Argo Exploration Limited
Directors' report
30 June 2015

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Argo Exploration Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2015.

Directors

The following persons were directors of Argo Exploration Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mr Andrew Van Der Zwan
Mr Justin Hondris
Mr Christopher Martin

Principal activities

During the financial year the principal activities of the consolidated entity consisted of reviewing potential exploration and development of resource acquisitions and management of the Company's existing assets.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

The profit for the consolidated entity after providing for income tax amounted to \$225,562 (30 June 2014: loss of \$77,674).

The net assets of the consolidated entity increased by \$497,847 to \$2,897,907 as at 30 June 2015 (2014: \$2,400,060). The consolidated entity's working capital, being current assets less current liabilities increased by \$497,847 to \$2,897,907 (2014: \$2,400,060).

The year ended June 2015 continued to be a challenging year for junior resources companies including Argo Exploration Ltd ('Argo'). The Company's focus has been to preserve cash reserves, minimise expenditures, review new opportunities in the natural resources sector, and continue to monitor its investment in AIM quoted Pantheon Resources Plc ("Pantheon"). During the year the Company continued to review a number of projects, however in the context of the prevailing macroeconomic climate, none were considered more attractive to the company on a risk adjusted basis than the existing investment in Pantheon. Without exception, all projects assessed had a requirement for material additional capital, which would require the issuance of significant additional capital in the company which would be dilutive to all existing shareholders, particularly given the low existing share price of Argo. Argo continues to hold a direct shareholding of 7,000,000 fully paid shares in Pantheon, for the benefit of all existing shareholders. The value of Argo's investment in Pantheon was ~\$3.26m as of 30th June 2015. Pantheon is an oil and gas company with a 50% working interest in several projects within Tyler and Polk Counties, East Texas. Pantheon announced the contracting of a suitable rig for a two well drilling programme which commenced on 28 July 2015. The Board believes maintaining its investment in Pantheon, with a lower assessed risk profile, and potential for short to medium term value growth is preferable to seeking new equity funding to apply towards earlier stage green fields exploration projects with higher assessed risk profiles, large capital requirements and longer time horizon to possible production. Should the Pantheon JV drilling enjoy some success, then this should provide material capital appreciation for Argo shareholders, and provide the company with more options to raise capital to deploy to new opportunities.

Significant changes in the state of affairs

On 24 April 2015 the Company issued 6,000,000 fully paid ordinary shares at an issue price of \$0.01 (1.0 cent) per share to fund working capital requirements of the Company.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

Since 30 June 2015, the fair value of the investment in Pantheon Resources Plc has increased to approximately \$4,827,955 as at 24 September 2015. This is an increase of \$1,567,975 since 30 June 2015.

No other matter or circumstance has arisen since 30 June 2015 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Argo Exploration Limited
Directors' report
30 June 2015

Likely developments and expected results of operations

The consolidated entity will continue to explore mineral resource opportunities and funding opportunities in the future as well as continuing to manage its investment in Pantheon Resources PLC to add value.

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

Environmental regulation

The consolidated entity holds participating interests in a number of mining and explorations tenements. The various authorities granting such tenements require the tenement holder to comply with the terms of the grant of the tenement and all directions given to it under those terms of the tenement. There have been no known breaches of the tenement conditions, and no such breaches have been notified by any government agency during the year ended 30 June 2015.

Information on directors

Name: Mr Christopher Martin
Title: Non-Executive Director
Qualifications: BBus, Bank & Finance
Experience and expertise: Mr Martin has a Bachelor of Business (Banking & Finance), and over 15 years' experience in the equities markets. He has acted as an independent Consultant to Argo Exploration Ltd since its inception.

Melanie has over 23 years' experience in the accounting profession and has extensive experience in relation to public company responsibilities, including ASX and ASIC compliance, control and implementation of corporate governance, statutory financial reporting, reorganisation of Companies and shareholder relations.

Justin Mouchacca holds a Bachelor of Business majoring in Accounting. He graduated from RMIT University in 2008, became a Chartered Accountant in 2011 and since July 2013 has been the principal of chartered accounting firm, Leydin Freyer Corp Pty Ltd.

