	<u>2012</u> <u>restated</u>	<u>2011</u> <u>restated</u>
(Loss)/earnings per share (in cents)			
Basic	(228.1)	(302.4)	91.5
Diluted	(228.1)	(302.4)	90.9
Weighted average number of shares used in the denominator ('000)			
Basic shares	204,391	205,828	204,630
Dilutive effect of share-based awards	<u>-</u>	<u>-</u>	<u>1,330</u>
Diluted shares	<u>204,391</u>	<u>205,828</u>	<u>205,960</u>

Due to the loss after tax in the years ended 30 June 2013 and 2012, the dilutive effect of share-based awards, which was approximately 2.8 million and 2.0 million shares, respectively, was not included as the result would have been anti-dilutive. For the year ended 30 June 2011, share awards granted to employees are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent they are dilutive. Details relating to share awards are set out in Note 25.

Note 6 – Segment information

(a) Description of segments

The Group is principally organised geographically and then by line of business. While the CEO has historically evaluated results in a number of different ways, the geographical area of operation is the primary basis for which the allocations of resources and financial results are assessed. The major geographic areas of operations are as follows:

- **North America** - comprising the United States of America and Canada.
- **Australasia** - comprising Australia, New Zealand, Papua New Guinea, India, Singapore, Hong Kong, Dubai and South Africa.
- **Europe** - comprising the United Kingdom, Sweden, Belgium, the Netherlands, Germany, Poland, the Czech Republic, Hungary, Austria and Croatia.

The Group reports revenues by the following product groups:

- **Ferrous secondary recycling** - comprising the collection, processing and trading of iron and steel secondary raw material.
- **Non-ferrous secondary recycling** - comprising the collection, processing and trading of other metal alloys and residues, principally aluminium, lead, copper, zinc and nickel bearing materials.
- **Recycling solutions** - comprising the provision of environmentally responsible solutions for the disposal of post-consumer electronic products, including IT assets recycled for commercial customers. The Group offers fee-for-service business opportunities in the environmentally responsible recycling of negative value materials, including refrigerators, electrical and electronic equipment.
- **Secondary processing and other services** - comprising value-added processes involving the melting, refining and ingoting of certain non-ferrous metals and other sources of service based revenue.

(b) Information about reportable segments

There have been no changes to the basis of segmentation or the measurement basis for the segment profit before income tax since 30 June 2012.

Notes to the Consolidated Financial Statements

Transaction costs related to business combinations	0.7	2.5	3.1
Professional fees associated with various matters ⁵	2.4	-	-
Provision recorded for disputes with third parties (Note 23)	4.7	12.8	-
Lease settlements and onerous lease provisions ⁶	13.1	-	-
Yard closure costs and dilapidation provisions	8.5	-	-
Withdrawal liability related to multi-employer pension plans	-	3.0	-

¹ 2013 amount includes A\$1.1 million provision related to a receivable that was partially impaired as a result of a customer bankruptcy (2012: A\$4.4 million).

² 2013 amount is comprised of impairments of A\$45.8 million related to excess or under-utilised processing equipment and A\$15.4 million related to assets held for sale. 2012 amount was comprised of impairments of A\$3.4 million related to excess or under-utilised processing equipment offset by the reversal of a previously recognised impairment of A\$3.0 million on land.

³ Amount represents the loss on the sale of additional assets related to the Group's 50% ownership interest in the secondary lead producing facility in Sydney, Australia of Australia Refined Alloys.

⁴ 2013 amount represents costs associated with Superstorm Sandy in the United States. 2012 and 2011 amounts primarily represents costs associated with the floods in Queensland, Australia. These costs were reimbursed by the Group's insurance carrier and the reimbursement is included in the "insurance recoveries" line in other income above.

⁵ Amounts include professional fees incurred in connection with the United Kingdom investigation conducted by the Special Committee of the Board, legal fees associated with business disposals and costs incurred to-date related to the search for a new Group Chief Executive Officer.

⁶ Amounts include settlements for real estate leases which were terminated early and onerous lease provisions for under-utilised sites.

Deferred tax liabilities expected to be settled after 12 months	65.7	104.6
	<u>73.8</u>	<u>109.1</u>

(f) Unrecognised deferred tax assets

Deferred tax assets totaling A\$69.2 million (2012: A\$18.8 million) have not been recognised as it is not probable that they will be realised.

(g) Unrecognised temporary differences associated with investments and interests

As at 30 June 2013, there were no unrecognised temporary differences associated with the Group's investments in subsidiaries, associates, or jointly controlled entities, as the Group has no liability for additional taxation should unremitted earnings be remitted.

Note 10 – Trade and other receivables

	2013	2012
	A\$m	A\$m
	<u>A\$m</u>	<u>restated</u>
Trade receivables	335.2	392.5
Provision for impairment of receivables	(10.6)	(8.3)
	<u>324.6</u>	<u>384.2</u>
Other receivables and deferred expenses	96.9	81.8
Tax receivable	14.1	28.4
Prepayments	19.8	24.4
	<u>130.8</u>	<u>134.6</u>
	<u>455.4</u>	<u>518.8</u>

Occasionally, the Group will sell a portion of its trade receivables to third parties. All credit risk passes to the third party at the time of the assignment, such that the Group has no further exposure to default by the specific trade debtors. The amount of trade receivables sold to third parties was not significant in the periods presented. The third party is not obliged to accept offers of receivables and the Group is not obligated to make offers or pay commitment fees to the third party.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 10 – Trade and other receivables (continued)

(a) Movements in provision for impairment of receivables

	2013	2012	2011
	<u>A\$m</u>	<u>A\$m</u>	<u>A\$m</u>
Balance at 1 July	8.3	5.4	3.6
Provision for impairment recognised during the year	2.4	5.1	0.3
Acquisitions	-	-	2.8
Write-offs	(0.9)	(2.4)	(0.8)
Reclassified as assets held for sale	(0.1)	-	-
Foreign exchange differences	0.9	0.2	(0.5)
Balance at 30 June	<u>10.6</u>	<u>8.3</u>	<u>5.4</u>

The creation and release of the provision for impaired receivables has been included in other expenses in profit or loss. Amounts charged to the allowance account are generally written-off when there is no expectation of recovering additional cash.

(b) Past due but not impaired

As at 30 June 2013, receivables of A\$77.6 million (2012: A\$65.7 million) were past due but not impaired and the Group does not hold any material collateral in relation to these receivables. These relate to a number of independent customers for whom there is no recent history of default. The ageing analyses of these receivables are as follows:

	2013	2012
	<u>A\$m</u>	<u>A\$m</u>
Days overdue:		
1 – 30 days	63.5	50.6
31 – 60 days	7.4	4.0
Over 60 days	6.7	11.1
	<u>77.6</u>	<u>65.7</u>

(c) Other receivables and deferred expenses

Other receivable amounts generally arise from transactions outside the usual operating activities of the Group. Interest may be charged at commercial rates where the terms of repayment exceed six months. Collateral is not normally obtained.

(d) Foreign exchange and interest rate risk

Information about the Group's exposure to foreign exchange risk and interest rate risk in relation to trade and other receivables is provided in Note 3.

(e) Fair value and credit risk

Due to their short-term nature, the carrying value of current receivables approximates its fair value.

The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of receivables mentioned above. The fair value of securities held for certain trade receivables is insignificant, as is the fair value of any collateral sold or repledged. Refer to Note 3 for more information on the Group's exposure to credit risk.

Notes to the Consolidated Financial Statements

Forward commodity contracts	<u>0.8</u>	<u>1.4</u>
	<u>6.3</u>	<u>2.1</u>

(a) Convertible loan

On 1 March 2012, the Group subscribed for a HK\$315.6 million (A\$37.8 million) convertible loan from Chih-Tiande Group Limited (“CTG”), an associate of the Group. The convertible loan carries an annual interest rate of 4% and is convertible at HK\$6.00 per share. In connection with the subscription, CTG also issued to the Group, warrants to purchase 12,638,441 shares of CTG at an exercise price of HK\$6.00 per share. Both the convertible loan and warrants have a term of three years from the date of issue, but are not convertible or exercisable until two years from the date of the issue. In certain instances, the conversion period can be extended for a further two years.

