Executive appointment

Sigma Pharmaceuticals Limited (Sigma) is pleased to announce the appointment of Mr Jeff Sells to the newly created position of Executive General Manager Strategy and Business Development.

This new executive role elevates Sigma's focus on the next horizon of our business growth and development.

Mark Hooper, CEO and Managing Director commented, "The current strength of the Sigma business creates the perfect environment for us to invest in opportunities to sustain our long term growth. Jeff has done a tremendous job over the last six years in driving financial and operational improvements across the Sigma business, so the timing is now right to utilise his extensive experience in this strategically important role."

Having joined Sigma in 2010 in the role of Chief Financial Officer (CFO), Jeff has played an integral role in reshaping the Sigma business. Jeff will continue to oversee the CHS business and as an interim measure will perform the CFO role whilst a search for a replacement is undertaken.
