QUARTERLY ACTIVITIES REPORT FOR THE QUARTER FROM 1 APRIL 2015 TO 30 JUNE 2015 (THE “REPORTING QUARTER”)

HIGHLIGHTS

- ◆ Development preparatory works, including application for mining permit, deliberately slowed down due to weak market for iron ore.
- ◆ Exploring other investment opportunities (other than iron ore) within the mining sector in the People's Republic of China.

1. Application For the Mining Permit (the “Application”)

Work on the Silverstone Project during the Reporting Quarter was to follow up on the Application. As of the date of this Quarterly Activities Report, there is no indication whether or when the Application will be approved. However, given the weak demand for, and consequently depressed prices of, iron ore, the Company has made a deliberate decision to slow-down the pace of works in this respect.

2. Assessment of prospects in the mining sector

The Company is exploring a number of projects within the mining sector (other than iron ore) in the People's Republic of China which are still feasible for investment. As of the date of this Quarterly Activities Report, one prospect, namely a tenement for an existing (but currently not in production) iron ore under a current mining permit, appeared to be feasible. The Company had submitted a bid for this prospect.

3. Exploration Expenditure Incurred

Total expenditure incurred and paid for activities classified as exploration and investigation works carried out during the Reporting Quarter was A7,314. These are to meet the minimum expenditure requirement under local PRC regulations to preserve the Company's claim costs for work done for preparation of the Company's submission for the extension of the exploration permit for the Silverstone Project.