The conversion feature of the convertible loan represents an embedded derivative, which along with the warrants, are recorded as financial assets at fair value through profit or loss. The fair value of both of these financial assets at the issue date was independently calculated by a valuation firm and was recorded as a reduction to the convertible loan as follows in the year ended 30 June 2012:

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 12 – Other financial assets and liabilities (continued)

(a) Convertible loan (continued)

	<u>A\$m</u>
Fair value of conversion feature	6.1
Fair value of warrants	1.0
Amortised cost of convertible loan	<u>30.7</u>
	<u>37.8</u>

Subsequent to their initial recognition, the conversion feature and warrants have been measured at fair value, with gains or losses being recognised in profit or loss. Subsequent to its initial recognition, the convertible loan is recorded at amortised cost using the effective interest method.

(b) Options

On 17 January 2012, the Group received options to purchase 20,837,095 shares of CTG as part of its investment in CTG (see Note 30). The options have an exercise price of HK\$6.00 per share, are immediately exercisable and expire on 17 January 2015.

The options are recorded as financial assets at fair value through profit or loss. The fair value of the options at the issue date was A\$1.1 million and was independently calculated by a valuation firm. Subsequent to its initial recognition, the options have been measured at fair value, with any gains or losses being recognised in profit or loss.

(c) Derivatives used by the Group

The Group is a party to derivative financial instruments in the normal course of business in order to hedge its exposure to currency fluctuations in foreign exchange rates and commodity prices in accordance with the Group's financial risk management policies, which are set out in Note 3.

(i) Forward foreign exchange contracts

In order to protect against exchange rate movements in relation to material purchases and sales and underlying transactions between subsidiaries, the Group has entered into forward foreign exchange contracts to purchase foreign currencies for settlement of the related transaction. The Group's primary exposure is to US dollars, euros and British pounds as disclosed in Note 3.

The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is deferred and recognised in other comprehensive income to the extent that the hedge is effective. When the cash flows occur, the amount is released to profit or loss. Any ineffective portion is charged to profit or loss.

(ii) Forward commodity contracts

The Group has entered into forward commodity contracts, which are economic hedges but do not satisfy the requirements for hedge accounting. These contracts protect against movements in the underlying commodity of the related material purchase or sale. The Group's primary exposure is to non-ferrous and precious metal prices as disclosed in Note 3.

(d) Loans to third parties carried at amortised cost

As at 30 June 2013, the Group performed an evaluation of a series of loans made to a third party and recorded an impairment charge of A\$4.8 million. The Group's assessment was based on significant financial difficulty facing the third party which has resulted in breach of the loan agreements. The Group has a security interest in the inventory of the third party and determined the impairment based on the amount of the loan that exceeded the value of the security interest. After the impairment charge, the Group has a loan balance, net of the impairment charge, from the third party of A\$14.8 million which is all classified as current.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 12 – Other financial assets and liabilities (continued)

(e) Risk exposures

Information about the Group's exposure to credit risk, foreign exchange, price and interest rate risk is provided in Note 3. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial instrument mentioned above.

(f) Fair value

The loans to third parties and the convertible loan to a listed entity, carried at amortised cost, accrue interest at a fixed rate. The fair value of these loans using current interest rates approximates their carrying value. The carrying value of other non-current receivables approximates their fair value.

Financial instruments carried at fair value are classified by valuation method using the following hierarchy:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents the Group's financial instruments measured at fair value by valuation method.

2013	Level 1	Level 2	Level 3	Total
	A\$m	A\$m	A\$m	A\$m
Financial assets:				
Financial assets at fair value through profit or loss:				
Investments in marketable securities	7.1	-	-	7.1
Embedded conversion feature of convertible loan	-	-	0.4	0.4
Warrants	-	-	0.0	0.0
Options	-	-	0.0	0.0
Derivative financial instruments	<u>5.9</u>	<u>1.3</u>	-	<u>7.2</u>
	<u>13.0</u>	<u>1.3</u>	<u>0.4</u>	<u>14.7</u>
Financial liabilities:				
Derivative financial instruments	<u>0.8</u>	<u>5.5</u>	-	<u>6.3</u>
	<u>0.8</u>	<u>5.5</u>	-	<u>6.3</u>
2012				
Financial assets:				
Financial assets at fair value through profit or loss:				
Investments in marketable securities	5.5	-	-	5.5
Embedded conversion feature of convertible loan	-	-	2.7	2.7
Warrants	-	-	0.5	0.5
Options	-	-	1.0	1.0
Derivative financial instruments	<u>2.6</u>	<u>3.2</u>	-	<u>5.8</u>
	<u>8.1</u>	<u>3.2</u>	<u>4.2</u>	<u>15.5</u>
Financial liabilities:				
Derivative financial instruments	<u>1.4</u>	<u>0.7</u>	-	<u>2.1</u>
	<u>1.4</u>	<u>0.7</u>	-	<u>2.1</u>

The fair value of financial instruments traded on active markets (such as publicly traded derivatives and investments in marketable securities) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in level 1.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 12 – Other financial assets and liabilities (continued)

(f) Fair value (continued)

The fair value of financial instruments that are not traded in an active market (for example, forward foreign exchange contracts) is determined using forward exchange market rates at the end of the reporting period. These instruments are included in level 2.

If one or more of the significant inputs is not based on observable market data, the fair value of financial instruments is included in level 3. This is the case for the embedded conversion feature of the convertible loan and unlisted warrants and options. The following table presents the changes in level 3 instruments for the years ended 30 June 2013 and 2012.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 14 – Goodwill

(a) Movements in carrying amounts

	2013	2012
	A\$m	A\$m
	restated	
Cost	1,294.2	1,195.4
Accumulated impairment	(1,127.7)	(749.1)
Net book amount	<u>166.5</u>	<u>446.3</u>
Balance at 1 July	446.3	988.7
Acquisition of subsidiaries (Note 28)	14.0	38.7
Derecognised on sale of business divisions (Note 28)	(9.9)	-
Impairment charge	(292.2)	(617.3)
Reclassifications	-	(1.1)
Foreign exchange differences	8.3	37.3
Balance at 30 June	<u>166.5</u>	<u>446.3</u>

Goodwill acquired through business combinations has been allocated to groups of CGUs that are expected to benefit from the acquisition. Goodwill is monitored and tested for impairment by management at the CGU level. The following CGUs have significant amounts of goodwill:

CGU	Segment	2013	2012
		A\$m	A\$m
			restated
Continental Europe Recycling Solutions	Europe	60.8	53.4
United States Recycling Solutions	North America	61.0	52.5
Australia Metals	Australasia	40.8	35.8
North America Metals	North America	-	267.1
All other CGUs		3.9	37.5
Total		<u>166.5</u>	<u>446.3</u>

(b) Key assumptions used for goodwill and intangible asset impairment tests

The recoverable amount of each of the Group's CGUs has been determined based on the higher of fair value less costs to sell or value-in-use calculations. The Group believes its methodology is the most meaningful method, in order to reflect the cyclical nature of its business and the volatile nature of commodity markets that can impact its business.

The value-in-use calculations use a five year cash flow projection, which is based initially on the budget for the 2014 financial year (as approved by the Board) and a four year forecast prepared by management. The four year forecast is developed using historical averages derived from four years of historical results and the budget for the 2014 financial year. These five year projections also incorporate management estimates related to the inherent impact of future volatility in volumes, commodity prices and margins drawn from past experience and factor in current and expected future economic conditions and consider the potential benefits to arise from significant capital investments approved by the Board. A terminal value is determined from the final year of cash flow based on application of the Gordon Growth model.

The cash flows are discounted using rates that reflect management's estimate of the time value of money and the risks specific to each CGU that are not already reflected in the cash flows. In determining appropriate discount rates for each CGU, consideration has been given to a weighted average cost of capital of the entity as a whole and adjusted for country and business risk specific to the CGU.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 14 – Goodwill (continued)

(b) Key assumptions used for goodwill impairment tests (continued)

The cash flow projections are based on management's best estimates, with reference to historical results, to determine income, expenses, capital expenditures and cash flows for each CGU. Expected future cash flows used to determine the value in use of goodwill are inherently uncertain and could materially change over time. Should management's estimate of the future not reflect actual events, further impairments may be identified.

