The Directors present their report on the consolidated entity (the "Group") consisting of Molopo Energy Limited ("Molopo" or the "Company") and the entities it controlled at the end of, or during, the half-year ended 30 June 2015.

Directors

The names of the Directors in office at any time during the half-year and up to the date of this report are:

Name of Director	Position
Samantha Tough	Independent Chairman and Non-executive Director
Antony Sormann	Non-executive Director
David Sanders	Non-executive Director (resigned 27 August 2015)
Samuel Belzberg	Non-executive Director (appointed 31 July 2015)
Yaniv Stern	Non-executive Director (appointed 27 August 2015)

Principal Activities

The Group's principal activities during the half year were selling the Fiesta asset in Texas, which was the last remaining petroleum production and exploration asset within the Group; and closing down the office operations in Canada and transferring back to Australia. The Company also had a completely new Board of Directors, who undertook a review of all the litigation matters currently outstanding against the various entities within the Group.

Financial Review

The result of the Group for the financial half-year ended 30 June 2015 was an after tax loss of \$0.6 million (30 June 2014: loss of \$4.4 million). No dividend was declared for the period.

Revenue from the sale of oil and gas from the Fiesta asset before it was sold in February 2015 was \$0.3 million for the half-year ended 30 June 2015 (30 June 2014: \$2.2 million).

Corporate

On 13 February 2015, the sale of the Fiesta assets located in Crockett County, Texas was completed for proceeds of US\$1.0 million (A\$1.3 million).

On 23 February 2015 the Board did not extend the contract of Mr. Don Engle as Acting Chief Executive Officer ("CEO"). As at the date of this report, the Board has elected not to appoint a Chief Executive Officer. However they will revisit this decision when appropriate.

The Company completed the process of transitioning the corporate headquarters from Calgary, Canada to Melbourne, Australia during the second quarter of 2015.

The Company notes that it has made cash payments relating to administration, employee and legal expenses of approximately \$1.49m during the period, much of which related to costs incurred or agreed to by the previous Board, but which were not billed or paid until after the end of the previous year.

At the end of the period, Molopo had cash in the bank of \$67.8 million, 86% of the cash was held in Australian dollars and 14% in Canadian dollars. The Canadian dollars are retained as an offset to the provision for the litigation which sits in a Canadian subsidiary.

Legal Disputes

There are currently a series of legal actions in Canada concerning the Company and Molopo Energy Canada Ltd. ("MECL"), a wholly owned subsidiary of the Company, all of which relate to the sale by MECL of its interests in various oil and gas assets on 1 March 2011.

The current status of the legal actions is summarised as follows:

1. One of MECL's former joint venture partners (3105682 Nova Scotia ULC ("310 ULC")) commenced legal action in 2011 against MECL claiming MECL breached various agreements relating to the relevant joint venture, including breach of fiduciary duties, trust and good faith. 310 ULC has sought declarations, accountings, damages of 25% revenue, C\$35 (A\$36.8) million general damages, C\$1 (A\$1.1) million punitive and aggravated damages, interest, GST and indemnity costs.

Molopo itself is not a party to these proceedings.

Whilst the litigation commenced in 2011 it is still at an early stage and the matter is not likely to proceed to trial until 2016 at the earliest.

The Group has made a C\$8.4 (A\$8.8) million provision in these financial statements in relation to this litigation (see Note 6 of the financial statements).

2. 310 ULC also commenced legal action in 2013 against the purchaser of MECL's interests in the assets, (Legacy Oil & Gas Inc. ("Legacy"), as successor in title to MECL, claiming that Legacy continued some breaches allegedly committed by MECL and committed further breaches of the agreements relating to the relevant joint venture, including breaches of fiduciary duties, trust and good faith. 310 ULC has sought declarations, accountings, damages of 25% revenue, C\$90 (A\$94.9) million general damages, C\$1 (A\$1.1) million punitive and aggravated damages, interest, GST and indemnity costs.

Legacy has issued a third party notice to both MECL and Molopo on the basis of indemnities provided by MECL to Legacy in the sale agreement between MECL and Legacy, and a guarantee provided by Molopo to Legacy in relation to MECL's obligations under the sale agreement.

This litigation is also at an early stage and MECL and Molopo have not yet been required to file defences to the third party claim.

