

ASX Announcement

20 February 2015

Brookfield Prime Property Fund (ASX: BPA) Interim Results 2015

Brookfield Capital Management Limited (BCML) as Responsible Entity for Brookfield Prime Property Fund (the Fund) announces the Fund's interim results for the six month period to 31 December 2014.

Key messages are:

- net assets of \$318.2 million (30 June 2014: \$312.5 million) or \$6.49 per unit (30 June 2014: \$6.37);
- net profit of \$3.4 million (31 December 2013: \$11.2 million) or 6.9 cents per unit (31 December 2013: 22.9 cents);
- property portfolio valued at \$904.8 million (30 June 2014: \$894.8 million);
- distributions paid to investors for the period of 4.0 cents per unit; and
- the Fund is in compliance with all debt covenants.

Increase in net assets

Net assets increased from \$6.37 to \$6.49 per unit during the period. This is mainly due to current period net operating income retained in the Fund and a reduction in the interest rate swap liability.

Earnings

Net profit for the current period is \$3.4 million (31 December 2013: \$11.2 million). When measured against the comparable period to 31 December 2013, lower net property income largely reflects the increased vacancies experienced at 108 St Georges Terrace. Overall earnings have been negatively impacted by significant capital expenditure and lease incentives incurred at 108 St Georges Terrace, which are not fully reflected in the increase to the carrying value of the property at 31 December 2014.

Portfolio update

The property portfolio was internally valued as at 31 December 2014 and increased in value by 1.1% to \$904.8 million. This increase reflects the positive impact on net rental income from new leases and positive rent reviews throughout the portfolio. Significant capital expenditure at 108 St Georges Terrace during the period also offset softening market rental and valuation assumptions in the Perth market.

During the period, portfolio occupancy decreased from 99.3% to 93.4%, mainly due to the expiry of the BankWest lease at 108 St Georges Terrace. The portfolio weighted average lease expiry (by ownership and income) increased from 4.7 years to 4.9 years reflecting new lease deals at the Ernst & Young Centre, 50 Goulburn Street and 108 St Georges Terrace.

A summary of the property valuations as at 31 December 2014 is as follows:

Property	Location	Interest (%)	31 December 2014 Valuation (\$m)	30 June 2014 Valuation (\$m)
Ernst & Young Centre and 50 Goulburn Street	Sydney	50	270.0	265.0
American Express House	Sydney	100	145.0	145.0
Southern Cross East Tower	Melbourne	25	172.3	171.3
Southern Cross West Tower	Melbourne	50	149.5	147.5
108 St Georges Terrace	Perth	50	168.0	166.0
Total			904.8	894.8

Outlook and Capital management

BCML will continue to explore opportunities to enhance value for investors, including continuing to review the Fund's capital structure, its assets and its gearing.

BCML continues to monitor operating cash requirements and the distribution policy.

Performance of the property portfolio will continue to be driven by asset management initiatives to deliver leasing results such as the recently announced conditional lease for approximately 8,300 square metres at 108 St Georges Terrace. These initiatives, together with continued high quality building upgrades, will increase the competitiveness of the properties with a view to maximising returns for investors.

Further information

Further information regarding the Fund's interim results is available in the 2015 Interim Report. Additionally, the financial report for the six month period to 31 December 2014 is available at www.au.brookfield.com. It is recommended that investors review these documents.

Message from the Chairman

On behalf of the Board of Brookfield Capital Management Limited (BCML), enclosed is the Brookfield Prime Property Fund (Fund) interim financial results for the six month period to 31 December 2014.

FINANCIAL RESULTS

The Fund reported a net profit of \$3.4 million for the period, compared to a net profit of \$11.2 million for the same period last year.

