## ANGLO AUSTRALIAN RESOURCES NL

ASX – MEDIA RELEASE

19 December 2013

### UPDATE ON DRILLING RESULTS

PERTH, Western Australia: Anglo Australian Resources NL (ASX: AAR) (“Anglo Australian”) wishes to provide shareholders with the following update in relation to recent drilling programs.

#### **Mandilla Gold Project**

During November 2013, some twenty rotary air blast and four RC holes were drilled at the Mandilla Gold Project, Western Australia for a total of 1080 metres.

Results are currently being assessed in context of the geological setting.

It is expected that further information will be provided to shareholders in the December 2013 Quarterly Report, if not before.

#### **Victoria River Downs Zinc/ Lead Project**

Anglo Australian understands that MMG Limited recently completed the inaugural drilling program at the Victoria River Downs Project, Northern Territory.

Anglo Australian is awaiting receipt of the results of the program from MMG, and will provide them to shareholders as soon as they are available.
