Directors' report

The Directors present their report together with the financial statements of the consolidated entity (the "Group"), being REA Group Limited (the "Company") and its controlled entities, for the half year ended 31 December 2015 and the Independent Auditor's Review Report thereon.

Directors

The names of Directors of the Group in office during the half year and up to the date of the report, unless stated otherwise, are as follows:

- Mr Hamish McLennan (Chairman)
- Ms Tracey Fellows
- Mr Roger Amos
- Ms Kathleen Conlon
- Mr Richard Freudenstein
- Mr William Lewis (resigned 12 Nov 2015)
- Mr John McGrath
- Mr Michael Miller (appointed 12 Nov 2015)
- Mr Peter Tonagh

Principal activities

REA advertises property and property-related services on websites and mobile apps in Australia, Europe and Asia.

Our purpose is to 'make property simple, efficient and stress-free'. We fulfil this purpose by:

- providing digital tools, information and data for people interested in buying, selling, renting, letting or pricing property. We call these users of our services 'consumers'.
- helping real estate agents, property developers and other property-related businesses promote their services through our websites, mobile sites, apps and some print. We call these users of our services 'customers'.

Our growth focuses on the three pillars of our strategy:

Listings

The backbone of our business entails publishing online residential and commercial property listings. This pillar also includes providing some software and website development to property developers and real estate agents who list properties on our sites.

Media and property-related services

Media: Third parties advertise on our sites, giving them access to the largest audience of property seekers in Australia. We also provide them with digital products and services to help them manage their data.

Property-related services: This part of our business streamlines the process of moving – whether it's by helping consumers find a home loan, assisting with the connection of their utilities or applying for a rental property.

International operations and expansion

Australia remains our largest market – a market in which we operate the market leading website for residential and commercial property. In addition, we continue to expand internationally and have a presence in Europe, Asia and North America.

Review and results of operations

A summary of financial results from core operations for the half year ended 31 December 2015 is set out below.

¹ The Directors deem the EBITDA measures to be relevant and useful in measuring the financial performance of the Group. EBITDA is defined as Earnings before Interest, Tax, Depreciation and Amortisation.

Group results from core operations

The Group achieved a 28% increase in Net Profit from core operations to \$121.0 million. Group revenue from core operations grew by 20% to \$314.8 million driven by the continued growth in listing depth products which are targeted to the needs of consumers, real estate agents and property owners.

The Group's property websites in Australia, Europe and Asia all recorded traffic growth in the half year. Revenue grew across all countries for the half year and Australia remained the primary revenue driver for the business, delivering 92% of the Group's revenue. Each of the Australian lines of business achieved revenue growth reflecting the success of the listing depth strategy and continued product innovation strengthening our customer relationships and consumer experience.

The Group's EBITDA from core operations increased 29% for the half year to \$185.9 million while the EBITDA margin increased to 59%. Operating expenses increased by 10% on the comparative half year due to different timing of marketing spend and strategic initiatives. The Group manages operating expenses on a full year basis and due to these timing differences cost growth will be weighted to the second half.

The Group's operations attracted combined average monthly visits² of 70.6 million³ for the half year ended 31 December 2015. This represents a 29% increase in average monthly visits on the comparative half year. Paying agents increased to 24,423 across all websites and total property listings remaining steady at 1.6 million in December 2015.

Corporate expansion and investment activities

The Group has continued to deliver on its intention to expand internationally. On 2 November 2015, the Group announced its intention to acquire the remaining shares in iProperty (the Group already owns 22.7% of iProperty) for \$4.00 per share, to be executed by way of a scheme arrangement. iProperty (IPP) shareholders were also able to elect to receive \$1.20 cash, as well as shares in a company which will provide indirect exposure to IPP for a period of 2 years post-closing.

IPP shareholders approved the scheme on 28 January 2016 and final court approval was obtained on 2 February 2016. As a result, we expect the transaction to complete in mid-February 2016. The investment in IPP has been accounted for as an associate in the half year results and will be consolidated from 1 February 2016.

The Group will primarily fund the acquisition from new debt facilities totalling \$480 million, with the remainder from existing cash.

Dividends

Dividends paid or declared by the Company during and since the end of the half year are set out in Note 10 to the financial statements and further set out below:

Australia

The Group operates Australia's number one residential and commercial property sites, realestate.com.au and realcommercial.com.au.