Key financial results as at 31 December 2014 include:

- net assets of \$318.2 million (30 June 2014: \$312.5 million) or \$6.49 per unit (30 June 2014: \$6.37);
- portfolio value of \$904.8 million (30 June 2014: \$894.8 million);
- total revenue and other income of \$37.0 million (31 December 2013: \$42.3 million); and
- earnings per unit of 6.9 cents (31 December 2013: 22.9 cents).

PROPERTY PORTFOLIO

The property portfolio was internally valued as at 31 December 2014 and increased in value by 1.1% to \$904.8 million. Portfolio occupancy is 93.4% and weighted average lease expiry by ownership and income is 4.9 years.

DEBT

As at 31 December 2014, the senior debt facility remains at \$520 million and the balance of the subordinated facility has increased to \$51.1 million. The Fund is in compliance with its debt covenants.

OUTLOOK AND CAPITAL MANAGEMENT

BCML will continue to explore opportunities to enhance value for investors, including continuing to review the Fund's capital structure, its assets and its gearing.

BCML continues to monitor operating cash requirements and the distribution policy.

Performance of the property portfolio will continue to be driven by asset management initiatives to deliver leasing results such as the recently announced conditional lease for approximately 8,300 square metres at 108 St Georges Terrace. These initiatives, together with continued high quality building upgrades, will increase the competitiveness of the properties with a view to maximising returns for investors.

On behalf of the Board, thank you for your ongoing support.

F. Allan McDonald,
Independent Chairman

Half Year in Review

Brookfield Capital Management Limited (BCML), the Responsible Entity of Brookfield Prime Property Fund (Fund) provides a review of the half year ended 31 December 2014.

MOVEMENT IN NET ASSETS

Underlying net assets of the Fund increased from \$6.37 to \$6.49 per unit during the period. This is mainly due to current period net operating income retained in the Fund and a reduction in the interest rate swap liability.

EARNINGS

Net profit for the current period is \$3.4 million (31 December 2013: \$11.2 million). When measured against the comparable period to 31 December 2013, lower net property income largely reflects the increased vacancies experienced at 108 St Georges Terrace. Overall earnings have been negatively impacted by significant capital expenditure and lease incentives incurred during the period at 108 St Georges Terrace, which are not fully reflected in the increase to the carrying value of the property at 31 December 2014.

DISTRIBUTIONS

The Fund paid \$2.0 million in distributions or 4 cents per unit for the six months to 31 December 2014.

PROPERTY PORTFOLIO

The property portfolio was internally valued as at 31 December 2014 resulting in an increase in value of 1.1% compared to the 30 June 2014 value. In arriving at an opinion of value, the discounted cash flow (DCF) approach was adopted. The DCF approach discounts the property's forecast net cash flow over a ten year investment period at a pre-selected hurdle rate of return. The methodology involves forward projection of a number of assumptions including capitalisation rates, discount rates, future rental rates, rental growth and time required to lease up vacant space.

During the period, portfolio occupancy decreased from 99.3% to 93.4% due to the expiry of the Bankwest lease at 108 St Georges Terrace. The portfolio weighted average lease expiry (by ownership and income) increased from 4.7 years to 4.9 years reflecting new lease deals at the Ernst & Young Centre, 50 Goulburn Street and 108 St Georges Terrace.

Sydney and Melbourne investment markets remain strong with continued demand for properties with good underlying fundamentals such as location, WALE and rent review structures. The leasing market is picking up, however the overall reported declines in vacancy rates and increases in rents negotiated for new lease deals are offset by increased leasing incentives. The vacancy rate in Sydney is likely to be impacted by completion of new office space in Barangaroo from 2016.

