**Fact:**

The Andromeda Galaxy is the nearest galaxy to our own Milky Way being 2.5 million light years from earth, is the brightest galaxy in the sky, and consists of an estimated 1 trillion stars of which its central core is believed to contain metal-rich stars.

## ASX announcement

3 January 2017

### Change of company name to Andromeda Metals Ltd

#### Summary

- Adelaide Resources Limited advises that in accordance with a special resolution passed at the 30 November 2016 Annual General Meeting of shareholders, the Company's name has now changed to **Andromeda Metals Limited**.
- The Company's ASX code is unchanged and remains as 'ADN'
- The website has changed to [www.andromet.com.au](http://www.andromet.com.au). Visitors to the Company's previous website will be automatically redirected to the new website.
- Company email addresses have also been changed to @andromet.com.au
- The Company's registered business address, ABN, company number, phone numbers, projects and personnel remain the same.
- The name change is in recognition of a new exploration focus not limited by any perceived historical association with the Company's origin which has changed considerably since listing twenty years ago.

Nick Harding
