# GUD Holdings Investor Day

19 November **2014** 

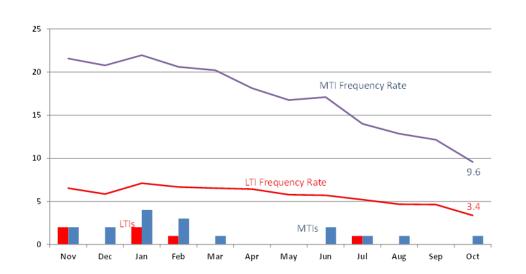

# **GUD Investor Day**

Paul O'Keefe - CEO Dexion

19 November 2014

# Safety performance

Dexion's safety today, ensures your future tomorrow.

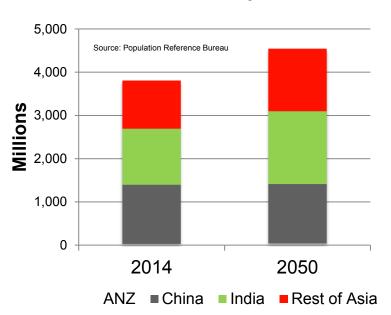

### Safety initiatives

- Group WHSE appointment.
- Three year strategic plan targeting 30% improvement in safety each year.
- Strengthening culture and safety leadership.
- 'Safety' is paramount no harm culture.
- Strengthen operational safety in supply chain.
- Support to franchise and supply centres with safety practices.
- Strengthen installation and contracting processes.

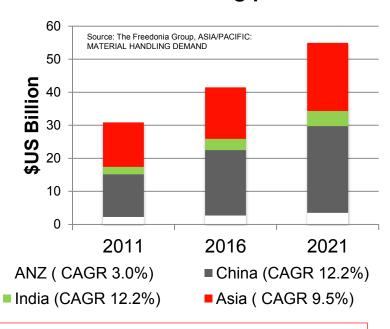

### **Market trends**

### **Asia and Pacific Population**

# Asia & Pacific demand for material handling products

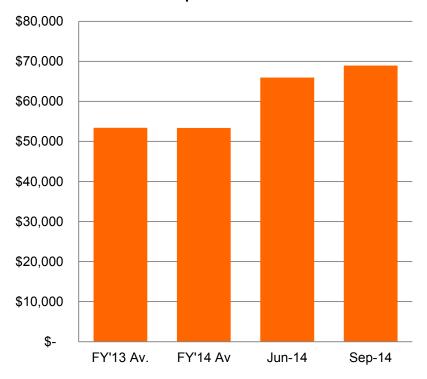

- In the next 10 years, the population in Asian region is projected to increase by just under 10% providing enormous growth opportunities.
- **Global** demand for materials handling products is forecast to climb 4% annually through 2016 to \$123.6 billion.\*

# Order Bank & Market Dynamics

# Order Bank Sales Value \$'000

- Order bank volume has increased.
- ANZ is a challenging mature market with increasing import competition, particularly from China.
- Opportunities exist to access growth in Asian and Middle Eastern markets.
- Demand for warehouse automation increasing in Asia.
- Leverage strategic partnerships e.g. Unilever, Daifuku, TGW, Efacec.
- Commercial business unit free of restructuring is focused on market growth including Asian expansion

# Re-design of Supply Chain footprint

### **Completed July'14**

- First tranche of equipment moved from Kings Park
- Transferred volume to lowcost plants in MY and CN
- Engagement of Australian engineering resource
- Training of newly recruited team

### **Completed Oct'14**

- Kings Park manufacturing closed
- Ramp up of WHS program at Kuala Lumpur
- Production capacity increased at Kuala Lumpur

### Sept'14 to Dec'14

Optimise Kuala

Lumpur factory

Logistics Management

- Kuala Lumpur plant planned to be fully operational by December
- Integrating LEAN concepts into new footprint
- Maximise utilisation to drive cost reduction

- New warehouse in Kuala Lumpur
- Automated loading devices at Kuala Lumpur
- Freight optimisation intensified
- Warehouse efficiency at Kings Park

