Financial Report and Reports of the Directors and Auditor

This item allows Shareholders the opportunity to receive and consider the Financial Statements of the Company and the Reports of the Directors and Auditor for the financial year ended 30 June 2017. Under Section 317 of the Corporations Act the Company is required to lay these three reports that together comprise the Company's annual report before its Shareholders at its Annual General Meeting.

Resolution 1– Re-election of John Holland

Under Rule 6.4 of the Constitution one-third of the Company's Directors or the number nearest to one-third, of the Company's longest serving Directors since the last election or re-election, and not including a Director appointed by the remaining Directors either to fill a casual vacancy or as an addition to the existing Directors, must retire unless re-elected. John Holland seeks re-election under rule 6.4 of the Constitution.

John is eligible for re-election in accordance with the ASX Listing Rules and the Company's constitution.

Resolution 1 provides for the re-election of John Holland as a Director of the Company in accordance with the Constitution. See below for details of their backgrounds.

John Holland

John commenced his career in 1985 at SG Warburg & Co as an Asian equities specialist, where he led UBS' early expansion into Korea, Taiwan, Thailand and India, before rising to become Global Head of Asian Equities at UBS. During John's tenure as Global Head of Asian Equities, UBS achieved the number one ranking for primary Asian equities distribution and held number one non-local market share positions in all key Asian equity markets, including Hong Kong, Korea and Taiwan. John was also instrumental in UBS' successful drive to become the first foreign investor and the foreign distributor of China A-shares.

John left UBS after 24 years of continuous service in 2009, having latterly served as Joint Head of European Prime Broking and COO of Global cash equities. He was for many years Managing Director and a member of UBS' Investment Bank's Board. In addition to his notable achievements at UBS, John has had substantial regulatory experience, including as a member of the European Securities Markets Expert Group advising the European Commission, where he was Rapporteur (Chair) for the Subcommittees on Non-Equities Market Transparency and Credit Rating Agencies. John has also worked closely over many years with the central bank and regulatory authorities of many Asian countries, such as Korea, Taiwan, India and China, particularly in relation to the opening of their markets to foreign portfolio investment.

John currently holds a range of complementary non-executive roles; he chairs the Advisory Board of ASX-listed Emerging Markets Masters Fund (ASX:EMF), he also chairs the Boards of KCG Europe Limited (the European arm of NYSE-listed KCG Holdings) and Open Door Capital Management (a Greater China Asset Management Company). Finally, John is non-executive Director of a UK and African payments business, sQuidcard Limited, in which he is also a founder investor from 2006 onwards.

John holds a Bachelor of Arts with honours from Oriel College Oxford University, majoring in Philosophy, Politics and Economics.

John has been an Independent Non-Executive Director since 21 July 2010 and was appointed Non-Executive Chairman on 25 February 2015.

The Directors unanimously recommend that Shareholders vote in favour of this Resolution.

The Chairman of the meeting intends to vote undirected proxies **in favour** of this Resolution.

Resolution 2 – Remuneration Report

Resolution 2 provides Shareholders the opportunity to vote on the Company's remuneration report. The remuneration report is contained in the Director's Report. Under Section 250R(2) of the Corporations Act, the Company must put the adoption of its remuneration report to a vote at its Annual General Meeting.

The vote is advisory only and does not bind the Directors or the Company.

The Board will consider the outcome of the vote and comments made by Shareholders on the remuneration report at this meeting when reviewing the Company's remuneration policies.

If 25% or more of the votes that are cast are voted against the adoption of the remuneration report at two consecutive Annual General Meetings, at the second of those Annual General Meetings, Shareholders will be required to consider, and if thought fit, pass an ordinary resolution (a "spill" resolution).

The Directors unanimously recommend that Shareholders vote in favour of this Resolution.

The Chairman of the meeting intends to vote undirected proxies **in favour** of this Resolution.

Resolution 3 - On-Market Buy-Back

1. Overview

The Company's goal is to manage its capital so as to achieve the most efficient capital structure and optimise returns to Shareholders.

