G8 COMMUNICATIONS GREATLY ENHANCES GROWTH OPPORTUNITIES WITH VODAFONE RELATIONSHIP

HIGHLIGHTS

- **G8C Executes M2M Teaming Agreement With Vodafone.**
- **New Agreement Gives G8C Access to Vodafone Enterprise Customers.**
- **Vodafone Agreement Enables Acceleration of G8C Distribution to Global Brands in the US**

Vodafone Agreement:

The Board of G8 Communications Limited (“G8C”) is pleased to announce that it has executed an M2M Teaming Agreement (“MTA”) with Vodafone Global Enterprises Limited (“Vodafone”) the purpose of which is to team together to create joint opportunities to customers of both parties.

Vodafone intends to supply services that can be configured and customised to specific customer applications utilising G8C products and technology. It is intended that Vodafone will integrate G8C’s machine connect and emu router products as well as bundling the newly deployed cloud management platform for presentation to their enterprise customers.

The MTA will give G8C unparalleled access to some of the largest US and global companies which are Vodafone customers such as:

American Express, Apple, Bank of America, Boeing, Disney, Facebook, Google, IBM, Johnson & Johnson, Lockheed Martin, MasterCard, Microsoft, Newscorp, Northrup Grumman, PepsiCo, Raytheon, Starbucks, Time Warner, United Continental, Visa, Walmart, Wells Fargo and Yahoo.

The MTA sets out the basis upon which the parties will work together to scope out and submit proposals to customers. If successful either of the parties may be appointed the prime contractor for each opportunity and take primary responsibility for the overall project.

About G8 Communications

G8 Communications Limited has its operations based in Silicon Valley, in the US. Its business is a wireless technology innovator and manufacturer operating in the multi-trillion-dollar “IOT” (Internet of Things) sector. G8 Specializes in machine to machine (“M2M”) connectivity, providing hardware and software solutions to some of the world’s largest companies – including Coca Cola and Verizon. G8’s software solutions also include a customised cloud management interface and a variety of support services. Cisco predicts there will be 50 billion connected devices by 2020.
