

Important Notice

The purpose of this presentation is to provide general information about Fortescue Metals Group Limited ("Fortescue"). It is not recommended that any person makes any investment decision in relation to Fortescue based on this presentation. This presentation contains certain statements which may constitute "forward-looking statements". Such statements are only predictions and are subject to inherent risks and uncertainties which could cause actual values, results, performance or achievements to differ materially from those expressed, implied or projected in any forward-looking statements.

No representation or warranty, express or implied, is made by Fortescue that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of Fortescue, its officers, employees and advisers expressly disclaims any responsibility for the accuracy or completeness of the material contained in this presentation and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom.

Fortescue accepts no responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information.

Additional Information

This presentation should be read in conjunction with the Annual Financial Report at 30 June 2015 together with any announcements made by Fortescue in accordance with its continuous disclosure obligations arising under the *Corporations Act 2001*.

Any references to reserve and resources estimations should be read in conjunction with Fortescue's Ore Reserves and Mineral Resources statement for its Hematite and Magnetite projects at 30 June 2015 as released to the Australian Securities Exchange on 21 August 2015. Fortescue confirms in the subsequent public report that it is not aware of any new information or data that materially affects the information included in the relevant market announcement and, in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

All amounts within this presentation are stated in United States Dollars consistent with the Functional Currency of Fortescue Metals Group Limited. Tables contained within this presentation may contain immaterial rounding differences.

Building a world class company

Core supplier to China's growth

Building a world class company

Core supplier to China's growth

Run rate maintained

US\$2.4bn cash on hand

C1 \$18/wmt FY16 Guidance

US\$2bn

Operating cashflow

Dividends paid

Interim: A\$0.03/share

Final: A\$0.02/share

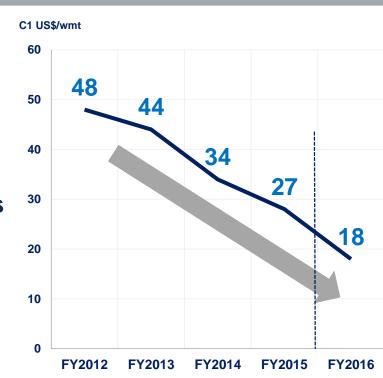

Key C1 cost drivers

Tier 1 asset base, efficiency and productivity

- 1 Solomon operations
- 2 Blending strategy 58% Fe
- 3 Processing, wet plants + de-sands
- 4 Operational efficiencies
- 5 Fx and fuel decreases

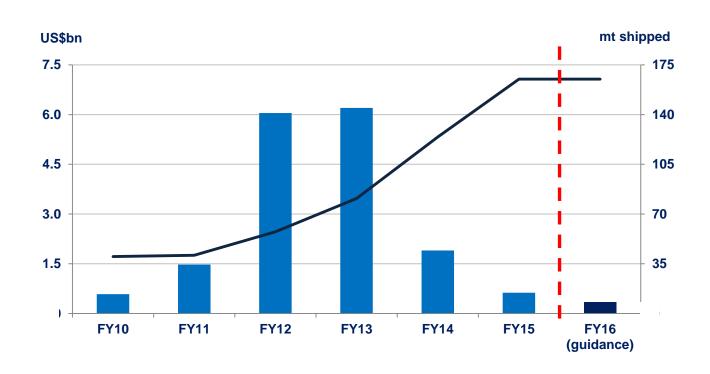

Balance sheet

Capital expenditure profile

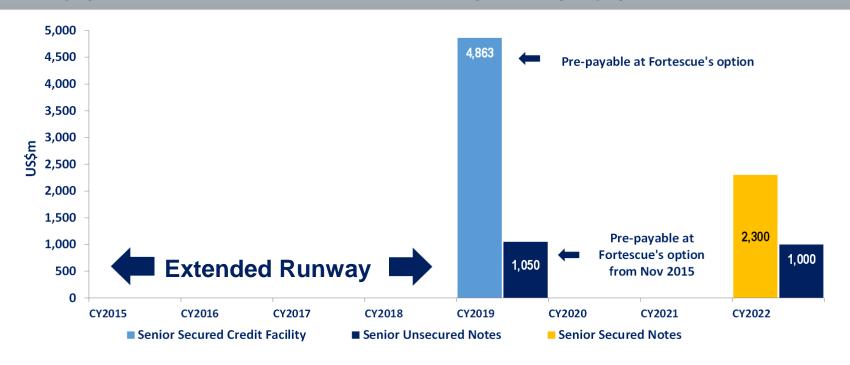

US\$2/wmt post expansion sustainable capex

Debt maturity profile

No repayments due until June 2019 with flexibility for early repayments

\$2.4bn cash on hand at 30 June 2015

Market

Core supplier to Asia

Well established 18% market share of imported iron ore to China

- Low impurity 58% Fe average
- High value in use
- Large diverse customer base
- Reliable consistent delivery
- Proximity to high growth region

China's long term growth remains strong

300 million people to urbanise by 2030

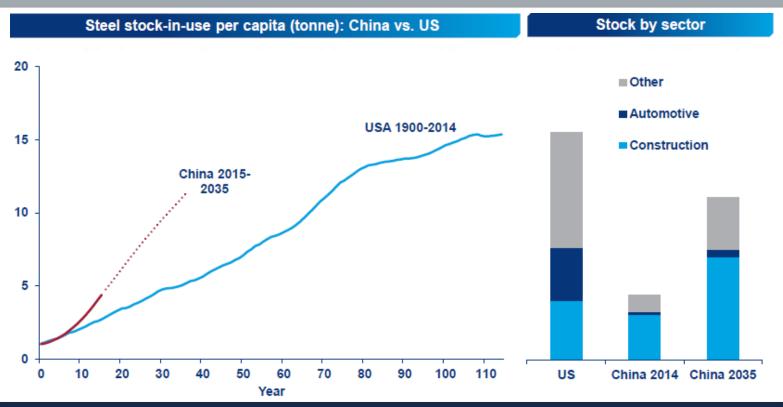

- Steel stock-in-use 1/3 USA
- Steel demand above 800mtpa
- Competitive and rising steel exports:
 - One Belt One Road over billion tonnes
- Short term growth stabilising
- Real estate market recovery

Steel consumption to build economy

Above 800mtpa – driven by policy decisions

Glossary

CFR:

C1: Operating costs of mining, processing, rail

and port. The reconciliation of C1 to the amounts disclosed in the financial statements prepared under the Australian accounting standards is provided in the Financial Report for the full year ended

30 June 2015 accompanying this

announcement. Cost and freight rate.

mtpa: million tonnes per annum.

HY: Half year. **FY:** Full year.

dmt: dry metric tonnes.

Debt coverage ratio: debt / Underlying EBITDA
Interest coverage ratio: Underlying EBITDA / Interest

NPAT: Net profit after tax. The reconciliation of

Underlying EBITDA to the financial metrics disclosed in the financial statements prepared under the Australian accounting

standards is presented below.

Underlying EBITDA: Earnings before interest, tax, depreciation

and amortisation, exploration, development

and other expenses.

wmt: wet metric tonnes.

Reconciliation of Underlying EBITDA to IFRS measures	30 June 2015 US\$m	30 June 2014 US\$m
Profit before income tax	420	3,913
Finance income	(15)	(21)
Finance expenses	644	741
Depreciation and amortisation	1,405	965
Exploration, development and other	52	38
Underlying EBITDA	2,506	5,636