The practice provides outsourced company secretarial and accounting services to public and private companies specialising in the Resources, technology, bioscience and biotechnology sectors.

Justin has over 8 years' experience in the accounting profession and has extensive experience in relation to public company responsibilities, including ASX and ASIC compliance, control and implementation of corporate governance, statutory financial reporting, reorganisation of Companies and shareholder relations.

Meetings of directors

The number of meetings of the company's Board of Directors ('the Board') and of each Board committee held during the year ended 30 June 2015, and the number of meetings attended by each director were:

	Full Board		Audit and Risk Committee	
	Attended	Held	Attended	Held
Mr Andrew Van Der Zwan	2	2	-	-
Mr Justin Hondris	2	2	1	2
Mr Christopher Martin	2	2	2	2

Held: represents the number of meetings held during the time the director held office or was a member of the relevant committee.

Remuneration report (audited)

The remuneration report, which has been audited, outlines the director and executive remuneration arrangements for the consolidated entity and the company, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the consolidated entity's and company's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and conforms with the market best practice for delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- alignment of executive compensation
- transparency

Alignment to shareholders' interests:

- has economic profit as a core component of plan design
- focuses on sustained growth in shareholder wealth, growth in share price, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards

In accordance with best practice corporate governance, the structure of non-executive directors and executive remunerations are separate.

Non-executive directors remuneration

Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors.

ASX listing rules requires that the aggregate non-executive directors remuneration shall be determined periodically by a general meeting. The most recent determination was at the Annual General Meeting held on 16 May 2009, where the shareholders approved an aggregate remuneration of \$300,000.

Executive remuneration

The consolidated entity and company aims to reward executives with a level and mix of remuneration based on their position and responsibility, which is both fixed and variable.

The executive remuneration and reward framework has two components:

- base pay and non-monetary benefits
- other remuneration such as superannuation

The combination of these comprises the executive's total remuneration.

Argo Exploration Limited
Directors' report
30 June 2015

Consolidated entity performance and link to remuneration

Remuneration packages do not include performance-based components. An individual member of staff's performance assessment is done by reference to their contribution to the Company's overall operational achievements. All Directors and Executives hold shares and options in the Company to facilitate goal congruence between Executives with that of the business and shareholders.

Voting and comments made at the company's 25 November 2014 Annual General Meeting ('AGM')

The company received 96.60% of 'for' votes in relation to its remuneration report for the year ended 30 June 2014. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

Details of remuneration

Argo Exploration Limited
Directors' report
30 June 2015

Shares issued on the exercise of performance rights

There were no ordinary shares of Argo Exploration Limited issued on the exercise of performance rights during the year ended 30 June 2015 and up to the date of this report.

Indemnity and insurance of officers

The company has indemnified the directors of the company for costs incurred, in their capacity as a director, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the company paid a premium in respect of a contract to insure the directors of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of liability and the amount of the premium.

Indemnity and insurance of auditor

The company has not otherwise, during or since the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Auditor's Independence Declaration

To The Directors of Argo Exploration Limited

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the review of Argo Exploration Limited for the year ended 30 June 2015, I declare that, to the best of my knowledge and belief, there have been:

- a No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the review; and
- b No contraventions of any applicable code of professional conduct in relation to the review.

Grant Thornton Audit Pty Ltd ACN 130 913 594
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

Argo Exploration Limited
Notes to the financial statements
30 June 2015

Note 1. General information

The financial statements cover Argo Exploration Limited as a consolidated entity consisting of Argo Exploration Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is Argo Exploration Limited's functional and presentation currency.

Argo Exploration Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Level 4
100 Albert Road
SOUTH MELBOURNE VIC 3205

A description of the nature of the consolidated entity's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 29 September 2015. The directors have the power to amend and reissue the financial statements.

Note 2. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New, revised or amending Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Going Concern

The financial report has been prepared on the going concern basis, which contemplates continuity of normal business activities and realisation of assets and settlement of liabilities in the ordinary course of business. The going concern of the consolidated entity is dependent upon it maintaining sufficient funds for its operations and commitments. The Directors continue to monitor the ongoing funding requirements of the consolidated entity. The Directors are confident that sufficient funds can be secured if required by a combination of capital raising and sale of assets to enable the consolidated entity to continue as a going concern and as such are of the opinion that the financial report has been appropriately prepared on a going concern basis.

