# Bendigo and Adelaide Bank Limited, Basel III Pillar 3 Disclosures, 30 June 2016

**Table 20 Liquidity Coverage Ratio**

From 1 January 2015, following the introduction of APS 210, APRA requires ADIs to maintain a minimum 100% Liquidity Coverage Ratio (LCR). The LCR requires banks to hold sufficient High Quality Liquid Assets (HQLA) to meet net cash outflows over a 30-day period, under a regulator-defined stress scenario. The Group's LCR for the quarters ending 31 December 2015, 31 March 2016 and 30 June 2016 is presented in the following table (Table 20), using the Basel standard disclosure template and is based on a simple average of month-end LCR outcomes (i.e. 3 monthly observations).

The Group manages its daily LCR requirement in line with the regulatory minimum, with appropriate additional Board and management buffers that are set in line with the Group's risk appetite. Movements in the LCR are attributed to changes in net cash outflows and holdings of liquid assets. Table 20 details the quantum of movements impacting the LCR between periods. These differences between periods are not material and are in line with the Group's normal course of business. As at 30 June 2016, the Group held a diverse mix of liquid assets, with approximately 51% of total liquid assets in HQLA as defined by APRA. HQLA comprises cash, deposits with the Reserve Bank of Australia (RBA), Australian Semi-Government and Commonwealth Government Securities, as well as other securities eligible for repo with the RBA which provide additional liquidity and form a buffer against adverse liquidity events.

Cash inflows and outflows are as prescribed in APS 210 and are calculated by applying APRA-prescribed run-off factors to maturing debt and deposits and discount factors to inflows/assets.

The Group has a well-diversified deposit and funding base without undue concentration. The Group does not have significant derivative or currency exposures that would impact upon cash flows.

The Group manages LCR on a centralised level 2 basis (including Bendigo and Adelaide Bank and its Rural Bank subsidiary). The Group also prepares level 1 tabulation (Bendigo and Adelaide Bank and Rural Bank separately) for internal management purposes, as Rural Bank is a Minimum Liquidity Holding (MLH) entity for APRA's purposes.

26	If convertible, conversion rate	N/A	Conversion into Ordinary Shares: Conversion is into approximately \$102.56 worth of Ordinary Shares per CPS based on the \$100 CPS Issue Price and the volume weighted average price (subject to certain adjustments and calculated in accordance with the Term).	Conversion into Ordinary Shares: Conversion is into approximately \$101.01 worth of Ordinary Shares per CPS2 based on the \$100 CPS2 Issue Price and the volume weighted average price (subject to certain adjustments and calculated in accordance with the Term).	Conversion into Ordinary Shares: Conversion is into approximately \$101.01 worth of Ordinary Shares per CPS3 based on the \$100 CPS3 Issue Price and the volume weighted average price (subject to certain adjustments and calculated in accordance with the Term).	N/A	N/A	The Conversion Number is calculated according to the following formula, subject to the Conversion Number being no greater than the Maximum Conversion Number: 1. Conversion Number for each Note = Nominal Amount / ((1-0.01) x VWAP); 2. VWAP refers to the VWAP of BEN ordinary shares over the latest period of 5 business days on which trading of BEN ordinary shares took place before (but not including) the conversion date; and 3. Nominal Amount means \$10,000. Maximum Conversion Number is the Nominal Amount / (20% x Issue Date VWAP). Issue Date VWAP refers to the VWAP of BEN ordinary shares over the 20 business days on which trading of BEN ordinary shares took place before (but not including) issue date of the Notes.	N/A