At the previous Annual General Meeting on 17 November 2016, the Company received Shareholder approval for the on-market buy-back of up to a maximum of 25% of the issued ordinary Shares during the 12 month period from 23 November 2016 to 22 November 2017, equating to up to 32,816,603 Shares. The current approval will expire at close of trade on 22 November 2017.

Accordingly, the Company is seeking to obtain Shareholder approval for the on-market buy-back of up to a maximum of 25% of the issued ordinary Shares during the 12 month period on and from 1 December 2017, should market conditions support this. The Company believes that the proposed new buy-back program will support its goals of achieving the most efficient capital structure possible and optimising returns to Shareholders.

The current on-market buy-back program will cease at close of trade on 22 November 2017. The Company currently intends to commence a buy-back of 10% of its capital from 23 November to close of trade on 30 November 2017 and commence the new buy-back, the subject of this Meeting, from 1 December 2017, assuming Resolution 3 is approved by Shareholders. If the approval is not given, the Company will only be able to buy-back up to 10% of the smallest number of voting Shares that the Company had on issue during the 12 months preceding the buy-back (10/12 limit).

If Shareholders approve the buy-back, the Company will be permitted to buy back a maximum of 25% of the number of Shares it has on issue as at close of trade on 30 November 2017 over the next 12

months. If approved by Shareholders, the buy-back period will be on and from 1 December 2017 to close of trade on 30 November 2018, unless terminated earlier by the Company.

This Explanatory Memorandum sets out information that is material to the Shareholders' decision on how to vote on the buy-back resolution, including the reasons for the buy-back, the applicable terms, the financial implications and the possible advantages and disadvantages of the on-market buy-back program.

2. Purpose of the Resolution

The purpose of the buy-back resolution is to seek Shareholder approval for the extension of the current buy-back program. Under Section 257C of the Corporations Act, the Company must obtain the approval of its Shareholders in order to buy-back more than 10% of the smallest number of voting Shares that the Company had on issue during the 12 months preceding the buy-back (**10/12 limit**).

The buy-back resolution will be approved if more than 50% of votes cast at the Meeting on Resolution 3 are in favour of the resolution.

3. Reasons for the buy-back

The Board considers that, having regard to available funding, projected cash flows and capital requirements over the 12 months on and from 1 December 2017, the Company may have capacity to return capital to Shareholders.

The Board considers that an on-market buy-back is an effective means of returning any surplus capital to Shareholders and will enable the Company to maintain an efficient capital structure. The Board also considers that an on-market buy-back provides the Company with flexibility to adjust the volume of Shares bought and can stop buying at any time. Implications of the buy-back program for the Company's financial position are set out in Section 6.

4. Directors' recommendation

The Directors recommend that Shareholders vote in favour of the buy-back resolution.

However in deciding how to vote, Shareholders should be aware that, among other things, some of the disadvantages of the buy-back include:

- The Company's net assets will be reduced by the amount expended on the buy-backs (although the NAV will not necessarily be reduced); and
- The buy-backs may provide some liquidity in the Company's Shares in the short term however may likely result in reducing the liquidity in the Company's Shares in the long term due to a smaller number of Shares on issue for trading.

The general advantages of an on-market buy-back include the following:

- Purchases on-market can be tailored to changing market conditions;
- The Company has complete flexibility to adjust the volume of Shares bought and can stop buying at any time; and
- Implementation of an on-market buy-back is simple and cost effective.

The Directors also consider the following to be advantages of the buy-backs:

- The promotion of a more efficient capital structure; and
- Providing investors with an opportunity to realise their investment close to NAV if that is their desire.

5. Outline of on-market buy-backs

An on-market buy-back involves the Company buying Shares in the ordinary course of trading at the prevailing market price on the ASX, in the same way as any other market transaction.

The implementation of an on-market buy-back is regulated by both ASIC and the ASX. In particular, the ASX Listing Rules prescribe that the buy-back price must not be more than 5% above the average of the closing market prices for Shares in the Company over the previous 5 days trading on which sales in the Shares were recorded before the buy-back.

