# Quarterly Report

For Quarter ending 31 March 2014

#### **HIGHLIGHTS**

- Quarterly oil production was 16,000 bbls and gas production 29,271 mcf. Gross Quarterly revenue was A\$2,036,586.
- Desiree Production (35.6% WI) Hensarling #1 produced a total of 34,719 bbls of oil during the March quarter at an average rate of 399 bbls per day (with a total of 4 days down time). During the period, net revenue (after operating costs) averaged ~\$265,000 per month.
- Dugas & Leblanc #3 (40% WI) This well is presently producing at gross production rates of 120 bopd, 200Mcfd and 492 bswpd, through a 21/64" choke.
   During the period, net revenue (after operating costs) averaged ~\$100,000 per month.
- Louise Prospect (15.5% WI) The Company has provided the farmin operator with
  an extension to commence drilling the well by 1 June 2014. The Operator has
  secured a drilling permit and the well will be drilled from the Desiree location pad.
  Louise is targeting 600,000-800,000 bbls oil in an updip segment of a proven, oilbearing compartment.
- West Klondike (11.7% WI) The Operator has advised that it has all the necessary
  approvals and funding in place and has commenced pipeline installation.
   Production equipment is being moved to site next week The well tested flow rates
  above 2 MMcfpd with associated condensate.
- Abita (20% WI) The SL 19706 #1 well is presently producing 500 Mcfpd, 3 bcdpd and 80 bswd through a 7/64" choke. Water production commenced in mid-March and has limited the commerciality of the lower 18 sands. The operator is likely to propose a recompletion in the upper 18 sands in the near future. Presently the well is marginally profitable.

#### **Desiree Field**

#### Desiree, Assumption Parish, Louisiana, Non Operator 35.6%

The Hensarling #1 well (Desiree Field) was placed on production on 3 July 2013 and is presently producing at around 399 bbls oil per day using a jet pump. The operator anticipates the well will sustain production rates between 350 to 400 bbls per day through a 25/64 inch choke until depleted or water production becomes excessive.

Post drill, gross prospect reserves are estimated to be 952,000 bbls oil in the Cris R II & III. The well is producing from the thicker Cris R III following which the overlying Cris R II will be completed for production.

At these production rates the Desiree Field contributes cash flow to the Company of US\$250,000-\$285,000 per month (US\$3-\$3.4 million per year).

#### Dugas & Leblanc #3 "M" Sand

#### Napoleonville- Dugas & Leblanc #3 Well, Assumption Parish, Louisiana, Non Operator 40% WI

The D&L#3 was placed on jet pump in December 2013 and is producing at flow rates of 120 bopd, 200Mcfpd and 492 bswpd from a 21/64 inch choke. Monthly revenue net to the Company is estimated at around \$100,000 after royalties and operating costs. The operator is presently awaiting a permit to convert the D&L#2 well into a salt water disposal well.

The gross proven behind pipe reserves (PDP) at 31 December 2013 was estimated at 63,000 bbls of oil and 178,800 mcf of gas.

#### **Abita**

#### Abita, Plaquemines Parish, Louisiana, Non Operator 20%WI (15% after payout) 350-700 BBLS / 6 BCFG

The field is being operated by Clayton Williams Energy Inc in Plaquemines Parish, Louisiana. The well commenced producing on 18 March 2012.

The well commenced producing water during mid-March 2014. As a result, the well is presently producing at economically marginal rates and the operator is likely to propose that the lower 18 sand be shut off and the upper 18 sand be opened. The upper 18 sand is likely to contain 400,000 mcf and 8,000 bbls oil. The well is presently producing at 500 mcfd, 3 bopd and 80 bswd through a 7/64 inch choke.

Reserve update: At 31 December 2013 the proved developed behind pipe reserves (PDB) were estimated to be 2,397 MMcf and 48 Mbc for the "Upper 18", "17", and "15" Sands.

#### West Klondike Development

#### Wilbert Sons LLC #1 well, West Klondike, Iberville Parish, Louisiana, Non Operator 11.7% WI

The Operator has confirmed that all permitting and JV funding has been received and operations to install the pipeline and facilities have commenced in ernest. The well was successfully flow tested at over 2 MMcfpd from the lower Nod Blan.

