Dear Charlotte

Re: Australia United Mining

We refer to your letter dated 2 February 2016 regarding the company's quarterly report in the form of Appendix 5B for the period ended 31 December 2015.

In reply to your queries, here is the company's response (adopting your numbering):

1. (Does the Company expect that it will continue to have negative operating cash flows for the time being and, if not why not?)

The company is not expecting to continue to have negative operative cash flows. The major shareholders have funded the company in the past and will continue to support the company's continued operation. The company is also prepared to do share right issue.

2. (Has the company taken any steps, or does it propose to take any steps, to raise further cash to fund its operation and, if so, what are those steps and how likely does it believe that they will be successful?)

The company is in the middle of negotiations with a Hong Kong mining company who is now operating gold, copper and iron mining business in China. The company is also preparing to cooperate in a building project in order to achieve the company's objectives. The company's major shareholders had some meetings with the Hong Kong mining company in Hong Kong and China, and has invited them to come to Australia to visit, it is in the middle of planning the business trip to Australia. The company has also prepared mining information and documents for them to view.

3. (Does the company expect it to be able to continue its operations and to meet its business objectives and, if so on what basis?)

Yes, the company has hired new professional mining agents to manage the company's tenements with well-designed plan to achieve the company's goal under new funding resource.

4. (Compliance with Listing Rules 3.1) The Board confirms that the Company is in compliance with Listing Rules 3.1. The Board further confirms that any determinations made by the Board in relation to any capital raising will give notice to the ASX in accordance with Listing Rules.

The Board confirms that the Company is in compliance with Listing Rule 12.2, and refers once more to the response given in relation to the questions above.

Yours sincerely

Dear Ms Yuan,

Australia United Mining Limited (the “Company”): ASX Appendix 5B Query

I refer to the Company’s quarterly report in the form of Appendix 5B for the period ended 31 December 2015 lodged with ASX Market Announcements Platform on Monday, 1 February 2016 (the “Appendix 5B”).

ASX notes that the Company has reported:

- negative net operating cash flows for the quarter of \$227,000;
- cash at the end of the quarter of \$76,000; and
- estimated cash outflows for the next quarter of \$220,000.

It is possible to conclude on the basis of the information provided in the Appendix 5B that if the Company were to continue to expend cash at the rate for the quarter (and at the rate estimated for the next quarter) indicated by the Appendix 5B, the Company may not have sufficient cash to continue funding its operations. In view of that, please respond to each of the following questions:

1. Does the Company expect that it will continue to have negative operating cash flows for the time being and, if not, why not?
2. Has the Company taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
3. Does the Company expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

4. Can the Company confirm that it is in compliance with Listing Rule 3.1 and that there is no information that should be given to ASX about its financial condition in accordance with that Rule that has not already been released to the market?

Please also provide any other information that the Company considers may be relevant to ASX forming an opinion on whether the Company is in compliance with Listing Rule 12.2.
