MARCH 2016 QUARTERLY ACTIVITY REPORT

Baraka Energy & Resources Limited ("Baraka" or "the Company") (ASX: BKP) provides its quarterly activities report for the period ended 31st March 2016.

As previously mentioned, Baraka appointed experienced Lawyers and Tenement Administrators in the Northern Territory, as well as RISC, a world renowned Oil and Gas consulting firm, to assist in the renewal of both permits, EP127 and EP128 located in the Georgina Basin in the Northern Territory, under the sole ownership of Baraka as 100% Permit Holders.

Baraka elected to withdraw from renewing EP128 in January 2016 as announced, due to expenditures required by the NT Department of Minerals and Energy. Baraka believed these to be excessive for the least prospective of the permits and prefers to concentrate its efforts on EP127 on renewal. The renewal of EP127 has been successful, as announced, which is extremely positive news as Baraka will have 100% ownership of permit EP127. The transfer of 100% of the permit from JV partners to Baraka is still in progress and will likely be completed in the next quarter.

Baraka and its previous exploration consultants believed that the western side of EP127, and in particular the Hagen Member, and Dulcie Syncline, held considerable potential for Conventional Oil & Gas, to the extent that at that time interest was expressed by a Canadian group wanting to pursue exploration of those areas. Initial discussions have recently been reinstated with the Canadian group as well as discussions with other parties regarding a farm-in.

Baraka is not expected to commence any new expenditure until sometime during the second quarter of 2016 when the permit has been 100% transferred into Baraka's name.

Baraka will initially work with RISC and others familiar with the Georgina Basin in reviewing all of the data collected from the previous work programs, continue to pursue discussions with interested parties in regards to any farm-in, and then resolve the work programs for 2016 and beyond.

Baraka has an R & D Tax Incentive application currently lodged awaiting approval which was expected to be finalised in the first quarter as the amount of \$1.1m has been credited to our ATO account. In the event that application is finalised we would expect a cash injection sometime in the second quarter of 2016. Additional funds are also expected as a result of converting selected current assets of some \$500,000 to cash further adding to our cash reserves which have been inconveniently delayed.

Baraka as at the 31st March 2016 had some \$4m of cash and current assets, with only minimal debtors or commitments. Baraka has liquidated some current assets since March 31st as well as called up on some loan funds. Further funds are expected from current asset sales in the second quarter of 2016 and together with the above mentioned R & D

Tax Incentive, will give Baraka sufficient funds to meet all costs & exploration expenditures for 2016.

The board of Baraka continues to seek other opportunities, and has been assessing offers made to the company to participate in ventures, or consider cash injections simultaneously with asset acquisitions, but nothing to date has been offered that would be sufficiently advantageous to our shareholders based on our risk to reward guidelines, and or is sufficiently advanced or definitive.

Appendix 5B

The Appendix 5B for the quarter ended 31 March 2016 is attached.

Forward-Looking Statements

This press release may contain forward-looking information that involves substantial known and unknown risks and uncertainties, most of which are beyond the control of Baraka, including, without limitation, statements pertaining to management's future plans and operations. All statements included herein, other than statements of historical fact, are forward-looking information and such information involves various risks and uncertainties. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such information. Any forward-looking statements are made as of the date of this release and Baraka does not assume any obligation to update or revise them to reflect new events or circumstances.

Notes

1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash

⁺ See chapter 19 for defined terms.

position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.

- The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- Accounting Standards ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
