Nexus Minerals Limited (ASX: NXM) (Nexus or the Company) is pleased to advise that it has recently completed the 2000m, 7 hole RC drill program at the Pinnacles JV Gold Project (Fig 1).

The drill holes intersected favourable geology, alteration and structures - similar to those observed in historic drill holes by previous operators. Drill samples have been submitted for analysis with the results expected after the Christmas period, in early-mid January 2016. On completion of geological assessment, the results will be released.

The Pinnacles JV Gold Project is a Farm-in and Joint Venture Agreement with Saracen Gold Mines Pty Ltd, a subsidiary of Saracen Mineral Holdings Limited (see ASX Release 17 September 2015). This project is consistent with the Company strategy of investing in advanced gold exploration prospects.

NEXUSMINERALS

Andy Tudor, Nexus' Chief Executive Officer, commented "We are pleased with the first program of drilling completed at Pinnacles. All of the drill holes were completed to a high standard with excellent recoveries and minimal deviation. We intersected the target zones where anticipated and look forward to receiving the assay results in January."

About Nexus

Nexus Minerals is a well-funded, resources company with a portfolio of projects in Western Australia. With a capable and well-credentialed Board, assisted by an experienced management team, the Company is well placed to capitalise on opportunities as they emerge in the resource sector.

The information in this report that relates to Exploration Results is based on information compiled or reviewed by Mr Andy Tudor, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Tudor is a full-time employee of Nexus Minerals Limited. Mr Tudor has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity for which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". The exploration results are available to be viewed on the Company website www.nexus-minerals.com. The Company confirms it is not aware of any new information that materially affects the information included in the original announcement, and in the case of Mineral resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original announcements. Mr Tudor consents to the inclusion in the reports of the matters based on his information in the form and context in which it appears.
