

ASX RELEASE

26 March 2013

For immediate release to the market

Execution of Lump Sum Contract

GR Engineering Services Limited (ASX:GNG) (**GR Engineering**) is pleased to announce that it has executed a subcontract with Leighton Contractors Pty Limited for process and engineering design, construction and commissioning works at Whyalla in South Australia.

GR Engineering will commence the work under the contract immediately, with the project scheduled to be completed in December 2013. The project value is consistent with the formulation of GR Engineering's forecast earnings for FY13.

Ends.

GR Engineering Services Limited (ASX:GNG) is an engineering, consulting and contracting company specialising in fixed price engineering design and construction services to the resources and mineral processing industry.

Founded in Perth, Western Australia in 2006, GR Engineering has rapidly grown through the completion of design and construction projects for a diverse range of clients, including global mining houses, mid-tier miners and junior developers undertaking their first project.

GR Engineering has undertaken feasibility studies for projects in over 20 countries. These studies play a key role in delivering organic growth opportunities through their conversion into design and construction projects.

GR Engineering directly employs approximately 260 professional and support staff at its offices in Perth, Kalgoorlie and Brisbane in addition to its direct construction workforce and subcontractors.