### **Commercial Business Unit Restructure**

Exit of NZ Manufacturing

**√**Completed 1

- Manufacturing equipment decommissioned May '13
- Sourcing of Library and Retail shelving from NZ supplier May '13
- New designs for Retail and Library shelving sourced from China released Jun '14

**Exit of Elite Built** 

✓ Completed 2

- ASX Announcement Nov '13
- Released sales and customer support staff Jan '14
- Released warehouse staffMar '14
- Sold down stock Jul '14

Exit of Australian Manufacturing

**✓** Completed

3

**Expansion into Asia** 

-- In progress

- Strategic sourcing arrangement for office shelving finalised in China Mar '14
- Manufacturing equipment decommissioned in Australia Sep '14
- Improved, lowercost products
   launched Nov '14

- Relocated key
   Australian
   resource to Kuala
   Lumpur
- Early major project win for National Library Malaysia
- 3 Year StrategicPlan

# New High Speed Machine – Kuala Lumpur

2

### **Completed June'14**

# ✓ Completed 1

### e'14 Completed Oct'14

✓ Completed

### Nov'14 to Mar'15

> Optimisation

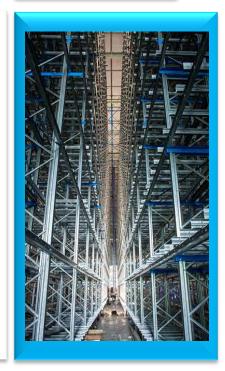

3

### **Completed Nov'14**

**✓** BKF – Daifuku Thailand

- Extensive R&D development program to create new product
- Market solution for Automated Storage and Retrieval Systems (ASRS) and Mezzanine Floors
- Technical support roll out

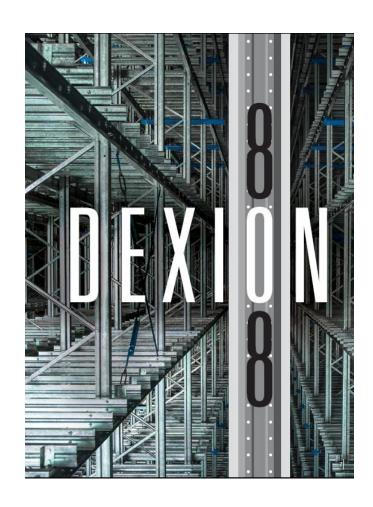

- Line installed & commissioned
- 7 major projects in the order bank
- Delivered and installed one major project
- Optimise operational throughput and processes
- Build on the opportunity pipeline
- Market penetration campaign

# Innovation – new industrial product: Dexion 808

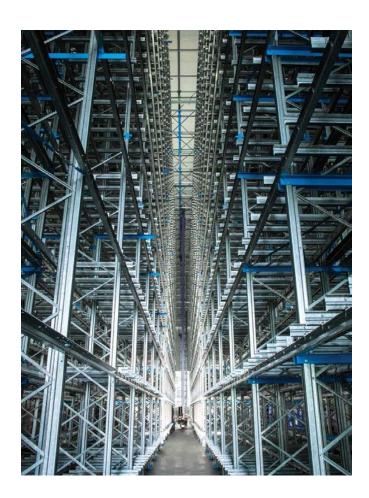

- Dexion undertook an extensive research and development program to create a new product - Dexion 808.
- Market offering for Automated Storage and Retrieval System and Mezzanine Floor projects with a highly adaptable broad range of profiles.
- Product is designed to reach a height of 60m.
- Direct investment to position Dexion as a global partner with systems integrators e.g. Daifuku, TGW, Efacec.

# Dexion 808: market leading position

- Penetration of new growth market segments in Asia and the Middle East:
  - Daifuku Thailand
  - Kellogg's Malaysia
  - Abu Dhabi Police Station UAE
  - Mondo Nissin Philippines
  - Wared Logistics KSA
- Improved competitiveness through smarter design application and structural engineering innovation.

