

Immuron Executes U.S. Travelan Sales Agreement with Medico-Mart, Inc.

Thursday 12th November 2015 – Melbourne, Australia: Immuron Limited is pleased to announce that the Company has executed a non-exclusive distribution agreement with Medico-Mart, Inc. of Waukesha, Wisconsin. The terms and conditions of the agreement will remain confidential.

Medico-Mart, Inc. specialises in fulfilling the product needs of physician offices, clinics and healthcare organisations throughout the United States.

Medico-Mart was founded in 1935 and is now a leading distribution healthcare company in the U.S. servicing customers across a wide variety of specialist areas including: pediatrics, internal medicine, family practice, travel medicine and occupational medicine. Their coverage ranges from single physician offices to large healthcare organisations.

The President of Medico-Mart, Inc., Jerry Walsh said;

“The introduction of Travelan into our pharmaceutical portfolio will allow us to better serve our travel medicine customers whilst providing Medico-Mart with opportunities for additional business development in the travel market. We look forward to a successful partnership with Immuron.”

Thomas Liquard, CEO of Immuron added;

“Since its creation more than 70 years ago, Medico-Mart has always been at the forefront of the travel medicine market. We are thrilled to add Medico-Mart, a company that clearly understands the value of differentiated travel products like Travelan, to our growing list of partners in the U.S.”

About Immuron

Immuron Ltd (ASX: IMC; OTCQB: IMROY) is a microbiome company focused on developing and commercialising oral immunotherapeutics for the treatment of a many gut mediated diseases. Immuron has a unique and safe technology platform that enables a shorter development therapeutic cycle. The Company currently markets and sells Travelan[®] for the prevention of travellers’ diarrhoea, whilst its lead product candidate IMM-124E is in Phase 2b clinical trials for NASH and ASH. These products together with the Company’s other preclinical immunotherapy pipeline products targeting immune-related diseases currently under development, will meet a large unmet need in the market.
