ANNOUNCEMENT TO THE AUSTRALIAN STOCK EXCHANGE

31st January 2014

Company Announcements Office
Australian Stock Exchange Limited
10th Floor, 20 Bond Street
SYDNEY NSW 2000

Dear Sir/Madam,

Re: Appendix 4C - Quarterly Report

Please refer to the 'Appendix 4C' attached for details for the period ended 31 December 2013 for the Group.

- **Company name change to Admedus Ltd**
- **Acquisition of a world-class manufacturing facility to support the scale-up of CardioCel[®]**
- **CardioCel[®] launched in Europe**
- **Admedus named Emerging Company of the Year**

Admedus secured sales of almost \$2M for the last quarter with total revenue for the half year over \$4M, which represents an increase from the previous year for the same period.

Admedus finished the quarter with over \$9M in cash reserves and remains in a strong cash position. During the period the Company concluded a \$10.4M Rights Issue. Admedus also received another instalment of \$450,000 as part of its ongoing Commercialisation Australia grant, which is supported by the Australian Government.

The past quarter has been another productive one for the Company with several significant events which include:

- Eight surgeons from the Prince Charles Hospital in Brisbane approved to use CardioCel[®] under the Authorised Prescriber Scheme for adult patients. This is an important milestone for the company as it is the first authorised use of CardioCel[®] in adults, adding to its ongoing use in paediatric patients.
- Admedus was awarded the Ausbiotech "Emerging Company of the Year" award, sponsored by Janssen, at the annual Ausbiotech conference. This award recognises the significant progress the Company has made towards the commercialisation of CardioCel[®] and the benefits CardioCel[®] offers patients

- First sales of CardioCel®
CardioCel® was approved for sale in Europe earlier in the year and during the quarter initial sales were made with growing interest and demand from surgeons wanting to use the product in Europe.
- All patients participating in the Phase 1 HSV-2 vaccine study completed their dosing. Interim results are expected in February.

The company is looking forward to a strong second half of the financial year and is on track to see another increase in revenue compared to the previous year.

Yours sincerely