The key assumptions used for the value-in-use calculations were as follows:

CGU	Discount rate (pre-tax)		Growth rate	
	2013 %	2012	2013 %	2012
		% restated		%
North America Metals	13.1–14.0	13.0–13.4	3.0	3.0
Bulk Stainless ¹	14.5–15.1	-	3.0	-
Continental Europe Recycling Solutions	14.0–14.3	14.3–14.8	1.5–2.5	1.5–2.5
Australia Metals	16.0–16.8	16.8–16.9	2.5	2.5
United Kingdom Metals ²	-	13.5–14.0	-	2.5
United Kingdom Recycling Solutions ²	-	12.6–13.9	-	2.5
United States Recycling Solutions	13.4–14.0	13.4–14.1	3.0	3.0
Australia Recycling Solutions	13.4–14.0	16.5–16.9	2.5	2.5
All other CGUs	12.0–16.9	12.2–17.3	2.5–3.0	2.5–3.0

¹This CGU was valued using the fair value less costs to sell approach in 2012.

²These CGUs had either no goodwill or an insignificant amount of goodwill as at 30 June 2013 and hence no goodwill impairment tests were performed. In accordance with AASB 136 (IAS 36), other long-lived assets for these CGUs were analyzed for impairment.

(c) Goodwill impairment charges recognised

The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired. Due to the difficult economic conditions affecting the Group's industry, changes to the Group's operating results and forecasts, and a significant reduction in the Group's market capitalisation, a goodwill impairment test was performed during the years ended 30 June 2013 and 30 June 2012, which resulted in the following impairment charges being recognised:

CGU	2013	2012
	A\$m	A\$m restated
North America Metals	256.2	510.8
Bulk Stainless	20.8	-
Canada Recycling Solutions	7.6	-
Other	7.6	-
United Kingdom Metals	-	66.1
United Kingdom Recycling Solutions	-	36.8
Australia Recycling Solutions	-	3.6
Total	292.2	617.3

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 14 – Goodwill (continued)

(c) Impairment charges recognised (continued)

Year ended 30 June 2013

During the half year ended 31 December 2012, results for the North America Metals CGU were impacted by lower than anticipated intake volume and shipments, particularly for deep sea ferrous products. The anticipated improvement in the cash flows for this CGU which was the basis for the Group's impairment considerations as at 30 June 2012 did not materialise. As a result, the future cash flows for the North America Metals CGU was reassessed which indicated that the carrying value of goodwill was not recoverable thus requiring an impairment of the entire goodwill balance for this CGU and an impairment of A\$5.5 million related to permits (see Note 15).

The impairment charge related to the Bulk Stainless CGU was a result of the assessment of future cash flows. This CGU has been impacted by weak demand and pricing for stainless steel metals over the last few years. Based on recent financial results and projections of future cash flows, the carrying value of goodwill was determined to be not recoverable thus requiring an impairment of the entire goodwill balance for this CGU.

The impairment charge related to the Canada Recycling Solutions CGU was a result of deterioration in financial performance of the CGU due to increasing competitive pressures. Based on recent financial results and projections of future cash flows, the carrying value of goodwill was determined to be not recoverable thus requiring an impairment of the entire goodwill balance for this CGU.

Year ended 30 June 2012 (restated)

In the year ended 30 June 2012, results for the North America Metals CGU and United Kingdom Metals CGU were impacted by weak volumes and margin pressure that was encountered during the last three months of the period. In October and November 2011, ferrous scrap prices rapidly declined as deep sea ferrous markets became illiquid as economic concerns for Europe and for slowing growth in China became pervasive. These factors adversely impacted the operating results for these CGUs during the year ended 30 June 2012, which required a reassessment of the future cash flows of these CGUs. As a result, the carrying value of the goodwill for both CGUs was not fully recoverable resulting in the impairment charges for these CGUs. After the impairment charge, the United Kingdom Metals CGU had no remaining goodwill.

As described in Note 2, in the half year ended 31 December 2012, the Group identified a significant write-down in the carrying value of the inventory of its United Kingdom operations, most of which related to the United Kingdom Recycling Solutions CGU. As a result of the inventory write-down and related investigation, the Group reassessed its impairment evaluation for the year ended 30 June 2012. Management revised its cash flow projections for this CGU. As a result, the carrying value of goodwill was not recoverable and an impairment for this CGU was recorded. After the impairment charge, this CGU had no remaining goodwill.

The impairment charge related to the Australia Recycling Solutions CGU was due to continued operating losses for this CGU. As a result, the carrying value of goodwill for this CGU exceeded its recoverable amount. After the impairment charge, this CGU had no remaining goodwill.

(d) Impact of possible changes in key assumptions

The valuations as at 30 June 2013 for CGUs with remaining goodwill balances as at 30 June 2013 indicated sufficient headroom such that reasonable changes to key assumptions in the valuations are unlikely to result in an impairment of the related goodwill. These CGUs have not incurred a goodwill impairment charge in either the current or prior periods.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 15 – Other intangible assets

	Supplier relation- ships A\$m	Permits A\$m	Licenses/ Contracts A\$m	Trade- names A\$m	Total A\$m

	<u>585.2</u>	<u>672.1</u>

The Group's exposure to currency and liquidity risk related to trade and other payables is set out in Note 3. The fair value of the Group's trade and other payables approximates its carrying value.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 17 – Borrowings

	<u>2013</u> <u>A\$m</u>	<u>2012</u> <u>A\$m</u>
Current borrowings:		
Bank loans	10.0	13.5
Other borrowings	<u>1.6</u>	<u>0.2</u>
	<u>11.6</u>	<u>13.7</u>
Non-current borrowings:		
Bank loans	<u>189.1</u>	<u>329.9</u>
	<u>189.1</u>	<u>329.9</u>

Bank loans are unsecured but are subject to various guarantees/cross guarantees, cross defaults and indemnities from the Company and certain of its subsidiaries.

(a) Risk exposures

The Group's exposure to interest rate risk, as well as information relating to the facility arrangements is set out in Note 3.

(b) Fair value

The Group's borrowings approximate the carrying amount as the Group's primary exposure is to floating rate bank loans. The Group has nominal exposure to fixed rates through other borrowings.

Note 18 – Provisions

	<u>2013</u> <u>A\$m</u>	<u>2012</u> <u>A\$m</u>
Employee benefits	45.2	40.1
Legal provisions	17.9	13.1
Environmental and dilapidations	11.1	4.0
Other	<u>4.8</u>	<u>2.9</u>
	<u>79.0</u>	<u>60.1</u>
Current	38.5	30.6
Non-current	<u>40.5</u>	<u>29.5</u>
	<u>79.0</u>	<u>60.1</u>

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 18 – Provisions (continued)

Movements in each class of provision during the financial year, other than employee benefits, are set out below.

	Legal	Environ- mental and	Other
	A\$m	dilapidations	A\$m
	<u>13.1</u>	<u>4.0</u>	<u>2.9</u>
Balance at 1 July	<u>13.1</u>	<u>4.0</u>	<u>2.9</u>
Provisions recognised in profit or loss	4.2	6.2	2.0
Payments	(1.0)	-	(0.1)
Foreign exchange differences	1.6	0.9	-
Balance at 30 June	<u>17.9</u>	<u>11.1</u>	<u>4.8</u>

The Group is involved in legal and other disputes and, after taking legal advice, has established provisions taking into account the relevant facts of each dispute. The timing of cash outflows associated with legal claims cannot be reasonably determined. The environmental and dilapidations provision is an estimate of costs for property remediation that will be required in the future.

Note 19 – Retirement benefit obligations

The Group operates a number of pension plans for the benefit of its employees throughout the world. The Group's pension plans are provided through both defined benefit and defined contribution arrangements. Defined benefit schemes provide benefits based on years of service and/or final average salary. Defined contribution schemes offer employees individual funds that are converted into benefits at the time of retirement.

The following sets out details in respect of the defined benefit sections only. The expense recognised in relation to the defined contribution plans is disclosed in Note 8.