The closing price of the Company's Shares on the ASX on 30 September 2017 was \$1.30. The Company's highest and lowest market sale prices and the average monthly closing prices on the ASX for the calendar year to 30 September 2017 were as follows:

Period	Low (\$)	High (\$)	Average Closing Price (\$)
Jan-17	1.210	1.240	1.222
Feb-17	1.200	1.250	1.236
Mar-17	1.205	1.300	1.250
Apr-17	1.220	1.330	1.291
May-17	1.260	1.450	1.324
Jun-17	1.280	1.370	1.316
Jul-17	1.300	1.350	1.312
Aug-17	1.305	1.400	1.329
Sep-17	1.290	1.400	1.310

Source: Iress

As at 30 September 2017, 1,488,161 Shares (representing 1.13% of the current issued capital of the Company) have been bought back under the on market buy-back scheme approved at the Annual General Meeting of Shareholders on 17 November 2016.

The Company must announce on the ASX the period during which Shares may be bought back (if the Board determined this), the maximum number of Shares intended to be bought back and any other information that affects a Shareholder's decision to sell Shares. The Company must also give daily notices containing details of the Shares bought back.

All Shareholders are eligible to participate by selling their Shares to the Company on the ASX. Participation in any buy-back is voluntary. Shareholders do not have to sell their Shares if they do not want to. Shareholders will not however have the right to withdraw sales once made.

The maximum number of Shares that the Company will buy-back on-market will be an amount equal to 25% of the issued Shares in the Company as at the close of trade on 30 November 2017. Assuming there are no issues of Shares between 30 September 2017 and 30 November 2017 this could be up to 32,877,736 Shares, depending on the number of Shares bought back on-market between 30 September 2017 and 30 November 2017.

Since an on-market buy-back involves Shares being acquired at the market price of Shares at that time, it is not possible to anticipate the total amount that the Company will expend on paying for the Shares. In any event the Company does not intend to pay a price higher than the estimated NAV for the Shares.

6. Financial implications of the buy-back program

The buy-back will be funded from the Company's available cash reserves and, if required, the sale of certain investments.

The Directors consider that the buy-back will not materially prejudice the Company's ability to pay creditors.

As at 30 September 2017, the Company had net assets of \$160.8 million, including \$1.5 million of cash reserves available as a source of funding the buy-back. The actual amount of the buy-back to be funded will not be determined until the completion of the buy-back program.

The buy-back program is not expected to result in any reduction in the Company's franking account.

The exact impact on earnings per Share of any buy-back cannot be determined until the buy-back is completed and will depend on the number of Shares bought back, the volume-weighted average buy-back price and the source of funds used to fund the buy-back program.

A buy-back may decrease the ASX trading volumes and liquidity in the Company's Shares. It is not however possible to determine the extent of any potential decrease in liquidity at this time.

Whilst it is not possible to anticipate the total actual amount that the Company will expend on paying for the Shares, the buy-back is not expected to adversely affect NAV.

7. Effect on control of the Company

It is not expected that the buy-back will have any effect on control of the Company.

8. Other material information

Approval of the resolution will not result in any tax implications for Shareholders if they do not sell their Shares. However, if a Shareholder chooses to participate in the buy-back by selling their Shares then that Shareholder should obtain specific tax advice on the treatment of the sale of their Shares taking into account their particular circumstances.

At 30 September 2017, the Company had 131,510,944 Shares on issue.

The Directors of the Company have the following interests in the Company at 30 September 2017:

Name	Holding Shares	Voting Interest
John Holland	-	-
Alex MacLachlan	30,308	0.02%
June Aitken	-	-
Christopher Lee	-	-

The following table shows the relevant voting interest that each Director would have if the Company bought back the remaining Shares under the existing buy-back program and all 25% permitted under any approval of the buy-back given and if the Directors did not sell any of their Shares:

Name	Maximum Voting Interest
John Holland	-
Alex MacLachlan	0.04%
June Aitken	-
Christopher Lee	-

The Directors may participate in the buy-back program.

The Directors unanimously recommend that Shareholders vote in favour of this Resolution.

The Chairman of the meeting intends to vote undirected proxies **in favour** of this Resolution.