The Company also has the option to liquidate its position in Pantheon Resources Plc if there is insufficient funds being generated through capital raisings. As at 30 June 2015 the Company's investment in Pantheon Resources Plc was carried at the market rate \$3,259,980 (2014: \$2,562,828).

Note 2. Significant accounting policies (continued)

On 25 November 2014, the Company received shareholder approval at its Annual General Meeting ('AGM') to issue shares to Directors in lieu of payment of their Directors fees owing up to October 2014. In accordance with ASX Listing Rules, the Company had up to one month after the date of the AGM to issue these shares. Subsequent to the AGM the Directors decided not to issue these shares in lieu of their fees owing up to October 2014.

Also on 25 November 2014, the Company received shareholder approval at its Annual General Meeting ('AGM') to issue shares to Directors in lieu of payment of their Directors fees on a month-by-month basis for the period November 2014 to October 2015. The Company sought an ASX Waiver in relation to these resolutions which would allow them to issue these shares not later than 10 business days of the end of each relevant month. The ASX Waiver was granted on 31 October 2014. Up until the date of signing this report the Directors have not issued any shares under these resolutions.

During the year ended 30 June 2015 the Company generated net operating cash outflows of \$82,935 and had a closing cash balance of \$54,202.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 24.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Argo Exploration Limited ('company' or 'parent entity') as at 30 June 2015 and the results of all subsidiaries for the year then ended. Argo Exploration Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Revenue recognition

Revenue is recognised when it is probable that the economic benefit will flow to the consolidated entity and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Note 2. Significant accounting policies (continued)

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Other receivables are recognised at amortised cost, less any provision for impairment.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

Note 2. Significant accounting policies (continued)

Impairment of financial assets

The consolidated entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	2-4 years
---------------------	-----------

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Software

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years.

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Note 2. Significant accounting policies (continued)

Employee benefits

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Note 2. Significant accounting policies (continued)

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Argo Exploration Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2015. The consolidated entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost, if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, which arise on specified dates and solely principal and interest. All other financial instrument assets are to be classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income ('OCI'). For financial liabilities, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements will use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment will be measured under a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. The standard introduces additional new disclosures. The consolidated entity will adopt this standard from 1 January 2018 but the impact of its adoption is yet to be assessed by the consolidated entity.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Income tax

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Note 4. Operating segments

Identification of reportable operating segments

The Company operated predominately as an explorer for base precious metals, with the emphasis on copper, gold and uranium mineralisation within Australia.

AASB 8 requires operating segments to be identified on the basis of internal reports about the components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The board reviews the Company as a whole in the business segment of mineral exploration within Australia and managing its investment in Pantheon Resources Plc.

Note 5. Revenue

	Consolidated	
	2015	2014
	\$	\$
Interest revenue	1,091	2,758

Note 6. Expenses

	Consolidated	
	2015	2014
	\$	\$
Profit/(loss) before income tax includes the following specific expenses:		
<i>Depreciation</i>		
Plant and equipment	-	757

Argo Exploration Limited
Notes to the financial statements
30 June 2015

Note 7. Income tax expense

	Consolidated	Consolidated
	2015	2014
	\$	\$
<i>Numerical reconciliation of income tax expense and tax at the statutory rate</i>		
Profit/(loss) before income tax expense	225,562	(77,674)
Tax at the statutory tax rate of 30%	67,669	(23,302)
Tax effect amounts which are not deductible/(taxable) in calculating taxable income:		
Share-based payments	64,169	62,938
Fair value adjustments	(209,145)	(133,176)
	(77,307)	(93,540)
Current year tax losses not recognised	66,296	94,011
Current year temporary differences not recognised	11,011	(471)
Income tax expense	<u>-</u>	<u>-</u>

	Consolidated	Consolidated
	2015	2014
	\$	\$
<i>Tax losses not recognised</i>		
Unused tax losses for which no deferred tax asset has been recognised	10,176,223	9,955,235
Potential tax benefit @ 30%	3,052,866	2,986,571

The above potential tax benefit for tax losses has not been recognised in the statement of financial position. These tax losses can only be utilised in the future if the continuity of ownership test is passed, or failing that, the same business test is passed.