(a) Balances recognised in the statement of financial position

	2013	2012
	A\$m	A\$m
Present value of defined benefit obligation	<u>78.3</u>	<u>79.5</u>
Fair value of defined benefit plan assets	<u>(73.8)</u>	<u>(64.9)</u>
Net defined benefit liability	<u>4.5</u>	<u>14.6</u>
These amounts are disclosed as:		
Retirement benefit assets	<u>0.4</u>	-
Retirement benefit obligations	<u>4.9</u>	<u>14.6</u>
	<u>4.5</u>	<u>14.6</u>

The Group has no legal obligation to settle the liability with an immediate contribution or additional one-off contributions. The Group intends to continue to contribute to the defined benefit plans based on recommendations from its actuaries.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 19 – Retirement benefit obligations (continued)

(b) Expense recognised in profit or loss

	2013	2012	2011
	A\$m	A\$m	A\$m
Current service cost	<u>1.3</u>	1.2	1.3
Interest cost	<u>2.9</u>	3.3	3.3

Balance at 30 June	<u>73.8</u>	<u>64.9</u>

(d) Categories of plan assets

The major categories of plan assets are as follows:

	2013	2012
	A\$m	A\$m
Cash	<u>1.9</u>	2.3
Equity instruments	<u>51.2</u>	42.8
Debt instruments	<u>15.0</u>	14.6
Property	<u>5.7</u>	5.2
Total plan assets	<u>73.8</u>	<u>64.9</u>

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 19 – Retirement benefit obligations (continued)

(e) Amounts recognised in other comprehensive income

	2013	2012	2011
	A\$m	A\$m	A\$m
Actuarial gain/(loss) recognised during the financial year	<u>7.6</u>	(16.2)	4.5
Income tax (expense)/benefit	<u>(2.5)</u>	4.9	(1.7)
Net actuarial gain/(loss)	<u>5.1</u>	<u>(11.3)</u>	<u>2.8</u>
Cumulative amount at 30 June	<u>(21.8)</u>	<u>(29.4)</u>	<u>(13.2)</u>

(f) Principal actuarial assumptions

	2013	2012	2011
	%	%	%
Australia			
Discount rate	2.8	2.2	4.3
Expected rate of return on plan assets	7.0	7.0	7.3
Future salary increases	3.5	4.0	3.5
United Kingdom			
Discount rate	4.7	4.5	5.5
Expected rate of return on plan assets	6.0	5.4	5.6
Future salary increases	3.7	3.3	3.9
United States			
Discount rate	4.0	4.0	5.5
Expected rate of return on plan assets	6.3	7.3	8.0
Future salary increases	3.5	3.5	3.5

The expected rate of return on plan assets has been based on historical and future expectations of returns for each of the major categories of asset classes, as well as the expected and actual allocation of plan assets to these major categories and considers recommendations from the Group's actuaries. This resulted in the selection of the weighted average returns of plan assets for each of the defined benefit plans as set out above.

(g) Employer contributions

Employer contributions for defined benefit schemes are based on recommendations of actuarial advisors of the plans. Actuarial assessments are made at no more than one-year intervals, and the last such assessment was made as at 30 June 2013.

The objective of funding is to ensure that the benefit entitlements of members and other beneficiaries are fully funded by the time they become payable. To achieve this objective, the actuaries have adopted a method of funding benefits known as the aggregate funding method. This funding method seeks to have benefits funded by means of a total contribution, which is expected to be a constant percentage of members' salaries over their working lifetimes.

Using the funding method described above and particular actuarial assumptions as to the plan's future experience, the actuaries recommended, in their review as at 30 June 2013, a contribution amount that would be sufficient to meet the Group's obligations to the defined benefit scheme. Total employer contributions expected to be paid by Group companies for the year ending 30 June 2014 is A\$0.6 million for Australia, A\$1.9 million for the United Kingdom, and A\$0.6 million for the United States.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 19 – Retirement benefit obligations (continued)

(h) Historic summary

	<u>2013</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>

Note 20 – Contributed equity

(a) Share capital

Ordinary shares, which have no par value, trade on the Australian Securities Exchange (“ASX”) and entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held. Voting rights attaching to the ordinary shares are, on a show of hands, one vote for every person present as a member, proxy, attorney or representative thereof and, on a poll, one vote per share for every member present in person or by proxy, attorney or representative. The Company does not have a limited amount of authorised capital. The Company’s shares also trade on the New York Stock Exchange in the form of American Depositary Shares (“ADS”) with one ordinary share equaling one ADS. ADSs have the same rights as ordinary shares, including participation in dividends and voting rights.

Movements in the ordinary share balance were as follows:

	<u>Number of shares</u>	<u>A\$m</u>
Balance at 30 June 2011	205,370,288	2,817.9
Issued under long-term incentive plans	713,441	1.5
Issued under the dividend reinvestment plan	1,772,714	23.4
Share buy-back	<u>(3,039,649)</u>	<u>(38.5)</u>
Balance at 30 June 2012	204,816,794	2,804.3
Issued under long-term incentive plans	404,594	-
Share buy-back	<u>(912,001)</u>	<u>(8.6)</u>
Balance at 30 June 2013	<u>204,309,387</u>	<u>2,795.7</u>

(b) Share buy-back

On 7 October 2011, the Company announced an on-market share buy-back program, which allowed the buy-back of a maximum of 10% of issued capital (20,603,871 ordinary shares) over a 12-month period on the ASX. The buy-back commenced on 24 October 2011 and was completed on 23 October 2012. During the 12 month duration of the share buy-back program, the Company repurchased 3.952 million shares for a total cost of A\$47.1 million. The reacquired shares have been cancelled. Details regarding the shares purchased are as follows:

	<u>2013</u>	<u>2012</u>
Ordinary shares purchased	<u>912,001</u>	3,039,649
High Price	A\$10.35	A\$13.96
Low Price	A\$8.63	A\$9.35
Average Price	A\$9.43	A\$12.67

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 20 – Contributed equity (continued)

(c) Dividend reinvestment plan

The Company operated a Dividend Reinvestment Plan (“DRP”) under which holders of ordinary shares were able to elect to have all or part of their dividend entitlements satisfied by issue of new ordinary shares rather than by being paid cash. Shares issued under the DRP were at a 2.5% discount to the market price. On 17 February 2012, the Directors resolved to suspend the DRP.

(d) Capital risk management

The primary objective of managing the Group’s capital is to ensure that there is sufficient capital available to support the funding requirements of the Group, including capital expenditure, in a way that optimises the cost of capital, maximises shareholders’ returns and ensures that the Group remains in a sound financial position.

In order to manage the capital structure, the Group may periodically adjust dividend policy, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors its capital structure primarily using the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

The Group’s gearing ratio is as follows:

	2013	2012
	A\$m	A\$m
	<u>A\$m</u>	<u>restated</u>
Total borrowings	200.7	343.6
Less: cash and cash equivalents	(46.9)	(51.4)
Net debt	153.8	292.2
Plus: total equity	1,928.8	2,283.7
Total capital	<u>2,082.6</u>	<u>2,575.9</u>
Gearing ratio	7.4%	11.3%

There have been no breaches of bank covenants.

Note 21 – Retained earnings/(deficit) and reserves

(c) Nature and purpose of reserves

(i) Share-based payments reserve

The share-based payments reserve is used to recognise the fair value of share-based awards issued to employees.

(ii) Available-for-sale investments reserve

Changes in the fair value and exchange differences arising on translation of investments, such as equities classified as available-for-sale investments, are recognised in other comprehensive income as described in Note 1(s) and accumulated in a separate reserve within equity. Amounts are reclassified to profit or loss when the associated assets are sold or impaired.

(iii) Cash flow hedging reserve

The cash flow hedging reserve is used to record gains or losses on a hedging instrument in a cash flow hedge that are recognised in other comprehensive income, as described in Note 1(t). Amounts are recognised in profit or loss when the associated hedged transaction affects profit or loss.