Resolution 4 – Further Shares Issue

The Company has always actively managed its capital in the best interests of its Shareholders. Resolution 3, Resolution 4 and Resolution 5 seek to provide the flexibility for the Company to continue to manage its capital efficiently in the best interests of Shareholders.

Resolution 4 refers to the proposed issue of up to 65,755,472 Shares (being up to 50% of the issued capital of the Company as at 30 September 2017) which requires Shareholder approval under ASX Listing Rule 7.1. This approval is required as the issue of these Shares would exceed the 15% limit, imposed by ASX Listing Rule 7.1, of issues that can be made without Shareholder approval in any 12 month period.

There is no current intention or plan by the Company to issue the Shares for which approval is sought under Resolution 4, or to conduct any capital raising. Shareholder approval is sought at this Meeting for administrative convenience and to avoid incurring additional costs of convening a separate general meeting to approve a further capital raising, should the Company decide to conduct a capital raising over the next three months. Under the ASX Listing Rules, the Company must issue Shares for which Listing Rule 7.1 approval is given within three months of the date of the Meeting, otherwise fresh Shareholder approval is required. Accordingly, if Resolution 4 is approved, there is no guarantee that the Company will issue some or all of the Shares.

As at 30 September 2017, the Company had 131,510,944 Shares on issue. The number of Shares on issue will decrease, between 30 September 2017 and the date of this Meeting, by the number of Shares bought back by the Company in accordance with the on-market buy-back authorised by Shareholders on 17 November 2016.

Should the Company decide to conduct a capital raising over the three month period after the Meeting, the Shares which are the subject of Resolution 4 will be issued, subject to approval from the Board, under an offer to subscribe for Shares to be made under a prospectus or another form of offer document, to be issued by the Company either to retail investors or to investors who are exempt from the disclosure requirements of Chapter 6D of the Corporations Act (being sophisticated or professional investors as defined by Sections 708(8), 708(10) and 708(11) of the Corporations Act), identified by the Company's placement manager. Shares will not be issued to related parties of the Company. From issue, the Shares which are the subject of Resolution 4 will rank equally with, and have the same terms as, ordinary Shares in the Company.

The issue price for these Shares will be determined by the Directors and will not be less than 95% of the simple average of the daily volume weighted average sale price of Shares up to the date of the

announcement of any offer of Shares and not less than 80% of the simple average of the daily volume weighted average sale price for Shares in the Company calculated over the last 5 days on which Share sales were recorded immediately prior to (but not including) the date the relevant Shares are issued. The Company intends that the capital raising will not be dilutive to existing Shareholders' interests as the issue price per Share will likely be set at, or above, the NAV last released to the market before the offer is announced.

The proceeds of the capital raising will be utilised by the Company, in line with its current stated investment mandate, to opportunistically take advantage of attractive market conditions should they arise, and secure additional fund investments at attractive valuation levels. Part of the proceeds raised may be deployed into acquiring further units in existing funds that are presently in the portfolio. The capital raising will allow the Company to further diversify the portfolio (if desired), reduce administrative overheads per Share by spreading those costs over a larger base and over time may enhance liquidity in the secondary market.

The issue and allotment of these Shares may take place progressively after the passage of Resolution 4 and in any event will be completed within three months of the date of this Meeting.

It should be noted that Shareholders who vote on Resolution 4 and whose votes are counted will not be eligible to participate in any capital raisings pursuant to the approval obtained for this resolution (if passed).

The Directors unanimously recommend that Shareholders vote in favour of this Resolution.

The Chairman of the meeting intends to vote undirected proxies **in favour** of this Resolution.

Resolution 5 – 10% Placement Capacity

Background

ASX Listing Rule 7.1A enables eligible entities to issue equity securities up to 10% of issued capital through placements over a 12 month period after the annual general meeting (**10% Placement Facility**). The 10% Placement Facility is in addition to the Company's 15% placement capacity under ASX Listing Rule 7.1.

An eligible entity for the purpose of ASX Listing Rule 7.1A is an entity that is not included in the S&P/ASX 300 Index and has a market capitalisation of \$300 million or less. The Company is currently an eligible entity.

