#### NOTE 1. BASIS OF PREPARATION OF THE PERIOD FINANCIAL REPORT

These general purpose interim financial statements for the interim 6 month reporting period ended 30 June 2016 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Lion Energy Limited ("Company") and its controlled entities ("Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the period within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2015, together with any public announcements made during the period.

#### Statement of compliance

The interim financial report complies with the Corporations Act 2001 and AASB 134 "Interim Financial Reporting". Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 "Interim Financial Reporting".

#### **Significant Accounting Policies**

These consolidated financial statements have been prepared using the same accounting policies as used in the annual financial statements for the year ended 31 December 2015, except as noted below.

#### New and amended accounting standards and interpretations

The Company has adopted all Australian Accounting Standards and Interpretations effective from 1 January 2016, including:

Reference and Title	Summary	Application date of standard*	Application date for Group*
AASB 2014-3 Amendments to Australian Accounting Standards – Accounting for Acquisitions of Interests in Joint Operations [AASB 1 & AASB 11]	<ul> <li>AASB 2014-3 amends AASB 11 <i>Joint Arrangements</i> to provide guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business. The amendments require:</li> <li>(a) the acquirer of an interest in a joint operation in which the activity constitutes a business, as defined in AASB 3 <i>Business Combinations</i>, to apply all of the principles on business combinations accounting in AASB 3 and other Australian Accounting Standards except for those principles that conflict with the guidance in AASB 11</li> <li>(b) the acquirer to disclose the information required by AASB 3 and other Australian Accounting Standards for business combinations. This Standard also makes an editorial correction to AASB 11.</li> </ul>	1 January 2016	1 January 2016
AASB 2014-4 Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to AASB 116 and AASB 138)	AASB 116 Property Plant and Equipment and AASB 138 Intangible Assets both establish the principle for the basis of depreciation and amortisation as being the expected pattern of consumption of the future economic benefits of an asset. The IASB has clarified that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. The amendment also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This presumption, however, can be rebutted in certain limited circumstances.	1 January 2016	1 January 2016
AASB 1057	This Standard lists the application paragraphs for each other Standard (and Interpretation), grouped where they are the same. Accordingly,	1 January 2016	1 January 2016

Reference and Title	Summary	Application date of standard*	Application date for Group*
Application of Australian Accounting Standards	paragraphs 5 and 22 respectively specify the application paragraphs for Standards and Interpretations in general. Differing application paragraphs are set out for individual Standards and Interpretations or grouped where possible. The application paragraphs do not affect requirements in other Standards that specify that certain paragraphs apply only to certain types of entities.		
AASB 2014-9 Amendments to Australian Accounting Standards – Equity Method in Separate Financial Statements	AASB 2014-9 amends AASB 127 Separate Financial Statements, and consequentially amends AASB 1 <i>First-time Adoption of Australian Accounting Standards</i> and AASB 128 <i>Investments in Associates and Joint Ventures</i> , to allow entities to use the equity method of accounting for investments in subsidiaries, joint ventures and associates in their separate financial statements.	1 January 2016	1 January 2016
	AASB 2014-9 also makes editorial corrections to AASB 127.		
	AASB 2014-9 applies to annual reporting periods beginning on or after 1 January 2016. Early adoption permitted.		
AASB 2015-1 Amendments to Australian Accounting	The subjects of the principal amendments to the Standards are set out below:	1 January 2016	1 January 2016
Standards – Annual Improvements to Australian Accounting Standards 2012–2014 Cycle	<ul> <li>AASB 5 Non-current Assets Held for Sale and Discontinued Operations:</li> <li>Changes in methods of disposal – where an entity reclassifies an asset (or disposal group) directly from being held for distribution to being held for sale (or visa versa), an entity shall not follow the guidance in paragraphs 27–29 to account for this change.</li> </ul>		
	AASB 7 Financial Instruments: Disclosures:		
	<ul> <li>Servicing contracts - clarifies how an entity should apply the guidance in paragraph 42C of AASB 7 to a servicing contract to decide whether a servicing contract is 'continuing involvement' for the purposes of applying the disclosure requirements in paragraphs 42E–42H of AASB 7.</li> </ul>		
	<ul> <li>Applicability of the amendments to AASB 7 to condensed interim financial statements - clarify that the additional disclosure required by the amendments to AASB 7 <i>Disclosure–Offsetting Financial Assets and Financial Liabilities</i> is not specifically required for all interim periods. However, the additional disclosure is required to be given in condensed interim financial statements that are prepared in accordance with AASB 134 <i>Interim Financial Reporting</i> when its inclusion would be required by the requirements of AASB 134.</li> </ul>		
	AASB 119 Employee Benefits:		
	<ul> <li>Discount rate: regional market issue - clarifies that the high quality corporate bonds used to estimate the discount rate for post-employment benefit obligations should be denominated in the same currency as the liability. Further it clarifies that the depth of the market for high quality corporate bonds should be assessed at the currency level.</li> </ul>		
	AASB 134 Interim Financial Reporting:		
	<ul> <li>Disclosure of information 'elsewhere in the interim financial report' - amends AASB 134 to clarify the meaning of disclosure of information 'elsewhere in the interim financial report' and to require the inclusion of a cross-reference from</li> </ul>