(iv) Foreign currency translation reserve

Exchange differences arising on translation of foreign controlled entities are recognised in other comprehensive income, as described in Note 1(g) and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the Group no longer controls the foreign operation.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 22 – Dividends

(a) Dividends declared and paid during the year

	Cents per share	Franked %	2013 A\$m	2012 A\$m	2011 A\$m
Interim 2013	0.0	0%	-	-	-
Final 2012	10.0	0%	20.4	-	-
Interim 2012	10.0	0%	-	20.6	-
Final 2011	35.0	43%	-	72.1	-
Interim 2011	12.0	42%	-	-	24.6
Final 2010	23.0	74%	-	-	46.9
Total dividends paid			20.4	92.7	71.5
Shares issued under the DRP			-	(23.4)	(19.1)
Total cash dividends paid			20.4	69.3	52.4

The franked components of all dividends paid or declared were franked based on a tax rate of 30%.

(b) Dividends not recognised at year end

For the year ended 30 June 2013, the Directors determined that there will be no final dividend declared (2012: A\$20.4 million).

(c) Franked dividends

	2013 A\$m	2012 A\$m
Estimated franking credits available for the subsequent financial years based on tax rate of 30% (2012: 30%)	23.4	17.1

The above amounts represent the balance of the franking account as at the end of the reporting date, adjusted for:

- a) franking credits that will arise from the payment of the amount of the provision for income tax and franking debits that will arise from refunds;
- b) franking debits that will arise from the payment of dividends recognised as a liability as at the reporting date; and
- c) franking credits that will arise from the receipt of dividends recognised as receivables as at the reporting date.

Note 23 – Contingencies

(a) Guarantees

The Group has given guarantees in respect of the performance of contracts entered into in the ordinary course of business. The amounts of these guarantees provided by the Group, for which no amounts are recognised in the consolidated financial statements, as at 30 June 2013 was A\$61.9 million (2012: A\$41.6 million).

See Note 32(b) for information related to guarantees provided by the Company.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 23 – Contingencies (continued)

(b) Tax audits

The Group files income tax returns in many jurisdictions throughout the world. Various tax authorities are currently reviewing or auditing the Group's income tax returns. Tax returns contain matters that could be subject to differing interpretations of applicable tax laws and regulations. While it is difficult to predict the ultimate outcome in some cases, the Group does not anticipate that there will be any material impact on the Group's consolidated financial statements from such audits or reviews.

(c) Environmental claims

The Group is subject to comprehensive environmental requirements relating to, among others, the acceptance, storage, treatment, handling and disposal of solid waste and hazardous waste; the discharge of materials and storm water into the environment; the management and treatment of wastewater and stormwater; and the remediation of soil and groundwater contamination. As a consequence, the Group has incurred and will continue to incur environmental costs and liabilities associated with site and facility operation, closure, remediation, monitoring and licensing. Provisions have been made in respect of estimated environmental liabilities where obligations are known to exist and can be reasonably measured. However, additional liabilities may emerge due to a number of factors, including changes in environmental laws and regulations in each of the jurisdictions in which the Group operates or has operated. The Group cannot predict the extent to which it may be affected in the future by any such changes in legislation or regulation.

(d) Legal claims

Various Group companies are parties to legal actions and claims that arise in the ordinary course of their business. While the outcome of such legal proceedings cannot be readily foreseen, the Group believes that they will be resolved without material effect on its financial statements. Provision has been made for known obligations where the existence of the liability is probable and can be reasonably estimated.

On 20 June 2011, the United States District Court Southern District of New York issued a summary judgement against Metal Management Inc. (a subsidiary of the Company) in a dispute involving a breach of contract. The breach of contract relates to the transaction fee that was payable to Metal Management Inc.'s financial advisers in connection with its merger with the Company. The amount of the summary judgement of A\$9.8 million was paid during the year ended 30 June 2012.

In the year ended 30 June 2013, the Group recorded a provision of A\$4.2 million representing civil penalties and costs to resolve an investigation into alleged violations of California's scrap purchase record-keeping laws.

In the year ended 30 June 2012, the Group recorded a provision of A\$12.8 million related to a dispute with a third party.

(e) Subsidiaries

Under the terms of a Deed of Cross Guarantee ("DCG") entered into in accordance with ASIC Class Order 98/1418 (as amended by Class Orders 98/2107, 00/0321, 01/1087, 02/0248 and 02/1017), the Company has undertaken to meet any shortfall that might arise on the winding up of controlled entities that are party to the deed, as described in Note 29. The controlled entities are not in liquidation and there is no indication that they will be wound up.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 24 – Commitments

(a) Capital commitments

Capital expenditures contracted for at the reporting date but not recognised as liabilities are as follows:

	2013	2012
	A\$m	A\$m
Property, plant and equipment	<u>40.8</u>	<u>69.2</u>

The capital commitments included above also include the Group's share relating to joint venture operations and jointly controlled entities.

(b) Lease commitments

The Group has entered into various operating leases on property, plant and equipment. The leases have varying terms, escalation clauses and renewal rights. On renewal, the terms of the leases are renegotiated. Lease commitments for operating leases are as follows:

	2013	2012
	A\$m	A\$m
Not later than one year	<u>85.6</u>	68.9
Later than one year, but not later than three years	119.2	92.4
Later than three years, but not later than five years	58.2	48.4
Later than five years	<u>113.8</u>	<u>124.6</u>
Total lease commitments not recognised as liabilities	<u>376.8</u>	<u>334.3</u>

The lease commitments included above also include the Group's share relating to joint venture operations and jointly controlled entities.

Note 25 – Share ownership plans

The Company's share ownership plans are designed to link the rewards of eligible employees to the long-term performance of the Company and the returns generated for shareholders. The maximum number of shares that can be outstanding at any time under the share ownership plans is limited to 5% of the Company's issued capital. Grants under the share ownership plans can be in the form of options or share rights. Certain share ownership plans also provide for cash-settlement, which are determined by the Board.

An option is a contract that gives the holder the right, but not the obligation, to acquire the Company's shares at a fixed or determinable price for a specified period of time. Options have an exercise price based on the weighted average market price of the Company's ordinary shares (or ADSs) during the five trading days up to the date of the grant. Share rights are a contractual right to acquire the Company's shares for nil consideration. Unless specified in the grants, holders of options and share rights are not entitled to dividends or voting rights.

(a) Effect of share-based payments on profit or loss

The expense recognised in the income statement in relation to share-based payments is disclosed in Note 8. The carrying amount of liabilities for cash-settled share-based arrangements as at 30 June 2013 was A\$0.8 million (2012: A\$0.4 million). Where share-based awards are issued to employees of subsidiaries within the Group, the subsidiaries compensate the Company for the fair value of these share-based awards.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 25 – Share ownership plans (continued)

(b) Long-Term Incentive Plan (“LTIP”)

In July 2003, the Company established a LTIP designed as a reward and retention tool for certain employees. Options and share rights granted under the LTIP may vest either based on continuous service or based on performance conditions. Share rights that contain performance conditions are referred to as performance rights, whereas share rights which only contain a continuous service condition are referred to as restricted share units. Cash-settled option grants are also made under the LTIP to certain employees. Refer to the Remuneration Report for further information on the terms of the grants made in the year ended 30 June 2013 pursuant to the LTIP.

(i) Equity-settled options

The fair value of equity-settled options granted is independently determined using a Binomial method, which allows for the effects of an early exercise for vested options assuming the share price exceeds one and a half times the exercise price. The significant weighted assumptions used to determine the fair value were as follows:

	Ordinary shares		ADSs	
	2013	2012	2013	2012
Risk-free interest rate	2.8%	3.9%	1.0%	1.4%
Dividend yield	3.0%	3.0%	3.0%	3.0%
Volatility	33.0%	43.0%	39.0%	51.0%
Expected life (years)	4.7	4.2	4.6	4.3
Share price at grant date	A\$8.57	A\$13.27	US\$8.93	US\$13.66
Weighted average fair value	A\$1.88	A\$4.08	US\$2.18	US\$4.52

Volatility for the ordinary shares is based on historical share price. Due to the sparse trading of the ADSs and its limited listing (since March 2008), the volatility of the ADSs is based on the historical share price of the ordinary shares which have been translated to US dollars using daily exchange rates.

