Westpac approves additional funding for home loans

FSA Group is pleased to announce that Westpac Banking Corporation has increased its non-recourse home loan funding facility from \$235 million to \$260 million. The facility has also been renewed for a further term until 15 October 2013.

FSA Group recently announced that Bendigo and Adelaide Bank Limited ("BEN") had approved a three year \$50 million home loan funding facility. This facility supplements the non-recourse Westpac facility.

Executive Director Mr Tim Odillo Maher said "We now have warehouse funding lines of \$310 million. Client demand is strong and with the increase from Westpac and the new facility from BEN we can more effectively support our clients' needs."
