

## **KARIBA URANIUM PROJECT TO PROCEED**

*OmegaCorp Limited (the "Company") is pleased to announce that following initial due diligence on the Kariba Uranium Project (KUP) in Zambia in Southern Africa, the Board has resolved to proceed with the project. The KUP is located some 200 kilometres south of Lusaka and comprises a single prospecting licence covering 2,521 square kilometres. It is recognised to contain several uranium occurrences with two containing target areas of defined mineralisation.*

*The areas of known mineralisation are in Karoo sediments and all were reportedly defined from outcropping mineralisation. Both primary and secondary mineralisation has been identified and work has continued to acquire all available existing data on the KUP, so that compilation and computation of JORC compliant estimations may be completed where appropriate and an economic assessment of the project can be made.*

*The Company will expend a minimum of US\$250,000 over two years and a further US\$750,000 over two years to advance to a 70% equity in the KUP. Once the earn-in period is complete, a Joint Venture will be established on defined terms.*

*For further information on the KUP, please refer to a previous ASX announcement dated 26 April 2005.*

*The Board of OmegaCorp has granted 750,000 unlisted incentive options, with an exercise price of \$0.90 each and an expiry date of 30 June 2007, to key geological staff, consultants and corporate advisors. The Board believes that the incentive options form an important part of the Company's strategy to attract and retain key staff and/or consultants for the Company's ongoing activities.*
