The Directors present their report on the consolidated entity for the half year ended 31 December 2014.

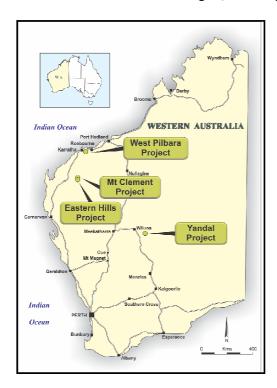

Directors

The names of the Directors who held office during and since the end of the half-year:

Guy Robertson (Executive Director)
George Frangeskides (Non-Executive Director)
Edward Mead (Non-Executive Director) (Appointed 31 December 2014)
Shannon Coates (Non-Executive Director) (Resigned 31 December 2014)

RESULT AND REVIEW OF OPERATIONS

Artemis continued to focus on its gold, antimony and base metals prospects during the period under review.

West Pilbara project – approximately 700 km² - go copper, nickel and iron.

Mt Clement project – (80%) Joint Venture with Northe Star – gold. JORC Resource (inferred) 80,000 oz Au eq.

Eastern Hills project – Antimony. JORC Resource (indicat and Inferred) 22,400 tonnes Sb (Antimony) (grade 1.7%) at 32,700 tonnes Pb (lead) (grade 2.5%)

Yandal project – gold. Prospects in Yandal Gold Belt.

Artemis remains focused on quality project identificatic exploration, discovery and development.

West Pilbara – gold and base metals

After an extended period of negotiation Artemis executed a Native Title Agreement with the Ngarluma Aboriginal Corporation in late 2014. Artemis has lodged two applications with Ngaluma for heritage surveys ahead of proposed on-ground exploration. This was an important milestone for Artemis allowing the company to fully comply with and discharge its obligations under Aboriginal heritage and native title legislation.

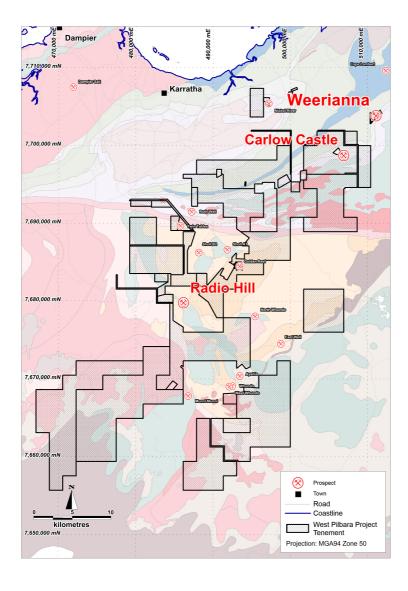

The Company has completed planning for RC drill testing following a review of geophysical base metal targets within the West Pilbara Project. This initial phase 1 drilling program has been designed to rapidly assess the potential for nickel-copper sulphide mineralisation associated with electro-magnetic (EM) anomalies within the Andover Intrusive Complex, to be present within the West Pilbara Project area¹. The Company conducted two site visits in late 2014 to ground-truth these electro-magnetic anomalies.

¹ As per ASX announcement dated 11 November 2014 "Drilling Planned to test Significant Nickel-Copper Anomalies – West Pilbara Project

During the period Artemis completed the balance of the acquisition of Weerianna (now holding 80%).

The Weerianna Gold Project currently hosts a JORC (2012) Inferred Mineral Resource of **1 million tonnes at 2.2 g/t Au for a total of 70,000 ounces** of gold². Excellent potential exists for a substantial increase in tonnage, as the current resource is open at depth, and along strike. The Weerianna project is within 7 kilometres of Carlow Castle, a tenement in the Artemis West Pilbara portfolio which currently hosts a JORC (2012) Inferred Mineral Resource of 418,000 tonnes at 3.0 g/t Au and 0.6% Cu, for total contained metal of 40,000 ounces of Au, and 2,500 tonnes of Cu².

The completion of the Western Metals acquisition is part of an ongoing process of aggregating tenements within the West Pilbara area that are geographically proximate and geologically contiguous with the potential of hosting a volume of resource which is economically viable. The main target minerals will be copper and nickel as well as the existing gold resources at Weerianna and Carlow Castle (see map below).

