Algae.Tec Products Launch

Algae.Tec recently launched its Alganics range of products at the Supply Side West 2016 show which is regarded as the worlds leading nutraceutical ingredient and solutions tradeshow. This was in conjunction with our major customer Gencor Pacific.

The launch coincided with the first delivery of product from Algae.Tec's upgraded plant to Gencor.

Companies in the global dietary supplement, functional food and beverage, personal care, and sports nutrition industries attend this show to drive their innovation, growth and profitability.

Algae.Tec's founding Director and shareholder, Earl McConchie stated " the show has been extremely valuable. Introduced by Gencor, we have met the world's leading nutraceutical companies. The interest in our products is very high and the demand for high EPA/DHA product underpins Algae.Tec's plans for increased production capacity."