	the interim financial statements to the location of this information.		
AASB 2015-2 Amendments to Australian Accounting Standards - Disclosure Initiative: Amendments to AASB 101	The Standard makes amendments to AASB 101 <i>Presentation of</i> <i>Financial Statements</i> arising from the IASB's Disclosure Initiative project. The amendments are designed to further encourage companies to apply professional judgment in determining what information to disclose in the financial statements. For example, the amendments make clear that materiality applies to the whole of financial statements and that the inclusion of immaterial information can inhibit the usefulness of financial disclosures. The amendments also clarify that companies should use professional judgment in determining where and in what order information is presented in the financial disclosures.	1 January 2016	1 January 2016
AASB 2015-3 Amendments to Australian Accounting Standards arising from the Withdrawal of AASB 1031 <i>Materiality</i>	The Standard completes the AASB's project to remove Australian guidance on materiality from Australian Accounting Standards.	1 July 2015	1 January 2016
AASB 2015-5 Amendments to Australian Accounting Standards – Investment Entities: Applying the Consolidation Exception	This makes amendments to AASB 10, AASB 12 <i>Disclosure of Interests</i> <i>in Other Entities</i> and AASB 128 arising from the IASB's narrow scope amendments associated with Investment Entities.	1 January 2016	1 January 2016
AASB 2015-9 Amendments to Australian Accounting Standards - Scope and Application Paragraphs [AASB 8, AASB 133 & AASB 1057]	This Standard inserts scope paragraphs into AASB 8 and AASB 133 in place of application paragraph text in AASB 1057. This is to correct inadvertent removal of these paragraphs during editorial changes made in August 2015. There is no change to the requirements or the applicability of AASB 8 and AASB 133.	1 January 2016	1 January 2016

The adoption of new and amended standards and interpretations had no impact on the financial position or performance of the Company.

The Company has not elected to early adopt any new accounting standards and interpretations.

#### NOTE 2. GOING CONCERN BASIS

The financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activity, realisation of assets and the settlement of liabilities in the normal course of business. The Consolidated Entity incurred a net loss before income tax of US\$662,003 (2015: US\$691,392), a net operating cash outflow of US\$493,603 (2015: inflow of US\$51,410) and spent a net investing cash outflow of US\$171,631 (2015: US\$1,094,137) for the 6 months to 30 June 2016. The Directors note that should uncommitted business activities, such as continued exploration and evaluation activities, require expenditure in excess of funds available, options with regard to funding those activities will need to be sought.

The Consolidated Entity is currently in a positive net current asset position, including cash of US\$1,464,036 (Dec 2015:\$2,129,296). The Directors are confident that the Group has sufficient cash to fund its share of currently approved joint venture activities and will be able to meet existing commitments as they fall due. The Directors will also continue to carefully manage discretionary expenditure in line with the Group's cash flow.
