HORSE WELL GOLD PROJECT (AYR 40%) 29,000 metre Air-Core Drill Programme Commenced

Alloy Resources Limited (ASX: **AYR**, **Alloy** or the **Company**) is pleased to confirm that Air-core exploration drilling has commenced at the Horse Well Gold Project in the North Eastern Goldfields of Western Australia.

Joint Venture Manager Doray Minerals Limited ('Doray') has advised that;

- A 29,000 metre air-core drilling programme has now commenced.
- The first phase will see approximately 106 holes for 6,900 metres infill drilling around existing +100ppb anomalies in the Crack of Dawn area.
- The second phase will see the remainder of the budgeted metres allocated to 800 metre x 160 metre regional first pass drilling of an untested 7 kilometre section of the greenstone belt south of the Django prospect.

The Company looks forward to updating the market on results from this programme once received from the Joint Venture Manager.

Andy Viner
