Directors' Report

For the half-year ended 30 September 2013

Review and results of operations

Net profit

The Group recorded an interim net profit after tax (attributable to equity holders of the Company) of \$97.7 million in the half year to September 2013 in line with guidance provided to the market in July. This was 27.9% down on the previous corresponding period (PCP) and was generated from revenue of \$744.7 million (down 8.5% on the September 2012 half).

The result represented a sound financial performance in uncertain economic conditions, demonstrating the benefits of the scalability of the Group's businesses and its diversified global footprint. Markets for geochemical and coal services were challenging, in an environment of falling commodity prices and a strong cost focus by most producers.

Geochemical sample flows in ALS Minerals were down by approximately one-third compared with the same period last year with North America the most affected. Contribution margins remained in the targeted range as the business benefited from the cost flexibility provided by its hub and spoke model.

All other ALS testing and inspection services divisions recorded revenue increases compared with PCP. ALS Industrial returned solid organic revenue gains in both of its business lines, whilst ALS Life Sciences and ALS Energy benefited from both organic revenue growth and the impact of acquisitions over the past twelve months (refer divisional commentary below).

Directors have declared a partly franked (50%) interim dividend of 19 cents per share payable on all ordinary shares (2012: 21 cents, partly franked to 50%). It will be paid on 20 December 2013 on all shares registered in the Company's register at the close of business on 5 December 2013. The Company's dividend reinvestment plan will operate for the interim dividend at a 5.0% discount to market price.

Directors' Report

For the half-year ended 30 September 2013

Review and results of operations (continued)

Contributions from business segments were as follow:

ALS Minerals	2013	2012	Increase/
	\$M	\$M	(Decrease)
Revenue	232.1	344.9	(32.7%)
Segment EBITDA *	75.2	137.4	(45.3%)
Segment contribution	63.0	126.6	(50.2%)
Margin (segment contribution to revenue)	27.1%	36.7%	

ALS Minerals experienced a significant reduction in sample volumes during the period as global exploration activity experienced a downward trend in the industry cycle. Whilst the contribution margin as a percentage of revenue fell significantly from the previous corresponding period, the division's ability to react quickly in reducing its variable costs produced a sound margin performance given the difficult market conditions. These measures will continue to be a critical focus for the Minerals division as it manages its way through the current cycle.

ALS Life Sciences	2013	2012	Increase/
	\$M	\$M	(Decrease)
Revenue	272.3	225.0	21.0%
Segment EBITDA *	68.5	58.3	17.5%
Segment contribution	53.5	47.3	13.1%
Margin (segment contribution to revenue)	19.6%	21.0%	

ALS Life Sciences delivered strong growth in revenue and contribution during the half year through a mixture of organic and acquired growth. The overall contribution margin softened slightly as the benefits of additional projects and improved market share in some regions was offset by competitive market conditions and integration costs in other parts of the division.

ALS Energy	2013	2012	Increase/
	\$M	\$M	(Decrease)
Revenue	90.9	53.4	70.2%
Segment EBITDA *	26.7	18.2	46.7%
Segment contribution	22.0	16.5	33.3%
Margin (segment contribution to revenue)	24.2%	30.9%	

ALS Energy achieved significant diversification of its service offering during the period through the formation of its Oil and Gas testing operations stemming from the acquisition of both Reservoir and Earth Data. A solid contribution from the ALS Oil & Gas businesses in August and September 2013 boosted revenue and contribution for the Energy division albeit at a lower margin than the coal business.

The ALS Coal business stream suffered from tightening markets as both volume and price pressures led to lower levels of revenue and profit contribution. A strong culture of cost control resulted in only a slight deterioration in margin when compared with the September 2012 half.

ALS Industrial	2013 \$M	2012 \$M	Increase/ (Decrease)
Revenue	89.3	85.5	4.4%
Segment EBITDA *	16.1	18.1	(11.0%)
Segment contribution	13.7	15.7	(12.7%)
Margin (segment contribution to revenue)	15.3%	18.4%	

Both the Asset Care and Tribology business units within ALS Industrial division reported revenue improvements during the half-year. Market forces manifested in a combination of price competition and a shift in the mix of services being sought by clients resulted in a weaker margin performance by the division.