The Company is now seeking shareholder approval by way of a special resolution to have the ability to issue "equity securities" under the 10% Placement Facility. "Equity securities" includes (a) a share, (b) a unit, (c) a right to a share or unit or option, (d) an option over an issued or unissued securities and (e) a convertible security (an **Equity Security**).

The exact number of Equity Securities to be issued under the 10% Placement Facility for working capital requirements and ongoing business development activities and/or for acquisition of new assets or investments (including expenses associated with such acquisition).

Description of ASX Listing Rule 7.1A

(a) Shareholder approval

The ability to issue Equity Securities under the 10% Placement Facility to subject to Shareholder approval by way of a special resolution at an annual general meeting.

(b) Equity Securities

Any Equity Securities issued under the 10% Placement Facility must be in the same class as an existing quoted class of Equity Securities of the Company.

(c) Formula for calculating 10% Placement Facility

ASX Listing Rule 7.1A.2 provides that eligible entities which have obtained shareholder approval at an annual general meeting may issue or agree to issue, during the 12 month period after the date of the annual general meeting, a number of Equity Securities calculated in accordance with the following formula.

$$(A \times D) - E$$

A is the number of units on issue 12 months before the date of issue or agreement to issue:

- (A) Plus the number of fully paid units issued in the 12 months under an exception in ASX Listing Rule 7.2;
- (B) Plus the number of partly paid units that became fully paid in the 12 months;
- (C) Plus the number of fully paid units issued in the 12 months with approval of holders of units under ASX Listing Rule 7.1 or 7.4. This does not include an issue of fully paid units under the entity's 15% placement capacity without shareholder approval;
- (D) Less the number of fully paid units cancelled in the 12 months.

Note that A has the same meaning in ASX Listing Rule 7.14 when calculating an entity's 15% placement capacity.

D is 10%

E is the number of Equity Securities issued or agreed to be issued under ASX Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under ASX Listing Rule 7.1 or 7.4.

(d) ASX Listing Rule 7.1 and ASX Listing Rule 7.1A

If passed, Resolution 5 will allow the Company to issue up to an additional 10% of the Company's issued capital during the 12 months period following the date of the Annual General Meeting without requiring further shareholder approval. This is in addition to the Company's 15% annual placement capacity provided for in ASX Listing Rule 7.1.

The actual number of Equity Securities that the Company will have capacity to issue under ASX Listing Rule 7.1A will be calculated at the date of issue of the Equity Securities in accordance with the formula prescribed in ASX Listing Rule 7.1A.2.

(e) Minimum Issue Price

The issue price of Equity Securities issued under ASX Listing Rule 7.1A must be not less than 75% of the VWAP of Equity Securities in the same class calculated over the 15 trading days immediately before:

- (i) The date on which the price at which the Equity Securities are to be issued is agreed; or
- (ii) If the Equity Securities will not be issued within 5 trading days of the date in paragraph (i) above, the date on which the Equity Securities are issued.

(f) 10% Placement Period

Shareholder approval of the 10% Placement Facility under ASX Listing Rule 7.1A is valid from the date of the Annual General Meeting at which the approval is obtained and expires on the earlier to occur of:

- (i) The date that is 12 months after the date of the Annual General Meeting at which the approval is obtained; or
- (ii) The date of the approval by shareholders of a transaction under ASX Listing Rule 11.1.2 (a significant change in the nature and scale of activities) or 11.2 (disposal of main undertaking),

Or such longer period if allowed by the ASX (**10% Placement Period**).

ASX Listing Rule 7.1A

The effect of Resolution 5 will be to allow the Directors to issue the Equity Securities under ASX Listing Rule 7.1A during the 10% Placement Period without using the Company's 15% placement capacity under ASX Listing Rule 7.1.

Resolution 5 is a special resolution and therefore requires approval of 75% of the votes cast by shareholders present and eligible to vote (in person, by proxy, by attorney, in the case of a corporate shareholder, by a corporate representative).

