(ASX: WOR)

Ontario Power Generation awards agreement to WorleyParsons

WorleyParsons has been awarded the Nuclear Owner's Support Services Agreement by Ontario Power Generation (OPG) (Agreement) for a five (5) year term with options for two additional five (5) year terms.

Under this new Agreement, WorleyParsons will provide operations, maintenance and technical services and owner's support services including work protection, projects and modifications, radiation protection, preventative maintenance, regulatory support and engineering support services.

OPG produces electricity from two nuclear power plants named Pickering and Darlington Power Stations with a combined generating capacity of about 6,600 megawatts. The services provided under the Agreement will support the continued operation of Pickering Power Station to 2024, the Darlington Station Journey of Excellence, the Darlington Refurbishment Project and OPG's Western Waste Management Facility operations.

"This Agreement is an important and strategic win for our nuclear business and maintains our strong Canadian footprint as a full spectrum nuclear service provider. We look forward to continuing our relationship with OPG," said Andrew Wood, Chief Executive Officer of WorleyParsons.
