**About American Patriot Oil and Gas**

American Patriot Oil and Gas (AOW) is an oil and natural gas exploration and development (E&P) group headquartered in Melbourne, Australia, with a U.S. office in Denver, Colorado. The Company has approximately 30,914 net mineral acres under lease across 5 key projects. The projects are geographically focused on tight oil exploration and development opportunities in the Rocky Mountain Basins. Since its establishment, AOW has assembled a portfolio of prospective oil and gas exploration assets in the USA and has completed joint venture agreements on its key Northern Star asset in Montana with U.S. based partners. AOW's business model is to internally generate prospects using geological knowledge, capture significant land positions at a low cost, and then reduce or remove risk capital exposure through a farm-out of a majority interest to a qualified U.S. operator in a cash and carry deal.
