## **Operations - McClain County Project – Odyssey 50% WI:**

Odyssey holds a 50% working interest in a project area in the Anadarko Basin in Oklahoma comprising 1,626 gross acres, and targeting gas and oil in the Woodford Shale at between 6,000 and 8,000 feet.

Major Operators have been focusing on developing this Shale as a liquids-rich gas play, with permitting and drilling activity continuing over recent months in adjacent counties.

While activity in the region continues to expand the evaluation is still largely focused on greater depths than the prospective section in the Company's acreage.

## **Corporate**

### *Investments*

The Company continues to hold 27.5 million shares in Marion Energy Limited ("Marion") which it received following the sale of its subsidiary OEL Operating (USA) to Marion Energy.

Marion Energy have not lodge its 30 June 2011 Annual Financial Statements and accordingly its securities were suspended from trading on the ASX. The June 2011 Financial Statements have still not been lodged with the ASX and Marion's securities remain suspended. The Company notes the recent announcements outlining Marion's finance restructuring of the company.

### *Business Development*

During the quarter the Company assessed a number of new business opportunities in the oil and gas and other sectors, both domestically and overseas.

However no agreements have been reached and the Directors are not able to assess the likelihood or timing of a successful outcome of any of the opportunities.