The benefit of these losses has not been brought to account at 30 June 2015 because the Directors do not believe it is appropriate to regard realisation of the deferred tax asset as being probable at this point in time or that there are sufficient deferred tax liabilities to offset these losses. These tax losses are also subject to final determination by the Taxation authorities when the Group derives taxable income. The benefit will only be realised if:

- (i) the consolidated entity derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised;
- (ii) the consolidated entity continues to comply with the conditions for deductibility imposed by law; and
- (iii) no change in tax legislation adversely affects the consolidated entity in realising the benefits from deducting the losses.

Note 8. Current assets - cash and cash equivalents

	Consolidated	Consolidated
	2015	2014
	\$	\$
Cash at bank	<u>54,202</u>	<u>78,751</u>

Note 9. Current assets - trade and other receivables

	Consolidated	
	2015	2014
	\$	\$
GST receivable	<u>25,508</u>	<u>14,992</u>

Due to the short term nature of the receivables their carrying value is assumed to approximate their fair value. No collateral or security is held. No interest is charged on the receivables. The consolidated entity has financial risk management policies in place to ensure that all receivables are received within the credit timeframe.

Note 10. Current assets - financial assets at fair value through profit or loss

	Consolidated	
	2015	2014
	\$	\$
Shares in listed entity	<u>3,259,980</u>	<u>2,562,828</u>

Reconciliation

Reconciliation of the fair values at the beginning and end of the current and previous financial year are set out below:

Opening fair value	2,562,828	2,118,906
Revaluation increments	<u>697,152</u>	<u>443,922</u>
Closing fair value	<u>3,259,980</u>	<u>2,562,828</u>

Refer to note 18 for further information on fair value measurement.

Note 11. Current assets - other

	Consolidated	
	2015	2014
	\$	\$
Prepayments	<u>5,318</u>	<u>5,571</u>

Note 12. Current liabilities - trade and other payables

	Consolidated	
	2015	2014
	\$	\$
Trade payables	328,824	186,203
Sundry payables and accrued expenses	<u>114,873</u>	<u>70,000</u>
	<u>443,697</u>	<u>256,203</u>

Refer to note 17 for further information on financial instruments.

The average credit period on purchases is 30 days. Due to the short term nature of the payables their carrying value is assumed to approximate their fair value. No interest is charged on the trade payables. The consolidated entity has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

Note 13. Current liabilities - borrowings

Costs of capital raising		<u>-</u>		<u>(1,614)</u>
Balance	30 June 2015	<u>131,220,000</u>		<u>13,481,869</u>

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Note 15. Equity - reserves

	Consolidated	
	2015	2014
	\$	\$
Share-based payments reserve	<u>423,693</u>	<u>209,794</u>

Share-based payments reserve

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

Note 15. Equity - reserves (continued)

Movements in reserves

Movements in each class of reserve during the current and previous financial year are set out below:

Consolidated	Share based payments \$	Total \$
Balance at 1 July 2013	-	-
Share based payments	209,794	209,794
Balance at 30 June 2014	209,794	209,794
Share based payments	213,899	213,899
Balance at 30 June 2015	<u>423,693</u>	<u>423,693</u>

Note 16. Equity - dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 17. Financial instruments

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses derivative financial instruments such as forward foreign exchange contracts to hedge certain risk exposures. Derivatives are exclusively used for hedging purposes, i.e. not as trading or other speculative instruments. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the consolidated entity's operating units. Finance reports to the Board on a monthly basis.

Market risk

Foreign currency risk

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

Price risk

The consolidated entity is exposed to significant price risk in relation to its investment in Pantheon Resources Plc.

