PRESS RELEASE

DENISON MAKES A NEW BID TO ACQUIRE OMEGACORP LIMITED

Toronto, ON – June 25, 2007 – Denison Mines Corp. ("Denison") (DML:TSX and DNN:AMEX) is pleased to announce a new takeover offer to acquire all of the remaining shares of OmegaCorp Limited ("OmegaCorp") (ASX:OMC) (including any shares issued on exercise of an option issued in OmegaCorp) that Denison does not already own at a price of AU\$1.30 per share, for a total consideration of approximately AU\$134 million (CAD\$121 million).

Offer Terms

The cash consideration of AU\$1.30 per share provides substantial value to OmegaCorp shareholders and represents:

- a premium of 6.6% to the volume weighted average price of OmegaCorp's shares over the 20 trading days prior to the date of this announcement; and,
- a premium of 32.7% to the 1 year volume weighted average OmegaCorp share price of AU\$0.98.

Denison's offer is subject to a number of conditions including a minimum acceptance of 90% of the shares of OmegaCorp, Foreign Investment Review Board approval and no material adverse changes to OmegaCorp. The full terms of the conditions of the proposed offer are as set out in Appendix 1.

On April 13, 2007, Central African Mining and Exploration Company Plc ("CAMEC") announced its intention to make an all-share scrip bid for OmegaCorp, and on May 30, 2007 CAMEC lodged a bidder's statement with ASIC. However, on June 19, 2007, CAMEC announced that it has withdrawn its takeover bid for OmegaCorp and that it will not be dispatching offers in relation to that bid.

Following an analysis of the outcome of the recent takeover bids for OmegaCorp, Denison's management have concluded that it would be in the best interests of the respective shareholders of Denison and OmegaCorp if the remaining OmegaCorp shareholders were provided with an opportunity to accept a new cash offer.

Denison's management believes that the acquisition of OmegaCorp will fit well into its growth strategy in terms of development scheduling and uranium production. The OmegaCorp assets are expected to add significantly to Denison's uranium resources and bring additional near term production capacity, as well as establishing Denison in Africa.

Dundee Securities Corporation and Haywood Securities Inc. are joint financial advisors to Denison on the acquisition. Price Sierakowski is the legal advisor to Denison.

Bidder's Statement

Further information in respect of Denison's takeover offer will be contained in Denison's bidder's statement which will be served on OmegaCorp and lodged with the ASIC and ASX as soon as practicable and will be available on www.sedar.com.

Background Information - Denison

Denison is the premier North American intermediate uranium producer, with mining assets in the Athabasca Basin region of Saskatchewan, Canada, and the southwest United States including Colorado, Utah and Arizona. Further Denison holds ownership interests in 2 of the 4 conventional uranium mills operating in North America today.

Denison is a diversified and growth oriented, intermediate uranium producer with an estimated annual production rate of approximately 5 million pounds of U₃O₈ by 2011.

Denison enjoys a global portfolio of world-class exploration projects, including properties in close proximity to its mills in the Athabasca Basin in Saskatchewan, Canada and in the Colorado Plateau, Henry Mountain and Arizona Strip regions of the southwestern United States. Denison also has high potential exploration properties in Mongolia and, indirectly through its investments in Australia. In Australia, Denison has a 11% interest in Energy Metals Limited and has a 33% interest in OmegaCorp.

Further information on Denison is available from its website: www.denisonmines.com

About OmegaCorp

OmegaCorp is an Australian based exploration company, listed on the Australian Securities Exchange (ASX) with interests in Zambia, Tanzania, and Zimbabwe in southern Africa. The portfolio of advanced uranium projects includes the Kariba Uranium Project in Zambia, the Mkuju Power Project in Tanzania and the Zambezi Valley Project in Zimbabwe with geological extension into Mozambique.

Shareholder Information

A shareholder information line will be established for OmegaCorp shareholders with questions on the acquisition proposal. Details of that line will be provided by Denison in due course.

Cautionary Statements

This news release contains "forward-looking statements", within the meaning of the United States Private Securities Litigation Reform Act of 1995 and similar Canadian legislation, concerning the business, operations and financial performance and condition of Denison Mines Corp. ("Denison").

Forward looking statements include, but are not limited to, statements with respect to estimated production; the development potential of Denison's properties; the future price of uranium; the estimation of mineral reserves and resources; the realization of mineral reserve estimates; the timing and amount of estimated future production; costs of production; capital expenditures; success of exploration activities; permitting time lines and permitting, mining or processing issues; currency exchange rate fluctuations; government regulation of mining operations; environmental risks; unanticipated reclamation expenses; title disputes or claims; and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved".

Forward looking statements are based on the opinions and estimates of management as of the date such statements are made, and they are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Denison to be materially different from those expressed or implied by such forward-looking statements, including but not limited to risks related to: unexpected events during construction, expansion and start-up; variations in ore grade, tonnes mined, crushed or milled; delay or failure to receive board or government approvals; timing and availability of external financing on acceptable terms; actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of uranium and vanadium; possible variations in ore reserves, grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; delays in the completion of development or construction activities, as well as those factors discussed in or referred to under the heading "Risk Factors" in Denison's Annual Information Form dated March 27, 2007 available at www.sedar.com and its Form 40-F available at www.sec.gov. Although management of Denison

has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Denison does not undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws. Mineral resources, which are not mineral reserves, do not have demonstrated economic viability. Readers should refer to the Annual Information Form and the Form 40-F of the Company for the fifteen month period ended December 31, 2006 and other continuous disclosure documents filed since December 31, 2006 available at www.sedar.com, for further information relating to their mineral resources and mineral reserves.

Cautionary Note to United States Investors Concerning Estimates of Measured, Indicated and Inferred Resources: This news release uses the terms "Measured", "Indicated" and "Inferred" Resources. United States investors are advised that while such terms are recognized and required by Canadian regulations, the United States Securities and Exchange Commission does not recognize them. "Inferred Mineral Resources" have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an Inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of Inferred Mineral Resources may not form the basis of feasibility or other economic studies. **United States investors are cautioned not to assume that all or any part of Measured or Indicated Mineral Resources will ever be converted into Mineral Reserves. United States investors are also cautioned not to assume that all or any part of an Inferred Mineral Resource exists, or is economically or legally mineable.**
