

## Immuron Executes US Travelan Sales Partnership with TravelCare WorldWide

**Thursday 5<sup>th</sup> November 2015, Melbourne, Australia:** Immuron Limited is pleased to announce that the company has executed a partnership agreement with TravelCare WorldWide LLC (TravelCare) of Lone Tree, Colorado for the sale of Travelan throughout its travel medicine network. The specific terms and conditions of this agreement will remain confidential.

TravelCare is a Group Purchasing Organization (GPO) buying group and a provider of travel medicine, immunisation and vaccination services in North America. With 70+ travel clinic locations, exceptional experience of combined nursing and medical care, TravelCare has a high level commitment of care for their patients. They offer fully mobile healthcare services to companies, schools, churches and other organisations that require immunisations, vaccinations and other healthcare needs, thereby saving time and money to their clients.

TravelCare was founded in 2004 by John Broach. They are a member of the International Society of Travel Medicine and have access to over 2,000 members worldwide, who are available to provide first-hand information specific to an area that can't be accessed from the CDC, or World Health Organization.

The President and founder of TravelCare WorldWide, John Broach said;

*"Travel Care WorldWide is a leader in the field of international travel vaccines and other protective products for travelers who have visited all seven continents. We are extremely pleased to add Travelan to our suite of products and enter into this very promising partnership with Immuron. The real winners will be the traveling public."*

Immuron CEO Mr Thomas Liquard added;

*"We are excited to be able to offer Travelan through TravelCare. They are leaders in the travel medicine clinic industry and we look forward to building a productive and long-term relationship."*

*"This is another win for Travelan in the US and a clear indication of Travelan's outstanding value proposition. This agreement is in-line with our commitment to our shareholders, to maximise our presence throughout the US."*

Travelan's active ingredient is Hyperimmune Bovine Colostrum Powder which is a rich source of antibodies that bind to Enterotoxigenic E. coli in the gastrointestinal tract preventing them from attaching to the intestinal wall and thereby neutralising their ability to cause Travelers' Diarrhoea and its associated symptoms. Hyperrimmune Colostrum is developed under Immurons' Proprietary Technology to create high titers of antibodies to a range of E- Coli bacteria that is present in normal colostrum in very small amounts.

**About Immuron:**

Immuron Ltd is a publicly-listed Australian biopharmaceutical company (ASX: IMC) (OTCQB: IMROY) focused on oral immunotherapy using dairy-derived polyclonal antibody products for humans. Immuron is a uniquely positioned biotechnology company in view of its versatile technology platform, comprising dairy derived polyclonal antibodies, capable of generating a wide range of products with a high safety profile. This high safety profile makes it possible to complete pre-clinical studies relatively quickly and raises the prospect that the clinical development of Immuron's products will be expedited.
