## **Operations - McClain County Project – Odyssey 50% WI:**

Odyssey holds a 50% working interest in a project area in the Anadarko Basin in Oklahoma comprising 1,626 gross acres, and targeting gas and oil in the Woodford Shale at between 6,000 and 8,000 feet.

Major Operators have been focusing on developing this Shale as a liquids-rich gas play, with permitting and drilling activity continuing over recent months in adjacent counties.

While activity in the region continues to expand the evaluation is still largely focused on greater depths than the prospective section in the Company's acreage.

## **Corporate**

### *Investments*

The Company continues to hold 27.5 million shares in Marion Energy Limited ("**Marion**") which it received following the sale of its subsidiary OEL Operating (USA) to Marion Energy.

Marion's securities remain suspended from trading on the ASX. However, pending final regulatory approval, Marion has announced that it intends to re-list in the near to mid-term. The Company also notes the recent operations updates announced by Marion.

### *Business Development*

During the quarter the Company continued to assess a number of new business opportunities targeting oil and gas and other sectors, both domestically and overseas. Some of these opportunities have included direct applications for new oil and gas licenses. However no agreements have been reached and the Directors are not able to assess the likelihood or timing of a successful acquisition of any of the opportunities.
