## **TPG TELECOM LODGES APPLICATION FOR SINGAPORE SPECTRUM**

TPG is pleased to confirm that it has submitted an Expression of Interest (EOI) to prequalify for the New Entrant Spectrum Auction being conducted by the Infocomm Development Authority in Singapore (IDA).

The auction represents an opportunity to establish innovative and exciting mobile telecommunications products which will support Singapore's evolving Smart Nation capabilities. If TPG successfully prequalifies it will be able to bid for 2 lots of 2x5MHz of 900MHz spectrum and 8 lots of 5MHz of 2.3GHz spectrum. TPG notes the very positive step taken by the IDA to encourage a fourth entrant by making a substantial portion of spectrum available for sale to new entrants only.

The lodgment of the EOI is only the first step in the confidential auction process. TPG will not know if it will be successful at the auction until it completes later in the year. As such, TPG does not propose to make any further comments at this time.
