ASX & Media Release

4 September 2007

Service Stream Limited completes \$40 Million Placement

Leading industrial and technical services group Service Stream Limited (ASX Code: SSM) is pleased to announce the successful completion of a \$40 million capital raising to institutional investors.

The offer of 20,000,000 new ordinary shares at a fixed price of \$2.00 per share was managed by Citi. The offer closed over subscribed reflecting strong institutional demand from existing shareholders and new investors.

The new ordinary shares issued under the placement will rank pari passu with existing securities in all respects, and will be eligible for the final dividend of 4.5 cent per share (fully franked) payable on 19 October 2007.

Proceeds from the offer will be used for general corporate purposes, including the funding of organic growth opportunities and the acquisition of complementary businesses in Australia.

The placement follows the announcement yesterday of the \$1Billion Telstra AAS contract awarded to SSM.

Commenting on the placement Service Stream Managing Director and CEO Mr Patrick Flannigan said, "We are pleased with the ongoing support of existing shareholders and that a number of new investors have become shareholders of Service Stream."

Trading in the shares issued under the institutional placement is expected to commence on the ASX on or about 14 September 2007.

The trading halt that has been in place since 3 September 2007 will be lifted today.

Ends-