Equity-settled options outstanding

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 25 – Share ownership plans (continued)

(b) Long-Term Incentive Plan (“LTIP”) (continued)

(i) Equity-settled options (continued)

For equity-settled options exercised during the year ended 30 June 2012, the weighted average share price at the date of exercise was US\$14.02 for ADSs.

Information about outstanding and exercisable equity-settled options as at 30 June 2013 is as follows:

Exercise price range	Number of options	Weighted average exercise price	Outstanding	Number of options	Weighted average exercise price	Exercisable
			Weighted average remaining contractual life (years)			Weighted average remaining contractual life (years)
Ordinary shares:						
A\$8–A\$15	393,624	A\$11.06	5.57	96,446	A\$13.09	3.98
A\$15–A\$20	134,652	A\$17.68	3.83	108,245	A\$17.69	3.69

	<u>5,532,758</u>	US\$14.14	4.99	<u>2,508,738</u>	US\$17.80	3.82

(ii) Cash-settled options

The fair value of cash-settled options is determined in the same manner as equity-settled options. The liability for cash-settled options is remeasured at each reporting date. The significant weighted assumptions used to remeasure the fair value at 30 June 2013 were as follows:

	<u>2013</u>	<u>2012</u>
Granted during year ended 30 June		
Risk-free interest rate	3.3%	3.2%
Dividend yield	3.0%	3.0%
Volatility	34.0%	34.0%

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 25 – Share ownership plans (continued)

(b) Long-Term Incentive Plan (“LTIP”) (continued)

(iii) Performance rights

Performance rights vest after a period of three to five years, but only if the performance hurdle has been met. Performance hurdles are either based on Total Shareholder Return (“TSR”) or on non-market-based performance criteria. In the year ended 30 June 2013, 461,994 (2012: 44,440) share rights were forfeited as the performance conditions were not satisfied.

Performance-based share right grants made in the years ended 30 June 2013 and 2012 are measured using a TSR hurdle over a three-year period (commencing at the beginning of the financial year) against a comparator group of companies. Full vesting of the performance share rights occurs when the Company’s TSR is at (or exceeds) the 75th percentile relative to the comparator group, scaling down to 50% vesting on a straight-line basis for median performance. Below median performance, no vesting occurs. Initial TSR performance is tested at the third anniversary of the commencement of the performance period, with subsequent performance testing possible at the fourth and fifth anniversaries of the commencement of the performance period.

The fair value of performance share rights granted is independently determined using a Black-Scholes method to produce a Monte-Carlo simulation model which allows for the incorporation for a TSR performance condition that must be met before the share rights vest. The significant weighted assumptions used to determine the fair value were as follows:

	Ordinary shares		ADSs	
	2013	2012	2013	2012
Dividend yield	3.0%	3.0%	3.0%	3.0%
Risk-free interest rate	2.5%	3.9%	0.3%	1.4%

(c) Transition Incentive Share Plan related to the Metal Management merger

In accordance with the terms and conditions of the merger agreement with Metal Management Inc., the Sims Group Limited Transition Incentive Plan (“SGLTIP”) was established. The SGLTIP assumed the rights and obligations of Metal Management under its former plan (“MMI Plan”). No additional grants can be made under the SGLTIP.

The options assumed were held by the former directors of Metal Management Inc. who became directors of the Company on the merger date. Each outstanding share option under the MMI Plan was converted into 2.05 options of the Company. Each option represents the right to acquire one ADS. In addition, the exercise price of each outstanding option under the MMI Plan was converted at the same exchange ratio. All the options assumed were fully vested and therefore the fair value was recorded as a component of the purchase price for Metal Management Inc.

The following table sets out details of outstanding options under the SGLTIP:

	Number of options 2013	Weighted average exercise price US\$ 2013	Number of options 2012	Weighted average exercise price US\$ 2012
Balance at 1 July	492,000	\$13.89	615,000	\$15.62
Exercised	-	-	-	-
Forfeited/cancelled	-	-	(123,000)	\$22.55
Balance at 30 June	<u>492,000</u>	<u>\$13.89</u>	<u>492,000</u>	<u>\$13.89</u>
Exercisable at 30 June	<u>492,000</u>	<u>\$13.89</u>	<u>492,000</u>	<u>\$13.89</u>

The weighted average contractual life of options outstanding as at 30 June 2013 was 0.56 years (2012: 1.56 years).

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 26 – Key management personnel disclosures

Key management personnel are those persons defined as having authority and responsibility for planning, directing and controlling the activities of the Group, either directly or indirectly, including any Director (Executive or Non-Executive). Please refer to the Directors' Report for information regarding each key management person.

(a) Key management personnel compensation

	2013 A\$	2012 A\$
Short-term benefits	7,272,267	8,940,445
Long-term benefits	78,512	29,120
Post-employment benefits	280,412	358,693
Share-based payments	8,197,495	7,505,311
	<u>15,828,686</u>	<u>16,833,569</u>

The Group has taken advantage of the relief provided by ASIC Class Order 06/50 and has transferred the detailed remuneration disclosures to the Remuneration Report, which is presented in the Directors' Report.

(b) Equity instrument disclosures relating to key management personnel

(i) Options provided as remuneration and shares issued on exercise of such options

Details of options provided as remuneration and shares issued on the exercise of such options, together with terms and conditions of the options, can be found in the Remuneration Report.

(ii) Share holdings

The number of shares in the Company held during the financial year by each Director and other key management personnel, including their personally related parties, is set out below:

2013 Name	Balance at 1 July 2012	Received on exercise of options or rights	Purchases/ (sales)	Other changes during the year	Balance at 30 June 2013

D McGree	77,300	35,178	-	-	112,478
A Ratner (ADS) ³	98,094	41,615	-	-	139,709

¹Mr Dienst retired from the Board of Directors and the Company on 30 June 2013.

²Mr Davy left the Company on 19 March 2013.

³Mr Ratner was no longer a KMP as of 31 January 2012.

Notes to the Consolidated Financial Statements For the year ended 30 June 2013

Note 26 – Key management personnel disclosures (continued)

(c) Other transactions with key management personnel

Transactions entered into with any Directors or other key management personnel of the Group, including their personally related parties, are at normal commercial terms.

On 1 July 2013, the Company and Mr Dienst entered into a one-year consulting contract. The details of the consulting contract are provided in the Remuneration Report.

During the year ended 30 June 2012, a company related to Mr Varello was paid US\$13,432 for administrative services. No payments were made during the year ended 30 June 2013.

Mr Sukagawa served as and Mr Sato serves as the representative director for Mitsui & Co. As a result, their respective director remuneration is paid directly to Mitsui & Co. During the year ended 30 June 2013, the Group paid A\$203,424 to Mitsui & Co. for director remuneration (2012: A\$203,424).

During the year ended 30 June 2012, Mr Lewon was paid US\$50,000 for providing services with respect to certain business development activities in North America. No payments were made during the year ended 30 June 2013

Note 27 – Remuneration of auditors

It is the Group's policy to employ PricewaterhouseCoopers on assignments additional to their statutory audit duties where PricewaterhouseCoopers' expertise and experience with the Group are important. These assignments are principally for tax advice and due diligence on acquisitions, or where PricewaterhouseCoopers is awarded assignments on a competitive basis. All audit and non-audit services provided by PricewaterhouseCoopers are subject to pre-approval by the RAC of the Board in accordance with the Group Independence Policy.

The following fees were paid and payable for services provided by the auditor of the Group and its related practices:

	2013 A\$'000	2012 A\$'000
PricewaterhouseCoopers Australia:		
Audit and review of financial statements	1,980	2,116
Audit-related fees ¹	115	170
Taxation services	6	21
	2,101	2,307
Network firms of PricewaterhouseCoopers Australia:		
Audit and review of financial statements	3,024	3,034
Audit-related fees ¹	385	-
Taxation services	26	5
Other	-	2
	3,435	3,041
Total remuneration for PricewaterhouseCoopers	5,536	5,348

¹Audit-related fees include fees related to the restatement of the Group's financial statements, due diligence related to acquisitions, internal control reviews, accounting consultations and regulatory related matters.

