¹ As the ESP is considered in substance a share option, ESP shares issued and corresponding loans receivable are not recognised by the Company in its financial statements. The loan receivable does not satisfy the “probable future benefits following to the entity” criteria of SAC 2 *Framework for the Preparation and Presentation of Financial Statements* on the basis that the loan is non-recourse. ESP shares are therefore not considered issued to participants until the corresponding loans are repaid, at which time the Company recognises an increase in the issued capital and increase in cash.