Directors' Report

For the half-year ended 30 September 2013

Review and results of operations (continued)

Reward Distribution	2013 \$M	2012 \$M	Increase/ (Decrease)
Revenue	60.1	62.2	(3.4%)
Segment EBITDA *	1.6	1.2	33.3%
Segment contribution	1.3	0.9	44.4%
Margin (segment contribution to revenue)	2.2%	1.4%	

The Reward Distribution hospitality supplies business delivered improved profitability despite lower revenue levels than derived in the September 2012 half year as a result of the rationalisation of product sales mix, inventory holdings and overhead costs. These initiatives will continue to be pursued during the traditionally busier second half of the financial year.

Events subsequent to balance date

There has not arisen in the interval between the end of the half-year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial periods.

^{*} Segment EBITDA is a non-IFRS disclosure. This has not been subject to audit or review.

Condensed notes to the consolidated interim financial report

For the half-year ended 30 September 2013

1. Reporting entity

ALS Limited (the "Company") is a company domiciled in Australia. The interim financial report of the Company as at and for the six months ended 30 September 2013 comprises the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in associates and jointly controlled entities.

The consolidated annual financial report of the Group as at and for the year ended 31 March 2013 is available upon request from the Company's registered office at Level 2, 299 Coronation Drive, Milton Qld 4064 or at www.alsqlobal.com.

2. Statement of compliance

The consolidated interim financial report is a general purpose financial report which has been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001.

The consolidated interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the Group as at and for the year ended 31 March 2013.

This consolidated interim financial report was approved by the Board of Directors on 25 November 2013.

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with the Class Order, amounts in the financial report have been rounded off to the nearest one hundred thousand dollars, unless otherwise stated.

3. Significant accounting policies

Except as described below the accounting policies applied by the Group in this interim financial report are the same as those applied by the Group in its consolidated financial report as at and for the year ended 31 March 2013.

The Group has adopted the following new standards and amendments to standards, including any consequential amendments to other standards, with a date of initial application of 1 April 2013.

AASB 10 Consolidated Financial Statements (2011)

AASB 11 Joint Arrangements

AASB 12 Disclosure of Interests in Other Entities

AASB 13 Fair Value Measurement

AASB 119 Employee Benefits (2011)

Annual Improvements to Australian Accounting Standards 2009-2011 Cycle

These changes have not had either a material recognition or measurement impact on the interim financial report however disclosure has been updated as follows.

Presentation of transactions recognised in other comprehensive income

From 1 April 2013 the Group applied amendments to AASB 101 Presentation of Financial Statements outlined in AASB 2011-9 Amendments to Australian Accounting Standards – Presentation of Other Items of Other Comprehensive Income. The change in accounting policy only relates to disclosures and has had no impact on consolidated earnings per share or net income. The changes have been applied retrospectively and require the Group to separately present those items of other comprehensive income that may be reclassified to profit or loss in future from those that will never be reclassified to profit or loss. These changes are included in the statement of comprehensive income.

Condensed notes to the consolidated interim financial report

For the half-year ended 30 September 2013

3. Significant accounting policies (continued)

Fair value measurement

AASB 13 establishes a single framework for measuring fair value and making disclosures about fair value measurements, when such measurements are required or permitted by other AASB's. In particular, it unifies the definition of fair value as the price at which an orderly transaction to sell an asset or to transfer a liability would take place between market participants at the measurement date. It also replaces and expands the disclosure requirements about fair value measurements in other AASB's, including AASB 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required in interim financial statements for financial instruments; accordingly, the Group has included additional disclosures in this regard (refer note 5). In accordance with the transitional provisions of AASB 13, the Group has applied the new fair value measurement guidance prospectively, and has not provided any comparative information for new disclosures.

Notwithstanding the above, the change had no significant impact on the measurements of the Group's assets and liabilities.

Segment information

The amendment to AASB 134 clarifies that the Group needs to disclose the measures of total assets and liabilities for a particular reportable segment only if the amounts are regularly provided to the Group's chief operating decision maker, and there has been a material change from the amount disclosed in the last annual financial statements for that reportable segment. As a result of this amendment, the Group has included additional disclosure of total segment assets and liabilities (refer note 6).

4. Estimates

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report as at and for the year ended 31 March 2013.

5. Financial risk management