Consolidated - 2015	% change	Average price increase Effect on		% change	Average price decrease Effect on	
		profit before tax	Effect on equity		profit before tax	Effect on equity
Shares in listed entity	50%	<u>1,629,990</u>	<u>1,629,990</u>	50%	<u>(1,629,990)</u>	<u>(1,629,990)</u>

Note 17. Financial instruments (continued)

Consolidated - 2014	% change	Average price increase		Average price decrease		
		Effect on profit before tax	Effect on equity	% change	Effect on profit before tax	Effect on equity
Shares in listed entity	70%	<u>1,793,980</u>	<u>1,793,980</u>	70%	<u>(1,793,980)</u>	<u>(1,793,980)</u>

Interest rate risk

As at the reporting date, the consolidated entity had the following variable rate borrowings and interest rate swap contracts outstanding:

Consolidated	2015		2014	
	Weighted average interest rate %	Balance \$	Weighted average interest rate %	Balance \$
Cash at bank	1.50%	<u>54,202</u>	2.75%	<u>78,751</u>
Net exposure to cash flow interest rate risk		<u>54,202</u>		<u>78,751</u>

A decrease in interest rates of 20% or 0.55 percentage points would have an adverse effect on profit before tax of \$298 per annum. The percentage is based on the expected volatility of interest rates using market data and analysis forecasts.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

Liquidity risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Remaining contractual maturities

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

Consolidated - 2015	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
Non-derivatives						
<i>Non-interest bearing</i>						
Trade payables		<u>443,697</u>	-	-	-	<u>443,697</u>
Total non-derivatives		<u>443,697</u>	-	-	-	<u>443,697</u>

Argo Exploration Limited
Notes to the financial statements
30 June 2015

Note 17. Financial instruments (continued)

Consolidated - 2014	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
Non-derivatives						
<i>Non-interest bearing</i>						
Trade payables		256,203	-	-	-	256,203
Total non-derivatives		<u>256,203</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>256,203</u>

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 18. Fair value measurement

Fair value hierarchy

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

Consolidated - 2015	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<i>Assets</i>				
Shares in listed entities	3,259,980	-	-	3,259,980
Total assets	<u>3,259,980</u>	<u>-</u>	<u>-</u>	<u>3,259,980</u>
Consolidated - 2014				
	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<i>Assets</i>				
Shares in listed entities	2,562,828	-	-	2,562,828
Total assets	<u>2,562,828</u>	<u>-</u>	<u>-</u>	<u>2,562,828</u>

There were no transfers between levels during the financial year.

Note 19. Key management personnel disclosures

Directors

The following persons were directors of Argo Exploration Limited during the financial year:

Mr J Hondris (Non-Executive Director)
Mr A Van Der Zwan (Executive Director)
Mr C Martin (Non-Executive Director)

Other key management personnel

The following persons also had the authority and responsibility for planning, directing and controlling the major activities of the consolidated entity, directly or indirectly, during the financial year:

Ms M Leydin (Joint Company Secretary)
Mr J Mouchacca (Joint Company Secretary)

Note 19. Key management personnel disclosures (continued)

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	Consolidated	
	2015	2014
	\$	\$
Short-term employee benefits	189,545	228,000
Share-based payments	156,510	153,507
	<u>346,055</u>	<u>381,507</u>

Note 20. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by Grant Thornton Audit Pty Ltd, the auditor of the company:

	Consolidated	
	2015	2014
	\$	\$
<i>Audit services - Grant Thornton Audit Pty Ltd</i>		
Audit or review of the financial statements	20,500	20,000
	<u>20,500</u>	<u>20,000</u>

Note 21. Contingent liabilities

The consolidated entity does not have any contingent liabilities at reporting date.

Note 22. Commitments

Exploration Tenements - Commitments for expenditure

In order to maintain current rights of tenure to exploration tenements, the Company and consolidated entity are required to outlay rentals and to meet the minimum expenditure requirements of the Mineral Resources Authority. Minimum expenditure commitments may be subject to renegotiation and with approval may otherwise be avoided by sale, farm out, or relinquishment. These obligations are not recorded in the financial statements.

Note 23. Related party transactions

Parent entity

Argo Exploration Limited is the parent entity.

Subsidiaries

Interests in subsidiaries are set out in note 25.

Key management personnel

Disclosures relating to key management personnel are set out in note 19 and the remuneration report in the directors' report.

