Profit Guidance - Six months ending 31 December 2014

Sydney, January 7, 2015 - Integrated Research (“IR”) is in the early stages of preparing its half year financial statements for the six months ending 31 December 2014. IR is pleased to announce that, based on internal management accounts and subject to audit review, the Company anticipates its profit after tax for the period to be in the range of \$7.0 million to \$8.0 million compared to \$4.5 million for the equivalent prior period.

Overall sales across all product lines were very strong. The preliminary results were influenced by the falling Australian Dollar, however the full positive impact of the currency devaluation was partially offset by forward exchange rate contracts.

This statement is made for market guidance, IR does not expect to make any further comment until the accounts have been finalised and approved for release to the ASX (anticipated announcement date: 19 February 2015).