We have continued to cement this number one position with a 7% increase in the number of Australian real estate agent offices that list properties on our sites for the half year ended 31 December 2015. Average monthly revenue per agent (ARPA) increased by 11% to \$3,410.⁴

Overall, Australian revenues increased by 22% to \$289.4 million on the comparative half year driven by our premium listing contract, Premiere All.

In our residential business, revenues increased by 20% on the comparative half year.

Our commercial business, realcommercial.com.au, recorded a 8% revenue growth driven by the Elite listing product.

Media and developer revenue increased by 23%. This increase is a result of continued innovation in

display media products and strong take up of Project Profiles, making it easier to present large developments.

Further details relating to the Australian operations are set out below.

Revenues driven by greater uptake of 'depth products'

Our growing revenues are particularly pleasing, given flat volume of property listings across the market, as well as lower average days on-market for properties as a result of high auction clearance rates in Sydney and Melbourne.

The Group's positive results, despite this backdrop, can be attributed to the successful execution of our strategic initiatives. An important factor has been a change in the way we charge for our services.

Traditionally, real estate agents have paid subscriptions for the right to list properties on our sites. However, we now offer agents 'depth products', where they pay extra to feature a more detailed listing of a particular property. We have enhanced these 'depth products' and made them

⁴ ARPA calculated as residential and commercial revenue over the number of paying agents.

easier to purchase. This has led to increased take up of premium listing products by both residential and commercial property agents.

Innovation is driving consumer engagement

We have the most engaged audience of property seekers in Australia. Combined, realestate.com.au, realcommercial.com.au and property.com.au attracted average monthly visits of 59.3 million during the half year. This figure represents growth of 33% compared with the prior comparative period.⁵

Our high consumer engagement is due to our continued efforts to enhance the online experience of people looking to buy, sell, rent or share property. Recent innovations mean consumers can now find far more detailed, personalised and up-to-date information on more properties than ever – from local price trends to information on nearby schools.

Consumers are also able to access this personalised property data from even more devices. For example, they can now receive location specific alerts via the first ever real estate app on the Apple Watch⁶.

As a result of our drive to increase the range of devices we publish on, average monthly app visits grew by 49%⁷. Average monthly visits for realestate.com.au outperformed the nearest competitor site by 2.1 times.⁸ The average monthly total time on site for realestate.com.au for the half year was 247.8 million minutes, outperforming our nearest competitor by 5.6 times.⁹

The expanded reach of mobile, and the increased personalisation of our sites and apps, have supported the creation of better products for real estate agents. As a result of recent innovations, these customers can now present their offering to consumers in a much more timely and targeted way, which, in turn, increases consumer engagement. For example we have worked closely with real estate agents to profile their experience and approach to selling homes, to assist consumers in their selection process.

Europe

The European operations comprise Italy, Luxembourg and France.

The Group operates a leading Italian digital property advertising business, casa.it and in Luxembourg, the market-leading residential and commercial property sites, atHome.lu and atOffice.lu. In Italy, we have continued to grow ARPA and listing volumes in a challenging market. Our successful expansion into the northern regions of France the immoRegion.fr brand under further demonstrates the Group's ability to build sustainable growth pipelines in new markets.

The European operations achieved revenue growth in the half year of 13% to \$25.1 million and EBITDA of \$4.2 million following a drive to grow market penetration.

Average monthly visits to the aggregated European sites casa.it, atHome.lu, atHome.de, immoRegion.fr and atOffice.lu increased by 10% to 11.2 million.¹⁰

Asia

Our Chinese site, myfun.com, supports our Australian business by showcasing Australian property listings to Chinese buyers, investors and delivering leads to agents. The myfun.com site was launched in 2014 and attracted average monthly visits of 81 thousand during the half year.¹¹

As at 31 December 2015, REA owns a 22.7% share in IPP. IPP, an ASX listed company, owns and operates Asia's leading network of property websites across Malaysia, Thailand, Indonesia, the Hong Kong region, and Singapore.

On 2 February 2016, following a shareholder vote on 28 January 2016, the courts approved the Group's acquisition of IPP. As a result, we expect the transaction to complete in mid-February 2016. The investment in IPP has been accounted for as an

IPP has previously announced that it expects full year revenue for calendar year 2015 of \$32.0 million, which is up 47% on 2014, and EBITDA of \$2.5 million compared to a loss of \$0.4 million in the previous year¹².

North America

REA Group's investment in Move, Inc., a leading digital real estate advertising business in the United States of America (USA), was completed on 18 November 2014. REA Group acquired a 20% holding in Move, Inc. for a consideration of \$226.5 million (US\$198.7 million), funded by cash reserves. News Corp, parent of REA Group majority shareholder News Corp Australia, holds the remaining 80% of Move, Inc.

