WA-271-P
FALCONE-1A

Woodside Energy Ltd., a wholly owned subsidiary of Woodside Petroleum Ltd., operator of the WA-271-P Joint Venture, reports that the Falcone-1A exploration well in the Exmouth Sub-basin has reached a total depth of 3,822 metres. Preliminary log analysis indicates a non-commercial gross hydrocarbon column of approximately 35 metres. After wireline log operations are completed the well will be plugged and abandoned.

The 'Jack Bates' semi-submersible rig is drilling the well. The well is approximately 60 kilometres west southwest of the Enfield oil field. Water depth at the location is 1,395 metres.

Upon completion of the Falcone-1A well the rig will move to the Enfield oil field to commence development drilling operations.

All reported depths (except water depth) are referenced to the rig rotary table.

Joint venture participants in WA-271-P are Woodside Energy Ltd. (60%) and Mitsui E&P Australia Pty Ltd (40%).
