### ASX ANNOUNCEMENT

## CEO Remuneration

---

**5 June 2015 – Sydney, Australia & Auckland, New Zealand** – The Board has approved the Remuneration & Nomination Committee's recommendation to increase the remuneration of the CEO to A\$369k per annum and to grant the CEO 800,000 options that will be exercisable after one year and upon achievement of agreed targets.

These targets are commercially sensitive and will not be disclosed at this time. 50% of the options will be exercisable at 7.5 cents and the remaining 50% at 10 cents. The options have a life of three years.

– Ends –

## About Living Cell Technologies

Living Cell Technologies (LCT) is an Australasian biotechnology company researching and developing cell therapies to treat diseases with high unmet clinical need. LCT's lead product NTCELL<sup>®</sup> is an alginate coated capsule containing clusters of neonatal porcine choroid plexus cells. After transplantation NTCELL functions as a biological factory producing factors to promote new central nervous system growth and repair disease induced nerve degeneration.

NTCELL is in Phase I/IIa clinical trial in New Zealand for the treatment of Parkinson's disease. It has the potential to be used in a number of other central nervous system indications such as Huntington's, Alzheimer's and motor neurone diseases.

LCT's proprietary encapsulation technology, IMMUPEL<sup>™</sup>, allows cell therapies to be used without the need for co-treatment with drugs that suppress the immune system.

LCT holds a 50% interest in Diatranz Otsuka Limited which is developing a cell therapy for type 1 diabetes.

LCT is listed on the Australian (ASX: LCT) and US (OTCQX: LVCLY) stock exchanges. The company is incorporated in Australia, with its operations based in New Zealand.

## **LCT disclaimer**

*This document contains certain forward-looking statements, relating to LCT's business, which can be identified by the use of forward-looking terminology such as "promising," "plans," "anticipated," "will," "project," "believe," "forecast," "expected," "estimated," "targeting," "aiming," "set to," "potential", "seeking to," "goal," "could provide," "intends," "is being developed," "could be," "on track," or similar expressions, or by express or implied discussions regarding potential filings or marketing approvals, or potential future sales of product candidates. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. There can be no assurance that any existing or future regulatory filings will satisfy the FDA's and other health authorities' requirements regarding any one or more product candidates nor can there be any assurance that such product candidates will be approved by any health authorities for sale in any market or that they will reach any particular level of sales. In particular, management's expectations regarding the approval and commercialization of the product candidates could be affected by, among other things, unexpected clinical trial results, including additional analysis of existing clinical data, and new clinical data; unexpected regulatory actions or delays, or government regulation generally; our ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry, and general public pricing pressures; and additional factors that involve significant risks and uncertainties about our products, product candidates, financial results and business prospects. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated or expected. LCT is providing this information and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise.*