Legacy was recently acquired by Crescent Point Energy Corporation, an oil and gas company based in Calgary, Canada.

- 3. 310 ULC commenced legal action in 2013 against three former MECL employees, claiming they induced MECL to breach the joint venture agreements the subject of the proceedings referred to in point 1 above. 310 ULC has sought against each employee special damages, C\$65 (A\$68.5) million general damages, C\$2 (A\$2.1) million punitive damages, interest, GST and indemnity costs. Molopo's D&O insurers have been notified of the claim and are paying the legal expenses of the former employees. Neither Molopo nor MECL are parties to these proceedings.
- 4. 310 ULC commenced legal action against Molopo in December 2014 claiming that Molopo is liable to 310 ULC for inducing a breach of contract and inducing breaches of other duties by MECL in relation to the joint venture agreements, the subject of the proceedings referred to in point 1 above. 310 ULC unsuccessfully sought an injunction against Molopo in December 2014 in these proceedings to restrict

Molopo dealing with its assets.

Molopo's view is that the proceedings are without merit and accordingly Molopo intends to seek to have the proceedings summarily dismissed.

5. Another of MECL's former joint venture partners (Shallow Gas Drilling Corp. ("Shallow Gas")) commenced legal action in 2014 against MECL and Legacy claiming that MECL and Legacy breached the joint venture agreement with Shallow Gas in relation to the drilling of test wells. Shallow Gas also made related claims of negligence and breach of fiduciary duties, and an alternate unjust enrichment claim. Shallow Gas sought, jointly and severally against MECL and Legacy, C\$6 (A\$6.3) million damages, special damages, accounting, C\$1.05 (A\$1.1) million restitution, specific performance declarations and interest. These proceedings were summarily dismissed on 26 September 2014 at Legacy's instigation. Shallow Gas has appealed and a decision has yet to be issued. Molopo is not a party to these proceedings.

Performance Share Rights

During the six months ended 30 June 2015, the Board approved the early vesting of all outstanding Performance Share Rights ("PSR") for two ex-employees who had been designated as a 'good leaver'. Based on the Equity Incentive Plan previously put in place by the former Board of Directors, these PSRs that were held by a 'good leaver' were not subject to any ongoing performance tests and would have automatically vested with time. The current Board determined that it was appropriate to vest all remaining PSRs to ensure that no further expense relating to former employees will need to be accounted for in future periods. The Equity Incentive Plan was cancelled effective 8 August 2015 when the last employee who was eligible ceased employment with the Company.

The vesting of these PSRs resulted in 171,250 of the Company's shares being issued and 511,392 of the Company's shares were acquired on-market as required under the executive share plan.

Rounding of amounts

The Company is of the kind referred to in ASIC class Order 98/0100, dated 10 July 1998 and in accordance with that Class Order amounts in the Directors Report and the Financial Statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

Auditor's Independence Declaration

The auditor's independence declaration as required under Section 307C of the Corporations Act 2001 is included in the interim financial report.

Signed in accordance with a resolution of Directors made pursuant to section 306(3) of the *Corporations Act 2001*.

These standards did not have a significant impact on the consolidated condensed interim financial statements or disclosures.

The Group has chosen not to early-adopt any accounting standards that have been issued, but are not yet effective except for AASB 9 adopted on 1 July 2010.

Provision for Legal Claim

In March 2011, Molopo Energy Canada Ltd ("MECL"), a wholly owned subsidiary of Molopo was served with a statement of claim ("Claim") that had been filed with the Court of Queen's Bench of Alberta, Canada ("Court") by a joint venture partner ("JV Partner") in the Spearfish project that was sold in March, 2011. The JV Partner is seeking various court orders, declarations and specified damages of C\$36 (A\$37.9) million plus further un-quantified damages. On 8 April 2011, MECL filed a statement of defence and a counterclaim in respect of the above matter with the Court.

Subsequent to the filing of the statement of defence, the Company undertook an extensive examination of the transactions that gave rise to the amounts in dispute. This examination revealed that should an amount be found to be owing to the JV Partner for certain exploration lands that were acquired and subsequently sold by the Company, a provision was reflected in the accounts to estimate the value of the lands that would have been offered to the JV Partner should they have been in compliance with their obligations under the JV agreements.