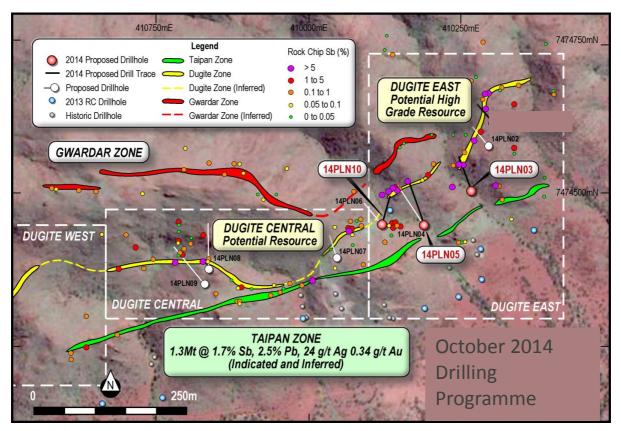

Artemis West Pilbara Project Tenements

² As per ASX announcement dated 30 June 2014 "Completion of Gold Project Acquisition – Update on West Pilbara Resource Status"

Eastern Hills - Antimony

During October 2014 the Company undertook a second drill programme with three RC drill holes for a total of 318 metres. These drillholes comprised an abridged RC drilling program designed to quickly and efficiently assess the potential for high grade mineralisation identified within the Dugite East Zone to extend at depth.

While each of the completed drillholes (14PLN3, 5 & 10) intersected Sb-Pb mineralization the high grades returned from surface sampling were not found to continue at depth.

Eastern Hills - 2014 Drilling on Dugite East Zone

Artemis is continuing discussions with potential joint venture partners to further develop this project.

Yandal - gold

The Company undertook a further review of the Yandal gold project during the period which resulted in the relinquishment of a number of tenements that the Company considered less prospective.

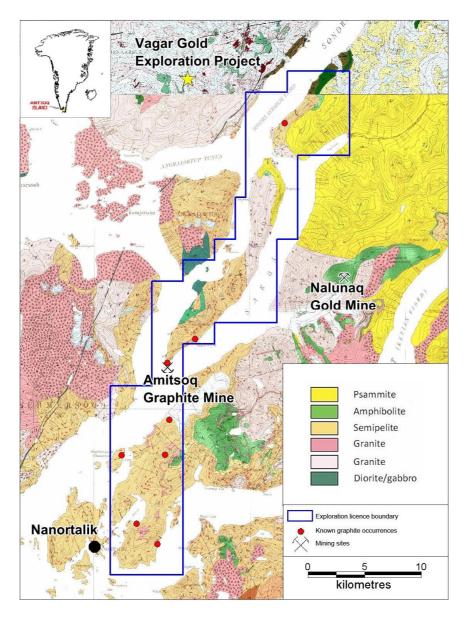

The Company is seeking potential joint venture partners for the further development of this project.

Amitsoq Graphite

Subsequent to period end the Company announced the conditional acquisition of a majority interest in a graphite project in Southern Greenland.

Graphite is deemed a supply critical material in the USA and a strategic mineral in the EU. The project has had no modern exploration for graphite and there are good prospects for significant exploration upside.

Greenland has a long history of graphite mining. The Amitsoq Graphite Mine was an open-cut operation between 1911 and 1924 and produced 6,000 tonnes at 21% Graphite. The mine is located on an island located 15km north of the Nanortalik town and heliport. The exploration licence 2013/06 covers an area of 146k².

Map showing the 2013/06 exploration licence over regional geology (GEUS) and proximity of other deposits/projects and the town of Nanortalik. The geology is characterised by strongly metamorphosed Archaean metasedimentary rocks.

Artemis proposes to further exploration with an airborne Electromagnetics (EM) survey to identify conductors. A field trip will then be undertaken to validate anomalies, obtain samples and assist with designing a drill program.

Corporate

Funding

Artemis completed a rights issue during the period and a placement late in the year raising approximately \$955,000.

Subsequent to period end the Company announced a funding facility of \$2 million with Wimmer Financial LLP. The facility carries an interest rate of 10% and drawdowns can be converted into Artemis shares at a 20% discount to the 30 day Volume Average Price. The facility expires in June 2016.

DIRECTORS' REPORT

Board Restructure

During the period Artemis appointed Mr Edward Mead to the board of Artemis on the 31st December 2014, replacing Shannon Coates. The board would like to thank Shannon for her contribution to Artemis.

Mr Mead is a geologist with 20 years' experience in gold and base metals exploration, mine development and mine production. Mr Mead has also worked in the oil and gas industry on offshore drilling platforms. Other commodities that he has significant experience with are iron ore, magnetite, coal, manganese, lithium, potash and uranium.

