### **Quarterly Report for the Period Ended 30 September 2013**

#### **Highlights:**

- Kookynie Project/Corporate
- Geological field work and exploration ongoing

#### **Kookynie Project**

Principal work for the Company during the September Quarter was the preparation for the sale of a number of tenements in the Kookynie Gold Project.

The Company applied for and received the return of its Environmental Bonds from the Department of Mines and Minerals, this also now removes the Mortgage over the Company assets held by Macquarie Bank.

The Company continued the application for its Research and Development Rebate for the 2013 Income Tax year; this application is expected to provide a return of up to \$1.1m net to the Company.

The Company during this quarter continued with legal action against a creditor of the Company (as disclosed in the 2013 Financial Reports) with the expected outcome that \$1.5m of payables will be deleted, this settlement is expected in November.

Although the Company has endured trying times with the partial sale of Kookynie, return of Environmental Bonds, 2013 R & D application, write down of the creditor above the Company will be in cash positive position. At this point the Company will then commence legal action against the Toll Treating Company for breach of contract.

#### **Field Work**

A geological field work continued in the quarter conducting soil sampling, prospecting, mapping and compiling data. Soil sampling programs continue to follow-up on previous anomalous results within the Yundamindera project. Once settlement of the tenements at Kookynie takes place the Company will be in a position to continue its exploration at Yundaminera.

The Kookynie project continues to be staffed and all required expenditures maintained during the period.

**Responsibility Statement**

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full time employee of APEX Geoscience Australia Pty Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

**Notes**

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