The original provision reflected in the accounts in 2012 was a net C\$5.0 (A\$5.3) million. In early 2013, the JV Partner essentially settled the counterclaim by making a payment of C\$3.4 (A\$3.6) million to the Company, at which time the Company increased the net provision to C\$8.4 (A\$8.6) million.

The matter is continuing in the ordinary course with the Court. No court date has yet been set and the standard preparatory litigation processes are being undertaken.

The movement in the provision for legal claim arises solely from fluctuations in foreign exchange rates in the period.

8. SEGMENT INFORMATION

Identification of reportable segments

The Group's principal activities during the half year were selling the Fiesta asset in Texas, USA, which was the last remaining petroleum production and exploration asset within the Group; and closing down operations in Canada and transferring back to Australia. Head office and management activities of the Group operate predominantly in Australia.

Operating segments are reported in a manner that is consistent with the internal reporting provided to the Board of Directors and the Executive Management Team (the chief operating decision makers).

The following reportable segments have been identified:

- Australia
- Canada
- USA

9. CONTINGENCIES AND COMMITMENTS

As indicated in Note 6, in March 2011, MECL was served with a Claim in the amount of C\$36 (\$33.7) million by a JV Partner in the Spearfish project that was sold in March 2011 and the Company has recognized a provision in the amount of C\$8.4 (A\$8.8) million as a value for the exploration lands that are the subject of the dispute.

On 12 March 2013, the Company became aware that the JV Partner had filed a statement of claim ("Purchaser Claim") in the Court naming the purchaser of the Spearfish project ("Purchaser") as a defendant and on 24 February 2014, the Company became aware that the Purchaser Claim had been served on the Purchaser. The Purchaser Claim seeks several forms of relief, including punitive and aggravated damages of C\$1.0 (A\$1.1) million and general damages of C\$90.0 (A\$94.9) million. The Purchaser has filed a third party claim seeking indemnity from MECL should the JV Partner be successful in the ultimate outcome of the Purchaser Claim, in accordance with various agreements related to the sale of the Spearfish project.

The JV Partner alleges, in both the Claim and the Purchaser Claim, that the Company improperly placed the JV Partner in default in early 2011 for non-payment of amounts it owed MECL. The Company's extensive examination of the transactions that gave rise to this portion of the Claim and Purchaser Claim indicates that the Company actions were fully in accordance with the governing agreements.

During 2013, the Company became aware that the JV Partner had also served a statement of claim ("Exemployee Claim") in the Court naming three ex-employees of MECL as defendants. The Ex-employee Claim seeks several forms of relief, including general and punitive damages of C\$67.0 (A\$70.6) million each. Although not named in the lawsuit, MECL may have a duty to indemnify in accordance with the Alberta Business Corporations Act unless it is determined that the ex-employees did not act honestly and in good faith. The Company has engaged its directors' and officers' insurers and has secured legal counsel for the ex-employees as it believes this claim is without merit and will assist the ex-employees to vigorously defend the action.

In addition to the Company believing that both the Purchaser Claim and the Ex-employee Claim are frivolous as the amounts sought grossly exaggerate any amount that would be awarded in the circumstances, if damages are established in any of the multiple lawsuits brought by the JV Partner, such damages can only be recovered one time.

The above matters are continuing in the ordinary course with the Court. No court dates have been set and the standard preparatory litigation processes are being undertaken.

Spearfish Farm-in Lawsuit

On 4 February 2014, MECL along with the purchaser of the Spearfish project, were served with a statement of claim in the amount of C\$6.0 (A\$6.3) million by a company that had participated in a 2009 farm-in agreement with a MECL predecessor company for the drilling of three test wells into an area that was in the Spearfish project ("Farm-in Claim"). The Farm-in Claim was dismissed on 26 September 2014 however the claimant has appealed with a decision yet to be issued.

The Company believes that the Farm-in Claim is without merit and intends to vigorously defend the statement of claim.

Claim against Molopo Energy Limited

In December 2014, the Company received notice of a statement of claim ("Claim") that had been filed with the Court of Queen's Bench of Alberta, Canada ("Court") by a joint venture partner ("JV Partner") in the Spearfish project, claiming damages against the Company. The Claim is in addition to the claim filed against Molopo Energy Canada Limited in March 2011, and reported above. The Company is defending the Claim and intends to lodge an application to have the Claim struck-out.

Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Molopo Energy Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.