Specific information required by ASX Listing Rule 7.3A

Pursuant to and in accordance with ASX Listing Rule 7.3A, information is provided in relation to the approval of the 10% Placement Facility as follows:

- (a) The Equity Securities will be issued at an issue price of not less than 75% of the VWAP for the Company's Equity Securities over the 15 trading days on which trades in that class were recorded immediately before:
 - (i) The date on which the price at which Equity Securities are to be issued is agreed; or
 - (ii) If the Equity Securities are not issued within 5 trading days of the date in paragraph (i) above, the date on which the Equity Securities are issued.
- (b) If Resolution 5 is approved by shareholders and the Company issues Equity Securities under the 10% Placement Facility, the existing shareholders voting power in the Company will be diluted as shown in the below table. There is a risk that:
 - (i) The market price for the Company's Equity Securities may be significantly lower on the date of the issue of the Equity Securities than on the date of the Annual General Meeting; and
 - (ii) The Equity Securities may be issued at a price that is at a discount to the market price for the Company's Equity Securities on the issue date.

Which may have an effect on the amount of funds raised by the issue of the Equity Securities.

The table below shows the dilution of existing shareholders on the basis of the current market price of units and the current number of units for variable "A" calculated in accordance with the formula in ASX Listing Rule 7.1.A2 as at the date of this Notice of Annual General Meeting.

The table also shows:

- (i) Two examples where variable “A” has increased, by 50% and 100%, Variable “A” is based on the number of units the Company has on issue. The number of units on issue may increase as a result of issues of units that do not require shareholder approval (for example, a pro rata entitlements issue or scrip issued under a takeover offer) or further specific placements under ASX Listing Rule 7.1 that are approved under Resolution 2 or at a future meeting of shareholders; and
- (ii) two examples of where the issue price of units has decreased by 50% and increased by 100% against the current market price.

The table has been prepared on the following assumptions:

- (i) The Company issues (as Shares) the maximum number of Equity Securities available under the 10% Placement Facility.
- (ii) The dilution reflects the aggregate percentage dilution against the issued capital at the time of issue, representing a voting dilution of 10%.
- (iii) The table does not show an example of dilution that may be caused to a particular shareholder by reasons of placements under the 10% Placement Facility, based on that shareholder’s holding as at the date of the Annual General Meeting.
- (iv) The table only shows the effect of issues of Equity Securities under ASX Listing Rule 7.1A, not under the 15% placement capacity under Listing Rule 7.1.
- (v) The issue of Equity Securities under the 10% Placement Facility consists only of Shares.

- (vi) The Issue Price of \$1.30 per Share, being the closing price of the Shares on ASX on 30 September 2017.
- (c) The Company will only issue and allot Equity Securities during the 10% Placement Period. The approval under Resolution 5 for the issue of the Equity Securities will cease to be valid in the event that shareholders approve a transaction under ASX Listing Rule 11.1.2 (a significant change to the nature and scale of activities) or ASX Listing Rule 11.2 (disposal of main undertaking).
- (d) The Company may seek to issue the Equity Securities for the following purposes:
 - (i) Non-cash consideration for the acquisition of new assets and investments. In such circumstances the Company will provide a valuation of non-cash consideration as required under ASX Listing Rule 7.1A.3; or
 - (ii) Cash consideration. In such circumstances, the Company intends to use the funds raised towards investment in a portfolio of securities consistent with the investment strategy of the Company, costs of the offer and other working capital purposes.

The Company will comply with the disclosure obligations under ASX Listing Rules 7.1A.4 and 3.10.5A upon issue of the Equity Securities.

- (e) The Company's allocation policy is dependent on the prevailing market conditions at the time of any issue pursuant to the 10% Placement Facility. The identities of the allottees of Equity Securities will be determined on a case-by-case basis having regard to factors including but not limited to:
 - (i) The methods available of raising funds available, including but not limited to, rights issue, share purchase plan or other issue structure in which existing shareholders can participate,
 - (ii) The effect of the issue of Equity Securities on the control of the Company, and
 - (iii) Advice from corporate, financial and broking advisors (if applicable).

The allottees under the 10% Placement Facility have not been determined as at the date of this Notice of Annual General Meeting but may include existing shareholders or new shareholders who are not related parties or associates of a related party of the Company.

Further, if the Company acquires new investments, it is possible that the allottees under the 10% Placement Facility may be vendors of the investments.