Due to non participation by one of the JV partners in the facilities and pipeline program the Company has increased its working interest to 11.7%. This increase will revert back to the original owner following 400% recovery of the incremental programs cost to the Company.

Electric logs of Wilbert Sons #1 indicate hydrocarbons in three reservoir horizons. A summary of the characteristics or each reservoir is provided below:

| Depths        | Sand       | Net Pay | Hydrocarbons   | Description                   |
|---------------|------------|---------|----------------|-------------------------------|
| 10,330-10,350 | Lario      | 4ft     | Oil            | 18-20% porosity appears tight |
| 10,518-10,524 | U Nod Blan | 6ft     | Condensate/gas | Good porosity                 |
| 10,616-10,661 | L Nod Blan | 35ft    | Oil/gas        | Good porosity                 |

#### **EXPLORATION**

#### Napoleonville Salt Dome

#### Louise Prospect, Assumption Parish, Louisiana, Non Operator 15.5%

The operator has been issued with an extension to commence drilling the well by 1 June 2014. The delay in commencing of drilling has been as a result of a lease holder not having agreed to participate in the well. This delay, although frustrating, is expected to be resolved forthwith. Drilling permits have been secured and the well is to be drilled from the Desiree pad. The JV has secured extensions to the prospect leases.

This prospect was developed using proprietary 3D seismic data by the Company's in-house Geological and Geophysical team. The prospect follows the same style as Desiree and is located to the immediate south.

A well to test the Louise prospect is expected to penetrate an accumulation of oil in a 3D-defined, normally pressured, block updip from a productive well where an equivalent target interval has produced 2.2 Mbbl oil and 10.5 Bcf gas. The Louise well is expected to be drilled in the June 2014 quarter and is targeting an estimated resource of between 600,000 to 800,000 bbls of oil. This well is considered low risk both from drilling operations and geological and geophysical perspectives.

#### Napoleonville Salt Dome

The Company has recently received the reprocessed Napoleonville 3D volume from Petrodome. This reprocessing has improved the fidelity of the data and, with further refinement by frequency extraction and attribute work, will provide an excellent tool with which to look for new drilling targets. Accordingly, Grand Gulf has commenced in-house prospect generation work in earnest. Grand Gulf's Prospect team is being led by KC Whittemore (Geologist), who will be assisted by Kevin Kenning (Reservoir Engineer) and Bill Radford (Geophysicist). This very experienced Geological and Geophysical team have all focused their careers onshore Gulf Coast.

The Company is excited to recommence working directly with the seismic and other data in generating drilling locations and furthering the impressive work completed to date. Grand Gulf views Napoleonville as a significant and asset that has a substantial number of untapped oil and gas prospects not unlike the Desiree and Dugas and Leblanc discoveries all of which were developed in-house.

Grand Gulf's is for this work to identify up to 3 targets for drilling this calendar year.

#### **LEASE SCHEDULE**

The Company provides the following Schedule of lease interest held by the Company for the quarter 31 December 2013 as required by ASX Listing Rule 5.3.

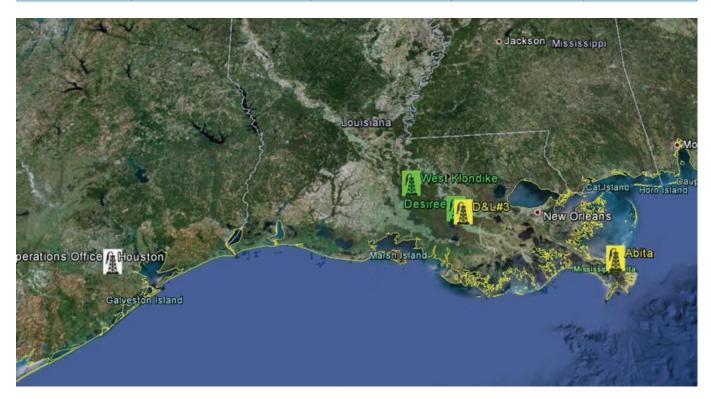

| Project           | Location                     | Lease                   | Interest at Beginning of the Quarter | Interest at the end of the Quarter |
|-------------------|------------------------------|-------------------------|--------------------------------------|------------------------------------|
| Abita             | Plaquemines Parish           | 16990                   | 20%                                  | 20%                                |