Note 28 – Business acquisitions and disposals

During the year ended 30 June 2013, the Group acquired five businesses. None of the acquisitions were significant in terms of purchase price. On a combined basis, had the acquisitions all occurred on 1 July 2012, there would not have been a significant change to the Group's revenue and net profit. Additionally, revenue and net profit contribution by the businesses acquired to the Group post-acquisition was not significant.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 28 – Business acquisitions and disposals (continued)

(a) Purchase consideration and assets and liabilities acquired

Details of the aggregate purchase consideration and cash outflow are as follows:

	A\$m
Cash paid for current year acquisitions	28.2
Cash acquired	(0.1)
Cash outflow for acquisitions	28.1

Assets and liabilities arising from current year acquisitions are as follows:

	Fair value
	A\$m
Cash	0.1
Trade and other receivables	1.2
Inventories	0.1
Property, plant and equipment (Note 13)	7.1
Identified intangible assets (Note 15)	6.3
Trade and other payables	(0.4)
Deferred tax liability	(0.2)
Net assets acquired	14.2

Goodwill recognised from current year acquisitions are as follows:

	A\$m
Total cash consideration	28.2
Less: net assets acquired	(14.2)
Goodwill on acquisition	14.0

The initial accounting for some of the current year acquisitions has only been provisionally determined. The goodwill is attributable to several factors including, site locations, synergies existing in the operations acquired and the assembled workforce, which together contribute to the profitability of the acquired businesses. Some of the goodwill recognised is expected to be deductible for income tax purposes.

(b) Disposals

On 30 November 2012, the Group sold its Arizona scrap metal recycling assets to SA Recycling LLC, which is one of the Group's joint ventures. In addition, in October 2012, the Group sold its Colorado scrap metal recycling assets to a third party. The net loss on the disposal of these assets (included within other expenses) was A\$10.1 million and was calculated as follows:

	A\$m
Cash consideration received	44.9
Net carrying value of disposed assets:	
Inventories	(2.4)
Property, plant and equipment	(32.8)
Goodwill	(9.9)
Other intangibles	(9.9)
	(55.0)
	(10.1)

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 28 – Business acquisitions and disposals (continued)

(b) Disposals (continued)

In February 2012, the Group sold its 50% ownership interest in the secondary lead producing facility in Sydney, Australia of Australian Refined Alloys (“ARA”) to companies associated with Renewed Metal Technologies for total sales proceeds of A\$40.0 million. The disposal transaction was an asset sale only comprising the sale of land, buildings, and plant and equipment. The gain on the disposal of the assets recorded in other income in the year ended 30 June 2012 was calculated as follows:

		A\$m
Consideration received		40.0
Net carrying value of disposed assets:		
Land and buildings	(2.4)	
Plant and equipment	(1.3)	
Capital work-in-progress	(0.2)	
		(3.9)
Disposal costs		(0.4)
		35.7

In the year ended 30 June 2013, additional assets related to the Group’s 50% ownership interest ARA were sold resulting in a loss on disposal of A\$1.3 million. This amount has been recorded in other expenses.

Note 29 – Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1.

(i) These subsidiaries and the Company are parties to a DCG under which each entity guarantees the debts of the others. The above entities represent a Closed Group and an Extended Closed Group for the purposes of the relevant Australian Securities and Investments Commission Class Order.

(ii) These subsidiaries were deregistered during the year.

The voting power held in each subsidiary is proportionate to the equity holdings.

Deed of Cross Guarantee

Sims Metal Management Limited, Sims Group Australia Holdings Limited, Sims Aluminium Pty Limited and Simsmetal Services Pty Limited are parties to a DCG under which each Group guarantees the debts of the others. By entering into the DCG, the wholly owned entities have been relieved from the requirements to prepare a financial report and directors report under Class Order 98/1418 (as amended) issued by ASIC.

The above companies represent a “Closed Group” for the purposes of the Class Order. As there are no other parties to the DCG that are controlled by Sims Metal Management Limited, they also represent the “Extended Closed Group”.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 29 – Subsidiaries (continued)

Deed of Cross Guarantee (continued)

Set out below is a condensed consolidated income statement, a consolidated statement of comprehensive income, a summary of movements in consolidated retained earnings/(deficit) and a consolidated statement of financial position for the Closed Group.

(i) Condensed consolidated income statement

	2013	2012
	A\$m	A\$m
	<u>restated</u>	
(Loss)/profit before income tax¹	(184.4)	(633.7)
Income tax expense	<u>(14.0)</u>	<u>(15.3)</u>
(Loss)/profit after tax	<u>(198.4)</u>	<u>(649.0)</u>

¹Amount includes a non-cash impairment charge of A\$240.2 million for 2013 and A\$719.3 million for 2012 after tax against the parent entity's investment in subsidiaries which are not part of the Closed Group.

(ii) Consolidated statement of comprehensive income

(Loss)/profit after tax	(198.4)	(649.0)
Other comprehensive income:		
<i>Items that may be reclassified to profit or loss</i>		
Changes in the fair value of derivatives held as cash flow hedges, net of tax	(3.4)	0.4
Share of other comprehensive income from associates	(0.3)	(0.1)
<i>Items that will not be reclassified to profit or loss</i>

Balance at 30 June	<u>330.0</u>	<u>351.1</u>

(c) Disposals

In October 2012, the Group disposed of its 50% ownership interest in its Metal Management Nashville, LLC joint venture for a loss of A\$0.3 million.

(d) Acquisitions

On 17 January 2012, the Group acquired 16% of the existing shares of CTG, a Hong Kong listed metals and electronics recycler with operations in the People’s Republic of China and Hong Kong. The shares were acquired from founder Chairman Ankong Fang and Delco Participation B.V. (Delco), a Netherlands-based investment holding company, for total consideration of HK\$750.1 million (A\$93.1 million). The cost of the acquisition also includes transaction costs of A\$0.4 million. In addition, Delco granted an option to the Group to acquire a further 2% of CTG (see Note 12).

The Group accounts for CTG as an associate, although the Group holds less than 20% equity interest. This is because the Group exercises significant influence through its nominated director’s active participation on CTG’s board of directors as well as a significant trading relationship with CTG.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 30 – Investments in associates and jointly controlled entities (continued)

(e) Impairments

On a regular basis, investments in associates and jointly controlled entities are tested for impairment if the Group believes events or changes in circumstances indicate that the carrying value amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the investment exceeds its recoverable amount. The recoverable amount is the higher of an investment's fair value less costs to sell and value-in-use.

As at 30 June 2013, the Group determined that its investment in CTG was impaired due to a significant decline in CTG's quote share price and its recent significant net loss. As a result, the Group recognised an impairment charge of A\$14.9 million to write-down its investment in CTG to its fair value. The fair value of the Group's interest in CTG at 30 June 2013, which is listed on the Hong Kong Stock Exchange, was A\$73.4 million (2012: A\$86.0 million).

In the year ended 30 June 2012, SA Recycling LLC recognised an impairment on goodwill, of which the Group's pre-tax-share was A\$57.5 million. This has been recognised in the income statement in the period. The impairment represents the portion of SA Recycling LLC's goodwill attributable to the Group which was determined to be not recoverable based on the value in use of the business. Similar to the Group's North America Metals CGU, SA Recycling LLC was impacted by economic conditions which have impacted its financial results and future forecasts.

