DECMIL AWARDED CAPE LAMBERT PORT B CONTRACT

- **Approximate value of AUD\$26 million**
- **Design, supply, installation and commissioning of Cape Lambert Port B Non Process Infrastructure**
- **Due for completion 1st Quarter 2015**

Decmil Group Limited (ASX: DCG) ("Decmil") has been awarded a contract for the Non Process Infrastructure (NPI) facilities at Rio Tinto's Cape Lambert Port Expansion. The contract value is approximately AUD\$26 million.

This contract follows the award of a design, supply, fabrication, transportation, construction and commissioning contract to support the expansion of Rio Tinto's West Angelas Deposit B, valued at approximately \$35 million.

The NPI Facilities contract includes the design, supply, installation and commissioning of the Cape Lambert Supply Hub, the Production Administration Building and the Engineering Services Building Ablution Block, including Waste Water Treatment and Treated Water Disposal System.

Scott Criddle, CEO and Managing Director of Decmil said he is delighted with the award of this contract.

"The work at Cape Lambert is another great win for Decmil as it further demonstrates our leading position in delivering NPI for remote natural resource projects.

"As mine production ramps up and our clients focus on the operational cycle of their projects, we are in a strong position to provide the Non Process Infrastructure required to support this growth.

"Rio Tinto is a long standing and valued client of Decmil and the award further reinforces our reputation in the Iron Ore sector".

About Decmil

Decmil Group Limited (DGL) offers a diversified range of services to the Australian resources and infrastructure industries. Companies within the group specialise in design, civil engineering and construction; accommodation services; mechanical fabrication; and maintenance. Listed on the Australian Securities Exchange (ASX Code: DCG), Decmil's goal is to maximise returns from our operations to deliver value to our shareholders, clients and other stakeholders.