# Appendix 5B Mining exploration entity quarterly report

| 1.13 | Total operating and investing cash flows      |       |       |
|------|---|-------|-------|
|      | (brought forward)                             | 417   | 620   |
|      |   |       |       |
|      | Cash flows related to financing activities    |       |       |
| 1.14 | Proceeds from issues of shares, options, etc. | -     | -     |
| 1.15 | Proceeds from sale of forfeited shares        | -     | -     |
| 1.16 | Proceeds from borrowings                      | -     | -     |
| 1.17 | Repayment of borrowings                       | -     | -     |
| 1.18 | Dividends paid                                | -     | -     |
| 1.19 | Costs of Capital                              | -     | -     |
|      | Net financing cash flows                      | -     | -     |
|      | Net increase (decrease) in cash held          | 447   | 202   |
|      |   | 417   | 620   |
| 1.20 | Cash at beginning of quarter/year to date     | 1,258 | 1,006 |
| 1.21 | Exchange rate adjustments to item 1.20        | (80)  | (31)  |
| 1.22 | Cash at end of quarter                        | 1,595 | 1,595 |

Payments to directors of the entity and associates of the directors Payments to related entities of the entity and associates of the related entities

|      |  | Current quarter<br>\$A'000 |
|------|--|----------------------------|
| 1.23 | Aggregate amount of payments to the parties included in item 1.2 | 151                        |
| 1.24 | Aggregate amount of loans to the parties included in item 1.10   | -                          |

1.25 Explanation necessary for an understanding of the transactions

Payments include consulting and directors fees, and provision of a Legal Secretary.

## Non-cash financing and investing activities

| 2.1 | Details of financing and investing transactions which have had a material effect on |
|-----|---|
| _   | consolidated assets and liabilities but did not involve cash flows                  |

| Nil |  |  |  |
|-----|--|--|--|
|     |  |  |  |

2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

| Nil |  |  |  |
|-----|--|--|--|
|     |  |  |  |

Appendix 5B Page 2 30/9/2001

#### Financing facilities available

Add notes as necessary for an understanding of the position.

|     |                             | Amount available<br>\$A'ooo | Amount used<br>\$A'ooo |
|-----|-----------------------------|-----------------------------|------------------------|
| 3.1 | Loan facilities             |                             |                        |
| 3.2 | Credit standby arrangements |                             |                        |

## Estimated cash outflows for next quarter

|     |                            | \$A'000 |
|-----|----------------------------|---------|
| 4.1 | Exploration and evaluation | 500     |
| 4.3 | Development                | 500     |
| 4.2 | Development                | 100     |
| 4.3 | Production*                |         |
|     |                            | 600     |
| 4.4 | Administration             |         |
|     |                            | 110     |
|     |                            |         |
|     | Total                      | 1,310   |

<sup>\*</sup> Production costs are primarily a % of revenue and reflect royalties and state taxes. The balance are production costs.

## Reconciliation of cash

| show | nciliation of cash at the end of the quarter (as in in the consolidated statement of cash flows) e related items in the accounts is as follows. | Current quarter<br>\$A'ooo | Previous quarter<br>\$A'ooo |
|------|---|----------------------------|-----------------------------|
| 5.1  | Cash on hand and at bank  | 1,595                      | 1,258                       |
| 5.2  | Deposits at call  |                            |                             |
| 5.3  | Bank overdraft  |                            |                             |
| 5.4  | Other (provide details)   |                            |                             |
|      | Total: cash at end of quarter (item 1.22)   | 1,595                      | 1,258                       |

# Changes in interests in mining tenements

6.1 Interests in mining tenements relinquished, reduced or lapsed

| Tenement  | Nature of interest | Interest at | Interest at |
|-----------|--------------------|-------------|-------------|
| reference | (note (2))         | beginning   | end of      |
|           |                    | of quarter  | quarter     |
|           |                    |             |             |
|           |                    |             |             |

#### **Notes**

- The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.

30/9/2001 Appendix 5B Page 5

<sup>+</sup> See chapter 19 for defined terms.

- Issued and quoted securities The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- The definitions in, and provisions of, *AASB* 1022: Accounting for Extractive Industries and AASB 1026: Statement of Cash Flows apply to this report.
- Accounting Standards ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