The Group's share of Move, Inc. at the half year resulted in losses of \$4.6 million recognised in the Income Statement.

Notes to the Consolidated Financial Statements

1. Corporate information

REA Group Limited (the Company) is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The condensed consolidated financial statements of the Company as at and for the half year ended 31 December 2015 comprise the financial statements of the Company and its subsidiaries (together referred to in these financial statements as the "Group" and individually as "Group entities").

The nature of the operations and principal activities of the Group are described in the Directors' Report.

2. Basis of preparation

The condensed consolidated interim financial statements for the half year ended 31 December 2015 has been prepared in accordance with AASB 134 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 30 June 2015.

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent as those adopted in the Group's annual financial report for the year ended 30 June 2015, except for the adoption of new standards and interpretations as of 1 July 2015 as disclosed in the 30 June 2015 financial accounts and noted below:

- AASB 2012-3 Amendments to Australian Accounting Standards Offsetting Financial Assets and Financial Liabilities
- Annual Improvements to IFRSs 2010-2012 Cycle
- Annual Improvements to IFRSs 2011-2014 Cycle

The adoption of the above accounting standards had no material impact on the Group.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

3. Segment information

Operating segments are reported in a manner consistent with internal reporting to be provided to the chief operating decision makers, being the Chief Executive Officer who provides the strategic direction and management oversight of the company in terms of monitoring results and approving strategic planning for the business.

Identification of segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses that relate to transactions with any of the consolidated entity's other components.

The Group's operating segments are determined based on the location of the Group's operations. Corporate overhead includes the costs of certain head office functions that are not considered appropriate to be allocated to the Group's operating businesses. Discrete financial information about each of these operating businesses is reported to the CEO at least monthly.

Operating segments that meet quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to the users of the Financial Statements.

(b) Type of service

The Group has only one type of service, which is the provision of advertising services to the real estate industry. While the Group offers different brands to the market it is considered that it only has one product/service.

The following tables present revenue and results by operating segments for the half year ended 31 December 2015 and 31 December 2014.

4. Discontinued operation

On 14 October 2014 the Group publically announced the sale of its Hong Kong business, Squarefoot to iProperty Group Limited ("IPP") for a consideration of 5 million IPP shares subject to shareholder approval. On 22 December 2014 the Group announced it had completed the sale and as a result REA became IPP's largest shareholder with a 19.9% holding and with representation on the IPP Board of Directors.

The gain recognised on sale of the Squarefoot business was \$9.8 million. This gain is not taxable in Hong Kong or Australia. The contributions of Squarefoot at 31 December 2014 and the comparative period are not considered material to the Group's consolidated results and therefore not reclassified to discontinued operations. As the applicable assets and liabilities of Squarefoot were transferred prior to 31 December 2014 they are no longer included in the Statement of Financial Position.

5. Investment in associates

At 31 December 2015, the Group had a 22.7% interest in iProperty Group Limited ("IPP"), a public company listed on the Australian Stock Exchange. IPP has online property advertising operations in Malaysia, Indonesia, Hong Kong, Macau, Thailand and Singapore. The holding was acquired in stages during the 2015 and 2016 financial years for total consideration of \$118.2 million cash in addition to the sale of the Squarefoot business to IPP (fair valued deemed to be \$12.5 million). The total investment was \$130.7 million, representing an average price of \$3.06 per share held. The Group's share of losses for the period is \$1.3 million.

As at 31 December 2015 the number of shares held are 42,570,393 and the quoted share price was \$3.95. On 2 November 2015, the Group announced the intent to acquire 100% of IPP.

The Group also has a 20% interest in Move Inc. ("Move"), a leading provider of online real estate services in the United States. Move primarily operates realtor.com® a premier real estate information services marketplace, under a perpetual agreement and trademark license with the National Association of Realtors® ("NAR"), the largest trade organisation in the USA. The holding was acquired in November 2014 for a cash consideration of \$226.5 million (US\$198.7 million). During the half year period an additional capital contribution of \$1.1 million (US\$0.8 million) cash was paid by the Group relating to the funding of rollover awards held by Move employees. The Group has representation on the Advisory Board designed to advise on key strategic and operating matters impacting Move. The remaining 80% of Move is held by News Corp. News Corp. granted the Group a put option to require News Corp. to purchase the Group's interest in Move, which can be exercised at any time beginning two years from the date of acquisition at fair value. The Group's share of losses for the period is \$4.6 million.

