About Bass Oil Limited

Bass Oil Limited (ASX: BAS) is an ASX-listed exploration and production company featuring low cost oil production in Indonesia and a management and Board team with a proven track in delivering shareholder value. Bass has realigned its corporate strategy following the landmark acquisition of Cooper Energy's 55% interest in the Tangai-Sukananti KSO producing assets located in the prolific oil & gas region of South Sumatra, Indonesia.

As at 31 March 2017, the Tangai-Sukananti KSO was producing over 600 barrels of oil per day from 4 wells (100% JV share) and contained 2P oil reserves of 1.73 million barrels (net to Bass as at 30 June 2016 reported in the Cooper Energy 2016 annual report). Bass intends to build a substantial oil & gas business with a clear focus on executing opportunities in the South-East Asia region. Bass has a strong and committed shareholder base with Board and management holding in excess of 20% of issued capital.
