September 2015 Quarterly Operations Report

1.0 Operations Review

1.1 Kangaluwi Copper Project

1.1.1 Court Case

As announced to the ASX on 29 April 2015 the decision on the appeal that had been expected on 28 April 2015 was delayed unexpectedly. Regrettably the decision has still not been handed down so no progress in this regard was made in the September 2015 quarter. The explanation for the delay was that the Appeal Judge had not yet completed his written judgement on the appeal. There is nothing further any of the parties to the appeal can do other than await the decision of the Appeal Judge. The Company is confident that it will achieve the result it has vigorously defended and once the injunction has been removed and the appeal dismissed then the Company will continue with its exploration and development of the Kangaluwi Copper Project and engage with potential joint venture partners.

Court Case Background

The appeal hearing in the High Court of Lusaka referred to above is the appeal lodged by certain Zambian conservation groups against a decision of the Minister of Lands, Natural Resources and Environmental Protection on 17 January 2014 to allow the Company to develop its 100% owned Kangaluwi Copper Project in the Lower Zambezi National Park in Zambia. In the appeal the Zambian Government is the first respondent and Mwembeshi Resources Ltd, a wholly owned subsidiary of Zambezi, is the second respondent.

The decision of the Minister effectively allowed the Company to proceed with the developments of its 100% owned Kangaluwi Copper Project located in the Lower Zambezi National Park in Zambia.

On 6 February 2014 at the request of the Appellants, the Lusaka High Court granted an order, on an ex parte basis, for a stay of execution of the decision of the Minister to allow Zambezi to develop its Kangaluwi Copper Project.

1.1.2 Project Background

About the Kangaluwi Copper Project:

Zambezi Resources Limited (“the Company”) is an ASX listed Copper Exploration and Development Company focused on its 100% owned Kangaluwi Copper Project, 180 km east of Lusaka, Zambia. The project is covered by a 245 km² Mining Licence (ML 15547), issued on 16 March 2011 and valid for 25 years.

The project covers the copper deposits of Kangaluwi, Chisawa and Kalulu. Drilling carried out at these prospects lead to estimation and reporting of Mineral Resource estimates in July 2012 (Table 1). The Mineral Resource estimates were classified and reported in accordance with the JORC Code.

1.2 Mpande Limestone Project (Joint Venture)

1.2.1 Potential Sale of Mpande Limestone Limited (Subsequent Event)

Zambezi Resources Limited (“Zambezi” or the “Company”) announced on 30 October 2015 that it has entered into a binding Share Sale Agreement (“SSA”) with African Brothers Corporation Limited (“ABC”), a Chinese construction company based in Zambia, for the sale of Mpande Limestone Limited (“Mpande”) a wholly owned subsidiary of Zambezi, which owns a cement limestone project in Zambia (“Mpande Project”) in a 50/50 joint venture with Limestone Ventures Pty Ltd.

The SSA was executed on 26 October 2015 between Zambezi and ABC. The share purchase consideration is TWO MILLION SEVEN HUNDRED AND EIGHTY THOUSAND UNITED STATES DOLLARS (US\$2,780,000), of which ONE HUNDRED THOUSAND UNITED STATES DOLLARS (US\$100,000) has already been paid to Zambezi. ABC must also repay Mpande’s loan to Zambezi of SIX HUNDRED AND SEVENTY THOUSAND UNITED STATES DOLLARS (US\$670,000). Both amounts totalling US\$3.45M (A\$4.78M) will be paid on or before 21 days from execution of the SSA.

The SSA is conditional upon the approval of Zambezi’s Joint Venture partner, Limestone Ventures Pty Ltd.

ABC proceeded to acquire the Mpande Project following their due diligence (see ASX announcement dated 1 May 2015). ABC is a reputable and well established company that has been operating in Zambia for more than 15 years and has a strong vision to establish a cement factory within the Mpande Project tenement area.

The Board of Zambezi believe that they have negotiated a fair price for the Mpande Project in a difficult and challenging financial and resources market which allows the Company to focus on its major core asset being its 100% owned Kangaluwi Copper Project, and enable it to repay some debt.

1.2.1 Mpande Limestone Project Background

Mpande Limestone Limited (“**MLL**”), a wholly owned subsidiary of MRL (100% owned by ZRL) is a Zambian registered company that was formed in June 2008.

MLL has a 50% interest in the Limestone Farm-in and Exploration Joint Venture with Limestone Ventures Pty Ltd.

Drilling results from the Mpande Limestone Project confirms a large limestone deposit of high quality material and suitable for cement production.

The EIS was approved on the 20th June 2014 by ZEMA. The Large Scale Mining Licence number 18703-HQ-LML was approved on the 1st August 2014 by the Minister of Mines, Energy and Water Development for a period of 25 years.

2.0 Corporate

2.1 Rights Issue

Zambezi Resources Limited (ZRL) completed an allotment and issue of 3,300,110 ordinary shares on Friday, 14 August 2015 as part of the Rights Issue which closed on 7 August 2015 raising \$132,004 (before costs) from existing shareholders under the Rights Issue.

The remaining 9,363,634 in shortfall shares may be placed at the directors' within 3 months of the Rights Issue closing date.

The funds raised will be applied for working capital purposes and towards the ongoing funding of the Company's legal challenge of successfully dismissing the appeal and removing the stay of execution that is currently preventing the Company from developing its 100% owned Kangaluwi Copper Project. The need for additional funds has come about largely as a result of the delay in the handing down of the appeal decision.
