Company Highlights

- Indonesia
 - High grade placer deposit
 - Project show early stage similarities with discoveries inc; Porgera, Edie Creek, Wau
 - Independent geologists believe source of nuggets likely to be local, based on the size and shape of the nuggets discovered
- South Africa
 - 287,000 ozs Resource
 - near surface and underground targets
 - 31.8m ozs Au produced historically
 - Conceptual Target
 - 3.85-5.06 million ozs Au
 - 16.5-21.7 million lbs U

Quarterly Activities Report

Review of Operations

Indonesia

Alluvial Gold Project, Papua Province (WWI:50%)

West Wits Mining Limited (“West Wits” or “the Company”) during the quarter experienced further delays with regard to commissioning its alluvial gold project in Derewo River, Papua Province, Indonesia (“Derewo”). The Company was requested by local government to defer commencement for up to 8 weeks whilst it implemented its plans to clean up the illegal activities on the site and provide access to the Company.

At a public meeting held in November 2013, the Bupati (Mayor), Mr Hengki Kayame SH, MH (who was elected to office in May 2013), the head of the Paniai Mines Department and the vice Kapolres (deputy police commissioner for the regency) declared that it was the Regency’s intention to solve the issues of illegal mining and associated contraband activities. The Bupati publicly announced his support for the Company’s mining project which, he noted, as a lawful operation would generate royalties and other benefits for the local community.

Assurances were provided by the Bupati to the Company that it will not continue to experience interference as an expanded law enforcement presence will be permanently based on site. As part of this policy initiative the Bupati announced that a permanent police station would be constructed adjacent to the new airstrip at the site. Furthermore, all aircraft entering the site will be searched for contraband goods and any gold found in the possession of persons without a mining permit will be confiscated.

Whilst these public statements were welcomed by the Company, implementation on the ground is taking longer than was anticipated. The Company is in communication with the Bupati and Paniai Mines Department about its strategies and progress on implementing these policy initiatives. It appears the population at site has substantially reduced from what it was.

The Bupati continues to support the Company and is eager for the Company to commence its operations. West Wits has however made it clear that it must have comfort that the recently announced policies have been implemented prior to recommencing operations.

All equipment is at site in readiness to start an alluvial circuit. The Company has its mess and heavy machinery under protection of a security team, whilst the actions proposed by the Bupati are being implemented. Operating costs in Indonesia have been substantially reduced pending re-commencement of operations at Derewo.

Exploration

Exploration plans were delayed by management when the request to defer commencement of the alluvial circuit was implemented. It is the Company's intention to recommence its exploration program once the alluvial circuit is operational.

Permitting

The Company continues to engage with the relevant departments and officers, for each of the three regencies in which its exploration permits are located, to ascertain when each Clean and Clear list will be registered with the central mines department in Jakarta. The Company has been unable to establish a precise timetable for release of the list although estimates for two of the three regencies are that this will occur in early 2014. West Wits has been recommended for approval by the local Regencies. It is anticipated that following receipt of Clear and Clean approvals forestry permits will be processed. The delays with the Clean and Clear list are affecting all rights holders in Papua.

South Africa

Soweto Cluster underground rights, West Rand (WWI:100%)

On 5 November 2013 the Company received notification of a decision by the Department of Mineral Resources in South Africa (DMR) to not grant a renewal of the prospecting right over the area known as the Soweto Cluster prospecting right. This decision by the DMR was surprising given the Company had received indications that the extension would be granted.

There are now a number of strategies being pursued in order to preserve the Company's Soweto entitlements include the lodgement of a court appeal to challenge the decision. In addition, the custodian of the right has lodged an application for conversion to a mining right to secure rights as a mining lease. Concurrently West Wits Monarch (Pty) Ltd has lodged discreet prospecting applications over priority exploration targets within the Soweto Cluster.

The Soweto Cluster contains a previously announced JORC resource and the Company has plans to advance development of the area with a view to commercialisation through disposal or joint venture. Whilst the project is not central to the Company's future plans it could deliver material value which would be lost if this matter is not resolved favourably.

The Company continues to receive instalment payments in connection with the sale of the Randfontein Cluster leases to Mintails Limited.

For And On Behalf Of The Board

Michael Quinert

Chairman

West Wits Mining Limited

Competent Persons Statement

The information in this report that relates to Exploration Results is based on information compiled by Dr Andrew Tunks, a consultant to West Wits Mining Limited. Dr Tunks is a Member of the Australian Institute of Geoscientists ('AIG') and has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code). Dr Tunks consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

+ See chapter 19 for defined terms.

Financing facilities available

Add notes as necessary for an understanding of the position.

	Amount available \$A'000	Amount used \$A'000
3.1 Loan facilities	-	-
3.2 Credit standby arrangements	-	-

Estimated cash outflows for next quarter

	\$A'000
4.1 Exploration and evaluation	300
4.2 Development	-
4.3 Production	-
4.4 Administration	300
Total	600

Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.

	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	474	714
5.2 Deposits at call	-	-
5.3 Bank overdraft	-	-
5.4 Other (provide details)	-	-
Total: cash at end of quarter (item 1.22)	474	714

+ See chapter 19 for defined terms.

Appendix 5B

Mining exploration entity and oil and gas exploration entity quarterly report

Changes in interests in mining tenements and petroleum tenements

	Tenement reference and location	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1	Interests in mining tenements and petroleum tenements relinquished, reduced or lapsed	Nil		
6.2	Interests in mining tenements and petroleum tenements acquired or increased	Nil		

+ See chapter 19 for defined terms.

Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3) (cents)	Amount paid up per security (see note 3) (cents)
7.1 Preference +securities <i>(description)</i>	-	-	-	-
7.2 Changes during quarter				
(a) Increases through issues	-	-	-	-
(b) Decreases through returns of capital, buy-backs, redemptions	-	-	-	-
7.3 +Ordinary securities	277,944,562	277,944,562	-	-

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