### **Innovation – Commercial Business Unit**

### **Foundations**

- The innovation program is built around:
  - ✓ Design capability
  - Creating the right environment for designers to flourish
  - ✓ Design ownership and IP protection
  - ✓ Supply flexibility

### **New innovations**

- Understanding customer needs
- Internal design process
- Regular innovation forums

### **Innovation – Commercial Business Unit**

### Product launch program

- Multiple releases planned in FY15
- Further releases planned for FY16 and beyond.

Agile Lockers

Parcel Lockers

# **Summary**

- Business is working through a period of significant transition
- Exit of Australian manufacturing complete
- Focused on rebuilding Australian businesses and establishing Asian supply chain
- Significant opportunities exist to access growing Asian and Middle Eastern markets
- Innovation is a critical cornerstone to future success

# GUD Holdings Investor Day November 19<sup>th</sup> 2014 GUD Automotive Products Bob Pattison CEO

## **Automotive Products**

### Consists of three entities:

- GUD Automotive (Australia) Pty Ltd
- GUD (NZ) Limited
- Wesfil Australia Pty Ltd

### Product range consists of:

- 1. Filtration products (oil, air, fuel, cabin, transmission)
- 2. Engine management products (fuel pumps, ignition coils)
- 3. Service items (wiper blades, brake pads, timing belts/kits, globes)

### Brands consist of:

- Ryco, Wesfil, Cooper (filters)
- Goss (fuel pumps, hose, ignition coils, chemicals)

# Australian aftermarket structure

# Aftermarket industry profile

- Consolidation of trade distributors
  - Independent resellers being consumed by majors
- Australian car market very open:
  - Over 60 brands and 400 models
  - High prevalence of Australian made models at present
- New Zealand market fragmented due to used car import phenomenon
- DIY and DIFM channels still important

# The Australian vehicle market

- The market continues to grow
  - New vehicle sales exceeded 1 million units in 6 of last 7 years
  - Currently car population 16.6 million units, going to 18.5 million by 2018
  - Average car age 10 years
- Small cars growing, large cars declining
  - Contributing to closure of local manufacturing
- SUVs still growing
- Strong growth in pick up trucks
- Shift to diesel now 30% of the market

# Implications for filters and service parts

- Underlying parts demand growth due to increase in vehicle numbers
- Partially offset by extended servicing intervals and capped-priced servicing
- Longer warranty periods affecting available market for non-OE brands
  - ACCC have ruled warranty not voided if serviced in independent channel
- Car market extremely diverse in relation to brands and models
  - Parts knowledge a major competitive advantage

# Ryco competitive advantage

- Largest product range
  - 1,800 SKUs
  - Supported by comprehensive cataloguing
- Widest distribution footprint in Australia and New Zealand
- Scale economies at SKU level
- Technical capability
- Unique direct-to-trade representation

# **New Products and Line Extensions**

### RYCO:

### Light Duty filter market

- Motorcycle oil filter program released in August 2014
- 4WD filter service kits released in March 2014
- Expanded in-tank fuel filter program to address technology change for Japanese/Korean vehicles

### Heavy duty filter market

- Agricultural equipment (tractors/headers) launched in July 2014
- Expanded range of filters to suit Japanese small/medium trucks

### GOSS:

- Ignition coil program released in February 2014
- Oxygen sensor program to be launched in April 2015

# **Product Innovation Concepts Under Investigation**

- RYCO Platinum Plus
- "SMART" oil filter
- Anti-allergens/virus/bacteria/mildew cabin filter
- High efficiency diesel fuel/water separator filter
- Diesel particulate filters

# **Business Improvement Initiatives**

- Business Planning Process Review & Re-Design
- The GUD High Performance Program
- Independent workshop "Conquest" Program
- Profit Optimisation Review

# **Automotive Summary**

- Business tied to growing aftermarket
- GUD's brand portfolio provides solid market position
  - Market initiatives leading to improving market share
  - Other brands have declined Bosch withdrew, Valvoline declining
- Scope for growth with new products
  - In-house technical capability
- Scope for growth outside of traditional product types
  - Other replacement parts

GUD Holdings Investor Day Wednesday 19 November 2014 Karen Hope – Sunbeam CEO

# Reinventing Sunbeam – the 5 pillars