(f) Summarised financial information of associates and jointly controlled entities

	2013	2012	
	<u>A\$m</u>	<u>A\$m</u>	
Group's share of assets and liabilities			
Current assets	186.7	207.4	
Non-current assets	297.6	269.2	
Total assets	484.3	476.6	
Current liabilities	105.1	95.8	
Non-current liabilities	112.9	102.9	
Total liabilities	218.0	198.7	
Net assets	266.3	277.9	
	2013	2012	2011
	<u>A\$m</u>	<u>A\$m</u>	<u>A\$m</u>
Group's share of revenue, expenses and results			
Revenues	731.5	837.9	774.3
Expenses	(745.5)	(845.7)	(747.2)
(Loss)/profit before income tax	(14.0)	(7.8)	27.1
Tax expense	(1.1)	(2.5)	(1.4)
(Loss)/profit for the year	(15.1)	(10.3)	25.7

(g) Contingent liabilities and capital commitments

The Group's share of the contingent liabilities of jointly controlled entities is disclosed in Note 23. The Group's share of the capital commitments and other expenditure commitments of jointly controlled entities is disclosed in Note 24.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 30 – Investments in associates and jointly controlled entities (continued)

(h) Jointly controlled operations

The Group accounts for its 50% interest in Sims Pacific Metals (“SPM”) joint venture under the proportionate consolidation method. SPM is an unincorporated joint venture based in New Zealand and its principal activity is metal recycling. The Group’s interest in SPM is included in the statement of financial position under the classifications shown below:

	2013	2012
	A\$m	A\$m
Current assets	<u>15.9</u>	14.2
Non-current assets	<u>8.4</u>	7.3
Total assets	<u>24.3</u>	<u>21.5</u>
Current liabilities	<u>18.6</u>	15.5
Non-current liabilities	<u>0.2</u>	0.2
Total liabilities	<u>18.8</u>	<u>15.7</u>
Net assets	<u>5.5</u>	<u>5.8</u>

The Group’s share of SPM’s contingent liabilities and capital expenditure commitments is included in Notes 23 and 24, respectively.

Note 31 – Related party transactions

The Group’s related parties are its associates, jointly controlled entities, pension schemes and key management personnel. Group contributions to pension schemes are disclosed in Notes 8 and 19. Compensation paid to key management personnel are disclosed in Note 26.

Related party transactions with the Group’s associates and jointly controlled entities are as follows:

	2013	2012
	A\$m	A\$m
Sales of goods and services	<u>107.1</u>	118.3
Purchases of goods and services	<u>531.0</u>	890.9
Management fees and commissions	<u>2.6</u>	3.1
Interest income	<u>3.9</u>	1.2

Transactions with CTG reported above for the year ended 30 June 2012 are only for the period from the date of investment through 30 June 2012.

Outstanding balances from the Group’s associates and jointly controlled entities are as follows:

	2013	2012
	A\$m	A\$m
Current receivables	<u>4.4</u>	8.5
Current payables	<u>25.0</u>	32.3
Loans to associate	<u>38.9</u>	33.1

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 32 – Parent entity financial information

The Company was incorporated on 20 June 2005. Under the terms of a scheme of arrangement entered into between Sims Metal Management Limited (formerly known as Sims Group Limited from 20 June 2005 to 21 November 2008) and Sims Group Australia Holdings Limited (“SGAHL”) (formerly known as Sims Group Limited prior to 20 June 2005) on 31 October 2005, the shareholders in SGAHL exchanged their shares in that entity for the shares in Sims Metal Management Limited. As required by AASB 3 (IFRS 3), *Business Combinations* at the time, SGAHL was deemed to be the acquirer in this business combination. This transaction has therefore been accounted for as a reverse acquisition. Accordingly, the consolidated financial statements of Sims Metal Management Limited have been prepared as a continuation of the consolidated financial statements of SGAHL. SGAHL, as the deemed acquirer, has applied purchase accounting for its acquisition of Sims Metal Management Limited as at 31 October 2005.

(a) Summary financial information

	2013	2012
	A\$m	A\$m
	<u>A\$m</u>	<u>restated</u>
Statement of financial position:		
Current assets	59.1	51.7
Total assets	2,585.2	3,005.1
Current liabilities	62.3	61.8
Total liabilities	63.7	62.7
<i>Shareholders' equity:</i>		
Contributed equity	4,116.3	4,124.9
Reserves	112.8	96.2
Retained deficit	(1,707.6)	(1,278.7)
Total equity	<u>2,521.5</u>	<u>2,942.4</u>
Loss for the year¹	<u>(408.4)</u>	<u>(1,188.8)</u>
Total comprehensive loss	<u>(408.4)</u>	<u>(1,188.8)</u>

¹The parent entity's loss for the years ended 30 June 2013 and 2012 included a non-cash impairment charge of A\$427.0 million and A\$1,278.0 million, respectively, after tax against the parent entity's investment in subsidiaries. In accordance with AASB 136 (IAS 36), the parent entity's investment in subsidiary balance was compared to the higher of its value-in-use or fair market value less costs to sell, and the comparison identified an impairment in the carrying value of the parent entity's investment in subsidiaries. This non-cash charge is reversed on consolidation and does not impact the consolidated financial statements of the Group.

The Company has current liabilities greater than current assets. The current liabilities primarily represent intercompany balances between entities, which are a party to a DCG to which the Parent is also a party. Refer to Note 29.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 32 – Parent entity financial information (continued)

(b) Guarantees entered into by the parent entity

The Company has not provided financial guarantees for which a liability has been recognised in the Company's statement of financial position.

The Company and certain of its subsidiaries have given guarantees in respect of the performance of contracts entered into in the ordinary course of business. The amount of these guarantees provided by the Company as at 30 June 2013 was A\$46.1 million (2012: A\$39.6 million).

On 31 March 2011, the Company provided a guarantee for its proportional share of a lease obligation of a jointly controlled entity of the Group. The Company's proportional amount of the lease obligation remaining as at 30 June 2013 was A\$14.8 million (2012: A\$15.0 million).

The Company is party to a number of financing facilities and a Deed of Cross Guarantee under which it guarantees the debts of a number of its subsidiaries. Refer to Notes 17 and 29 for details.

(c) Lease commitments

	2013	2012
	A\$m	A\$m

(c) Non-cash investing and financing activities

During the year ended 30 June 2012, dividends of A\$23.4 million (2011: A\$19.1 million) were paid via the issue of ordinary shares pursuant to the DRP. Refer to Note 22.

Notes to the Consolidated Financial Statements
For the year ended 30 June 2013

Note 34 – Assets/liabilities classified as held for sale

During the year ended 30 June 2013, the Group decided to sell certain assets in the United States within the North America Segment which were determined to be non-core. As of the filing date of this report, these assets have now been sold. Impairment losses relating to property, plant and equipment and intangible assets of A\$18.4 million have been recognised with respect to assets held for sale.

Note 35 – Events occurring after the balance sheet date

On 30 June 2013, Daniel W Dienst retired as an Executive Director and Group CEO. Effective 1 July 2013, the Board created a Global Leadership Team to serve in lieu of the Group CEO while the search for a new CEO is accomplished. The Board continues to evaluate candidates for the role and has narrowed the field to external candidates. The Board expects to announce an appointment by the end of the first quarter of fiscal 2014.

Directors' Declaration

In the Directors' opinion:

- a) The financial statements and notes set out on pages 39 to 119 are in accordance with the *Corporations Act 2001*, including:
 - i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements, and
 - ii) giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the financial year ended on that date, and
- b) there are reasonable grounds to believe that Sims Metal Management Limited will be able to pay its debts as and when they become due and payable, and
- c) at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group identified in Note 29 will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the Deed of Cross Guarantee described in Note 29.

Note 1(b) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The directors have been given the declarations by the Chairman and the Group Chief Financial Officer required by section 295A of the *Corporations Act 2001*.

The declaration is made in accordance with a resolution of the Directors.

G N Brunsdon
Chairman

Sydney
23 August 2013

Independent auditor's report to the members of Sims Metal Management Limited

Report on the financial report

We have audited the accompanying financial report of Sims Metal Management Limited (the company), which comprises the consolidated statement of financial position as at 30 June 2013, the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration for Sims Metal Management Limited (the consolidated entity). The consolidated entity comprises the company and the entities it controlled at year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1b, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards* as issued by the International Accounting Standards Board.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the consolidated entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Liability limited by a scheme approved under Professional Standards Legislation.

Auditor's opinion

In our opinion:

the financial report of Sims Metal Management Limited is in accordance with the *Corporations Act 2001*, including:

giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the year ended on that date; and

complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.

the financial report and notes also comply with International Financial Reporting Standards as disclosed in Note 1b.

Report on the Remuneration Report

We have audited the remuneration report included in pages 14 to 37 of the directors' report for the year ended 30 June 2013. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion, the remuneration report of Sims Metal Management Limited for the year ended 30 June 2013, complies with section 300A of the *Corporations Act 2001*.