Transactions with related parties

Transactions with Director Related Entities

Note 23. Related party transactions (continued)

There were no transactions with Director related entities during the financial year, other than:

A Director of the Company, Mr Justin Hondris, is also an Executive Director of AIM-listed Pantheon Resources PLC ("Pantheon" AIM Code: PANR). The Company acquired a strategic shareholding in Pantheon and became the largest shareholder during the prior reporting period ended 30 June 2012. Mr Hondris has been excluded from all decisions, analysis and voting on the acquisition of the investment in Pantheon and will continue to be excluded from decisions in the future. The investment comprised 7 million shares at £0.1325 per share for a total of £927,500.

Mr Justin Hondris currently holds 1,135,000 ordinary shares in Pantheon Resources Plc, representing a 0.6% holding of the Company's issued capital.

Receivable from and payable to related parties

The following balances are outstanding at the reporting date in relation to transactions with related parties:

	Consolidated	
	2015	2014
	\$	\$
Current payables:		
Directors fees payable - Mr J Hondris (payable to Cornwall Development Corporation)	94,500	56,000
Directors fees payable - Mr A Van Der Zwan	101,000	55,000
Directors fees payable - Mr C Martin (payable to Millwest Investments Pty Ltd)	77,000	38,500

Loans to/from related parties

There were no loans to or from related parties at the current and previous reporting date.

Terms and conditions

All transactions were made on normal commercial terms and conditions and at market rates.

Note 24. Parent entity information

Set out below is the supplementary information about the parent entity.

Statement of profit or loss and other comprehensive income

	Parent	
	2015	2014

Total equity	<u>3,027,470</u>	<u>2,529,623</u>

Guarantees entered into by the parent entity in relation to the debts of its subsidiaries

The parent entity had no guarantees in relation to the debts of its subsidiaries as at 2015 and 2014.

Contingent liabilities

The parent entity had no contingent liabilities as at 2015 and 2014.

Capital commitments - Property, plant and equipment

The parent entity had no capital commitments for property, plant and equipment at as 2015 and 2014.

Significant accounting policies

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 2, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Investments in associates are accounted for at cost, less any impairment, in the parent entity.

Note 25. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 2:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2015	2014
		%	%
Olympic Resources Limited *	Australia	100.00%	100.00%
Athena Mines Pty Ltd	Australia	100.00%	100.00%

* The wholly-owned subsidiary has entered into a deed of cross guarantee with Argo Exploration Limited pursuant to ASIC Class Order 98/1418 and is relieved from the requirements to prepare and lodge an audited financial report. The deed of cross guarantee was signed on 1 June 2009.

Argo Exploration Limited
Notes to the financial statements
30 June 2015

Note 26. Deed of cross guarantee

The following entities are party to a deed of cross guarantee under which each company guarantees the debts of the others:

Argo Exploration Limited
Olympic Resources Limited

By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare financial statements and directors' report under Class Order 98/1418 (as amended) issued by the Australian Securities and Investments Commission ('ASIC').

The above companies represent a 'Closed Group' for the purposes of the Class Order, and as there are no other parties to the deed of cross guarantee that are controlled by Argo Exploration Limited, they also represent the 'Extended Closed Group'.

The statement of profit or loss and other comprehensive income and statement of financial position are substantially the same as the consolidated entity and therefore have not been separately disclosed.

Note 27. Events after the reporting period

Since 30 June 2015, the fair value of the investment in Pantheon Resources Plc has increased to approximately \$4,827,955 as at 24 September 2015. This is an increase of \$1,567,975 since 30 June 2015.

No other matter or circumstance has arisen since 30 June 2015 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Note 28. Reconciliation of profit/(loss) after income tax to net cash used in operating activities

	Consolidated	
	2015	2014
	\$	\$
Profit/(loss) after income tax expense for the year	225,562	(77,674)

Note 29. Earnings per share

	Consolidated	
	2015	2014
	\$	\$
Profit/(loss) after income tax attributable to the owners of Argo Exploration Limited	<u>225,562</u>	<u>(77,674)</u>

Note 29. Earnings per share (continued)

	Number	Number
Weighted average number of ordinary shares used in calculating basic earnings per share	126,321,370	125,220,000
Weighted average number of ordinary shares used in calculating diluted earnings per share	<u>126,321,370</u>	<u>125,220,000</u>
	Cents	Cents
Basic earnings per share	0.18	(0.06)
Diluted earnings per share	0.18	(0.06)

The 41,000,000 performance rights currently on issue are not included in the calculation of diluted EPS, as the effect would be anti-dilutive.

