Cobalt Project VTEM Survey Completed

- Detailed aerial electro-magnetic survey (VTEM) over the Ophara Cobalt-Gold project was completed during the 14th to 20th of September 2017.
- VTEM data being processed and interpreted by Independent consulting geophysicists and reporting of results expected within 10 days.

Summary

Alloy Resources Limited (ASX: **AYR**, **Alloy** or the **Company**) is pleased to advise that the planned 50 km² aerial electro-magnetic survey (VTEM) at the Ophara Cobalt-Gold project located in the Broken Hill region of New South Wales in Australia has been successfully completed.

The VTEM contractor has advised that the survey was completed on the 20th of September.

The VTEM data will now be compiled, processed and interpreted by Southern Geoscience Consulting geophysicists.

The interpreted results of the survey including targets selected for drilling are expected to be available within the next 10 days.

The Company looks forward to recommencement of active field exploration programs at this exciting Cobalt-Gold-Copper project.

Andy Viner
