

ASX Announcement

2 December 2015

Drilling commenced on Maximus' Eagles Nest Gold Project

HIGHLIGHTS

- 9 hole Drilling program commenced
- Program testing strike extension to 250 metres
- 2 holes replicating previous drilling for inclusion in resource model

Maximus Resources Limited (ASX:MXR) is pleased to announce that drilling has commenced on the Eagles Nest tenement at the Spargoville project with the drill rig arriving onsite early this morning.

The drill program consists of 9 Reverse Circulation (RC) holes for 900 metres to test strike extensions and depth extensions of the Eagles Nest Mineralised zone. Some of the planned holes are designed to replicate (twin) the historic drilling to provide data suitable for inclusion in a resource estimate in accordance with JORC 2012 requirements.

The company is currently completing a Share Purchase Plan (SPP) offering eligible shareholders the opportunity to purchase shares at a discount to the 5 day VWAP when announced. Funds raised from the SPP shall be used predominantly to complete exploration at Spargoville and Narndee.

The SPP process closes on Friday 4th December 2015.