The Group's interests in IPP and Move are accounted for using the equity method in the Consolidated Financial Statements.

6. Cash and cash equivalents

For the purpose of the half year cash flow statement, cash and cash equivalents are comprised of the following:

	31 Dec 2015	30 June 2015
	\$'000	\$'000

8. Income tax expense

The Group calculates the period income tax expense using the tax rate that would be applicable to expected total annual earnings. The major components of income tax expense in the consolidated Income Statement are:

	31 Dec 2015	31 Dec 2014
	\$'000	\$'000
Income taxes:		
Current income tax expense	49,455	47,924

9. Contributed equity

At 31 December 2015 the Group had 131,714,699 ordinary shares on issue. There has not been any issue of shares during the half year ended 31 December 2015.

	Contributed equity	Other contributed equity	Total

The Group's own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in the income statement on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in share-based payments reserve.

A deduction of \$1.0 million (31 December 2014: \$1.7 million) was made to other contributed equity during the half year to reflect the acquisition of treasury shares on market held for the short term incentive deferred share plan (STIP), of which \$0.9m were settled in the period. A deduction of \$1.4 million (31 December 2014: \$2.2 million) was made for the settlement of the Long Term Incentive Plan (LTIP). This reflects the difference between the amount paid for the shares on market and the grant value previously recognised in the Income Statement.

10. Dividends

(a) Dividends declared or paid

The following dividends were declared or paid by the Group:

	Per share	Total amount \$'000	Franked at 30%	Payment date
Half year ended 31 Dec 2015: 2015 Final dividend (fully franked)	40.5 cents	53,345	100%	14 Sept 2015
Half year ended 31 Dec 2014: 2014 Final dividend (fully franked)	35.0 cents	46,100	100%	25 Sept 2014

(b) Dividends not recognised at the end of the half year

On release of the interim financial statements, the Directors declared an interim ordinary dividend for 2016 of \$47.4 million (36.0 cents per share fully franked) to be paid on 11 March 2016 out of retained earnings as at 31 December 2015. The interim dividend has not been recognised in the financial statements for the half year ended 31 December 2015, but will be in subsequent financial reports.

11. Contingencies

Various claims arise in the ordinary course of business against REA Group Limited and its subsidiaries. The amount of the liability (if any) at 31 December 2015 cannot be ascertained, and the REA Group Limited entity believes that any resulting liability would not materially affect the financial position of the Group.

12. Commitments

As a result of the Move, Inc. transaction, the Group entered a commitment of US\$5.0 million relating to the funding of rollover awards held by Move, Inc. employees as at 31 December 2015. Of this commitment, US\$0.8 million has been paid during the half year, with the balance expected to be paid within five years.

13. Events after the balance sheet date

On 2 February 2016, following a shareholder vote on 28 January 2016, the court approved the Group's acquisition of 86.9% of IPP, a listed company incorporated in Australia. REA has an obligation to acquire the remaining 13.1% minority shareholding over a two year period through a put and call option arrangement, as highlighted in the Scheme document. The acquisition price of the minority shares will be based on a prescribed formula set out in the Scheme Booklet that reflects the financial performance of iProperty Limited during the two years to 31 December 2017. The acquisition provides the Group a platform to further expand into Asia.

At date of signing the half year financial statements a formal purchase price allocation has not occurred. A formal purchase price allocation exercise will be carried out in the next 12 months. Purchase consideration including the subsequent buy out of minorities is estimated at approximately \$580.6 million, of which \$480.0 million will be funded via debt. The Group previously owned 22.7% which is valued at \$170.2 million based on the acquisition price of \$4.00 per share. Upon acquisition the Group will recognise a gain on the revaluation of the original investment of approximately \$39.5m.

Acquisition related costs are accounted for as expenses within operations and administration expense in the period in which they are incurred. We anticipate the total acquisition related costs to be \$7.0-\$8.0 million, of which the majority will be incurred in the second half of FY16.

Directors' Declaration

For the half year ended 31 December 2015:

In the Directors' opinion:

- (a) the financial statements and notes of the consolidated entity set out on pages 11 to 23 are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half year ended on that date; and
 - (ii) complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001;* and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

To the members of REA Group Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of REA Group Limited, which comprises the condensed statement of financial position as at 31 December 2015, the condensed income statement, the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of REA Group Limited and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of REA Group Limited is not in accordance with the Corporations Act 2001, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.