Note 30. Share-based payments

On 3 July 2013 the Company issued Performance Rights to Directors and consultants in order to provide a cost effective method of remunerating officers of the Company. The performance rights granted contained conditions relating to the significant improvement in the market capitalisation of the Company, aligning the interests of the holders to those of the shareholders. Each of the recipients received 4 classes of Performance Right, each with different market conditions attached.

Class A Rights vest where the Company's share price is equal to or greater than a 5 day VWAP of \$0.035 (3.5 cents) per share.

Class B Rights vest where the Company's share price is equal to or greater than a 5 day VWAP of \$0.05 (5 cents) per share.

Class C Rights vest where the Company's share price is equal to or greater than a 5 day VWAP of \$0.075 (7.5 cents) per share.

Class D Rights vest where the Company's share price is equal to or greater than a 5 day VWAP of \$0.10 (10 cents) per share.

Set out below are summaries of performance rights granted under the plan:

2015

Grant date	Expiry date	Exercise price	Balance at the start of the year	Granted	Vested	Expired/forfeited/other	Balance at the end of the year
03/07/2013	03/07/2018	\$0.000	8,200,000	-	-	-	8,200,000
03/07/2013	03/07/2018	\$0.000	8,200,000	-	-	-	8,200,000
03/07/2013	03/07/2018	\$0.000	12,300,000	-	-	-	12,300,000
03/07/2013	03/07/2018	\$0.000	12,300,000	-	-	-	12,300,000
			41,000,000	-	-	-	41,000,000

2014

Grant date	Expiry date	Exercise price	Balance at the start of the year	Granted	Vested	Expired/forfeited/other	Balance at the end of the year
03/07/2013	03/07/2018	\$0.000	-	8,200,000	-	-	8,200,000
03/07/2013	03/07/2018	\$0.000	-	8,200,000	-	-	8,200,000
03/07/2013	03/07/2018	\$0.000	-	12,300,000	-	-	12,300,000
03/07/2013	03/07/2018	\$0.000	-	12,300,000	-	-	12,300,000
			-	41,000,000	-	-	41,000,000

Note 30. Share-based payments (continued)

For the performance rights granted during the current financial year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

Grant date	Expiry date	Share price at grant date	Exercise price	Expected volatility	Dividend yield	Risk-free interest rate	Fair value at grant date
03/07/2013	03/07/2018	\$0.016	\$0.000	117.79%	-%	3.47%	\$0.019
03/07/2013	03/07/2018	\$0.016	\$0.000	117.79%	-%	3.47%	\$0.018
03/07/2013	03/07/2018	\$0.016	\$0.000	117.79%	-%	3.47%	\$0.016
03/07/2013	03/07/2018	\$0.016	\$0.000	117.79%	-%	3.47%	\$0.015

Argo Exploration Limited
Directors' declaration
30 June 2015

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 2 to the financial statements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
- at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 26 to the financial statements.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Mr Andrew Van Der Zwan

Independent Auditor's Report

To the Members of Argo Exploration Limited

Report on the financial report

We have audited the accompanying financial report of Argo Exploration Limited (the "Company"), which comprises the statement of financial position as at 30 June 2015, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the company the consolidated entity comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001. The Directors' responsibility also includes such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

Grant Thornton Audit Pty Ltd ACN 130 913 594
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Argo Exploration Limited is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of their performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

Material uncertainty regarding going concern

Without modification to the audit opinion expressed above, attention is drawn to the following matter. As a result of matters described in Note 2 in the annual financial report the Company has incurred a net profit after tax of \$225,562 and net operating cash outflows of \$82,935 during the year ended 30 June 2015. This condition, along with other matters as set forth in Note 2, indicate the existence of a material uncertainty which may cast significant doubt about the Entity's ability to continue as a going concern and whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.

Report on the remuneration report

We have audited the remuneration report included in pages 6 to 11 of the directors' report for the year ended 30 June 2015. The Directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion on the remuneration report

In our opinion, the remuneration report of Argo Exploration Limited for the year ended 30 June 2015, complies with section 300A of the Corporations Act 2001.