Mr Mead has a good understanding of Artemis's current projects and in particularly has an excellent knowledge of the West Pilbara as he was the Geology Manager at the nearby Radio Hill Nickel Mine from 2004 to 2007. He has a BSc in geology from Canterbury University in New Zealand and is a member of the Australian Institute of Mining and Metallurgy. He has worked for the Geological Survey of Western Australia, Portman Mining, Western Mining Corporation (BHPB), Sons of Gwalia, Fox Resources, Comdek Ltd and Baker Hughes Inteq and a number of other companies through his own consultancy business.

Tenement Plaints

The Company has four tenements in its West Pilbara project under plaint which it is dealing with in the ordinary course of business.

Artemis was successful in having the plaint over E47/1797 during the period dismissed. Plaints over tenements M47/223 and M47/288 have yet to come before the Warden.

In respect of tenements E47/1745 and E47/1746 the Minister has refused Artemis' application for exemption, a decision which Artemis is in the process of appealing.

The Company has taken legal advice and is vigorously defending its rights to these assets.

Competent Person Statement

The information in this report that relates to Exploration Targets and Exploration Results is based on information compiled or reviewed by Edward Mead, who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Mead is a Director of Artemis Resources Limited and is a consultant to the Company, and is employed by Doraleda Pty Ltd. Mr Mead has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Mead consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

DIRECTORS' REPORT

OPERATING RESULTS

With this background, the loss after income tax for the period amounted to \$2,296,795 (31 December 2013 loss: \$1,354,166).

EVENTS SUBSEQUENT TO REPORTING DATE

Subsequent to period end the Company entered into a \$2 million funding agreement with Wimmer Financial LLP for a \$2 million facility to provide the Company with funds to further its exploration programme and for working capital. The facility is unsecured, expires in June 2016 and has an interest rate of 10% payable in cash or shares at the Company's election. Funds drawn down if not repaid can be converted into Artemis shares at 80% of the Volume Weighted Average Price for the 30 days prior to conversion.

Subsequent to period end the Company announced the conditional acquisition of a majority interest in a graphite project in Southern Greenland.

Subject to regulatory approvals from the Greenlandic authorities, Artemis Graphite Pty Limited, a wholly-owned subsidiary of Artemis Resources Limited, will acquire 90% of the private vehicle which has the right to acquire 100 per cent of exploration licence 2013/06. The acquisition price is \$100,000 in cash plus the issue to the vendors and advisers of 35 million fully paid ordinary Artemis shares and 35 million Artemis share options (expiry date 31 December 2016 and an exercise price of \$0.003). Artemis will undertake to spend at least \$500,000 on the project over a 36 month period. There is a put and call option over the vendors' residual 10% interest in the project which may be exercised by either party following completion of a bankable feasibility study for an agreed price or, failing agreement, a price determined by independent valuation.

Other than outline above there are no events subsequent to the end of the period that would have a material effect on the consolidated entity's financial statements at 31 December 2014.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

In the opinion of the Directors, other than the matters covered above in this report and the accounts and notes attached thereto, there were no significant changes in the state of affairs of the Company that occurred during the financial period under review.

DIVIDENDS

No dividends have been paid or declared since the end of the previous financial year to the date of this report.

AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration is set out on page 10 and forms part of the Directors' Report for the half year ended 31 December 2014.

Signed in accordance with a resolution of the Directors

Guy Robertson

Executive Director Dated at Sydney 12 March 2015

Chartered Accountants and Business Advisers

ARTEMIS RESOURCES LIMITED ABN 80 107 051 749

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001 TO THE DIRECTORS OF ARTEMIS RESOURCES LIMITED

I declare that, to the best of my knowledge and belief, during the half-year ended 31 December 2014 there have been no contraventions of:

- (i) the auditor independence requirements as set out in the Corporations Act 2001 in relation to the review; and
- (ii) any applicable code of professional conduct in relation to the review

CASH AT THE END OF THE PERIOD	204,694	678,841

The consolidated statement of cash flows is to be read in conjunction with the attached notes to the financial statements.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

The half year consolidated financial statements are a general purpose financial report which has been prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The group is a for profit entity for financial reporting purposes under Australian Accounting Standards.

The consolidated half year financial report does not include all of the information required for a full annual financial report. The half year financial report is to be read in conjunction with the most recent annual financial report for the year ended 30 June 2014. This report must also be read in conjunction with any public announcements made by Artemis Resources Limited and its controlled entities during the half year.

The financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of certain non-current assets, financial assets and financial liabilities.

The financial statements are presented in Australian dollars which is Artemis Resources Limited's functional and presentation currency.

GOING CONCERN

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the consolidated entity incurred a loss of \$2,296,795 and had net cash outflows from operating activities and investing activities of \$838,824 and \$329,266 respectively for the half year ended 31 December 2014, and has a net working capital deficiency of \$427,930. The consolidated entity has prepared budgets and forecasts for the following 12 months, and has determined further capital is required if the company is to continue at the planned level of operations.

These factors indicate significant uncertainty as to whether the consolidated entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The Directors believe that there are reasonable grounds to believe that the consolidated entity will be able to continue as a going concern, after consideration of the following factors:

- The company has been successful in raising capital whenever it has approached the markets in the past
 and the directors are confident in the ability to continue to raise additional funds on a timely basis, as
 and when required;
- Subsequent to period end the Company entered into a funding agreement with Wimmer Financial LLP for a \$2,000,000 facility to provide the Company with funds to further its exploration programme and for working capital;
- The consolidated entity has cash at bank at balance date of \$204,694 and net assets of \$6,929,506;
- The ability of the consolidated entity to further scale back certain parts of their activities that are nonessential so as to conserve cash should capital raising be delayed or not occur; and
- The consolidated entity retains the ability, if required, to wholly or in part dispose of interests in mineral exploration and development assets.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accordingly, the Directors believe that the consolidated entity will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the consolidated entity does not continue as a going concern.

USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Recovery of Capitalised Exploration and Evaluation Expenditure

The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the consolidated entity decides to exploit the related site itself, or if not, whether it successfully recovers the related exploration and evaluation asset through sale.

Factors that could impact the future recoverability include the level of reserves and resources, future technological changes, which could impact the cost of mining, future legal changes (including changes to the environmental restoration obligations) and changes to commodity prices.

NEW AND REVISED STANDARDS AND AMENDMENTS THEREOF AND INTERPRETATIONS EFFECTIVE FOR THE CURRENT HALF-YEAR THAT ARE RELEVANT TO THE CONSOLIDATED ENTITY

The adoption of all the new and revised Standards and Interpretations has not resulted in any changes to the consolidated entity's accounting policies and has no effect on the amounts reported for the current or prior half-years. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

2. EARNINGS PER SHARE

The calculation of basic earnings and diluted earnings per share at 31 December 2014 was based on the loss attributable to shareholders of the parent company of \$2,296,795 (2013: Loss \$1,354,166):

	2014	2013
	Cents	Cents
Basic and diluted (loss) per share	(0.24) cents	(0.21) cents
	No of Shares	No of Shares
Weighted average number of ordinary shares:		
Ordinary shares	1,147,718,836	653,998,465

3. FINANCIAL ASSETS		
	31 December 2014	30 June 2014
	\$	\$
Current		
Available for sale financial assets		
Shares in listed equity securities – at fair value	41,262	258,628

4. INTANGIBLE EXPLORATION AND EVALUATION EXPENDITURE

	31 December	30 June
	2014	2014
	\$	\$
Exploration and evaluation phase costs carried forward at cost:	7,366,421	8,368,835

(a) Exploration and Evaluation Phase Costs

Costs capitalised on areas of interest have been reviewed for impairment factors, such as resource prices, ability to meet expenditure going forward and potential resource downgrades. It is the Directors' opinion that the Group has ownership or title to the areas of interest in respect of which it has capitalised expenditure and has reasonable expectations that its activities are ongoing.

(b) Reconciliation of movement during the period

	31 December 2014	31 December 2013
	\$	\$
Opening balance	8,386,835	8,060,220
Acquisition of project – see (c) below	181,250	318,750
Carrying value of project sold	-	(178,419)
Add: Exploration and evaluation expenditure capitalised	346,328	963,931
Less: Exploration expenditure written off see (d) below	(1,529,991)	(795,647)
Closing balance	7,366,421	8,368,835

The recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploration, or, alternatively, sale of the respective area of interest.

The Company has a number of tenements in its West Pilbara project under plaint which it is dealing with in the ordinary course of business. The company was successful in defending the plaint on E47/1797 during the period. There are plaints on tenements M47/223 and M47/288 which have yet to come before the Warden. In respect of tenements E47/1745 and E47/1746 the Minister has refused Artemis' application for exemption, a decision which the Company is in the process of appealing. The Company has taken legal advice and is vigorously defending its right to these assets.