SUMMARY

PROPERTY	LOCATION	FUND SHARE %	VALUATION TYPE AT 31 DECEMBER 2014	VALUE AT 31 DECEMBER 2014 \$M	VALUE AT 30 JUNE 2014 \$M	% CHANGE 6 MTHS
Ernst & Young Centre and 50 Goulburn Street	Sydney	50	Internal	270.0	265.0	1.9
American Express House	Sydney	100	Internal	145.0	145.0	0.0
Southern Cross East Tower	Melbourne	25	Internal	172.3	171.3	0.6
Southern Cross West Tower	Melbourne	50	Internal	149.5	147.5	1.4
108 St Georges Terrace	Perth	50	Internal	168.0	166.0	1.2
Total				904.8	894.8	1.1

Ernst & Young Centre and 50 Goulburn Street, Sydney

During the period, the Ernst & Young Centre and 50 Goulburn Street recorded an increase in overall value of 1.9%. This uplift reflects commencement of the TAB lease in January 2015 for 4,800 square metres of space over two and a half floors and Austereo renewing their lease of three floors and roof space for a seven year term. These positive influences on value offset the impending Ernst & Young lease expiry in December 2016.

108 St Georges Terrace, Perth

During the period, 108 St Georges Terrace recorded a 1.2% increase in value despite the Perth office market softening as a result of increasing vacancy rates and tenant incentives reducing net market rents.

The value uplift is a result of the significant capital expenditure on the property during the period offsetting softening market rental and valuation assumptions. As at 31 December 2014, the lift modernisation and central energy plant upgrade was nearing completion, Development Approval for The Palace refurbishment had been approved and the on-floor refurbishments continue. Once completed, the comprehensive capital program and property's prime CBD location is expected to position the asset well compared to competitor properties of a similar age.

Underlying net assets of the Fund increased from \$6.37 to \$6.49 per unit during the period.

During the period, a conditional agreement for lease was executed for approximately 8,300 square metres of space with South32, a new company which BHP Billiton plans to create via a demerger. A final decision on the proposed demerger is subject to BHP Billiton Board and shareholder approval with the shareholder vote expected to take place in May 2015. The agreement for lease may also be terminated by BHP Billiton in other circumstances with appropriate compensation being payable.

If the conditions are satisfied, the agreement represents an important step in de-risking part of the vacant space at 108 St Georges Terrace. Execution of the lease is not expected to have a material effect on the value of the property, as the proposed transaction is broadly in line with the re-leasing assumptions already contained within the valuation.

NET ASSETS RECONCILIATION

Half Year in Review

American Express House, Sydney

The value of American Express House remains unchanged during the period. The property is fully leased. In assessing value, the increase in the property's net annual rent during the period has been offset by an increase in capital expenditure and incentive allowance to reflect expiry of the American Express lease in December 2018.

Southern Cross East and West Towers, Melbourne

During the six months to 31 December 2014, Southern Cross East and West Towers increased in value by 0.6% and 1.4% respectively.

Southern Cross West is anchored by a major tenant, Australia Post, with Southern Cross East anchored by two major tenants, Department of Treasury and Finance and Department of Transport. Each property benefits from annual rental increases. As is the case with American Express House the valuation reflects the capital expenditure and incentive allowance factored in to reflect the risk associated with expiry.

SENIOR AND SUBORDINATED DEBT

As at 31 December 2014 the senior debt facility remained at \$520 million and the balance of the subordinated facility has increased to \$51.1 million. The senior debt facility is subject to a margin of 1.75% above average bid rate on Reuters BBSY (BBR). The subordinated facility is subject to BBR plus a margin of 3.75% per annum.

SWAPS

The Fund continues to pay a fixed rate of 5.88% on \$435.0 million under an interest rate swap until July 2016. Any additional amount owing under the senior debt facility remains unhedged at present.

MARKET BUYBACK

No units were bought back during the period 1 July 2014 to 19 September 2014, being the date when the buy-back period lapsed.

TAX POSITION OF THE FUND

The Fund has carried forward income tax losses of approximately \$83.5 million as at 30 June 2014. Use of these losses is subject to satisfaction of various tests. The benefit of tax losses is not reflected as an asset in the Fund's balance sheet.

FUND SNAPSHOT (as at 31 December 2014)
