

ASX Announcement

30 July 2012

For immediate release to the market

**EPC CONTRACT NOTICE OF PREFERRED CONTRACTOR
ANDY WELL GOLD PROJECT PROCESSING PLANT**

- **Notice of preferred contractor issued for Andy Well Gold Project processing plant EPC contract**
- **Contract price approximately \$31 million**

GR Engineering Services Limited (ASX:GNG) (**GR Engineering** or **Company**) is pleased to advise that it has been issued with a notice of preferred contractor by Doray Minerals Limited (ASX:DRM) (**Doray**) in relation to the engineering, procurement and construction (EPC) contract for the processing plant for Doray's Andy Well Gold Project near Meekatharra in Western Australia.

The contract price is approximately \$31 million, with formal award being subject to final board approval, completion of project financing by Doray, final tender clarifications and formal contract documentation. The contract price has been determined on a lump sum basis and GR Engineering expects to receive the majority of the project revenue in FY13.

Joe Ricciardo, Managing Director of GR Engineering, said in relation to the notice:

"GR Engineering is pleased to have been selected as preferred contractor to undertake the design and construction of the Andy Well Gold Project processing plant after working closely with Doray on the Bankable Feasibility Study for the project. Being provided with this notice is another endorsement of GR Engineering's ability to assist clients from project inception through to project execution and delivery."

Ends.

GR Engineering Services Limited (ASX:GNG) is an engineering, consulting and contracting company specialising in fixed price engineering design and construction services to the resources and mineral processing industry.

Founded in Perth, Western Australia in 2006, GR Engineering has rapidly grown through the completion of design and construction projects for a diverse range of clients, including global mining houses, mid-tier miners and junior developers undertaking their first project.

GR Engineering has undertaken feasibility studies for projects in over 20 countries. These studies play a key role in delivering organic growth opportunities through their conversion into design and construction projects.

GR Engineering directly employs more than 220 professional and support staff at its offices in Perth, Kalgoorlie and Brisbane in addition to its direct construction workforce and subcontractors.