(c) Acquisition of project

During the period the Company acquired a further 29% of the Weerianna project for a consideration of \$181,250 (prior period 51% for \$318,750).

(d) Write down of exploration expenditure Yandal Project

During the period the Company relinquished the non-core tenements in the Yandal project.

5. SHARE CAPITAL		
I	31 December 2014	30 June 2014
	\$	\$
ISSUED CAPITAL DETAILS

Share placement – 31 October 2014	107,666,666	323,000
Issued on acquisition of project – 17 December 2014	48,437,500	68,750
Issued to consultant -19 December 2014	2,000,000	6,000
Cost of issue		(54,935)
Closing balance	1,224,716,411	29,906,201

Terms of Issue:

Ordinary shares

Ordinary shares participate in dividends and are entitled to one vote per share at shareholders meetings. In the event of winding up the Company, ordinary shareholders rank after creditors and are entitled to any proceeds of liquidation in proportion to the number of shares held.

SHARE OPTIONS

The Company issued 79,628,648 listed options exercisable at 0.3 cents before 31 July 2016 as free attaching options on the basis of one option for every four shares subscribed to the rights issue and 125,000,000 unlisted options exercisable at 0.3 cents before 30 June 2016 as part of the acquisition price of the Weerianna project.

The Company currently has the following outstanding options:

	Options on issue	Number listed on ASX	Exercise Price	Expiry Date
Listed options	80,128,648	80,128,648	0.3 cents	31/07/2016
Listed options	126,846,952	126,846,952	2.0 cents	31/08/ 2016
Unlisted options	125,000,000	-	0.3 cents	30/06/2016

20,000,000 unlisted options expired during the period and the related options reserve in the amount of \$472,213 has been written back to retained earnings.

PERFORMANCE RIGHTS

The Company has 9 million performance rights on issue as at period end. The performance period expires on 30 June 2015. It is probable that the performance hurdles will not be met and no charge has been recorded in the accounts for the period ended 31 December 2014.

6. SEGMENT INFORMATION

The consolidated entity operates in Australia. The entity has three major projects, Yandal, West Pilbara and Mount Clement. Management reporting identifies these three segments and groups other exploration activities under Other Projects.

	Exploration Activities	Exploration - Activities Mt	Exploration - Activities West	Exploration - Activities Other		
	Yandal	Clement	Pilbara	Projects	Unallocated	Total

	-					

7. COMMITMENTS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

There are no contingent liabilities or contingent assets.

8. EVENTS SUBSEQUENT TO 31 DECEMBER 2014

Subsequent to period end the Company entered into a \$2 million funding agreement with Wimmer Financial LLP for a \$2 million facility to provide the Company with funds to further its exploration programme and for working capital. The facility is unsecured, expires in June 2016 and has an interest rate of 10% payable in cash or shares at the Company's election. Funds drawn down if not repaid can be converted into Artemis shares at 80% of the Volume Weighted Average Price for the 30 days prior to conversion.

Subsequent to period end the Company announced the conditional acquisition of a majority interest in a graphite project in Southern Greenland.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2014

Subject to regulatory approvals from the Greenlandic authorities, Artemis Graphite Pty Limited, a wholly-owned subsidiary of Artemis Resources Limited, will acquire 90% of the private vehicle which has the right to acquire 100 per cent of exploration licence 2013/06. The acquisition price is \$100,000 in cash plus the issue to the vendors and advisers of 35 million fully paid ordinary Artemis shares and 35 million Artemis share options (expiry date 31 December 2016 and an exercise price of \$0.003). Artemis will undertake to spend at least \$500,000 on the project over a 36 month period. There is a put and call option over the vendors' residual 10% interest in the project which may be exercised by either party following completion of a bankable feasibility study for an agreed price or, failing agreement, a price determined by independent valuation.

Other than outline above there are no events subsequent to the end of the period that would have a material effect on the consolidated entity's financial statements at 31 December 2014.

DIRECTORS' DECLARATION

The directors declare that:

- (a) the financial statements and notes, set out on pages 11 to 20, are in accordance with the *Corporations Act 200*1, and:
 - (i) comply with Accounting Standard AASB 134 Interim Financial Reporting; and
 - (ii) give a true and fair view of the consolidated entity's financial position as at 31 December 2014 and its performance, for the half-year ended on that date.
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors
